| General Informations | 2407 - 2411 |
| Sales and delivery terms and conditions | 2412 - 2413 |
| Numerical Index | 2414 - 2461 |
| Alphabetical Index | 2462 - 2499 |

Innovative use of combined heat and power technology when printing this product reduced $CO_2$ emissions by up to 52% in comparison to conventional methods in Germany.

minus 52% $CO_2$

# Your partner for high-quality performance

## With 5 plus points to your advantage:

### Quality

Constant high quality of the products. Our QM system is in accordance with ISO 9001 since August 1995.

### Logistics

Direct dispatch! Delivery fast, simple and reliable!

### Special rates & Discount

Fair and calculable, i. e. a quantity discount of 5 % from 6 packs and 10 % from 24 packs of same items will be granted. Please check with us for special rates on bulk amounts or standing orders.

### Customer advice

Customer proximity and competence, i. e. we are here to advise you before and after buying.

### Returned & Take-Back Goods

You can take advantage of our 10-day exchange and take-back guarantee. Just send the goods to us in their original packaging together with a copy of the invoice or delivery note and your modified order. We are unfortunately unable to pay the costs for postage and packing. We request you to get in touch with us for any legitimate complaints which require goods to be returned. We shall then authorize our forwarding agent immediately to pick up the goods in question. In the event of goods being returned independently and without prior notice, postage and packing costs can only be refunded for the same amount as agreed upon with our forwarding agent. Further information on returning goods can be found in the terms of sale and delivery at the back of this catalogue.

# A private enterprise with tradition

## Best service for more than 135 years

**1879**

CARL ROTH is established as a “material goods, colonial goods and dyes merchant and chemists” in Karlsruhe.

**1891**

CARL ROTH is appointed as an “official purveyor to the Grand Duke of Baden“.

**1899**

ROTH publishes its first sales and mailorder catalogue.

**1907**

CARL ROTH operates the first delivery van in Karlsruhe.

# Quality, Environment, Safety

## We take responsibility

Our QM system celebrates its 20th birthday in 2015. Over the past two decades we have continuously adapted our QM System to the growing market demands in order to meet quality requirements and to deliver a high standard of quality.

The guiding principle for an environmentally conscious corporate management has always been a fundamental part of our business conduct. To manifest this endeavour in the organisation, an environmental management system was successfully introduced and certified in 2016.

Our efforts towards sustainability are an integral part of our business model. In addition to fulfilling our statutory environmental commitments, therefore, we always strive to set additional environmental protection targets and to optimise our operating procedures under environmental aspects. That is why we participated in the ECOfit 2013/2014 environmental consulting programme, an environmental project sponsored by the state of Baden-Württemberg.

After participating in the programme for one year, the Ministry of the Environment, Climate and Energy of the state of Baden-Württemberg as well as the city of Karlsruhe confirmed that our company had succeeded in meeting the environmental protection targets.

By participating in the Responsible Care® programme of the chemical industry, we have undertaken a commitment to meet the goals set by the programme.

These goals are to promote sustainability, to show product responsibility, to ensure safety, to improve health protection in the workplace and to better protect the environment.

RESPONSIBLE CARE®
OUR COMMITMENT TO SUSTAINABILITY

**Rotilabo®**
For laboratory products with good cost-performance ratio.

**Sekuroka®**
For select safety and work protection products.

Many of the articles in this catalogue are protected by copyright and patented even when not explicitly stated.

**1928**
The laboratory chemicals department opens.

**1945**
The highly efficient manufacturing and bottling department enters service.

**1958**
ROTH unveils its proprietary high-pressure laboratory autoclaves at the ACHEMA Fair.

**1971**
ROTH is awarded a patent on its Mercurisorb-ROTH® high-speed mercury absorber.

**1989**
The „Association of Independent Businesses“ presents its award to ROTH in recognition of its environmentally friendly business practices.

# Plastics – Technical data / Key to symbols

## What about the packaging material?

**We are making our contribution to the environment:**

- By trying to use as little packaging material as possible. Unfortunately we cannot do without packaging completely as it has the important function of not only protecting the product, but also man and environment from any harm.

- By using environmentally friendly and recyclable packaging material as far as possible. As early as the beginning of the 80s, we stopped using polystyrene inserts for packing solvents, acids and alkaline aolution. We now use special boxes for hazardous goods made of 100 % recyclable corrugated cardboard. Paper is used as stuffing material.

Please also help by putting the **packaging in the recycling container after use**. Our boxes are labelled with the recy-symbol; they can be easily stored when cut open and pressed together without taking up much space, prior to being put out for recycling.

Our **plastic containers made of polyethylene (PE)** can also be turned in for recycling after they have been completely emptied and cleaned of all harmful substances.

The same applies to **tin flasks and canisters** once emptied and pollutent-free.

## Sterilizing plastics – Autoclaving

Recommended autoclave cycle:
20 minutes at 121 °C, 1 bar

1. Clean autoclave goods thoroughly prior to sterilizing.
2. Rinse off used detergent with distilled water.
3. Unscrew caps to enable pressure compensation.
4. Only autoclave containers with stop-cock when empty, screw off stop-cocks.

   Following plastics can be autoclaved repeatedly: ETFE, PFA, PTFE, FEP, E-CTFE, PMP/TPX®, PP, SI, PVDF; PES, PSU

**Note:**
Polycarbonate PC and Polysulfone PSU are also autoclavable, however this reduces the mechanical stability. This can result in material failure particularly when under high mechanical strain, e.g. during centrifuging.

Please contact us should you have any further questions regarding packaging.

**1990**
CARL ROTH publishes its first general product catalogue for its Labware, Life Science and Chemicals product lines.

**1993**
Construction of a modern high-bay warehouse.

**1995**
First certification of the quality management system to DIN EN ISO9001.

**2005**
The chemicals department moves into modern premises on the Karlsruhe-Rheinhafen industrial estate.

## Article numbers

Our Article numbers assemble themselves as follows:

| | | |
|---|---|---|
| 4 digits: | | **0000.1** |
| 1 letter | + 3 digits: | **X000.1** |
| 2 letters | + 2 digits: | **XX00.1** |
| 3 letters | + 1 digit: | **XXX0.1** |

(before .1 .2 .3 etc.)

**.1 .2 .3** etc. define the different packings.

## Standard abbreviations for plastics

| DIN-Abbrev. | Description | Application temperature (°C) from | to | |
|---|---|---|---|---|
| ABS | acrylic butadiene styrene copolymer | -40 | +85 | (+100) |
| E-CTFE | ethylene chlortrifluorethylene | -70 | +150 | (+170) |
| ETFE | ethylene tetrafluor ethylene | -100 | +150 | (+180) |
| FEP | tetrafluor ethylene perfluorpropylene | -100 | +205 | |
| HDPE | polyethylene high density | -50 | +80 | (+120) |
| LDPE | polyethylene low density | -50 | +75 | (+90) |
| MF | melamine | -60 | +80 | (+120) |
| NR | natural rubber | -40 | +80 | |
| PA | polyamide (PA6) | -30 | +80 | (+140) |
| PBT | polybutylene terephthalate | -50 | +150 | |
| PC | polycarbonate | -100 | +135 | (+140) |
| PE | polyethylene (see HDPE/LDPE) | -40 | +80 | (+90) |
| PES | polyether sulfone | -100 | +150 | |
| PETG | polyethylene terephthalate | -40 | +65 | |
| PFA | perfluoralkoxy | -200 | +260 | |
| PMMA | polymethylmethacrylate | -40 | +85 | (+90) |
| PMP (TPX®) | polymethylpentene | 0 | +150 | (+180) |
| POM | polyoxymethylene | -40 | +110 | (+140) |
| PP | polypropylene | -10 | +110 | (+140) |
| PS | polystyrene | -20 | +70 | (+80) |
| PSU | polysulfone | -100 | +150 | |
| PTFE | polytetrafluor ethylene | -200 | +260 | |
| PVC | polyvinylchlorid | -20 | +80 | |
| PVDF | polyvinylidene flouride | -40 | +105 | (+150) |
| SAN | styren acrylonitrile | -20 | +85 | (+95) |
| SI | silicone rubber | -50 | +180 | (+250) |
| TPE | thermoplastic elastomer | -50 | +121 | |

Temperature in ( ) short-term

All values given in this table refer to plastic raw material and can only be regarded as guidelines. As the temperature resistance may vary with different conditions of manufacturing or chemical influences, suitability tests by the user are highly recommanded.

**No legal claims can be derived from this information; nor do we accept any liability for it.**

## Key to symbols

News and Programme extensions

All autoclavable products in our catalogue are identified by this symbol. Please also note any additional instructions when autoclaving.

**Temperature Resistance:**

Safe to freeze (approx. -10/-20 °C)

Suitable for low temperatures (approx. -70/-80 °C)

Suitable for liquid nitrogen (gaseous phase / -196 °C)

See catalogue text for detailed information.

Ready-to-use products and reagents

Sterile products

All products identified as being particularly temperaturesensitive are shipped **in special ice boxes with freezer packs or in dry ice.**

**2013**

An extension with an automated small parts warehouse is added to the Chemicals and Life Science building, enlarging its area to approx. 8.000 m². CARL ROTH now stocks over 21.000 products in its warehouse.

**2014**

Succsesfull participation in the ECOfit programme sponsored by the state of Baden-Württemberg.

**2014**

Participation in the Responsible Care® programme.

**2015**

Relaunch of the new ROTH Online Shop.

**2016**

Certification of the corporate environmental management system according to ISO 14001 for the sustainable environmental protection.

# Laboratory glass

DURAN
WHEATON
KIMBLE

Excellence in your hands

## DURAN Group is now DWK Life Sciences

Since the 1st June 2017, the companies DURAN Group, WHEATON Industries and KIMBLE Chase united under the new company name DWK Life Sciences. DWK Life Sciences is now a leading international manufacturer of premium laboratory products, packaging and storage solutions for a broad range of scientific and technical applications. The offer of DWK Life Sciences covers more than **25,000 laboratory products**, **which are manufactured at 12 locations** and marketed under the renowned brands **DURAN®, WHEATON®** and **KIMBLE®**. The leading global and field-tested range of laboratory products is supplemented by an innovative research and Life Science portfolio.

## The material of glass

### General properties

In comparison with other materials such as stainless steel or plastic, glass offers near-universal chemical resistance to water, saline solutions, acids, alkalis and other organic solvents. It is only affected by hydrofluoric acid and at increased temperatures by strong alkalis and concentrated phosphoric acids.
Glass is dimensionally stable and safe even at high temperatures and does not release harmful substances when heated. Glass also exhibits high transparency.
In the laboratory, various types of glass are used depending on application. These are chiefly soda-lime glass (AR®-glass) as well as various types of borosilicate glass.

**Soda-lime glass** has less chemical and thermal load capacity than borosilicate glass. Due to its high thermal expansion, soda-lime glass has a low thermal shock resistance and can incur stresses and crack when heated or cooled. Soda-lime glass is well suited to applications involving temporary chemical contact at room temperature as well as to disposable articles.

**Borosilicate glass** is to a large extent chemically inert and suitable for use up to very high temperatures. The various types of borosilicate glass mainly differ from one another in terms of their linear coefficient of expansion and hence their resistance to changes in temperature.
The most commonly used types of borosilicate glass are borosilicate glass 3.3 (DURAN®, SIMAX), borosilicate glass 4.9 (Fiolax®) and borosilicate glass 5.1.

**The following factors are critical to the quality of laboratory glassware:**

- The glassware and glass type
- The shape obtained during the production process
- Even distribution of wall thickness in all areas of the article (particularly in critical areas such as in the neck/shoulder area and at the transitions to the base). This ensures:
  - better mechanical stability
  - higher thermal shock resistance
  - freedom from stresses, which can cause the vessel to burst when heated

These quality characteristics not only increase safety for employees in the laboratory, but also extend the useful life of the laboratory glassware and protect valuable substances.

## Comparison of DURAN® and soda-lime glass

### Chemical properties:

| | DURAN® | Soda-lime glass |
|---|---|---|
| Chemical composition | 81 % $SiO_2$<br>13 % $B_2O_3$<br>4 % $Na_2O/K_2O$<br>2 % $Al_2O_3$<br>No added heavy metals | 69 % $SiO_2$<br>1 % $B_2O_3$<br>3 % $K_2O$<br>4 % $Al_2O_3$<br>13 % $Na_2O$<br>2 % BaO<br>5 % CaO<br>3 % MgO |
| Hydrolytic resistance to DIN ISO 719 | Class 1 | Class 3 |
| Acid resistance to DIN 12116 | Class 1 | Class 1 |

|---|---|---|
| Transformation temperature [°C] | 525 | |
| Coefficient of expansion α (20 to 300 °C) [$10^{-6}$ $K^{-1}$] | 3.3 | 9.1 |

### Usage instructions:

| | | |
|---|---|---|
| Max. allowable usage temperatures | 500 °C | approx. 100 °C |
| Maximum negative temperature | -70 °C | approx. 0 °C |
| Maximum temperature difference ΔT | 100 K | 30 K |
| Use in the microwave | Suitable | Unsuitable |
| Pressure and vacuum operation | Only products indicated as such are suitable for use under pressure/vacuum due to their geometry and wall thickness (e.g. suction bottles, dessicators, DURAN® pressure plus bottles) | Unsuitable |
| Cleaning in dishwashers | Suitable | Unsuitable |

The **thermal shock resistance of glass** is dependent on the shape, wall thickness, surface characteristics and finish of the glassware used.

Rapid changes in temperature cause high temporary stress in the glass, meaning that rapid cooling processes are very dangerous, since in this case a thin outer layer of the glass is placed under tensile stress over the still hot inner core. Glass is much more susceptible to tensile stress than to compressive stress.

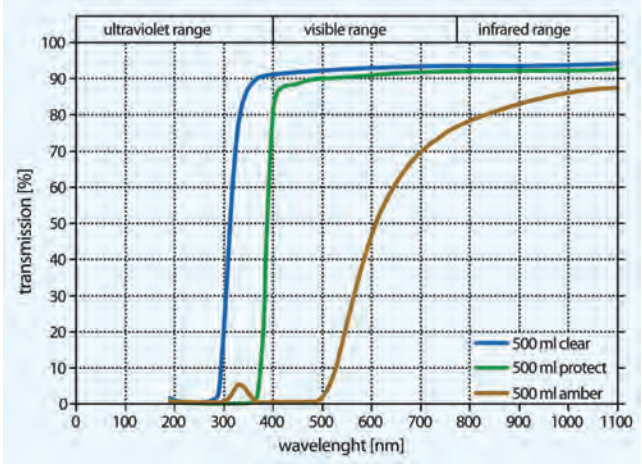
DURAN® is much more resistant to rapid changes in temperature than soda-lime glass due to its lower thermal expansion.

**The special features of DURAN®**
Very high chemical resistance, nearly inert behaviour, a high usage temperature, minimal thermal expansion and the resultant high resistance to thermal shock are its most significant properties. Excellent physical and chemical performance makes DURAN® the ideal material for use in the laboratory and for the manufacture of chemical apparatus used in large-scale industrial plants. It is also widely used on an industrial scale in all other application areas in which extreme heat resistance, thermal shock resistance, mechanical strength and exceptional chemical resistance are required. The properties of DURAN® meet the specifications of DIN ISO 3585. Compared to other types of borosilicate 3.3. glass, DURAN® is noted for its highly constant and technically reproducible quality.

**Chemical properties**
DURAN® glass is more chemically resistant that all other known materials. DURAN® borosilicate glass is highly resistant to water, acids, saline solutions, organic substances and halogens, such as chlorine or bromine. It also has good resistance to alkaline solutions. Only hydrofluoric acid, concentrated phosphoric acid and strong alkalis break down the glass surface (glass corrosion) at temperatures >100 °C. Their near-inert behaviour means that there are no interactions (e.g. ion exchange) between the medium and glass and it is thus possible to practically rule out any influence on the experiments.

**Physical Properties**:
**Temperature stability under heating**
The maximum permissible operating temperature for DURAN® is 500 °C. As it has a very low coefficient of linear expansion ($\alpha = 3.3 \times 10^{-6}\ K^{-1}$), a feature of DURAN® is its high thermal shock resistance up to $\Delta T = 100$ K. This is also dependent on the wall thickness and the geometry of the products.

**Temperature stability under freezing**
DURAN® can be cooled down to the maximum possible negative temperature and is thus suitable for use with liquid nitrogen (approx. -196 °C). When doing so, bear in mind the product geometry and the properties of any additional components used (e.g. screw caps). In general, DURAN® products are recommended for use down to -70 °C. When cooling down and thawing, care must be taken to ensure that the temperature difference does not exceed 100 K. In practice, therefore, it is recommended that they be cooled and heated gradually.
When freezing substances such as DURAN® bottles, the container should only be filled to max. 3/4 full and frozen at an angle of 45 ° (in order to enlarge the surface area).



**Use in the microwave**
DURAN® laboratory glassware is suitable for use in microwaves. This also applies to plastic coated DURAN® products.

**Conformity with standards and guidelines**
DURAN® is a neutral glass with high hydrolytic resistance and therefore belongs to glass type 1 according to the European Pharmacopoeia (EP, Section 3.2.1), the Japanese Pharmacopoeia (JP, Section 7.01), the United States Pharmacopeia (USP, Section: 660) and the National Formulary.
In addition to being in conformity with the DIN ISO 3585 international standard, in which the properties of borosilicate glass 3.3 are defined, many items of DURAN® laboratory glassware meet the standards for glass laboratory equipment.

**Environmental compatibility of DURAN® laboratory glassware**
DURAN® laboratory glassware is manufactured from natural, mineral raw materials. Unlike other materials, laboratory glassware can be used for years if handled properly and therefore is superior to other materials in ecological terms.
Toxic substances cannot leach out. The production processes have been systematically optimised for maximum environmental compatibility during the production process.

DURAN
WHEATON
KIMBLE
Excellence in your hands

**Optical properties**
In the spectral range from approx. 310 to 2200 nm the absorption of DURAN® clear glass is negligibly low. In photochemical processes the light transmission of DURAN® in the ultraviolet range is of particular importance. The transmissivity in the UV range indicates the ease with which photochemical reactions, such as chlorinations and sulfochlorinations, can be carried out. The chlorine molecule absorbs in the range from 280 to 400 nm and thus serves as a carrier of the radiation energy.

**Amber colouring of DURAN® laboratory glassware**
The amber colouring allows the storage of light-sensitive substances in DURAN® products. In the wavelength band between 300 and 500 nm, light transmission compared to DURAN® clear glass is <10 %. Accordingly, the amber DURAN® glass meets USP/EP/JP guidelines. Since the amber diffusion ink is applied to the outside of the clear glass article by means of spray coating, the proven DURAN® properties inside the bottle remain unaffected; there is no contact or interaction between contents and amber coating.
The coating is then stove enamelled, and therefore is resistant to chemicals and cleaning in a dishwasher.

**Safety instructions**
DURAN® glassware is safe to use. The guidelines applicable for the use of special glass in laboratories in the country in question should always be observed. The following points should, however, always be observed:
- Before using DURAN® laboratory glassware, it should be checked to ensure that it is suitable for the intended purpose and that it will function properly.
- Faulty laboratory glassware can present a hazard (e. g. risk of cuts, burns, infection) which should not be underestimated. If appropriate repairs to any item cannot be carried out or cannot be justified on grounds of cost, it must be disposed of in the proper manner (as household waste or, depending on possible contamination, in accordance with the applicable guidelines; never as waste glass).
- Glassware should only be subjected to sudden changes in temperature taking into account a thermal shock resistance of $\Delta T$=100K. This applies in particular to thick-walled glassware, such as suction bottles or dessicators.
- Make sure that apparatus stands firmly and is not subjected to stress by using appropriate support material.

# Glass beakers

## Rotilabo®-glass beakers

Made of borosilicate glass 3.3. Graduated, has spout.
Acc. to DIN 12331, ISO 3819. Autoclavable.

*Without graduation. **Not according to DIN

**The following factors are critical to the quality of laboratory glassware:**

- The glassware and glass type
- The shape obtained during the production process
- Even distribution of wall thickness in all areas of the article (particularly in critical areas such as in the neck/shoulder area and at the transitions to the base). This ensures:
  - better mechanical stability
  - higher thermal shock resistance
  - freedom from stresses, which can cause the vessel to burst when heated

These quality characteristics not only increase safety for employees in the laboratory, but also extend the useful life of the laboratory glassware and protect valuable substances.

DURAN WHEATON KIMBLE
Material DURAN®
121 °C

## DURAN®-Super Duty glass beakers

- Proven DURAN® properties
- Glass type I, neutral glass according to USP, EP and JP
- High mechanical stability
- Reinforced, sturdy rim
- Uniform wall thickness distribution
- Autoclavable, sterilizable
- With retrace code
- Easily readable scale
- Fired-on highly durable labelling

**Notes of use:**
To avoid thermal stress in the glass, it is recommended that Super Duty products are slowly and uniformly heated. Standard DURAN beakers and Erlenmeyer flasks should be used when working at very high temperatures, or if rapid temperature changes are expected, as these, as these are characterized by excellent thermal shock resistance. However, their mechanical sturdiness is limited compared with the Super Duty range.

▶ Watch glasses for covering beakers
see page 177

DURAN WHEATON KIMBLE
Material DURAN®
121°C

## DURAN®-Super Duty narrow neck Erlenmeyer flasks

- Proven DURAN® properties
- Glass type I, neutral glass according to USP, EP and JP
- High mechanical stability
- Reinforced, stable rim
- Regular wall-thickness
- Autoclavable, sterilizable
- With retrace code
- Easily readable graduation
- Fired-on highly durable labelling

**Notes of use:**
To avoid thermal stresses in the glass, slow and gradual warming is recommended for Super Duty products. When working at very high temperatures, or if rapid temperature changes are expected, standard DURAN®-beakers and Erlenmeyer flasks should be used, as these are characterized by excellent thermal shock resistance. However, their mechanical sturdiness is limited compared with the Super Duty range.

**The following factors are critical to the quality of laboratory glassware:**

- The glassware and glass type
- The shape obtained during the production process
- Even distribution of wall thickness in all areas of the article (particularly in critical areas such as in the neck/shoulder area and at the transitions to the base).
  This ensures:
  - better mechanical stability
  - higher thermal shock resistance
  - freedom from stresses, which can cause the vessel to burst when heated

These quality characteristics not only increase safety for employees in the laboratory, but also extend the useful life of the laboratory glassware and protect valuable substances.

## PFA Erlenmeyer flasks

Made of **PFA**. Graduated, highly transparent. Microwave safe.
Autoclavable.

- Temperature resistant in the range -196 to +250 °C
- Inert to virtually all chemicals, including hydrofluoric and nitric acid
- High purity, low metal ion content, ideal for use in trace analysis and for the storage of highly pure substances
- No memory effect
- Hydrophobic and anti-adhesive, extremely smooth surfaces allow easy cleaning

## DURAN® Super Duty measuring cylinders, Class B

Low shape, with line graduations and hexagonal base. Autoclavable.

- Proven DURAN® properties
- Glass type I, Neutral glass according to USP, EP and JP
- High mechanical stability
- Higher impact resistance through reinforced, stable rim
- Regular wall-thickness
- Autoclavable, sterilisable
- Easily readable scale
- Fired-on highly durable labelling

## PFA measuring cylinders

Made of **PFA**, highly transparent. With easy-to-read graduations and wide base. Autoclavable.

- Temperature resistant in the range -196 to +250 °C
- Inert to virtually all chemicals, including hydrofluoric and nitric acid
- High purity, low metal ion content, ideal for use in trace analysis and for the storage of highly pure substances
- No memory effect
- Hydrophobic and anti-adhesive, extremely smooth surfaces allow easy cleaning

## Volumetric flasks with screw cap, class A

Individually ring-marked IN. Tolerance class A according to DIN EN ISO 1042. Autoclavable.

**Note:** exposure to temperatures up to 121 °C (autoclaving) will not cause tolerance limits to be permanently exceeded.

① Made of **PFA**, with screw cap made of PFA.
High temperature and chemical resistance. Hydrophobic and anti-adhesive, extremely smooth surfaces allow easy cleaning. High purity, ideal for use in trace analysis and for storage of reference solutions. No memory effect.

| 50 | 115 | **TP47.1** | 1 | 31,90 |

121°C

## Einhorn fermentation saccharometer

Made of calcium soda glass. For determining the sugar content in liquids. With indelibly branded white graduations (0.2-5 ml). Autoclavable.
**Delivery incl.** burette with ring mark at 10 ml.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CKY9.1** | 1 | 21,45 |

DURAN WHEATON KIMBLE

## BOD-bottles

By Wheaton. Made of borosilicate glass, in accordance with USP type I. With labelling field. For determination of the biochemical oxygen requirement. The extension at the bottle neck holds water displaced by stoppers or electrodes and thus protects against air entering the bottle. Neck internal ∅16.5 mm.
**Delivery incl.** stoppers.

**Uncoated**

| Volume (ml) | ∅ x H (mm) | Stopper type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 60 | 43 x 115 | Pennyhead | **EXT8.1** | 1 | 24,85 |

DURAN WHEATON KIMBLE
Material DURAN®

## ① Imhoff Sedimentation cone

Made of DURAN®. Graduated. Acc. to DIN 12672, part 1. Volume 1000 ml.
Dimensions: H 465, widest ∅ 120 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **K618.1** | 1 | 82,20 |

## ② Imhoff Sedimentation cone with stop cock

Made of borosilicate glass 3.3. Acc. to DIN 12672. Graduated up to 100 ml. Ring marking at 1000 ml. Cock with NS-glass-plug.
Dimensions: H (with cock) 510 mm, H (without cock) 465 mm, widest ∅ 120 mm. Funnel-∅ outer: 10 mm, inner 6.5 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AK68.1** | 1 | 166,65 |

## Rotilabo®-Imhoff sedimentation cone

Made of clear **SAN**. Graduated with embossed markings, and has a screw fitting for emptying. Volumes 1000 ml.
Graduation:
- 0-2 ml = 0.1 ml
- 2-10 ml = 0.5 ml
- 10-40 ml = 1.0 ml
- 40-100 ml = 2.0 ml
- 100-1000 ml = 50.0 ml

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9144.1** | 1 | 27,95 |

## Stand for 2 Imhoff sedimentation cones

Made of **PMMA**. Dimensions: L 300 x W 150 x H 290 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9147.1** | 1 | 84,90 |

## Stands for Imhoff funnels

Made of epoxy-coated wire.

| Design | L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| For 3 Imhoff funnels | 45 x 17 x 41 | **YA75.1** | 1 | 92,15 |
| For 4 Imhoff funnels | 58 x 17 x 41 | **YA76.1** | 1 | 101,95 |

▶ Additional funnel racks see page 168

# Glass bottles

## DURAN®-settling bottles

Made of DURAN®. For storage and dispensing of aqueous media and aggressive liquids. Design conforms to ISO 4796-3. With retrace code. Autoclavable.

**With standard ground joint**
**Delivery incl.** ground glass stopcock and ground glass stopper.

| Volume (ml) | ∅ x H (mm) | Bottom tube NS | Neck NS | Art. No. | Pack Qty. | € |

## DURAN®-Protect screw neck bottles

Made of DURAN®, **PU encased**. Acc. to 4796-1. Freezable down to -30 °C. The plastic casing protects against mechanical damage (scratch protection), minimises loss of fluid in the event of glass breakage (leak and splash protection), prevents scattering of glass shards and provides light protection up to a wavelength of 380 nm. With Retrace-Code. Microwave safe. Autoclavable.

**Note:**
do not expose DURAN®-Protect bottles to naked flames or direct heat. Max. thermal load 135 °C. Avoid continuous thermal exposure for longer than 30 min.

**DURAN®-Protect clear glass bottles**
**Delivery incl.** pouring ring and screw cap made of PP.

## Premium bottles

Made of DURAN®, transparent. Thread GL 45. Acc.to ISO 4796-1. With pouring ring and lid made of TPCh260, without colour additives and colour pigments, temperature resistant from -196 to +260 °C. Screw cap with **PTFE**-coated silicone seal. Especially suitable for demanding sterilisation processes e.g. for hot air or dry sterilisation and for depyrogenizing due to the guaranteed thermal shock resistance of 160 K. Complies with USP/FDA standards. Scale exact up to ±5 %. Reverse scaling not only indicates current liquid level but also enables reading of removed volume. With Retrace-Code. Autoclavable.
**Delivery incl.** pouring ring and screw cap.

## DURAN® YOUTILITY laboratory bottles

Made of DURAN®. With Retrace Code. Autoclavable.

- Specially shaped recessed grips for easier and safer handling.
- Slim bottle shape allows more space-saving use
- Scale indicating total volume
- Predefined labelling space
- Ergonomically shaped screw cap with leak-proof sealing system for optimal handling, even by users with small or gloved hands
- Optimised thread (compatible with DIN GL 45 closures) for faster bottle opening and closing

**Delivery incl.** pouring ring and optimised screw caps made of PP.

## Double-wall, wide-neck bottles GLS 80

Made of DURAN®. Integrated glass shell enables temperature regulation of the bottle contents by pumping warm or cold thermostating liquid through the shell. Autoclavable.

- Temperature stable from -40 to +120 °C and/or -45 to +180 °C when using quick-release closures GLS 80 (order no. PC52.1)
- Suitable for use with magnetic vane stir bars or the DURAN® GLS 80 magnetic stirrer reactor cap
- Compatible with GLS 80 connection systems for adding and/or removing fluids
- Easy-to-read scale on the inner vessel

**Delivery incl.** pouring ring Sand screw cap GLS 80 made of PP and 2 screw caps made of PBT with PTFE olives (GL 18, for hose with inner ∅ 10 mm).

## Premium screw caps and pouring rings

Made of **TPCh260** (similar to PFA), without colour additives.
Temperature resistant from -196 to +260 °C, high resistant to chemicals.
For laboratory bottles with DIN standard thread. Characteristics ideal for application in pharmaceutical industry, for storing aggressive media as well as for demanding sterilisation procedures. FDA and USP-compliant.
Autoclavable, hot-air and dry-sterilisable and capable of depyrogenation.
With retrace code, batch certificates available.

## DURAN® PURE Premium screw caps

Made of **TPCh260** (similar to PFA), without colour additives. Manufactured in ISO Class 7 clean rooms. Temperature-stable from -196 to +260 °C, high resistant to chemicals. For laboratory bottles with DIN standard thread. Characteristics ideal for application in pharmaceutical industry, for storing aggressive media as well as for demanding sterilisation procedures. FDA and USP-compliant. Autoclavable and hot-sterilisable. With retrace code, batch certificates available.

**STERICLIN® sterile barrier system packaging:** Caps are sealed in packs of 5 and can be sterilised directly in the STERICLIN® packaging. No pre-cleaning necessary. Can be stored for up to 6 months after sterilising. Sterilizable by STEAM, EO and FORM sterilisation, the corresponding indicators are imprinted on the STERICLIN® packaging. Recommended sterilisation process: steam sterilisation with pre-vacuum, from 121 °C for 20 minutes up to 134 °C for 20 minutes.

## Membrane screw caps

Made of **PP**. With welded PTFE-membrane. The membrane is liquid-proof, but gas permeable, this enables the pressure differential to reach upwards between the ambient pressure and the internal conditions of the bottle. This significantly reduces the risk of contamination. The ingress of liquids or solids is prevented. The caps can be screwed tightly on the laboratory glass bottles while autoclaving. Steam autoclavable to max. +140 °C.

## Pressure equalisation sets

Screw cap made of **PPS** with **PTFE/silicon gasket** and interchangeable filter membrane (pore size 2.5 µm) made of **PTFE**. For pressure equalisation after the removal or addition of liquid samples from sealed containers or for the storage of out-gassing media. Pressure equalisation takes place when the pressure differential exceeds 0.1 bar.
High chemical resistance since medium only comes into contact with PTFE.
Temperature stable from -200 to +250 °C, autoclavable.

## Screw cap GL 45 with connectors

Made of **PP**. Temperature stable up to +140 °C, dishwasher safe. Features two continuous connectors, angled at the top to prevent kinking of tubes. Autoclavable.

- Designed for safe, sterile transfer of liquid media within a closed system
- The core rotates freely and allows a container to be replaced without twisting the fixed tubes
- Ideal for use with soft elastic tubes with ID 6-9 mm (Piton®, Tyron®, silicon), e.g. when using peristaltic pumps
- A filter attachment for sterile pressure equalisation is optional

**Screw cap GL 45 with twin connectors, outer ∅ 6-9 mm**

DURAN WHEATON KIMBLE

121°C

## Multiport connection system GL 25

Screw-cap closure made of PBT and PTFE insert with olive plugs made of stainless steel. With 2, 3 or 4 connections. The olive plugs are suitable for hose inner ∅ 3.2 mm. For glass screw neck bottles GL 25 (10 ml or 25 ml). Suitable for media for small bioreactors, for cell cultures with perfusion cycle, for Fed-Batch bioreactors and for oxygenation/ventilation of very small sample volumes.
Temperature stable up to 180 °C. Autoclavable.
**Delivery without** laboratory glass flask GL 25, please order separately.

| Number of connections | Art. No. | Pack Qty. | € |

DURAN WHEATON KIMBLE

Material DURAN®

121°C

## HPLC-bottles

Made of DURAN®. Vacuum and pressure resistant. With Retrace-Code. Suitable for loading HPLC-equipment and for safe transfer of solvents in closed or sterile systems. Cap can be rotated freely, which prevents the hose from being twisted when changing the bottle.
**Delivery incl.** HPLC-screw cap (Made of **PP**. GL 45, four metric M8-threaded necks) with hose connection set (4 seal inserts each made of silicone for hose ∅ 1.6 mm and ∅ 3.2 mm, 4 sealing gaskets made of silicone and 4 screw caps with bore hole).
**Please order pressure compensation set separately if required.**

# Bottle multi-dispensers

## Bottle multi-dispensers

Screw cap GL 45 with 2 or 3 GL 14 threaded collars. Suitable e.g. for filling HPLC-automatic machines with solvents, for usage with titration equipment and for transferring sterile culture media in biological processes.
Can also be used in lieu of a Woulffe's bottle.
Multi-dispenser bottles can be connected to tubes with outer-∅ of 1.6 to 6.0 mm with a GL 14 laboratory screw joint. The sealing insert is freely rotatable and prevents hoses from twisting when changing the bottle.
Autoclavable.
**Delivery without bottle**, laboratory screw joints GL 14 for different tube diameters and a pressure compensation set. Please order separately.

Made of **PP**, high chemical resistance, temperature stable from -40 to +140 °C.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 2-way dispenser | **HX84.1** | 2 | 42,40 |
| 3-way dispenser | **HX85.1** | 2 | 45,40 |

Made of **PTFE** or **PFA** with screw cap made of **polyphenylene sulfide**. Multi-purpose, chemically inert and temperature stable from -50 to +250 °C.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 2-way dispenser made of PFA | **K094.1** | 1 | 98,30 |
| 3-way dispenser made of PTFE | **K095.1** | 1 | 130,10 |

## Laboratory screw joints for 2- and 3-way dispensers

Consists of 2 threaded joint caps GL14 made of **PP** and 2 inserts for different tube diameters made of **PTFE** with silicone ring. Autoclavable.

| for hose with outer ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 1,6 | **HX86.1** | 2 | 24,65 |
| 3,0 | **HX87.1** | 2 | 24,65 |

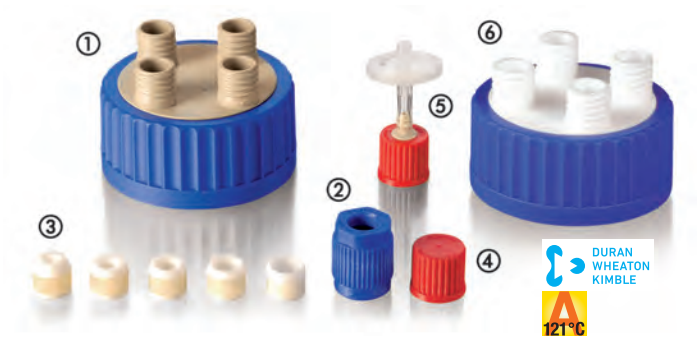
**Accessories:**

| | | | |
|---|---|---|---|
| Pressure compensation-set (screw cap with olive,Tygon tube, membrane filter) | **HX90.1** | 1 | 19,75 |
| DURAN®-pressure plus-screw thread bottle, 500 ml | **CK35.1** | 1 | 11,70 |
| DURAN®-pressure plus-screw thread bottle, 1000 ml | **H995.1** | 1 | 13,90 |
| Spare membrane filter pore size 0.2 µm | **HE27.1** | 2 | 11,25 |
| Flat gasket GL 45 made of EPDM | **AKL4.1** | 1 | 5,85 |

## Threaded reducing adapters



Suitable for vials with GL 40 thread, and for use with adapters with thread GL 45.

| Material | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Fluororubber | **P321.1** | 1 | 21,45 |
| PTFE | **KY92.1** | 1 | 88,35 |

## Thread adapter

Made of **PTFE**. For bottles with thread S 38-430, for screwing on GL 45-adapters. Suitable for bottles, Art. No. AE00.3, for use with dispensers, bottle multi-dispensers or HPLC-bottle dispenser systems.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KY68.1** | 1 | 53,20 |

## GLS 80 bottle multi-dispensers

Made of **PP** or **PTFE**. Screw cap GLS 80 ① with four GL 18 thread necks. Ideal for loading HPLC-equipment with solvents, for use with titration devices and for transferring sterile culture media in biological processes. Also suitable for use Woulff bottles. Tubes with an outer ∅ of 3.2 to 12.0 mm can be attached to the bottle multi-dispensers with a GL 18 lab screw fitting. Autoclavable.
**Delivery without** bottle (Art. No. XT02.1ff), laboratory screw joints (Art. No. KE53.1ff) and pressure equalisation set (Art. No. KE85.1). Please order separately.

① Made of **PP**. Temperature stable from -40 to +140 °C.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KE52.1** | 1 | 53,65 |

⑥ Made of **PTFE** with screw cap made of **PP**.
Temperature stable from 0 to +110 °C.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **NY20.1** | 1 | 97,20 |

## Lab screw fittings

For GLS 80 connection system (Art. No. KE52.1 or NY20.1).
Consists of 2 threaded joint caps GL 18 ② made of PP and 2 inserts ③ for different tube diameters made of PTFE with silicone ring. Autoclavable.

| for hose with outer ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 3,2 | **KE53.1** | 2 | 30,20 |
| 6,0 | **KE54.1** | 2 | 30,25 |

|---|---|---|---|
| ④ Screw cap PBT GL 18 | **E696.1** | 10 | 23,95 |
| Wide-neck screw thread bottles GLS 80 500 ml | **ET99.1** | 10 | 129,00 |
| Wide-neck screw thread bottles GLS 80 1000 ml | **EX00.1** | 10 | 169,00 |
| ⑤ Pressure compensation set (Screw cap GL 18 with olive, Tygon tube, membrane filter) | **KE58.1** | 1 | 20,00 |
| Spare membrane filter pore size 0.2 µm | **HE27.1** | 2 | 11,25 |
| Flat gasket GLS 80 made of EPDM, 78 x 63.5 x 1.5 mm | **AKL3.1** | 5 | 7,85 |

## HPLC connector caps with GL 45 thread

Screw cap made of **PPS** with distributor element made of **PTFE**. Connections with UNF 1/4″ 28G internal thread on top and bottom for attaching connecting hoses. Freely rotatable distributor element, cap can be screwed on and off without twisting the hoses. Optionally available with shutoff valve and plug made of **FEP**. Excellent chemical resistance, suitable for use at temperatures from -50 to +200 °C.

**Delivery without** connecting hoses, please order separately.

**For hoses with 0.8 mm inner Ø x 1.6 mm outer Ø,** 0.8 mm through-hole.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 2 connections | **NX21.1** | 1 | 45,65 |

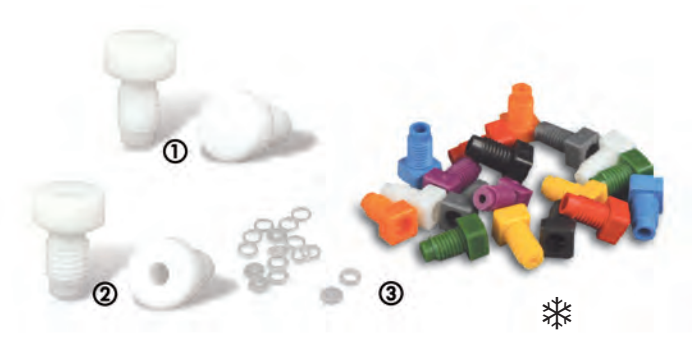
| 2 connections with shutoff valve | **NX27.1** | 1 | 72,95 |
| 3 connections with shutoff valve | **NX28.1** | 1 | 108,60 |

## HPLC connecting hoses



Crimped **PTFE** hoses with preassembled black UNF 1/4″ 28G banjo screws made of PP and pressure discs made of **PA**. Ready to use straight from the box, no need for time-consuming assembly in the lab. Temperature stable from -50 to +120 °C, pressure resistant up to 30 bar.

**Inner Ø x outer Ø 0.8 x 1.6 mm** (1/32″ x 1/16″)

| Total length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 100 | **NX29.1** | 1 | 15,50 |
| 250 | **NX30.1** | 1 | 15,90 |

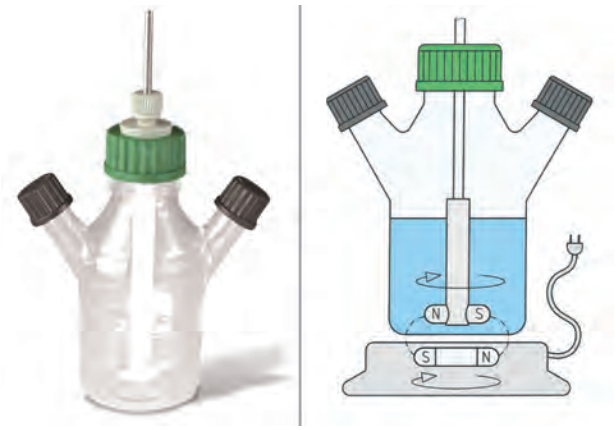
| ② T-type | 3 | 1.6 x 3.2 | **NX52.1** | 1 | 29,75 |
| ③ X-type | 4 | 0.8 x 1.6 | **NX53.1** | 1 | 37,15 |
| ③ X-type | 4 | 1.6 x 3.2 | **NX54.1** | 1 | 37,15 |

# Stirrer reactors

## HPLC intake filters



Filter cartridge holder made of **PTFE** with UNF 1/4″ 28G internal thread and interchangeable filter cartridge made of porous PTFE (Art. No. NX55.1). Protects HPLC systems, pumps, gaskets, pistons and membranes against contamination by particles or crystallising residues. Filter ∅ 14 mm. Filter length 25 mm.

| Pore size (µm) | For hose with inner ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 2 | (1/32″) - 0.8 | **NX55.1** | 1 | 71,20 |
| 2 | (1/16″) - 1.6 | **NX56.1** | 1 | 73,75 |
| 10 | (1/32″) - 0.8 | **NX57.1** | 1 | 55,40 |
| 10 | (1/16″) - 1.6 | **NX58.1** | 1 | 58,60 |

## HPLC replacement filter cartridges

Made of porous **PTFE**, for HPLC intake filters. Filter ∅ 14 mm. Filter length 20 mm.

| Pore size (µm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 2 | **NX59.1** | 1 | 47,25 |
| 10 | **NX60.1** | 1 | 31,75 |

## Triple neck culture bottles

Made of borosilicate glass 3.3. With screw caps made of PP/glass fibre (centre neck) and PPS (side necks), as well as height-adjustable stirrer insert made of PTFE and stainless steel.
For gentle mixing of cell cultures. High chemical resistance, fully autoclavable. Hoses, probes or sensor probes can be inserted into the side necks. Drive is provided by commercially available magnetic stirrers (max. speed 1,000 RPM), centre neck, GL 45 thread, inner ∅ 30 mm.

| Usable volume (ml) | Thread, side necks | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 50 | GL 14 | **NY29.1** | 1 | 149,45 |
| 125 | GL 18 | **NY30.1** | 1 | 151,60 |

## Screw couplings

Made of **PBT**. With GL-thread and silicone seal, flexible and freely rotatable. Autoclavable, temperature stable from -45 to +180 °C.

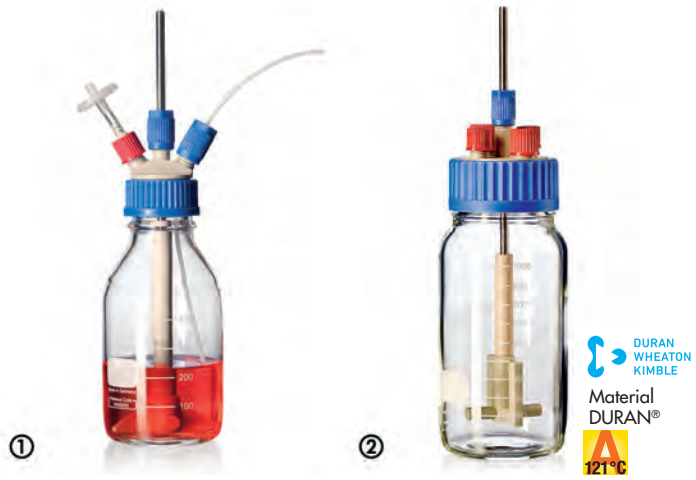
| Thread | Art. No. | Pack Qty. | € |
|---|---|---|---|
| GL 14 | **LL41.1** | 1 | 16,35 |
| GL 18 | **LL42.1** | 1 | 18,20 |
| GL 25 | **LL43.1** | 1 | 21,75 |
| GL 32 | **LL44.1** | 1 | 25,85 |
| GL 45 | **PY98.1** | 1 | 36,80 |

## Stirring magnet fish-clip® holders

Ideal for stirring sensitive liquids such as cell suspensions or tissue cultures. Magnet is placed into vessel with the flexible rotor clamp and can be fixed over the vessel base at the required height. When the magnetic stirrer is switched on the rod magnet will turn with controlled movements, protecting the substance and vessel. The support rod does not turn and the stopper remains gastight.

- Rotor and support rod made of PVDF
- Support rod: length 250 mm, ∅ 10 mm
- Stable to 160 °C, autoclavable

**Delivery incl.** magnetic follower.



| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| For magnetic followers ∅ 6 mm | **Y899.1** | 1 | 41,90 |
| For magnetic followers ∅ 8 mm | **Y900.1** | 1 | 41,90 |

## Accessories for magnetic follower holders fish-clip®

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Clamp stopper made of silicone for NS 19/26 | **Y901.1** | 1 | 4,75 |
| Clamped joint GL 25 | **Y903.1** | 1 | 10,30 |
| Clamped joint GL 32 with NS-adapter 29/32 | **Y906.1** | 1 | 35,10 |

▶ Solvent for HPLC and other accessories, see chapter on chromatography.

# Stirrer reactors

## Stirrer reactor sets

Significantly better mixing compared to standard magnetic stirring bars. Suitable for mixing solutions, dissolving solids, and fermentation processes. Driven by a magnetic stirrer. An additional media bottle or a sterile pressure equaliser can be connected using the DURAN® connector system.

- Materials used: PP/PTFE/PEEK/stainless steel/DURAN® glass
- Parts in direct contact with media are FDA-compliant
- Speed range: up to 500 rpm
- System is fully autoclavable
- Temperature stable up to +140 °C.

① **GL 45 stirrer reactors**

- 2 GL 14 connections
- Variable stirrer shaft, fits 500 ml and 1000 ml DURAN® GL 45 threaded bottles
- Compatible with the DURAN® connector system
- Suitable for hoses with diameters from 1.6 mm to 6.0 mm

**Delivery incl.** 500 ml or 1000 ml DURAN® GL 45 threaded bottle, 2-port GL 45 screw joint made of PP **with magnetic stirrer shaft**, 2 x GL 14 screw cap (PBT, red), (please order matching laboratory screw joints HX86.1-HX89.1 separately).

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| GL 45 stirrer reactor set, 500 ml | **PK85.1** | 1 | 218,00 |
| GL 45 stirrer reactor set, 1000 ml | **PK86.1** | 1 | 232,00 |

② **GLS 80 stirrer reactors**

- 4 connections: 2 x GL 18, 2 x GL 14
- Variable stirrer shaft, fits 1000 ml and 2000 ml DURAN® GLS 80 wide-neck threaded bottles
- Interchangeable stirrer element (anchor stirrer is standard, impeller stirrer is optional)
- Compatible with the DURAN® connector system
- Suitable for hoses with diameters from 1.6 mm to 12.0 mm

**Delivery incl.** 1000 ml or 2000 ml DURAN® GLS 80 wide-neck threaded bottle, GLS 80 4-port screw joint made of PP **with magnetic anchor stirrer** and GL 14 screw joint (PP, blue), 2 x GL 14 and 2 x GL 18 screw cap (PBT, red), (please order matching laboratory screw joints HX86.1-HX89.1 and KE53.1-KE57.1 separately).

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|

## Accessories for GL 45 stirrer reactors

**Replacement stirrer shaft**, magnetic, suitable for GL 45 stirrer reactor, including shaft

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK89.1** | 1 | 171,00 |

**Replacement GL 45 screw cap**, 2-port (2 x GL 14), PP (without agitator), incl. GL 14 screw joint (PP, blue)

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK90.1** | 1 | 46,80 |

## Accessories for GLS 80 stirrer reactors

⑥ **GLS 80 4-port stirrer reactor cap with magnetic anchor stirrer**, complete with shaft, screw joint and caps (2 x GL 14, 2 x GL 18)

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK91.1** | 1 | 225,00 |

⑦ **Replacement impeller stirrer**, magnetic, suitable for GLS 80 stirrer reactor

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK92.1** | 1 | 161,00 |

**Replacement anchor stirrer**, magnetic, suitable for GLS 80 stirrer reactor

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK93.1** | 1 | 161,00 |

① **Replacement 4-port screw cap** for GLS 80 stirrer reactor, PP, blue/grey

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK94.1** | 1 | 62,45 |

**Replacement shaft** for GLS 80 stirrer reactor, stainless steel, including PEEK screw joint

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK95.1** | 1 | 39,50 |

## Accessories for stirrer reactor sets

**DURAN® connector system**
Laboratory screw joint consisting of screw connector cap ② and insert ③for various hose-∅.

DURAN WHEATON KIMBLE
Material DURAN®

## Desiccator bases

Made of DURAN® glass with ground flange. Without coating. The precision workmanship allows parts such as covers, bases, stopcocks and closures to be replaced and interchanged between all DURAN®-desiccators of similar type and size. By combining individual parts, the DURAN®-system enables the user to be flexible and work according to his individual needs.
DURAN®-desiccators are excellent for a wide range of applications: e.g. for drying and keeping substances dry; for culturing plants, bacteria, cell cultures; for vacuum manipulation; as mini clean-rooms for storage of sensitive substrates, components, high-purity metals; in the development or manufacture of semiconductors; in material and environmental research; in chip technology, etc. Designed for use up to the maximum technically possible vacuum (0 mbar).

DN = Nominal diameter

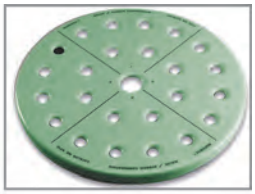
| 300 | 18,5 | 420 | 332 | 380 ±2 | **ETT1.1** | 1 | 519,00 |

**Warning:**
When working with glass, the limits caused by mechanical stress and changes of temperature must be considered and the utmost precaution must be taken:

Never subject glass equipment to sudden temperature changes, i.e. do not remove when hot from the drying cabinet and place on a cold or wet lab bench. This applies especially to thicker glass equipment, such as desiccators.



To avoid mechanical stress in the glass, evacuated vessels and/or vessels under pressure may not be heated on one side only or with a naked flame.

Glass vessels must be checked for flaws and defects prior to evacuation or pressure load (severe scratches, grooves, etc). Damaged glass vessels may not be used when working with vacuum or pressure.

Never expose glass equipment to sudden pressure changes, e.g. do not aerate evacuated vessels instantly. Laboratory glass vessels with flat base (e.g. Erlenmeyer and flatbottomed flasks) may not be put under pressure or vacuum.

- ▶ Lubricating grease on page 1138
- ▶ For drying agents, e.g. silica agents etc., see the Chromatography Chapter!

## Polycarbonate dessicator

By Nalgene®. Made of **PC**, fully transparent. For normal pressure and vacuum applications to max. 10 mbar. Maintains a partial pressure of 0.95 bar (95 kPa) over a 24 hour period. Implosion safe if used properly. No greasing needed. Connections for tubes with inner-∅ from 6.35 to 9.53 mm in lid and base. Suitable for room temperature applications only.

**Delivery incl.** silicon O-ring, vacuum tap made of PP (removable) and 2 TPE plugs for sealing hose connections while not in use. Please order dessicator plate separately.

| Outer ∅ x H (mm) | Inner ∅ (mm) | Usable height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 280 x 329 | 251 | 195 | **PK30.1** | 1 | 99,50 |

Accessories:

| | | | |
|---|---|---|---|
| Spare dessicator valve made of PP | **PK34.1** | 1 | 29,05 |

## Desiccator plate for polycarbonate desiccator

Metal-ceramic combination, light green. Unbreakable, i.e. if used properly in the dessicator it is resistant to thermal shock, corrosion and breakage.

| ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 230 | **PK31.1** | 1 | 64,50 |

## Vacuum bells

Low-pressure chambers for degassing or drying samples. Resistant to implosion during proper use. Suitable for use without vacuum grease. **Delivery incl.** base plate with seal and hose adapter for hoses with 6.4 mm inner ∅.

**Bell made of transparent PC, plate made of white PP.**

# Desiccators

## Basic and Premium mini desiccators

Made of **PC**. For drying and safe storage of moisture-sensitive products. Available with one, two or three interconnecting chambers.

- Ideal for small items, easy-to-use and transportable
- One-touch revolving door with all-round seal
- Rugged and lightweight design, shatterproof
- Transparent, visible all round, glare-free
- Stackable

**Technical specifications:**

| Type | Mini 1 | Mini 2 | Mini 3 |

▶ For drying agents, e.g. silica agents etc., see the Chromatography Chapter!

## Star desiccators

Panels made of transparent **PMMA**, frame made of reinforced aluminium. Door with all-round rubber seal and magnetic catch. Can be fitted with up to 13 (Star Horizontal) or 26 (Star) shelves. For drying and safe storage of moisture-sensitive products (e.g. reference materials, retained samples, metallographic samples, tobacco leaves, DNA samples, etc.). Integrated digital thermal hygrometer with Min/Max function for monitoring actual temperature and moisture levels.

**Technical specifications:**

| Model | Star | Star Horizontal |
|---|---|---|
| Total volume (l) | 45 | |
| Usable volume (l) | 40 | 42 |
| Outer dimensions, W x D x H (mm) | 310 x 375 x 525 | 525 x 375 x 340 |
| Usable inner volume, W x D x H (mm) | 260 x 330 x 480 | 480 x 330 x 260 |
| Working temperature (°C) | -20 to +70 | |
| Max. all-over load per shelf (kg) | 10 | 1.5 |
| Total all-over load (kg) | 30 | |
| Weight (kg) | 7 | |

**Delivery incl.** 4 (or 2 with Star Horizontal dessicator) variable intermediate shelves made of PMMA and 1 bottom pan for dessicants.

| Model | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Star dessicator | **CT04.1** | 1 | 794,45 |
| Horizontal star desiccator | **NX18.1** | 1 | 962,15 |

## Rotilabo®-drying cabinets

Made of clear acrylic glass for storage of moisture-sensitive substances. Wall thickness 4 mm, smoothed edges. With lockable door and drawer for drying agents or molecular sieves.

| L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 230 x 175 x 175 | **6121.1** | 1 | 313,90 |
| 410 x 305 x 175 | **6123.1** | 1 | 388,10 |

## Star Vitrum desiccator

Panels made of **type 3.3 borosilicate glass**, frame made of reinforced aluminium. Door with all-round rubber seal and magnetic catch. Usable with up to 26 shelves. For drying and safe storage of moisture-sensitive products (e.g. reference solutions, retained samples, metallographic samples, tobacco leaves, DNA samples, etc.). Ideal for suitable for storing hot materials (max. 300 °C), excellent resistance to chemicals. Integrated digital thermal hygrometer with Min/Max function for monitoring actual temperature and moisture levels.

**Technical specifications:**

| | |
|---|---|
| Total volume | 45 l |
| Usable volume | 42 l |
| Outer dimensions (W x H x D) | 310 x 375 x 525 mm |
| Usable inner volume (W x D x H) | 260 x 330 x 480 mm |
| Usage temperature | -20 to +150 °C |
| Max. all-over load per shelf | 10 kg |
| Total all-over load | 30 kg |
| Weight (approx.) | 14 kg |

**Delivery incl.** 4 variable height shelves made of stainless steel and 1 bottom pan for dessicants.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **NX19.1** | 1 | 1081,45 |

## Super Star inert gas desiccator

Panels made of transparent **PMMA**, frame made of reinforced aluminium. All-round rubber door seal with magnetic strip and barrel lock. Usable with up to 26 shelves. Nitrogen or noble gases can be introduced through two gassing connections with quick couplings and self-closing valves. This allows the safe storage of air and moisture sensitive substances as well as highly reactive or toxic chemicals in an inert gas atmosphere. Integrated large digital thermal hygrometer with Min/Max function for monitoring temperature and moisture levels.

**Technical specifications:**

# Desiccators

## Auto-Star desiccator

Panels made of transparent **PMMA**, frame made of reinforced aluminium. Door with all-round rubber seal and magnetic catch. Usable with up to 26 shelves. For long-term storage of moisture-sensitive materials, reference samples, electronic components, photographic equipment, papers, cultures etc.
Automatic drying ensures a constant low humidity of between 20 and 30 % and compensates for frequent opening of the door. In case of power failure, the humidity level inside the desiccator does not increase for several hours thereby giving valuable samples extra protection. No need for manual regeneration of the silica gels, no need for frequent checks, space for desiccant dish can also be used. Digital thermal hygrometer with Min/Max function for monitoring actual temperature and moisture levels.

**Technical specifications:**

| | |
|---|---|
| Total volume | 45 l |
| Usable volume | 42 l |
| Outer dimensions (W x H x D) | 310 x 375 x 525 mm |
| Additional space required for drying unit | 60 mm (back) |
| Usable inner volume (W x D x H) | 260 x 330 x 480 mm |
| Working temperature | -20 to +70 °C |
| Max. all-over load per shelf | 10 kg |
| Total all-over load | 30 kg |
| Weight (approx.) | 7.3 kg |
| Power supply | 230 V, 50 Hz |

**Delivery incl.** 4 variable shelves made of PMMA, drying unit and thermal hygrometer.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **NP95.1** | 1 | 1482,45 |

## Vacuum desiccators

Made of transparent **PMMA**, wall thickness 25 mm. All-round silicon door seal, with 4 or 5 hinged safety locks. For contamination-free storage of air, moisture and heat sensitive products as well as for gentle drying of easily degradable and reactive substances.

**Technical specifications:**

| **Model** | **1** | **2** |
|---|---|---|
| Usable volume (l) | 17.5 | 24.5 |
| Exterior dimensions W x D x H (mm) | 300 x 300 x 340 | 300 x 300 x 440 |
| Additional space required for valves + vacuum gauge (mm) | 150 | |
| Usable inner volume W x D x H (mm) | 260 x 260 x 260 | 260 x 260 x 360 |
| Working temperature (ºC) | -20 to +70 | |
| Analogue vacuum gauge display | 0.1 to 0.001 MPa = 1000 to 10 mBar | |
| Needle valves (connector outer ∅, mm) | 9.0 | |
| Number of shelves in scope of supply / max. | 2 / 3 | 3 / 5 |
| Connections for hoses with internal dia. (mm) | 9 | |
| Max. all-over load per shelf (kg) | 9 | |
| Total all-over load (kg) | 30 | 40 |
| Weight, approx. (kg) | 15 | 18 |

**Delivery incl.** shelves made of PMMA, analogue vacuum gauge and needle valves.

## UltraBond screw caps bore hole

Made of **PP**, blue. Bore hole ∅ 6 mm. For short thread ND9 vials.
Joint cap and septum, septum cannot be pressed into the bottle even when using thick or blunt needles.
**Delivery incl.** septum, mounted.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Silicone beige / PTFE white, slotted | 1,3 | 45° | **LC15.1** | 100 | 49,35 |

## Screw caps for LC/GC-MS

Inert, non-bleed single-component cap, LC/GC-MS certified.
Transparent, with thinned penetration area, penetrable like a septum.
For ND9 short threaded vials.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **NN00.1** | 100 | 33,90 |

## Magnetic screw caps with bore hole

Made of **PP**, blue. Bore hole ∅ 6 mm. With mounted magnetic cap, gold.
For ND9 short threaded vials.
**Delivery incl.** septum, mounted.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Silicone white / PTFE red UltraClean | 1,0 | 55° | **PT62.1** | 100 | 48,95 |

## Silanised ND9 short-thread screw top vials

Made of silanised borosilicate glass of hydrolytic class 1.
Please order micro inserts and screw caps separately.
**The surface of the vials is deactivated by silanisation. This minimises the adsorption of polar compounds (proteins, amines, phenols etc.) by the glass and prevents the loss of valuable specimens.**
Wide opening for easy filling. Flat base.
Dimensions: ∅ 11.6 x H 32 mm. CleanPack, vials packed in a clean room under class 10.000 conditions. Suitable for automatic samplers.

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Clear glass | 1,5 | **XC47.1** | 100 | 44,85 |
| Clear glass, with solid conical base | 1,1 | **XC48.1** | 100 | 101,60 |
| Brown glass, with labelling space | 1,5 | **XC49.1** | 100 | 45,70 |

## Silanised micro inserts

Made of silanised borosilicate glass, clear glass. For ND9 short-thread screw top vials, ND10 screw top vials, and ND11 rolled edge vials snap ring vials.
**The surface of the vials is deactivated by silanisation. This minimises the adsorption of polar compounds (proteins, amines, phenols etc.) by the glass and prevents the loss of valuable specimens.**

| Type | Volume (ml) | Dimensions L x ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Tapered 15 mm tip | 0,1 | 31 x 6 | **XC50.1** | 100 | 57,55 |
| With plastic spring | 0,1 | 29 x 5,7 | **XC51.1** | 100 | 87,10 |

## Certified Vial Kits ND9

HPLC and GC certified, tested for blank values and impurities.
Kits comprising:
- 100 short-thread screw top vials ND9 made of hydrolytic class 1 borosilicate glass. Dimensions: ∅ 11.6 x H 32 mm
- 100 **PP** UltraClean screw caps, with 6 mm hole ∅ and fitted septa, white silicone rubber/red PTFE, hardness (shore A) 55°, thickness 1.0 mm

| Type | Volume (ml) | Art. No. | Pack Qty. (set) | € |
|---|---|---|---|---|
| Clear glass, with labelling space | 1,5 | **XC64.1** | 1 | 50,00 |
| Brown glass, with labelling space | 1,5 | **XC65.1** | 1 | 50,00 |

## Rotilabo®-screw neck ND10 vials

Made of borosilicate glass, hydrolytic class 1. Thread 10-425.
Wide opening for easy filling. Flat bottom. Dimensions: ∅ 11.6 x H 32 mm.
CleanPack, bottles packed in a clean room under class 10.000 conditions.
Standard bottles for GC and HPLC. Suitable for automatic samplers.
Please order screw caps separately.

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Clear glass | 1,5 | **LC16.1** | 100 | 14,75 |
| Clear glass, with labelling area | 1,5 | **NN01.1** | 100 | 15,60 |
| Brown glass, with labelling area | 1,5 | **LC17.1** | 100 | 17,00 |

## Micro-inserts

Made of clear borosilicate glass. For screw thread ND10 vials.

| Type | Volume (ml) | Dimensions L x ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Tapered 15 mm tip | 0,1 | 31 x 6 | **LC07.1** | 100 | 24,20 |
| With plastic spring | 0,1 | 29 x 5,7 | **LC08.1** | 100 | 65,60 |
| Flat base | 0,2 | 31 x 6 | **LC09.1** | 100 | 20,40 |

## Screw caps closed

Made of **PP**, black. Without hole. For screw top vials ND10.
**Delivery incl.** septum, assembled.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Natural rubber orange red / TEF transparent | 1,3 | 60° | **TY76.1** | 100 | 24,65 |

## Screw caps with bore hole

Made of **PP**, black. Bore hole ∅ 7 mm. For screw thread ND10 vials.
**Delivery incl.** septum, mounted.

| Septum materials | Thick-ness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Silicone white / PTFE red UltraClean | 1,3 | 45° | **LC18.1** | 100 | 32,90 |
| Silicone white / PTFE beige | 1,5 | 45° | **LC19.1** | 100 | 33,65 |
| Natural rubber orange-red/ TEF transparent | 1,3 | 60° | **LC20.1** | 100 | 21,45 |
| PTFE red / Silicone white / PTFE red | 1,0 | 45° | **NN37.1** | 100 | 41,40 |
| Silicone white / PTFE blue, slotted | 1,5 | 55° | **LC21.1** | 100 | 47,25 |

▶ For HPLC solvents and further accessories see the Chromatography chapter!

# Sample vials/Autosamplervials

## ND11 Rotilabo®-welt rim vials

**With flange rim.** Made of borosilicate glass, hydrolytic Class 1. Wide opening for easy filling. Flat bottom. CleanPack, bottles packed in a clean room under class 10.000 conditions. Standard bottles for GC and HPLC. Suitable for automatic samplers. Please order micro-inserts and flange caps separately.

| Type | Volume (ml) | Dimensions H x ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Clear glass | 1,5 | 32 x 11,6 | **LC22.1** | 100 | 12,40 |
| Clear glass | 2,5 | 41 x 11,6 | **TY77.1** | 100 | 20,25 |
| Clear glass, with labelling area | 1,5 | 32 x 11,6 | **LC23.1** | 100 | 13,45 |
| Brown glass, with labelling area | 1,5 | 32 x 11,6 | **LC24.1** | 100 | 15,00 |
| TPX, with integrated glass-micro-insert | 0,2 | 32 x 11,6 | **LC25.1** | 100 | 65,05 |

## Micro inserts

Made of borosilicate glass, clear glass.
For ND11 crimp top and snap ring vials.

| Type | Volume (ml) | Dimensions L x ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Tapered 15 mm tip | 0,1 | 31 x 6 | **LC07.1** | 100 | 24,20 |
| With plastic spring | 0,1 | 29 x 5,7 | **LC08.1** | 100 | 65,60 |
| Flat base | 0,2 | 31 x 6 | **LC09.1** | 100 | 20,40 |

## Flange caps with bore hole

Made of aluminium, with transparent coating. Bore hole ∅ 5.5 mm.
For welt rim ND11 vials.

**Delivery incl.** septum, mounted.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| PTFE red / silicone white / PTFE red | 1,0 | 45° | **LC26.1** | 100 | 35,50 |
| Silicone white / PTFE red, UltraClean | 1,3 | 45° | **LC27.1** | 100 | 27,85 |
| Natural rubber orange-red / butyl red / TEF transparent | 1,0 | 45° | **LC28.1** | 100 | 11,75 |
| Natural rubber red-orange / TEF transparent, AGILENT-quality | 1,0 | 60° | **LC29.1** | 100 | 11,50 |
| Butyl red / PTFE grey | 1,3 | 55° | **LC30.1** | 100 | 18,25 |
| Silicone white / PTFE blue, slotted | 1,5 | 55° | **NN02.1** | 100 | 55,70 |

## Magnetic flanged caps with bore hole

Made of aluminium, magnetic, painted gold. Bore hole ∅ 5 mm.
For ND11 rolled edge vials.

**Delivery incl.** septum, mounted.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Silicone white / PTFE red UltraClean | 1,3 | 45° | **PT63.1** | 100 | 42,95 |
| PTFE red / silicone white / PTFE red | 1,0 | 45° | **PT64.1** | 100 | 48,95 |

## TPF crimp caps with bore hole

Free of halogens, elastomers, plasticisers, silicone, butyl rubber, PTFE, FEP, TEF. Recommended for GC/LC-MS, for the storage of standards and analysis of halogenated compounds, VOC's, plastics, phthalates, polymerisation catalysts and silicones.
For ND11 rolled edge vials.

| Septum materials | Thickness (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Aluminium (with O-ring seal) | 0,06 | **NN03.1** | 100 | 35,70 |

## Rotilabo®-snap ring vials ND11

Made of borosilicate glass of hydrolytic class 1.
Wide opening for easy filling. Flat base. Dimensions: ∅ 11.6 x H 32 mm.
CleanPack, vials packed in a clean room under class 10.000 conditions.
Standard vials for GC and HPLC. Suitable for automatic samplers.
Please order micro inserts and screw caps separately.

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Clear glass | 1,5 | **TY79.1** | 100 | 13,90 |
| Clear glass, with labelling space | 1,5 | **TY80.1** | 100 | 15,05 |
| Brown glass, with labelling space | 1,5 | **TY81.1** | 100 | 16,10 |
| TPX, with integrated glass-micro insert | 0,2 | **TY82.1** | 100 | 64,00 |

## Snap ring caps hard version

Made of **PE**, transparent. With bore hole. For ND11 snap ring vials.
Hard version for optimal leak tightness. No crimping tool is required.
**Delivery incl.** septum, assembled.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| RedRubber / PTFE beige, AGILENT quality | 1,0 | 45° | **TY83.1** | 100 | 18,85 |
| Natural rubber orange red / TEF transparent | 1,0 | 60° | **TY84.1** | 100 | 17,75 |

## Snap ring caps soft version

Made of **PE**, blue. With bore hole. For ND11 snap ring vials.
Soft version for easier push-on or removal. No crimping tool is required.
**Delivery incl.** septum, assembled.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| RedRubber / PTFE beige, AGILENT quality | 1,0 | 45° | **TY85.1** | 100 | 20,35 |
| Natural rubber orange red / TEF transparent | 1,0 | 60° | **TY86.1** | 100 | 19,15 |

## Push-on caps

Made of **PE**, blue, push-on type. For ND11 crimp top and snap ring vials. No crimping tool is required. Closed, with thinned penetration area instead of a septum, for non-critical assays.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TY78.1** | 100 | 8,40 |

▶ Tongs for welt rim vials see page 70

# Sample vials/Autosamplervials

## Rotilabo®-screw thread ND13 vials

Made of borosilicate glass, hydrolytic Class 1. Thread 13-425. Flat bottom. Dimensions: ∅ 14.7 x H 45 mm. CleanPack, bottles packed in a clean room under class 10.000 conditions. Suitable for automatic samplers.
Please order micro-insert, screw caps and septa separately.

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Clear glass | 4 | **LC31.1** | 100 | 17,15 |
| Clear glass, with labelling area | 4 | **LC32.1** | 100 | 18,60 |
| Brown glass | 4 | **LC33.1** | 100 | 18,25 |
| Brown glass, with labelling area | 4 | **LC34.1** | 100 | 19,70 |

## Micro-insert

Made of clear borosilicate glass. For screw thread ND13 vials.

| Type | Volume (ml) | Dimensions L x ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Conical 15 mm tip, with metal spring | 0,3 | 40 x 6 | **LC35.1** | 100 | 40,80 |

## Screw caps closed

Made of **PP**, black. Without hole. For screw top vials ND13.
**Delivery incl.** septum, assembled.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Natural rubber orange red / TEF transparent | 1,3 | 60° | **TY88.1** | 100 | 22,25 |
| Butyl red / PTFE grey | 1,3 | 55° | **TY89.1** | 100 | 24,95 |
| Silicone cream / PTFE red | 1,5 | 55° | **NN04.1** | 100 | 36,05 |

## Screw caps with bore hole

Made of **PP**, black. Bore hole ∅ 8.5 mm. For screw thread ND13 vials.
**Delivery incl.** septum, mounted.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| PTFE red / silicone white / PTFE red | 1,0 | 45° | **LC36.1** | 100 | 47,25 |
| Silicone cream / PTFE red | 1,5 | 55° | **LC37.1** | 100 | 37,65 |
| Natural rubber orange-red / TEF transparent | 1,3 | 60° | **LC38.1** | 100 | 21,85 |
| Butyl red / PTFE grey | 1,3 | 55° | **LC39.1** | 100 | 24,40 |
| Silicone white / PTFE blue, slotted | 1,5 | 55° | **NN05.1** | 100 | 62,25 |

## Screw caps

Made of **PP**, black. For screw thread ND13 vials. Without septum, please order separately.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Without bore hole | **LC40.1** | 100 | 10,25 |
| With bore hole ∅ 8.5 mm | **LC41.1** | 100 | 9,15 |

## Septa ∅ 12 mm

| Material | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| PTFE (*shore D) | 0,25 | 53° * | **LC42.1** | 1000 | 40,35 |
| Natural rubber orange-red/ TEF transparent | 1,3 | 60° | **LC43.1** | 1000 | 97,30 |
| Butyl red / PTFE grey | 1,3 | 55° | **LC44.1** | 1000 | 135,45 |
| Silicone blue transparent / PTFE white | 1,3 | 45° | **LC45.1** | 1000 | 259,10 |
| Silicone cream / PTFE red | 1,5 | 55° | **LC46.1** | 1000 | 263,40 |

## Rotilabo®-fine screw thread ND18 vials

Made of borosilicate glass, hydrolytic Class 1. CleanPack, bottles packed in a clean room under class 10.000 conditions. Suitable for automatic samplers. Please order screw caps and septa separately.

| Type | Volume (ml) | Dimensions L x ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Clear glass | 10 | 46 x 22,5 | **LC47.1** | 100 | 31,75 |
| Brown glass | 10 | 46 x 22,5 | **LC48.1** | 100 | 49,35 |
| Clear glass | 20 | 75,5 x 22,5 | **LC49.1** | 100 | 35,40 |
| Brown glass | 20 | 75,5 x 22,5 | **LC50.1** | 100 | 53,45 |

## Magnetic screw caps closed

Magnetic, silver. Without hole. For fine pitch screw top vials ND18 (art. no. LC47.1-LC50.1).
**Delivery incl.** septum, assembled.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Butyl red / PTFE grey | 1,6 | 55° | **TY90.1** | 100 | 40,35 |

## Magnetic screw caps with bore hole

Made of steel, magnetic, silver, bore hole ∅ 8 mm.
For fine screw thread vials ND18 (Art. no. LC47.1 to LC50.1).
**Delivery incl.** septum, mounted.

| Septum materials | Thick-ness (mm) | Hard-ness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Silicone blue transparent / PTFE white Ultra Clean | 1,3 | 45° | **LC51.1** | 100 | 68,70 |
| Silicone white / PTFE red, slotted | 1,5 | 55° | **NN06.1** | 100 | 80,65 |
| Silicone white / PTFE blue Ultra Clean | 1,5 | 55° | **LC52.1** | 100 | 82,75 |
| Butyl red / PTFE grey | 1,6 | 55° | **LC53.1** | 100 | 41,75 |

121°C

## Rotilabo®-stands for vials and micro inserts

Made of **acrylic**. Transparent material allows easy checking of the filling level of the vials in the stand. With silicon feet for stability and stackability.
Stand for micro inserts and vials in sizes from ND8 to ND11 (Art. no. TY95.1 and TY96.1) can also hold tapered base vials.

| For autosampler vials | Hole ∅ (mm) | Slots | Dimensions L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| Micro inserts | 8,5/3 | 5 x 10 | 173 x 95 x 20 | **TY95.1** | 1 | 68,70 |
| ND8 to ND11 | 12 | 5 x 10 | 173 x 95 x 20 | **TY96.1** | 1 | 74,65 |
| ND13 | 15,1 | 5 x 8 | 176 x 116 x 20 | **TY97.1** | 1 | 76,35 |
| ND18, ND20 (up to 20 ml) | 24 | 5 x 5 | 160 x 160 x 30 | **TY98.1** | 1 | 87,30 |

▶ Other boxes and stands for autosampler vials see page 222

# Sample vials/Autosamplervials

## Rotilabo®-screw-neck ND18 vials

Made of borosilicate glass of hydrolytic class 1. Round base.
Dimensions: ∅ 23 x H 75.5 mm. CleanPack, bottles packed in a clean room under class 10.000 conditions. Suitable for automatic samplers.
Screw caps and septa please order separately.

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Clear glass | 20 | **LY52.1** | 100 | 38,20 |

## Screw caps with septum

Made of **PP**, black. **Suitable only for screw thread vials art. no. LY52.1**.
Septum material: butyl red / PTFE grey.
**Delivery incl.** septum, assembled.

| Type | Thick-ness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Closed | 1,6 | 55° | **TY91.1** | 100 | 33,35 |
| Hole ∅ 12.5 mm | 1,6 | 55° | **TY92.1** | 100 | 35,40 |

## Screw caps

Made of **PP**, black. **Suitable only for screw thread vials art. no. LY52.1**.
Without septum, please order separately.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Without bore hole | **LC54.1** | 100 | 13,45 |
| With bore hole ∅ 12 mm | **LC55.1** | 100 | 13,45 |

## Septa ∅ 16 mm

| Material | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Butyl red / PTFE grey | 1,3 | 55° | **LC56.1** | 1000 | 186,00 |
| Natural rubber orange-red / TEF transparent | 1,3 | 60° | **LC57.1** | 1000 | 186,00 |
| Silicone blue transparent / PTFE white | 1,7 | 45° | **LC58.1** | 1000 | 418,20 |
| PTFE red / silicone white / PTFE red | 1,0 | 45° | **LC59.1** | 1000 | 471,95 |

## ND20 Rotilabo® rolled-edge headspace vials

Made of hydrolytic class 1 borosilicate glass. Clear glass, wall thickness 1.2 mm. CleanPack, vials packed in a clean room under class 10 000 conditions. Suitable for automatic samplers. Please order crimp caps separately.

**Round base**

| Type | Volume (ml) | Dimensions ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Clear glass, bevelled headspace edge | 5 | 22 x 38,2 | **LC60.1** | 100 | 28,10 |
| Clear glass, bevelled headspace edge | 20 | 23 x 75,5 | **LC61.1** | 100 | 30,25 |
| Clear glass, DIN rolled edge | 10 | 22,5 x 46 | **LC62.1** | 100 | 29,35 |
| Brown glass, DIN rolled edge | 10 | 22,5 x 46 | **NN07.1** | 100 | 32,80 |
| Clear glass, DIN rolled edge, long neck | 20 | 22,5 x 75,5 | **LC63.1** | 100 | 30,65 |
| Clear glass with labelling space, bevelled headspace edge | 20 | 23 x 75,5 | **NN08.1** | 100 | 31,75 |
| Brown glass, DIN rolled edge, long neck | 20 | 22,5 x 75,5 | **NN09.1** | 100 | 33,35 |

**Flat headspace base**

*not suitable for use under pressure.

| Type | Volume (ml) | Dimensions ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| DIN rolled edge | 5 | 20 x 38 | **LC64.1** | 100 | 28,20 |
| DIN rolled edge | 10 | 54,5 x 20 | **NN10.1** | 100 | 28,50 |
| DIN rolled edge, long neck | 10 | 22,5 x 46 | **LC65.1** | 100 | 30,00 |
| DIN rolled edge, long neck | 20 | 22,5 x 75,5 | **LC66.1** | 100 | 30,55 |
| DIN rolled edge | 50 | 31 x 101 | **LC67.1** | 100 | 60,10 |
| DIN rolled edge | 100* | 51,6 x 94,5 | **LC68.1** | 88 | 50,85 |

## Crimp caps with bore hole

Made of aluminium. Bore hole ∅ 10 mm.
For crimp neck Headspace ND20 vials.
**Delivery incl.** septum, mounted.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Butyl, dark grey | 3,0 | 50° | **LC69.1** | 100 | 19,15 |
| Butyl / PTFE, coated | 3,0 | 50° | **LC70.1** | 100 | 31,10 |
| Pharma-Fix-septa, butyl / PTFE | 3,0 | 50° | **LC71.1** | 100 | 41,90 |
| Silicone blue transparent / PTFE white Ultra Clean | 3,0 | 45° | **LC72.1** | 100 | 57,20 |
| Silicone white / PTFE beige (AGILENT HT quality) | 3,25 | 45° | **LC73.1** | 100 | 58,30 |

## Headspace-caps with bore hole

Made of aluminium. Bore hole ∅ 8 mm. For crimp neck Headspace vials ND20. With predetermined breaking points which open at 3.0 ±0.5 bar to release excess pressure.
**Delivery incl.** septum, mounted.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Butyl / PTFE, coated | 3,0 | 50° | **LC74.1** | 100 | 32,05 |
| Pharma-Fix-Septum, Butyl / PTFE | 3,0 | 50° | **LC75.1** | 100 | 43,25 |
| Silicone blue transparent / PTFE white Ultra Clean | 3,0 | 45° | **LC76.1** | 100 | 58,60 |
| Silicone white / PTFE beige (AGILENT HT quality) | 3,25 | 45° | **LC77.1** | 100 | 60,10 |

## Centre tear-off caps

Made of aluminium. For rolled-edge headspace vials ND20.
**Delivery incl.** septum, assembled.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Dark grey butyl rubber | 3,0 | 55° | **NN11.1** | 100 | 20,35 |
| Transparent blue silicone/ PTFE white UltraClean | 3,0 | 45° | **NN12.1** | 100 | 58,30 |

## Complete tear-off caps

Made of aluminium. For rolled-edge headspace vials ND20.
**Delivery incl.** septum, assembled.

| Septum materials | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Dark grey butyl rubber | 3,0 | 55° | **NN13.1** | 100 | 20,40 |
| Transparent blue silicone/ PTFE white UltraClean | 3,0 | 45° | **NN14.1** | 100 | 58,80 |

## Magnetic crimp caps with bore hole

Made of aluminium, gold coloured. For crimp neck Headspace vials.
**Delivery incl.** septum, mounted.

| Septum materials | Hole ∅ (mm) | Thickness (mm) | Hardness (shore A) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| Butyl / PTFE, grey | 5 | 3,0 | 50° | **LC78.1** | 100 | 34,85 |
| Butyl / PTFE, grey | 8 | 3,0 | 50° | **LC79.1** | 100 | 34,85 |

# Crimping tools for autosampler vials

## Rotilabo®-closing and opening pliers

Made of hardened steel with chemical resistant special coating. For sealing and opening standard aluminium crimp caps with ND 8, 11, 13 or 20 mm.

- Special surface coating for excellent grip
- Effortless working thanks to resetting spring
- Adjusting screws in crimping head and handle for optimal sealing and reproducible crimping results

**① Closing pliers**

| for aluminium crimp caps | Art. No. | Pack Qty. | € |

## Cleanroom crimping tongs

Made entirely of stainless steel, corrosion and heat resistant.
The tool is tolerant to repeated sterilisation for cleanroom use.
Free of lubricant and uncoated; no particles are released during use and therefore no increase in particle density occurs in the cleanroom.
Crimping pressure and height are adjustable for optimal crimping results, even when using different types of vial. Autoclavable.

## High performance crimping tool ND11 and ND20

By Macherey-Nagel. For secure and reproducible crimping and decapping of crimp caps on sampling bottles and autosampler vials.

- Also suitable for magnetic and bimetal crimp caps thanks to very powerful motor.
- Exchangeable crimping and decapping heads
- Digital LED display
- Memory function for different crimp settings
- A stand is optionally available for convenient and safe handling

**Delivery incl.** power supply (12 V) and cable.
Please order crimping and decapping heads separately.

| **ATP0.1** | 1 | 40,75 |

DURAN WHEATON KIMBLE

## NMR-vials

Vials contain no paramagnetic substances. Outstanding straightness. Uniform wall thickness. Good regularity of diameter. Length 178 mm.

Two models available:

- **Economic:** Made of DURAN®, with Retrace-Code, for one-time use in fully automatic sample changers or for high throughput
- **Scientific:** Made of borosilicate glass, for multiple use. Vials can be cleaned and sterilized. Optimal utilization of substance in extremely high-resolution range.

**Technical specifications:**

| Model | Economic | Scientific |
|---|---|---|
| Length (mm) | 178 | 178 |
| ∅ outer (mm) | 4,95 ±0,05 | 4,97 ±0,013 |
| ∅ inner (mm) | 4,20 ±0,05 | 4,20 ±0,013 |
| Straightness (mm) | ±0,07 | 0,013 |
| MHz | 300 | 500 |

**Delivery incl.** sealing plugs.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Economic | **EP54.1** | 250 | 470,00 |
| Scientific | **EP55.1** | 5 | 59,75 |

| PET | 27 x 61 | **EXY6.1** | 500 | 198,90 |

121°C

## Rack for scintillation tubes

Made of **PP**, with 24 holes in 3 x 8 array. Hole-∅ 30 mm.
Ideal for storing, transporting or as a rack on the laboratory bench.
Dimensions: L 298 x W 127 x H 95 mm. Height to intermediate shelf 44 mm.
Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **K993.1** | 1 | 49,25 |

121°C

## Racks for sample vials

Made of **PP**. For 12 vials up to ∅ max. 32 mm. Suitable for the storage and transportation of glass bottles, vials and sample tubs.
Dimensions: L 267 x W 102 x H 53 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CXP7.1** | 1 | 33,70 |

# Test tubes

## Durham-tubes

Made of calcium soda glass. Wall thickness 0.7 mm. With round bottom and straight edge. For detecting gas production in micro-organisms.

| Volume (ml) | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5 | 6 x 35 | **TX27.1** | 250 | 31,10 |

# Test tubes

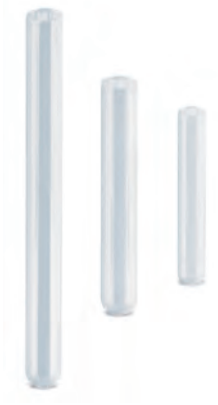
## Fluoroplastic test tubes

Made of **PFA**. Highly transparent. With or without ring mark, stopper joint made of PP or screw cap. Chemically inert to nearly all chemicals.

- Temperature resistant in the range -200 to +250 °C
- Hydrophobic and anti-adhesive, extremely smooth surfaces allow easy cleaning
- High purity, ideal for used in trace analysis and for storage of reference solutions
- No memory effect
- Autoclavable

| Type | Volume (ml) | Height (mm) | ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| With ring mark at 10 ml, with stopper joint made of PP | 12 | 110 | 16 | **YA25.1** | 1 | 40,10 |
| Without ring mark, without stopper joint | 12 | 110 | 16 | **YA26.1** | 1 | 30,75 |
| With ring mark at 10 ml, with screw cap GL 25 | 15 | 110 | 22 | **YA27.1** | 1 | 59,70 |
| Without ring mark, with screw cap GL 25 | 15 | 110 | 22 | **YA28.1** | 1 | 49,10 |



## PFA test tubes with plugs

Made of **PFA**. Highly transparent. Microwave safe. Autoclavable.

- Temperature resistant in the range -196 to +250 °C
- Inert to virtually all chemicals, including hydrofluoric and nitric acid
- High purity, low metal ion content, ideal for use in trace analysis and for the storage of highly pure substances
- No memory effect
- Hydrophobic and anti-adhesive, extremely smooth surfaces allow easy cleaning

| 15 | 16 | 150 | **K938.1** | 1000 | 104,30 |

## Disposable test tubes with edge

Made of **PS** or **PP**. Capacity 10 ml, ∅ 16 x H 100 mm.

| Type | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Cylindrical | PP | **TT73.1** | 2000 | 103,50 |
| Conical | PS | **TT74.1** | 2000 | 127,95 |

## Rubber stoppers with turn-up lip

For tight sealing of glass, plastic and metals containers with or without a flanged rim or NS.
Tight fit prevents unintentional opening. The rubber stoppers can be pierced for removal of sample and remain watertight even after being perforated several times.
Temperature stable from -20 to +100 °C.

## Silicone stoppers with turn-up lip

Ideal for impervious closure of glass, plastic or metal vessels, with or without flanged rim or NS.
Tight fit prevents unintentional opening. The silicone stoppers can be pierced for removal of sample yet remain watertight even after being perforated several times.
Temperature stable from -60 to +220 °C. Autoclavable.

# Centrifuge tubes

## Rotilabo®-centrifuge tubes

Made of highly transparent **PP**. Lid made of PE. **Sterile** or unsterile.
With printed, black graduation. Certified free of nucleases, endotoxins and metals (<1 ppm). Not cytotoxic. Temperature stability: from -80 to +122 °C.

**Without vertical lip, with white labelling area,** centrifugable (fixed angle rotor) max. 17 000 x g (15 ml-vials) resp. 20 000 x g (50 ml-vials).

| Volume (ml) | Design | ∅ x H (mm) | Packaging | Art. No. | Pack Qty. | € |

| 50 | **sterile** | 29 x 115 | 25 in a rack | **N465.1** | 500 | 160,20 |

**With vertical lip, with white labelling area,** centrifugable up to 10 000 x g

| Volume (ml) | Design | ∅ x H (mm) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 50 | unsterile | 29 x 117 | 50 in a bag | **X063.1** | 500 | 156,95 |
| 50 | **sterile** | 29 x 117 | 50 in a bag | **X064.1** | 500 | 183,85 |

## Metal Free centrifuge tubes

Made of highly pure **PP**, with white labelling area. PE lid, fitted. **Sterile**.
**Heavy metal content <1 ppb**, suitable for sample preparation and storage for trace analysis, ICP-MS and other applications which require an extremely low metal content.
Nuclease and endotoxin free, non-cytotoxic.
Temperature stable from -80 to +122 °C. Centrifugable to 12 500 x g.

| Volume (ml) | ∅ x H (mm) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|

## 50 ml centrifuge tubes

Made of optically clear **PS**, screw cap made of HDPE.
Graduated from 2.5 to 50 ml. Temperature stable from 0 to 90 °C.
Centrifugable up to 1000 x g, sterile test tubes are also suitable for storage of biological samples.

| Design | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Non-sterile, lid colour yellow | 29 x 118 | **AYY4.1** | 500 | 135,45 |
| **Sterile**, lid colour green, in rack | 29 x 118 | **AYY5.1** | 500 (20 x 25) | 235,45 |

## Oak Ridge centrifuge tubes

By Nalgene®. Made of **PC, PPCO, PSF** or **FEP**.
For **high speed centrifugation**.
For use in cooled or uncooled centrifuges up to 50 000 x g.
Before centrifuging, the tubes must be at least 80 % full and FEP tubes 100 % full.
**Please note:** screw closures with a seal are necessary for centrifuging hazardous substances or for centrifugal forces exceeding 10 000 x g.
Autoclavable. Before autoclaving, please make sure you always unscrew the lid.

Type 3115. Made of **PSF**, transparent.
Screw closure made of **PP** without seal.

| Nominal capacity (ml) | Filling capacity (ml) | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 30 | 30 | 25,7 x 94,5 | **ATC6.1** | 10 | 75,60 |
| 50 | 43 | 29,0 x 107,7 | **ATC7.1** | 10 | 91,35 |

① Type 3118. Made of **PC**, transparent.
Screw closure made of **PP** without seal.

| Nominal capacity (ml) | Filling capacity (ml) | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 10 | 10 | 16,1 x 81,7 | **PH26.1** | 10 | 59,40 |
| 28 | 28 | 25,4 x 101,8 | **PH27.1** | 10 | 63,05 |
| 30 | 30 | 25,7 x 94,5 | **PH28.1** | 10 | 63,40 |

## Salzkotten safety laboratory cans

Made of stainless steel WN 1.4571, polished, wall thickness 0.8 mm, seals made of PTFE. Laboratory cans for collecting, storing and filling flammable liquids. With fire arrester (WN 1.4401) in the filler neck. With fuse, the fuse melts at temperatures above 60 °C allowing the gas pressure to escape. Type 101 and 102 with pressure relief valve (pressure equalisation from approx. 0.3 bar).

**Type 100, with screw cap**

| Volume (l) | Height (mm) | ∅ (mm) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 1 | 210 | 110 | 560 | **ANL8.1** | 1 | 169,85 |

# Canisters

## Safety canisters

Made of stainless steel 1.4571, polished. 20-litre canister (Art. No. PC09.1), made of stainless steel 1.4301. Wall thickness 0.8 mm. Seals made of PTFE. For safe storage and decanting of flammable liquids. With removable flame arrestor in the filler. In models with a screw cap, the screw cap is secured against loss by a flexible shaft.

**With screw cap and UN-X-approved**
In compliance with GGVSEB, GGVSee, ADR, RID and IMDG Code requirements for transporting hazardous liquids. 20-litre canister (Art. No. PC09.1) also with venting screw for manual pressure relief.

| Volulme (l) | H x W x D (mm) | Weight (g) | UN approval | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 5 | 310 x 130 x 200 | 1650 | 3A1/X1.6/300 | **PC07.1** | 1 | 242,95 |
| 10 | 380 x 130 x 280 | 2500 | 3A1/X1.6/300 | **PC08.1** | 1 | 285,95 |
| 20 | 470 x 175 x 345 | 3700 | 3A1/X2.0/300 | **PC09.1** | 1 | 376,25 |

**With self-closing stopcock**
Suitable for horizontal storage, fits into most laboratory safety cabinets. With venting screw for manual pressure relief.

| Volulme (l) | H x W x D (mm) | Weight (g) | UN approval | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 5 | 310 x 130 x 200 | 1650 | without | **PC10.1** | 1 | 321,45 |
| 10 | 380 x 130 x 280 | 2500 | without | **PC11.1** | 1 | 353,70 |

## Accessories for safety canisters

**Replacement tap 1½″**
Made of stainless steel 1.4305, seals made of PTFE.
Closes automatically after use. Suitable for safety canisters with pressure equalising screw PC09.1 to PC12.1.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YE00.1** | 1 | 105,35 |

**Fine dispenser 1½″**
Made of stainless steel 1.4305, seals made of PTFE. With vent.
Suitable for safety canisters PC07.1 and PC08.1.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YE01.1** | 1 | 80,65 |

**Spout 1½″**
Made of stainless grades 1.4301 and 1.4305, seals made of PTFE.
Rotatable, suitable for all safety canisters.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YE02.1** | 1 | 77,40 |

**Replacement screw cap 1½″**
Made of stainless steel 1.4305, seals made of PTFE.
Suitable for safety canisters with UN approval PC07.1 to PC09.1.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YE03.1** | 1 | 50,55 |

**Screw cap 1½″**
Made of stainless steel 1.4305, seals made of PTFE.
With pressure relief valve, suitable for safety canisters PC10.1 to PC12.1.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YE04.1** | 1 | 58,05 |

**Funnel**
Made of stainless steel 1.4571, angled, wall thickness 0.6 mm.
Funnel-∅ 120 mm, stem-∅ 34 mm, height 120 mm, weight 350 g.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PC13.1** | 1 | 67,20 |

## Safety laboratory cans

Made of stainless steel 1.4571, polished or unpolished. Wall thickness 0.6 mm. Seals made of PTFE, grip made of powder-coated aluminium. With removable flame arrestor in the filler. In models with a screw cap, the screw cap is secured against loss by a flexible shaft.

**Polished, with screw cap and overpressure valve**

## Accessories for safety laboratory cans

**Fine dispenser 1¼″**
Made of stainless steel 1.4305, seals made of PTFE. Self-closing.
With pressure relief valve, suitable for all safety laboratory cans.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YE05.1** | 1 | 72,05 |

**Replacement screw cap 1¼″**
Made of stainless steel 1.4305, seals made of PTFE.
Suitable for safety laboratory cans with UN approval PC01.1 to PC03.1.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YE06.1** | 1 | 44,10 |

**Replacement screw cap 1¼″**
Made of stainless steel 1.4305, seals made of PTFE. With pressure relief valve, suitable for safety laboratory cans 1192.1 to 0157.1.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YE07.1** | 1 | 50,55 |

**Funnel**
Made of stainless steel 1.4571, wall thickness 0.6 mm.
Funnel-∅ 120 mm, stem-∅ 23 mm, height 120 mm, weight 300 g.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PC04.1** | 1 | 60,75 |

## Accessories:

**Moistener with pump for safety laboratory cans**
Made of stainless steel 1.4301. For economical soaking of cleaning cloths. Minimizes hazardous solvent vapours; liquid that is not required runs back into the can. Spring-mounted soaking tray.
**Delivery without** safety can, please order separately.

▶ Plastic bottles with UN approval see page 102

**Correct fit**
To determine if the different stopcocks and adapters will fit your container, please check container thread type. Plastic barrels and containers have all sorts of thread types, e.g. standardized according to DIN or manufacturer-specific threads. We'll be delighted to assist you with any containers which you purchase from us. However we do ask you to understand that we are unable to give you any information with regard to them fitting containers from other suppliers. Information on the size of the diameter is unfortunately not sufficient.

## Metal fuel canister

Made of powder-coated steel with inner coating, wall thickness 0.9 mm. With safety cap, prevents unintentional opening of the canister.
UN approval 3A1/Y/100/... for transporting petrol, diesel, E10 and other hazardous goods.

## Fluorinated canisters with draincock

By Nalgene®. Type DS 2327. Made of fluorinated **HDPE**, stopcock made of ETFE, screw cap made of fluorinated PP, thread 100 mm.
Ideal for the safe storage and dispensing of solvents or distilled water. Comes in a rectangular, space-saving design. Transparent. The fluorinated outer and inner surfaces improve the barrier properties and reduce solvent absorption and permeation. **Leakproof**. With graduation, and stainless steel handle. The 20 l-container additionally has robust handles.

| Volulme (l) | L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 9 | 216 x 146 x 343 | **E189.1** | 1 | 184,90 |
| 20 | 318 x 219 x 381 | **E190.1** | 1 | 213,95 |

## Spare stopcocks

Suitable for square canisters, flat-top canisters, carboys and fluorinated canisters. For tubes with inner-∅ 6.5-7.9 mm. **Autoclavable**.

| Material | Art. No. | Pack Qty. | € |
|---|---|---|---|

## Dual tubing olive assembly sets

For upgrading Nalgene® vacuum bottles (PK40.1 f.) or carboys with 53 mm or 83 mm screw caps.
For this purpose, two holes (∅ 10 mm for PP13.1 or ∅ 16 mm for PP14.1) must be drilled in the screw cap and those connectors fitted. Autoclavable.
For tubes with ∅ inside 6 mm or 13 mm.
53 mm screw caps only be used with 6 mm tubing olives;
83 mm screw caps with 6 mm and/or 13 mm tubing olives.

**Delivery incl.** tube connections made of **PP**, nuts made of **azetal**, **silicone** seals, caps made of **TPE**. (**Delivery without** screw caps).

| For hose with inner ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 6 | **PP13.1** | 2 | 16,50 |
| 13 | **PP14.1** | 2 | 17,10 |

# UN-bottles

## Stainless steel bottles with GL 45 thread

Made of stainless steel 1.4404. With smooth inner surface (acc. to IIIc DIN 17441) and rounded inside edges for complete drainage and easy cleaning. Temperature stable up to +500 °C, autoclavable.

- Shatterproof
- Light-impermeable
- Chemical resistant (except halogen-containing media)

① **UN approved transport bottle 1A1/X2.0/1000**

For safe transportation of hazardous and flammable liquids, for storage of high-quality materials such as fine chemicals, pharmaceuticals or cosmetic products as well as light-sensitive materials.
No additional outer packaging required, as UN-approved. Approved for the conveyance of liquids with a relative density of up to 2.0 classified into UN packaging group I, II or III as hazardous goods.

**Delivery incl.** screw cap made of stainless steel with PTFE gasket.

| Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 1500 | **AAC4.1** | 1 | 449,00 |

② **Non-UN-approved storage bottle**

For the storage of aggressive media, high-purity fine chemicals, pharmaceuticals and cosmetic products as well as light-sensitive materials.

**Delivery without** cap. Please order separately.

| Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 1500 | **AAC5.1** | 1 | 404,00 |

Accessories:

|---|---|---|---|
| Stainless steel cap with GL 45 thread and PTFE gasket | **AAC6.1** | 1 | 112,00 |

## Rotilabo®-aluminium bottles

Made of 99.5 % pure aluminium, seamlessly manufactured. For the storage and transportation of substances and retained samples. Bottles with a volume of more than 60 ml have **UN approval 1B1/X/250.** Fully drainable. Neutral odour, impervious to light, rustproof and shatterproof. Screw cap made of PP with aluminium inner gasket and tamper evident closure.

* without UN approval

# Plastic bottles, PFA/PTFE

## PFA-narrow neck bottles

Made of highly pure **PFA**. With ETFE screw cap and special lip seal for tight sealing.

For trace analysis and long-term storage of highly pure oxidants, acids and alkalis, as well as hydrocarbons, solvents and standards.

- High thermal stability from -200 to +260 °C, autoclavable
- Chemically inert and resistant to virtually all chemicals
- Good transparency and dimensional stability
- Entrainment and cross-contamination are practically eliminated by highly hydrophobic, anti-adhesive and smooth surfaces
- Long shelf life of low concentration reference solutions in PFA vessels
- Easy to clean
- No memory effect

▶ Screw caps made of PFA see page 45

## PFA-bottles

Made of **PFA**. Graduated, highly transparent, **leak-proof**. Microwave safe. Autoclavable.

- Temperature resistant in the range -196 to +250 °C
- Inert to virtually all chemicals, including hydrofluoric and nitric acid
- High purity, low metal ion content, ideal for use in trace analysis and for the storage of highly pure substances
- No memory effect
- Hydrophobic and anti-adhesive, extremely smooth surfaces allow easy cleaning

## Rotilabo®-wide neck wash bottles

Made of **LDPE**. Comes with contents label printed in three languages, danger identification mark in accordance with the GHS. Screw cap colour-coded. Non-scratch ink. Movable suction tube enables total emptying.
**Note:** The chemical resistance of the spray bottles is limited when aggressive filling media are used. The bottles should therefore be replaced regularly and not used for analytical or critical applications.

## Rotilabo®-safety wash bottles

Bottle made of **LDPE** or **PP**, screw cap and spray tube made of PP.
A pressure relief valve in the screw cap stops discharge, dripping or leakage of liquid through the spray tube, e.g. due to temperature fluctuations.
With indelible contents label in four languages (German, English, French and Spanish) and hazard warning label in accordance with GHS.
**Note:** The chemical resistance of the spray bottles is limited when aggressive filling media are used. The bottles should therefore be replaced regularly and not used for analytical or critical applications.

▶ Wide-necked jars see page 32

## Wide neck containers

By Nalgene®. Top made of **PP**. Large wide neck opening for easy filling. No rims where material can accumulate.

- Cans 125 ml to 1000 ml have a recess in the lid and are therefore stackable
- Sizes 125 ml and 250 ml are suitable for mixers with a Mason-thread

Do not use for the shipment of liquids. Autoclavable.

**PC.** Clear, shock-proof, non-toxic. Excellent for storage in refrigerators and cooling chambers. Temperature stable from -135 to +130 °C.

| Volume (ml) | ∅ (mm) | Cap ∅ (mm) | Height (mm) | Art. No. | Pack Qty. | € |

## SpecTainer™-sample vials

Made of highly transparent **PP**, screw cap made of **PE**.
**Sterile** or non-sterile. For storage or transportation of liquids, pasty and solid samples. Shatterproof, stackable and leakproof.
Tamper evident closure guarantees the safety of the contents: a security tab breaks when unscrewing the cap, indicating that the container has been opened.

Temperature stable from -90 to +100 °C. Contains no plasticisers, release agents and latex. CE marking in accordance with IVD.

**Non-sterile, lid colour yellow**

# Drying racks

## Rotilabo®-draining grids

Made of stainless steel 18/10, wire thickness 2.5 mm, frame wire 6 mm, heavy duty. Autoclavable.

| L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 440 x 310 x 20 | **YX63.1** | 1 | 28,95 |
| 470 x 310 x 22 | **YX64.1** | 1 | 31,10 |
| 590 x 390 x 26 | **YX65.1** | 1 | 38,50 |

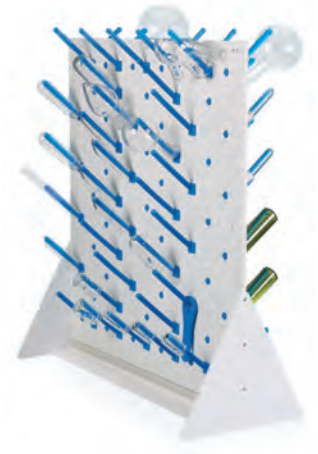
## Rotilabo®-draining mat

Made of **PP**, black, variable assembly, hole size: 2 x 2 cm, 4 mm surface clearance allows unobstructed drainage of drip water. Rugged quality. Weight 57 g. Autoclavable.

| L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 315 x 210 x 8 | **YX62.1** | 1 | 3,15 |

## Lab sink mat

Made of soft **PVC** to prevent glass breakage when washing. Round profile prevents splashing of running water. The smooth surface prevents dirt from settling. Weight of mat is sufficient to insure secure position in flowing water. An additional advantage: Magnetic rods do not slip through mesh easily into drain pipe. Dimensions: L 750 x W 450 x H 15 mm.
Width of profile 8 mm. Width of web 40 mm.



| Art. No. | Pack Qty. | € |
|---|---|---|
| **C374.1** | 1 | 64,30 |

## Rotilabo®-drying racks

Made of **PE** coated metal. Can be attached to wall or used as a stand. Come with 20 mm high drip tray and plastic caps on base feet. Dimensions: W 420 x D 170 mm.

| Design | Height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 12 pins and 11 arched pins | 300 | **N144.1** | 1 | 71,30 |

# Lab dishes and tubs

## Rotilabo®-lab dishes

Made of breakproof **PVC**. Temperature stable to +70 °C. The tray with ridges on its base is ideal for use as developing tray or for staining electrophoresis gels. Ridges prevent gels from sticking to bottom. Liquids can be poured out easily over edges of tray. The tray without ridges is ideal for general lab and storage purposes, especially when colour coding is required.

**With ridges**

**Information on the care of stainless steel**
Stainless steel is rustproof, durable, hygienic and non-toxic. Stainless steel generally has a higher resistance to corrosive media than mild steel.
**Care:** stainless steel is easy to maintain and can be cleaned either by machine or manually using mild detergents. Extraneous rust can easily be removed using a stainless steel cleaner, while lime scale deposits can be removed using acidic products (e.g. descaling agent). Do not use steel wool and avoid shock cooling after heating. Concentrated disinfectants and bleaches or diluted agents of this kind can attack stainless steel if allowed to react for a lengthy period of time. After contact with aggressive media or solids such as salts, the stainless steel must be cleaned thoroughly.

**Extraneous rost:** the passive protective layer of the stainless steel can be destroyed by base metal particles if they adhere to the surface of the stainless product.
The chemically active particles can cause the entire steel to corrode. For this reason, do not clean, use or store stainless steel together with steel or iron particles (particularly steel wool pads).

**Caution:** stainless steel is not resistant to prolonged contact with chlorides and acids.

## Glass instrument trays

Made of soda-lime glass with stainless steel lid. Autoclavable and hot air sterilisable up to +180 °C. **Note:** do not expose glass trays to abrupt changes of temperature. Trays must be heated and cooled slowly as soda-lime glass has limited thermal shock resistance.
Do not sterilise with lid attached.

# Standard ground joint flasks

## Round bottom flasks

Made of **PFA**, transparent.
- High chemical resistance
- Temperature resistant in the range -200 to +260 °C
- Hydrophobic and anti-adhesive, extremely smooth surfaces allow easy cleaning
- High purity, ideal for used in trace analysis and for storage of reference solutions
- No memory effect
- Also suitable for use in rotary evaporator as safety flask
- Autoclavable

# Standard ground joint flasks

## Round bottom flasks, PFA, centre neck NS 29/32

Made of PFA. Highly pure, chemically inert. Hydrophobic, anti-adhesive surfaces. Centre neck NS 29/32. Temperature stable from -200 to +250 °C. Transparent and pore-free, partially suitable for vacuum (e.g. 30 mbar at 50 °C).

**Single neck flasks**

| Volume (ml) | Height (mm) | Flask outer ∅ (mm) | Art. No. | Pack Qty. | € |

## Collecting flasks with PUR coating

Made of DURAN®. With spherical ground cup S 35, specially designed for rotary evaporators. Highly transparent coating provides protection from scratches, impacts and light (absorption up to approx. 380 nm). In the event of glass breakage, the coating helps contain broken glass and leakage.
Temperature stable from -30 to +140 °C. Autoclavable.

| 60/46 | **E058.1** | 5 | 19,05 |

## Rotilabo®-sealing sleeves

Made of **PTFE**, for gas-, liquid- and vacuum-tight ground glass joints. Joint rings on the outer side of the conical sleeves ensure a high vacuum-tight seal (Leakage rate <1 x $10^{-1}$ mbar l $s^{-1}$) and prevent the ground glass joints from sticking. Easy to remove with thick rim. Reusable. Practically resistant to all chemicals. Temperature stable from -200 to +260 °C. No grease necessary. Autoclavable.

| Conical ground joint (NS) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 10/19 | **C246.1** | 1 | 7,10 |
| 14/23 | **1012.1** | 1 | 8,10 |

| 24/29 | **C249.1** | 1 | 10,55 |
| 29/32 | **1013.1** | 1 | 16,25 |
| 34/35 | **C250.1** | 1 | 17,75 |
| 45/40 | **1014.1** | 1 | 23,65 |

## Rotilabo®-spherical ground glass joint sleeves

Made of **PTFE**. For gas-, liquid- and vacuum-tight ball-and-socket joints. With sealing grooves for sealing in high vacuums (leakage: <1 x $10^{-2}$ mbar l $s^{-1}$). Easy to remove and reusable. No grease necessary. Temperature stable from -200 to +260 °C. High chemical resistance. Autoclavable.

# Reducing adapters

## Rotilabo®-seals for conical ground glass joints

Made of **PTFE**. Can be used to seal the equipment and containers.
For gas-, liquid- and extremely vacuum-tight standard ground joints (Leakage rate <1 x $10^{-6}$ Pa l $s^{-1}$). Prevents seizing of joints.
Joints remain clean and free of grease. Temperature stable up to +250 °C.
Seals are wafer-thin and can be combined with joint clips. Autoclavable.
**Delivery incl.** cartridge with 50 fitted gaskets.

| for ground glass joints | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 12 | **T221.1** | 50 | 26,70 |

Material DURAN®

## Stutzer splash heads

Made of DURAN®. Straight with cone and socket.
Fits directly onto the destillation flask for droplet separation.

| Socket (ground glass) | Cone (ground glass) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 14/23 | 14/23 | **KX80.1** | 1 | 56,25 |
| 19/26 | 24/29 | **EPE8.1** | 1 | 66,40 |
| 29/32 | 14/23 | **EPE7.1** | 1 | 66,35 |
| 29/32 | 29/32 | **EE70.1** | 1 | 57,20 |

Material DURAN®

## Bubble counter

Made of DURAN®. For monitoring gas flow.
∅ 32 mm, overall height 120 mm, hose connection ∅ 8 mm.

| Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 100 | **KX54.1** | 1 | 27,05 |

## Bubble counters with ground glass joint

Made of type 3.3 borosilicate glass. For monitoring the gas flow in apparatus. Suitable for excess pressure and vacuum. With ground glass joint and GL 32 screw cap with PTFE-coated seal.
Overall height without ground joint approx. 145 mm, ∅ approx. 30 mm.
Temperature stable up to +200 °C.
**Delivery without** GL 14 connectors, please order separately for bubble counters with GL connection.

| Connections | Cone (ground glass) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Tubing connector ∅ 7-8 mm | 29 | **CEK3.1** | 1 | 137,60 |
| Threaded connection GL 14 | 29 | **CEK4.1** | 1 | 137,60 |

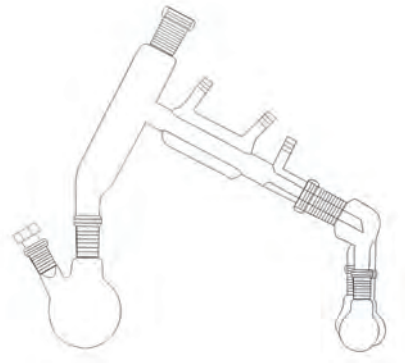
# Distillation

Material
DURAN®



## Short-path-distillation bridge

Made of DURAN®. Core and sleeve standard ground glass joint 14/23.
GL 14 coolant and vacuum connections.
**Delivery without** olive fittings and screw caps (please order separately).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **LE20.1** | 1 | 91,60 |

**Accessories:**

| | | | |
|---|---|---|---|
| Replacement plastic hose connection with silicone seal, straight, GL 14, outer- ∅ 8.6 mm | **L992.1** | 2 | 3,25 |
| Replacement screw caps, red, PBT, GL 14, hole ∅ 9.5 mm | **L993.1** | 2 | 3,40 |

## Micro distillation apparatus

Made of borosilicate glass 3.3. Compact design for loss-free condensate flow. Short-flow distilling link with socket and two ground glass cones 14/23, Liebig condenser, jacket length 70 mm and vacuum receiver.
Please order ground joint clamps and thermometer separately.
**Delivery incl.** distillation udder, 3 5 ml round bottom flasks, 50 ml double-neck flask and NS 14/23 hollow glass stopper.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AAN5.1** | 1 | 196,75 |

## Replacement parts for micro distillation apparatus

**Replacement parts**

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Short-flow distilling link | **AAN6.1** | 1 | 105,80 |
| Distillation udder without vacuum receiver | **AAN7.1** | 1 | 65,90 |
| 50-ml-double neck flask NS 14/23 | **KY13.1** | 1 | 21,15 |
| 5-ml round bottom flask NS 14/23 | **HY49.1** | 1 | 6,85 |
| Hollow glass stopper NS 14/23 | **X785.1** | 10 | 15,55 |

**Accessories:**

| | | | |
|---|---|---|---|
| Wire ground joint clamps NS 14/23 | **CE96.1** | 1 | 3,95 |
| Thermometer -10 to +250 °C | **ET05.1** | 1 | 19,30 |
| Thermometer adapter | **AK92.1** | 1 | 14,30 |

## Apparatus for the determination of etheric oils

Made of borosilicate glass 3.3. acc. to DAB. Complete distillation head with ground glass cone 29/32, Allihn cooler, vent plug NS 7/16, 1 ml measuring tube (graduated 0.01 ml) with 3 ml ball, refill/overflow funnel and Czako three-way stopcock with PTFE keys.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **XX23.1** | 1 | 282,75 |

Material
DURAN®

## Water analysis meter tubes acc. to Dean Stark

Made of DURAN®. Acc. to DIN 12420. Core and sleeve ground glass joint 29/32. With stopcock standard ground joint 14.5; bore hole ∅ 2.5 mm. Maximum measuring volume 10 ml, subdivisions 0.1 ml.
**Delivery without** condenser and flask, please order separately.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Zero point at the stopcock | **LE60.1** | 1 | 86,45 |
| Zero point above stopcock | **LE61.1** | 1 | 97,60 |
| Without stopcock, zero point at tip | **LE62.1** | 1 | 69,05 |

# Extraction

Material DURAN®

## ① Extraction heads for solids

Made of DURAN®. Core ground glass joint 29/32. The ascending vapours enter the condenser directly; the condensate flows back continuously through the extraction material into the flask.
**Delivery without** glass inserts for extraction sleeves, please order separately.

| Socket (ground glass) | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 45/40 | 70 | **LE42.1** | 1 | 88,80 |
| 45/40 | 100 | **LE43.1** | 1 | 92,20 |
| 60/46 | 250 | **LE44.1** | 1 | 133,30 |

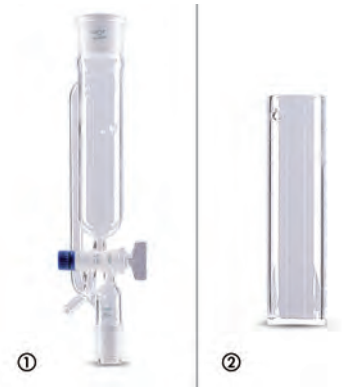
## ② Glass inserts for extraction sleeves

Made of DURAN®. For extraction adapters LE42.1ff.

| Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 70 | **LE45.1** | 1 | 33,55 |
| 100 | **LE46.1** | 1 | 35,50 |
| 250 | **LE47.1** | 1 | 41,50 |

Material DURAN®

## ① Extraction heads



Made of DURAN®. Core ground glass joint 29/32.
For extracting liquids with a particularly light extraction agent.
**Delivery without** distribution tube, please order separately.

| Socket (ground glass) | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 45/40 | 100 | **LE48.1** | 1 | 188,15 |
| 45/40 | 250 | **LE49.1** | 1 | 222,55 |
| 60/46 | 500 | **LE50.1** | 1 | 264,45 |

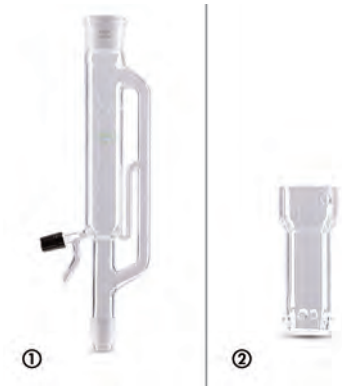
## ② Distribution tubes

Made of DURAN®. With frit porosity 0. For extraction adapters LE48.1ff.

| Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 100 | **LE51.1** | 1 | 59,65 |
| 250 | **LE52.1** | 1 | 68,35 |
| 500 | **LE53.1** | 1 | 73,15 |

Material DURAN®

## ① Thielepape extraction heads



Made of DURAN®. Core ground glass joint 29/32. With two-way stopcock ground joint 18.8 and bore hole ∅ 4 mm. For extraction of solid materials. The ascending vapours enter the condenser directly; the condensate flows back continuously through the extraction material into the flask.
**Delivery without** fritted sleeve, please order separately.

| Socket (ground glass) | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 29/32 | 30 | **LE32.1** | 1 | 124,70 |

| 180 | 18 | **PL37.1** | 1 | 29,05 |

② **With NS stopcocks.** Conforms to DIN 12616. With interchangeable NS stopcock plugs and side hose connector ∅ 6 mm. Tube inner ∅ 13 mm.

| Height (mm) | Socket (ground glass) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 125 | 14/23 | **PL38.1** | 1 | 58,35 |
| 150 | 19/26 | **PL39.1** | 1 | 79,20 |

## ① Rotilabo®-fermentation tube

Made of soda-lime glass. With 2 spheres and extension.
Overall length 200 mm, tube ∅ approx. 10-11 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CKY8.1** | 1 | 3,45 |

## ② Rotilabo®-fermentation tube

Made of borosilicate glass 3.3. With NS 29/32 ground glass joint.
Height 200 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ACL2.1** | 1 | 32,50 |

# Capillary tubes

## CFS battery capillary filling device

To quickly and safely fill melting-point determination capillaries.
Suitable for capillaries with a diameter of 1 to 1.5 mm and
a length of 60 to 100 mm.

- Lengthy stoking and tapping are no longer required,
  the capillaries are cleanly and repeatedly filled to the bottom
- No direct contact with dangerous substances
- Clear housing protects against glass breakage

**Usage:**
The capillaries are carefully inserted into the filling funnel until their open side matches the lowest point of the funnel. Insert the funnel containing the capillaries into the unit. By turning the funnel guide, the height is adjusted until the capillaries touch the bottom and the funnel overlaps the guide by a few millimetres (see figure). The funnel is filled with a spatula tip's worth of the sample, and the unit switches on. The capillaries are filled using powerful vibrations. The unit switches off automatically after 10 seconds. The filling process can be repeated as often as required.

**Note:** The samples must be dry and finely powdered.
Unit dimensions: ∅ 80 x height 140 mm.
**Delivery incl.** AC-adapter.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YT60.1** | 1 | 304,25 |

Material
DURAN®

## Thiele melting point measuring apparatus

Made of DURAN®.

**Usage:**
Fill apparatus with silicone oil. Insert a melting point capillary (outer-∅ max. 2 mm) into one of the side tubes so that the molten end touches the ball of the thermometer. The other side tube is for ventilation purposes. If the apparatus does not have side tubes, a long capillary must be inserted from above. This apparatus also has to be ventilated from above. The apparatus should be heated at the elbow to ensure a uniform rise in temperature.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Without side tubes | **TH23.1** | 1 | 39,60 |
| With side tubes | **TH24.1** | 1 | 47,45 |

## Rotilabo®-capillary tubes

Made of AR®-glass. Thin-walled, open on one side.
Length 80 mm, outer-∅ 1.35 mm, inner-∅ 0.95 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **0820.1** | 100 | 7,75 |

## Melting point capillary

By Hirschmann. Made of clear glass. Thin-walled, open at one end.

❄❄❄

## Mini-Cryo mortar with pestle

Container made of stainless steel with PE insulating jacket, reaction vial holder made of stainless steel with insulated, removable handle (L 102 mm). For filling with liquid nitrogen. Allows the homogenisation of plant material or tissue directly inside the 1.5 ml reaction vial.
Dimensions: ∅ 165 x H 114 mm.
**Delivery incl.** pestle (∅ 9 x L 127 mm) with PE handle.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CXX6.1** | 1 | 493,45 |

❄❄❄

## Cryo mortars

Container made of stainless steel with PE insulating jacket, mortar and pestle insert made of stainless steel with insulated, removable handle (L 102 mm). For filling with liquid nitrogen; cooling aids, for example, the shredding and homogenisation of plant material and similar samples.
Dimensions: ∅ 165 x H 114 mm.
Inner ∅ of mortar and pestle insert 100 mm, 48 mm deep.
**Delivery without** pestle; can be used with porcelain pestles (Art. No. 3836.1 or XL92.1), for example.

**Cryo mortar**

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CYH1.1** | 1 | 481,60 |

**Cryo mortar, replacement mortar and pestle insert (without handle)**

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CYH2.1** | 1 | 179,55 |

# Evaporating bowls

## Rotilabo®-evaporating dishes

## Evaporating dishes with snap-on lids

Made of highly transparent **PFA**, lid made of **PE**.
For contamination-free sample preparation and for transporting samples.

- Temperature resistant in the range -200 to +250 °C
- Chemically inert to nearly all chemicals
- Hydrophobic and anti-adhesive
- High purity, ideal for used in trace analysis and for storage of reference solutions
- With conical recess in base, to hold small quantities of solvent for absorption of evaporated samples
- Extremely smooth surfaces allow easy cleaning, no memory effect
- Autoclavable

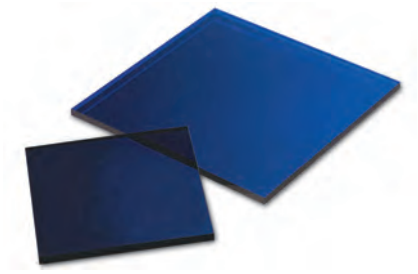
## Rotilabo®-melting crucible iron

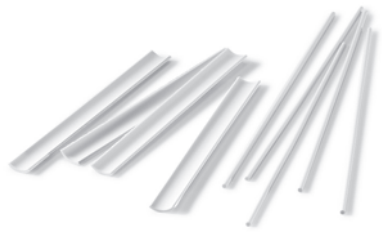
Made of iron. 2 mm wall thickness, ∅ top 48 mm, height 36 mm.
Temperature stable to +800 °C, or up to +1000 °C in the absence of oxygen.



| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Melting crucible | **8316.1** | 1 | 12,05 |
| Lid | **8317.1** | 1 | 5,05 |

## Rotilabo®-lead crucible

With lid. 3 mm wall thickness, ∅ top 40 mm, height 44 mm.
Temperature stable up to max. +200 °C.



| Art. No. | Pack Qty. | € |
|---|---|---|
| **8326.1** | 1 | 13,60 |

## Sight glasses / Cobalt glasses

Made of **cobalt glass.** With cut edges. Approx. 2.5 mm thick.

| Dimensions (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 50 x 50 | **P221.1** | 2 | 13,45 |
| 100 x 100 | **P223.1** | 2 | 28,20 |

## Magnesia scoops

For annealing and incineration of samples, as well as for the production of oxygen melts for the detection of chromium, manganese etc. and for bead tests. W 9 x L 100 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **6537.1** | 25 | 20,40 |

## Magnesia rods

Ideal for flame analysis of sodium, etc. For borax-bead analysis of cobalt. For bead tests. ∅ 1.5 x L 140 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **6543.1** | 25 | 23,15 |

▶ Lab burners see page 918

# Weighing accessories

## Rotilabo®-weighing bottles

Made of borosilicate glass 3.3. With ground glass cap and labelling space.

**Short**

| Volume (ml) | Height without cap (mm) | Standard ground glass joint | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 9 | 30 | 29/12 | **AAY7.1** | 1 | 17,50 |

| 185 | 50 | 80/12 | **ACA6.1** | 1 | 43,75 |

## Balance table

For analytical laboratories. Absorbs oscillations and vibrations which would otherwise falsify weighing results. Workbench with aluminium profile frame and height-adjustable feet. Polished marble slab (36 kg) as integrated worktop, mounted on absorbent rubber elements.
Balance plate dimensions: W 267 x D 405 x H 120 mm.
Outer dimensions fully assembled: W 770 x D 650 x H 815 mm.
Overall weight approx. 55 kg.

| Art. No. | Pack Qty. | € |

## Weighing funnels

Made of antistatic **PP**, resistant to static charge. With wide mouth for easy access. Tapered neck for use with volumetric flasks in sizes from 10 to 250 ml. Extended metering neck for direct transfer of samples and liquids to flask, ventilation slot between funnel and vessel prevents accumulation of liquid.

**Technical specifications:**

| | |
|---|---|
| Typical metering quantity | 1 mg - 5 g |
| Suitable for volumetric flasks | 5 (wide mouth), 10, 25, 50, 100 and 250 ml |
| Suitable for ground glass joints | 10/19, 12/21, 14/23 |
| Dimensions | L 75 x W 30 x H 26 mm |
| Nozzle outer ∅ | Tapered, 9-15 mm |

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CET4.1** | 50 | 89,50 |

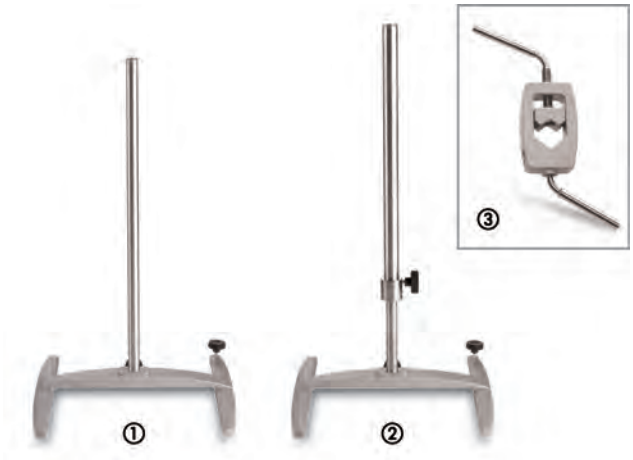
## H-stands

Suitable for large, heavy units and attachments, e.g. stirrer. With H-foot for non-tilting stand. With compensator screw for uneven workplaces.
Support rod-∅: 34 mm. Max. load: 10 kg.
Model R 2723 also comes with pressure spring telescopic support stand for smooth moving of heavy units or attachments.
Height of lift: 390 mm.

| Type | Width (mm) | Depth (mm) | Height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| R2722 | 460 | 420 | 1010 | **CC16.1** | 1 | 605,00 |
| R2723 | 460 | 420 | 620-1010 | **CC17.1** | 1 | 1123,00 |



# Material for stands

## Plate stands

With anti-slip foil on plate.The support rod is also fixed under the plate with a nut to prevent accidental removal of rod. Support rod-∅: 16 mm. Max. load: 5 kg.

| Type | Width (mm) | Depth (mm) | Height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| R1825 | 200 | 316 | 560 | **CC13.1** | 1 | 235,00 |
| R1826 | 200 | 316 | 800 | **CC14.1** | 1 | 259,00 |
| R1827 | 200 | 316 | 1000 | **CC15.1** | 1 | 281,00 |

## S2-series H-stands

**S2 and S2 XXL** models
Made of V2A. The support rod is additionally secured with a nut which prevents it from being unscrewed accidentally. Support rod ∅ 25 mm. With levelling screw. Max. weight load: 4 kg.

**Tele S2 model**
same as S2 and S2 XXL but with retractable support rod variable in length from 725 to 1025 mm. Support rod ∅ 32 mm.

| Type | Width (mm) | Depth (mm) | Height (mm) | Art. No. | Pack Qty. | € |

# Material for stands

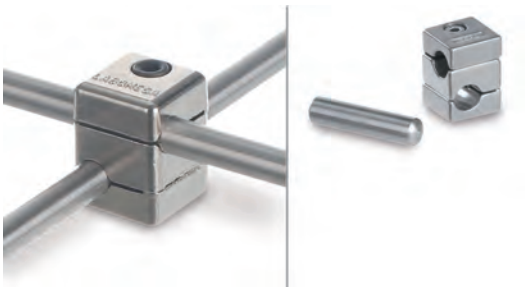
①

②

## ① Stand base

Made of Laboral (aluminium alloy). For wall/ceiling attachment.
For stand rod ∅ from 12-13 mm. Secured by socket head screw.
Base ∅ 50 mm. With three screw holes (fastening material not included).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CHE9.1** | 1 | 31,15 |



**Accessories:**

| | | | |
|---|---|---|---|
| Hexagon wrench, 4 mm AF | **CHX9.1** | 1 | 5,95 |

## ② Stand base

Made of white malleable cast iron. For wall/ceiling attachment. For up to three ∅ 12 mm stand rods. Rods are secured by slotted-head screws.
Base ∅ 80 mm. With four screw holes.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CHE8.1** | 1 | 21,85 |

## Double boss heads, square

For connecting 2 stand rods ∅ 12-13 mm at an angle of 90°.
With hexagon socket screws. Angles from 0-360° can be set by connecting two double boss heads using a connecting rod.
**Delivery without** connecting rod (please order separately).

| Material | Art. No. | Pack Qty. | € |
|---|---|---|---|
| High grade steel 18/10 | **CHX6.1** | 1 | 41,60 |
| Laboral (aluminium alloy) | **CHX7.1** | 1 | 13,10 |

| 1500 | **CHE7.1** | 1 | 37,30 |

## ① Double boss heads, rectangular

Made of malleable cast iron, chrome-plated. 90° angle.
With clamping screws.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| For rods up to ∅ 16.5 mm | **2134.1** | 1 | 10,65 |
| For rods up to ∅ 20 mm | **2135.1** | 1 | 14,80 |
| For rods with ∅ 36 mm | **2179.1** | 1 | 27,10 |

## ② Cross double boss head

Made of malleable cast iron, chrome-plated. 90/180° angle.
With clamping screws.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| For rods up to ∅ 16.5 mm | **2194.1** | 1 | 13,90 |

## ③ Double boss heads, rotatable

Made of die-cast zinc, powder-coated.
With brass clamping screws, nickel-plated.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| For rods up to ∅ 16 mm | **2136.1** | 1 | 18,80 |

## Ball sleeves

Made of die-cast zinc, with nickel-plated hinge screws. ∅ 35 mm.
For rod-∅ to 13 mm.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Powder-coated | **PH46.1** | 1 | 9,15 |
| Uncoated | **PH47.1** | 1 | 8,85 |
| Nickel-plated | **PH48.1** | 1 | 11,30 |

## Hook connectors

For stable right angle connection of rods or clamps to retort stands.
Span width 13 mm. With brass screw, nickel-plated.

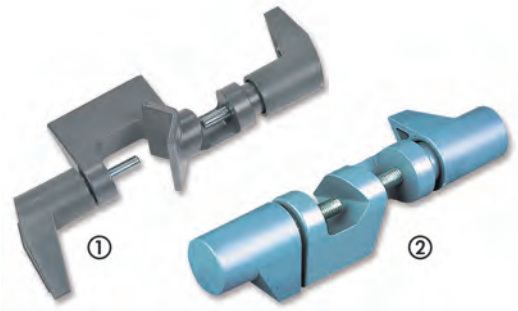
| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Powder-coated steel | **E039.1** | 1 | 9,65 |
| Rustproof stainless steel | **E040.1** | 1 | 18,25 |

## Cross sleeve 18/10

Made of stainless steel 18/10, with heart-shaped safety screws.
For stand rods up to ∅ 16,5 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **XT63.1** | 1 | 60,95 |

## ① Cross double boss head



Made of aluminium. 90° angle. With easily accessible clamping screws.
For rods up to ∅ 16.5 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **P179.1** | 1 | 11,80 |

## ② Hook boss head

Made of aluminium. 90/180° angle. With clamping screws.
For rods up to ∅ 13 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **P178.1** | 1 | 18,25 |

## Rotilabo®-burette holders

Made of die-cast zinc, nickel-plated. For rods of max. ∅ 16 mm.
Clamping width 0-40 mm.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| For 1 burette | **2048.1** | 1 | 23,40 |
| For 2 burettes | **2129.1** | 1 | 32,45 |

## Burette holders

Made of **PP**. With non-slip rubber grips and stainless steel springs.
With stand clamp for attaching to rods with ∅ 8-14 mm.
Burette stays fully readable.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| For 1 burette | **PY63.1** | 1 | 23,55 |
| For 2 burettes | **PY64.1** | 1 | 29,95 |

## Burette clamps

Made of die-cast aluminium, with roller support.
Clamping width: 0 to 20 mm.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| For 1 burette | **PH49.1** | 1 | 27,45 |
| For 2 burettes | **PH50.1** | 1 | 36,05 |

## Beaker tongs

Made of 18/10 stainless steel, Remanit 4301, with cork inserts.

| ∅ jaws (mm) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 30 | 200 | **YP93.1** | 1 | 20,65 |
| 40 | 220 | **YP94.1** | 1 | 20,95 |
| 50 | 250 | **YP95.1** | 1 | 21,45 |
| 60 | 300 | **YP96.1** | 1 | 22,05 |

## Rotilabo®-beaker tongs

Made of 18/10 steel. Jaws covered with ceramic fibres.
For ∅ 60 to 150 mm. Length 330 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **6150.1** | 1 | 25,75 |

## Rotilabo®-flask tongs

Made of 18/10 steel. Electropolished. With cork inserts.
For ∅ 15 to 60 mm. Length 230 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **6160.1** | 1 | 24,00 |

## All-purpose holding forceps Hünebeck

By Hammacher. Made of stainless steel Wironit (austenitic chrome-nickel steel with 18 % chrome and 10-12 % nickel), non-corrosive, anti magnetic, acid-resistant. Jaws ribbed on inside for better grip.
Length 195 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **HCN7.1** | 1 | 46,25 |

## All-purpose holding forceps

By Hammacher. Made of Remanit 4301 stainless steel. Inside serrated gripper jaws for better grip (production-related indentations do not influence the functionality). Autoclavable.

| Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 200 | **YL66.1** | 1 | 47,55 |
| 280 | **YL67.1** | 1 | 48,75 |

# Tongs

## Piston forceps

By Hammacher. Made of Wironit 4301 stainless steel. With cork pads.
Length 330 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YL60.1** | 1 | 65,25 |

## Crucible forceps

By Hammacher. Made of Remanit 4301 stainless steel.
Double curved, with scissor action, notched on inside. Autoclavable.

| Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 200 | **YL62.1** | 1 | 18,25 |
| 250 | **YL63.1** | 1 | 18,45 |
| 400 | **YL64.1** | 1 | 23,25 |
| 600 | **YL65.1** | 1 | 27,65 |

## Rotilabo®-flask tongs

Made of 18/8 stainless steel, plastic coated.

| Span (mm) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① 45-70 | 300 | **X100.1** | 1 | 18,10 |

| 220 | **3241.1** | 1 | 19,25 |
| 300 | **3271.1** | 1 | 19,70 |

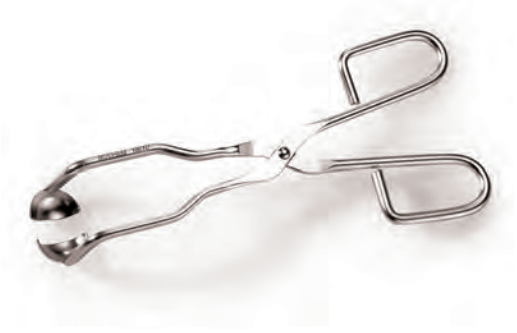
## Rotilabo®-beaker tongs

Made of 18/8 stainless steel. With PVC coating. Span width 40-100 mm.
Length 250 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **X099.1** | 1 | 13,45 |

## Rotilabo®-tongs

(Sodium tongs) stainless steel, L 350 mm, W 16 mm.



| Art. No. | Pack Qty. | € |
|---|---|---|
| **0065.1** | 1 | 17,15 |

## Cell forceps

By Hammacher. Made of Remanit 4301 stainless steel. Length 550 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YL61.1** | 1 | 45,70 |

121°C

## Rotilabo®-mercury tongs

Made of 18/10 stainless steel. Length 220 cm, weight 140 g. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **1551.1** | 1 | 17,50 |

## Rotilabo®-tube tongs

Manufactured from die-cast zinc, nickel-plated. With plastic-coated handle. Width of bit 55 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **X102.1** | 1 | 31,75 |

▶ Universal clamps see page 740

## Universal spring clamps

Made of **PA**. For powerful clamping with constant tension force. With ergonomic, antislip handle and flexible, movable soft pads. Excellent for sensitive materials such as glass plates, wood and plastics. Extremely light and handy, but with highest stability.

| Total length (mm) | Span (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 60 | 20 | **LK35.1** | 1 | 4,45 |
| 90 | 34 | **LK36.1** | 1 | 5,35 |

| 160 | 60 | **LK38.1** | 1 | 10,70 |

## Rotilabo®-clips

Made of spring steel. For DC plates, x-ray films, sheets of paper, etc. Can be hung up.

| Width (mm) | Span (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 19 | 7 | **ACY9.1** | 12 | 5,05 |
| 25 | 10 | **0826.1** | 12 | 5,85 |
| 41 | 18 | **0827.1** | 6 | 7,55 |
| 51 | 28 | **0850.1** | 6 | 11,75 |

## Labo-Clip

For quick holding of lab instruments, temperature sensors and tubes with a ∅ from 4 to 14 mm in beakers from minimum 250 ml. Plate made of foam-plastic, ∅ 55 mm, thickness 12 mm. Metal parts are corrosion protected.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **0510.1** | 1 | 30,05 |

# Weighting rings

## Rotilabo®-weights and stabilizing rings

With heavy metal core and vinyl coating. Suitable for stabilizing flasks and Erlenmeyer flasks in water baths and during stirring.

**Closed form**

| Inside ∅ (mm) | for Erlenmeyer flasks (ml) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 48 | 125-500 | 270 | **CY71.1** | 1 | 32,20 |
| 51 | 250-1000 | 500 | **CY72.1** | 1 | 34,40 |
| 57 | 500-2000 | 700 | **CY73.1** | 1 | 41,00 |
| 70 | 1000-4000 | 840 | **CY74.1** | 1 | 44,25 |

**Open form**

| Inside ∅ (mm) | for Erlenmeyer flasks (ml) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 42 | 125-500 | 200 | **CY81.1** | 1 | 35,70 |
| 51 | 250-1000 | 480 | **CY82.1** | 1 | 40,75 |
| 54 | 500-2000 | 660 | **CY83.1** | 1 | 47,95 |
| 66 | 1000-4000 | 930 | **CY84.1** | 1 | 51,85 |

## Rotilabo®-supports for beakers and flasks

Beakers or flasks are supported by 4 stainless steel clamps, then placed upright on a vinyl-coated lead ring. Ideal in waterbaths, circulation thermostats, etc. as water can circulate under the glass.

| ∅ (mm) | For cylinder (ml) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 80 | 250 | 237 | **K989.1** | 1 | 133,30 |

## Rotilabo®-weighting rings

Open. Heavy lead core covered with PVC. Prevent floating or tipping of Erlenmeyer and measuring flasks, etc. in waterbaths.

| for Erlenmeyer flasks (ml) | Inside ∅ (mm) | Weight (g) | Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| - | 20 | 95 | orange | **L075.1** | 1 | 36,05 |

## Rack for NMR-test tubes

Made of **PP**. With 72 slots and 2 side handles for easy transportation. Stability is provided by hemispherical holes in the lower level.
For NMR test tubes L 178 mm, outer ∅ 5 mm.
Dimensions: L 210 x W 110 x H 220 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YA94.1** | 1 | 52,15 |

▶ NMR-Vials an scintillation tubes see page 72

## Rotilabo®-test tube trays

Made from foam **PS**. Ideal for a large number of centrifuge tubes or test tubes. Holes are deep enough to keep test tubes, vials, etc. stable. Stackable. Extremely light. With finger recesses for easy lifting.
K828.1 is ideal for 1.5 ml vials.
Dimensions: L 218 x W 218 x H 33 mm.

| Hole ∅ (mm) | Depth of holes (mm) | No. of holes | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 8,5 | 15 | 250 | **K828.1** | 5 | 28,30 |

# Test tube racks

## Test tube racks

By Nalgene®. Made of **Resmer®**. Moulded in one piece with 3 tiers. Easy viewing of contents. With alphanumeric marking on the top and a large labelling area on the front side.
Do not float in water baths, stackable.
Temperature stable from -70 to +121 °C. Autoclavable.

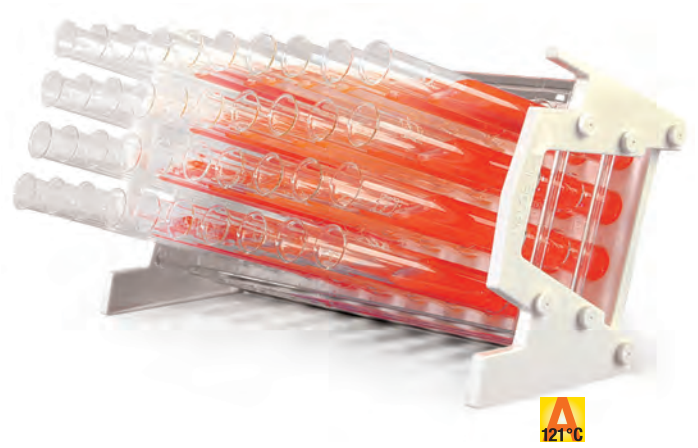
## Combined test tube racks and grid inserts

Made of **POM**. Versatile frame racks with interchangeable grid inserts.
- Grid inserts in 5 colours for different test tube sizes
- 2 different test tube sizes are possible per rack
- Fast replacement of individual grids
- 3 levels for stability
- Slip-resistant rubber feet
- Stackable

Dimensions: L 318 x W 111 x H 67 mm.
Temperature stable from -80 to +121 °C. Autoclavable.

**Combined racks**



**Delivery incl.** frame rack and a set of 4 grids.

| Colour | For test tube ∅ (mm) | Slots | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| orange | 10-13 | 84 (14 x 6) | **YA95.1** | 1 | 25,70 |

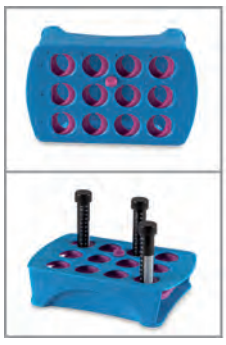
| green | 16-20 | 40 (10 x 4) | **YA97.1** | 1 | 25,70 |
| pink | 20-25 | 24 (8 x 3) | **YA98.1** | 1 | 25,70 |
| yellow | 25-30 | 12 (6 x 2) | **YA99.1** | 1 | 25,70 |

**Grid inserts**

Additional grids (combinable).



| Colour | For test tube ∅ (mm) | Slots | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| orange | 10-13 | 84 (14 x 6) | **YC00.1** | 4 | 8,90 |
| blue | 13-16 | 60 (12 x 5) | **YC01.1** | 4 | 8,90 |
| green | 16-20 | 40 (10 x 4) | **YC02.1** | 4 | 8,90 |
| pink | 20-25 | 24 (8 x 3) | **YC03.1** | 4 | 8,90 |
| yellow | 25-30 | 12 (6 x 2) | **YC04.1** | 4 | 8,90 |

## Slanted racks

By Nalgene®. Made of white **PC**, for simple and speedy preparation of angular agar with two different inclination angles.
The side supports on the rack enable on the one side the preparation of a culture medium with a 5° angle of inclination, i.e. with a steep slope and therefore with a larger surface, e.g. for aerobic cultures, and on the other side with a 20° inclination angle, i.e. with a flat slope and smaller surface, e.g. for anaerobic cultures. The 20° angle helps prevent the drying out of nutrient media during long-term storage.
Also excellent for incubating liquid tissue cultures and for use in water baths - do not float. Nutrient media tubes can be autoclaved in rack in a vertical position. With 40 alphanumerically marked holes (4x10).
Dimensions: L 285 x W 115 mm.

| For test tubes | Hole ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ∅ 15-16 mm | 17 | **E100.1** | 1 | 58,50 |
| ∅ 20 mm | 20 | **E101.1** | 1 | 58,50 |

## Universal rack for test tubes

Made of **PP**. With 12 variable-size slots, for test tube ∅ 16-30 mm.
Slots can be opened by inserting the vessels or by turning a knob.
Dimensions: L 194 x W 140 x H 51 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **NY31.1** | 1 | 47,10 |

## Pop-Up™-racks

Made of PP. For centrifuge tubes 15 and/or 50 ml. Folds up to save storage space. Easy to unfold for quick access. Numbered slots for identification of samples. Robust design.
Dimensions: L 255 x W 137 x H 72 mm, folded H 21 mm.

| for centrifuge tubes | Holes | Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 15/50 ml | 21 x ∅ 17 mm / 12 x ∅ 30 mm | blue | **PC54.1** | 2 | 31,20 |
| 15/50 ml | 21 x ∅ 17 mm / 12 x ∅ 30 mm | pink | **PC55.1** | 2 | 31,20 |
| 15 ml | 45 x ∅ 17 mm | violet | **TP22.1** | 2 | 32,20 |
| 50 ml | 18 x ∅ 30 mm | green | **TP23.1** | 2 | 32,20 |

## Rotilabo®-combi racks 4 in 1, oblong shape

Made of **PP**. Space saving and ideal for use on the laboratory bench, under a hood, in the water bath and freezer (max. -90 °C).
For centriguge tubes, test tubes, microcentrifuge tubes, PCR-tubes.
Dimensions: L 180 x W 90 x H 52 mm. Autoclavable.
Four different side can be fitted:

- Bore holes-∅ 30 mm - 4 centrifuge tubes 50 ml
- Bore holes-∅ 17 mm - 12 centrifuge tubes 15 ml
- Bore holes-∅ 11 mm - 32 centrifuge tubes 1.5/2 ml
- Bore holes-∅ 8 mm - 32 centrifuge tubes 0.5/ml

| neon yellow | **K086.1** | 1 | 17,45 |

- For autoclaving information see page 5
- Centrifuge tubes see page 83
- Microcentrifuge tubes see page 474

## Single stand for 50 ml centrifuge tubes

For tube ∅ 27.5 to 29 mm, with conical or round base.

① Made of **PS**, ∅ 92 x H 30 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TP29.1** | 5 | 20,45 |

② Made of epoxy-coated steel, autoclavable.
Dimensions: L 90 x W 67 x H 67 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TP30.1** | 1 | 15,00 |

## Puzzle racks

Made of **PP**. Double-sided, for various vial types:

- 8 reaction vials à 1.5/2 ml + 9 centrifuge tubes à 15 ml
- 4 reaction vials à 1.5/2 ml + 4 centrifuge tubes à 50 ml

Coloured individual parts (yellow, blue, green, orange) can be assembled as a larger rack.
Dimensions: L 151 x W 135 x H 66 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **NL89.1** | 4 | 47,25 |

# Combi racks

## Combi reaction vial stands

Pipetting station, individually combinable.
For reaction vials, centrifuge tubes or reagent reservoirs.

- Vials are readily visible due to cascaded design
- Inserts also suitable for use on laboratory bench or ice bath
- Dimensions of a single white station: L 260 x W 135 x H 90 mm
- Red holders allow assembly to form a combination station

Inserts temperature stable from -90 to +121 °C, autoclavable.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Set (2 stations, 6 inserts for 1.5 ml vials, 2 inserts each for 0.5 ml vials and centrifuge tubes 15 and 50 ml, 2 holders) | **EKN9.1** | 1 | 49,80 |
| Station (white) incl. holders, without inserts | **EKP0.1** | 2 | 28,00 |

## Rotilabo®-combi racks 4 in 1, cubical shape

Made of **PP**. Can be fitted together on the open sides any way you like.
For centrifuge vials, test tubes and centrifuge tubes. Autoclavable.
Dimensions: L 108 x W 108 x H 108 mm.
With four different insertion sides:

- Bore holes-∅ 30 mm - 4 centrifuge vials 50 ml
- Bore holes-∅ 17 mm - 10 centrifuge vials 15 ml
- Bore holes-∅ 13 mm - 12 test tubes ∅ 12 x L 75/100 mm
- Bore holes-∅ 12 mm - 16 centrifuge tubes 1.5/2 ml

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| sorted (blue, yellow, green, orange, pink) | **AK71.1** | 5 | 45,15 |

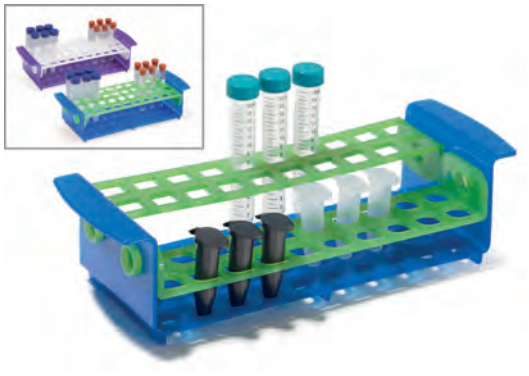
## Rotilabo®-racks, revolving

Made of **PP**. Four colored models (violet, blue, green and yellow) are connected together, can however be turned individually, thus allowing centrifuge tubes and vials of different size to be stored and transported in one rack. Autoclavable.

**Model 1 for large vials:**

- Hole-∅ 29.6 mm - 2 vials 50 ml
- Hole-∅ 16.4 mm - 8 vials 15 ml
- Hole-∅ 20.5 mm - 6 vials ∅ 16 to 20 mm
- Hole-∅ 13.5 mm - 10 vials ∅ 10 to 13 mm

Dimensions: L 112 x W 112 x H 224 mm



**Model 2 for centrifuge tubes:**

- Hole-∅ 16.4 mm - 6 centrifuge tubes 15 ml
- Hole-∅ 11.2 mm - 9 centrifuge tubes 1.5 to 2 ml
- Hole-∅ 8.0 mm - 12 centrifuge tubes 0.5 ml
- Hole-∅ 6.5 mm - 32 PCR-centrifuge tubes or 4 centrifuge tube strips at 8 tubes each

Dimensions: L 100 x W 100 x H 208 mm.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 1 | **HC25.1** | 1 | 51,10 |
| 2 | **HC26.1** | 1 | 51,10 |

# Centrifuge tube racks

## Combi racks for 5/15-ml tubes

Made of **PP**. With 40 slots, slot ∅ 17 mm for test tube ∅ bis 16 mm.

Flexible adaptation by turning the slot level:
- Upper position for 15 ml centrifuge tubes, high form
- Lower position for 5 ml reaction vials, low form

Dimensions: L 309 x W 107 x H 77 mm. Temperature-stable up to 121 °C. Autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue/green | **ENL5.1** | 1 | 36,70 |
| violet/clear | **ENL6.1** | 1 | 36,70 |

## Centrifuge tube racks 2 in 1

**Double-sided,** made of **PP**, with lid. Handy and compact size of 158 x 79 mm. With 32 holes for 0.5/0.65 ml centrifuge tubes and 8 holes for 1.5/1.7/2 ml vials on one side as well as 32 holes for 1.5/1.7/2 ml vials and 8 holes for 0.5/0.65 ml vials on the other. Hole-∅ 8 or 11 mm. Alphanumerically coded on both sides. Can be stacked. Autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Selected (orange, pink, yellow, blue, green) | **EHP2.1** | 5 | 74,30 |

## Reaction vial racks for 5 ml tubes

Made of **PP**. For 5 ml centrifuge vials as well as tubes with ∅ 13-16 mm. With side handles for transporting and stacking.
Dimensions: L 260 x W 113 x H 105 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CXP6.1** | 1 | 40,75 |

## Test tube racks, recycled

Made from recycled plastic, colour variations possible.

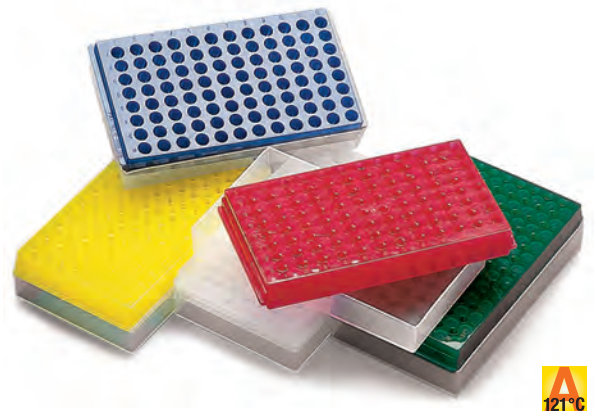
- Double-sided, with 48 or 96 alphanumerically labelled slots
- 10.5 mm slot ∅ for 1.5/2 ml reaction vials
- 7.5 mm slot ∅ for 0.5 ml reaction vials
- Large distances between the slots to ensure that screw cap vials can be opened easily
- Temperature-resistant down to -80 °C

| Slots | L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 48 | 215 x 69 x 27 | **EEC5.1** | 5 | 20,40 |
| 96 | 215 x 130 x 27 | **EEC6.1** | 5 | 37,10 |

## Rotilabo®-centrifuge tube racks

Made of **PP**, for 1.5 and 2 ml centrifuge tubes. 20 holes,∅ 10.5 mm, arranged in two levels. Large, easy-to-read numbers on the individual holes. Can be clipped together on the sides. With recessed grip for easy handling.
Dimensions: L 210 x W 90 x H 50 mm. Autoclavable.

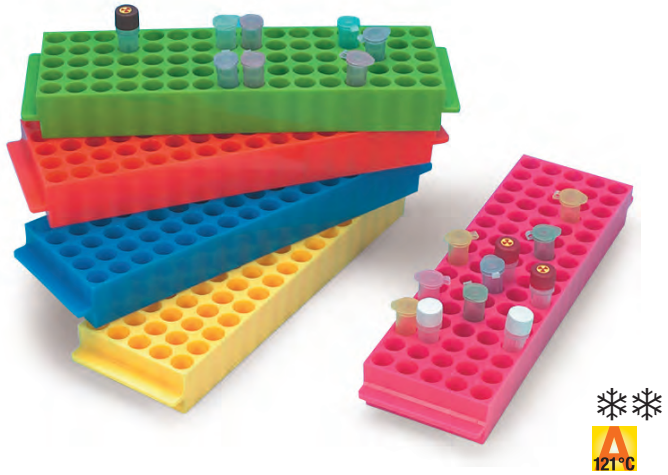
| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue | **N390.1** | 1 | 7,50 |



## Mμlti®-ultra racks

Made of **PP**. With 48 alphanumerically coded holes for centrifuge tubes with 0.65, 1.7 and 2 ml volume. Colour grey. Autoclavable.

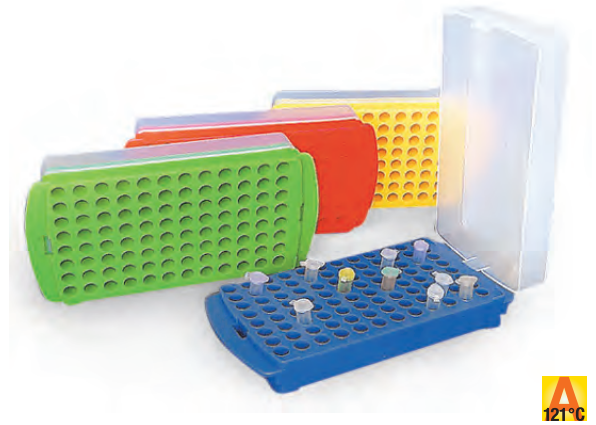
| For vials (ml) | Hole ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0.65 | 8 | **A775.1** | 1 | 22,25 |
| 1.5 / 1.7 / 2 | 11 | **A777.1** | 1 | 22,25 |



# Centrifuge tube racks

## Rotilabo®-micro-centrifuge tube racks 2 in 1

**Double-sided**, made of **PP**. There are alphnumerically coded holes for 0.5/0.65 ml or 1.5/1.7 ml centrifuge tubes. With bore holes ∅ 8 resp. 11 mm on both sides. With large spaces for labelling on all four sides of the rack and transparent lid. Autoclavable.
Dimensions: L 210 x W 115 x H 25 mm without lid/with lid 50 mm.



| Colour | Slots | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| natural | 96 (8 x 12) | **E271.1** | 1 | 28,50 |
| blue | 96 (8 x 12) | **E272.1** | 1 | 28,50 |
| green | 96 (8 x 12) | **E273.1** | 1 | 28,50 |
| red | 96 (8 x 12) | **E274.1** | 1 | 28,50 |
| yellow | 96 (8 x 12) | **E275.1** | 1 | 28,50 |

## Rotilabo®-test tube racks

Made of **PP**. With 80 numerically labelled holes in 5 x 16 array, for 1.5/2 ml centrifuge tubes as well as screw cap vials with volumes up to 2 ml. 11 mm ∅ of holes, depth 25 mm, vertically drilled. With a space for labelling. Temperature stable down to -80 °C. Autoclavable. Dimensions: L 210 x W 65 x H 27 mm.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue | **C771.1** | 1 | 7,00 |
| green | **C772.1** | 1 | 7,00 |
| orange | **C773.1** | 1 | 7,00 |
| pink | **C774.1** | 1 | 7,00 |
| yellow | **C775.1** | 1 | 7,00 |

## 2 in 1 Rotilabo®-racks for microcentrifuge tubes

**Double-sided**, made of **PP**. With 96 holes for 1.5/2 ml centrifuge tubes on one side and 96 holes for 0.5 ml centrifuge tubes on the other. Alphanumerically coded holes in a 8 x 12 array. Hole-∅ 8 or 11 mm. Transparent slip lid with latch and large labelling area.
Dimensions: L 246 x W 121 x H 25 mm without lid (with lid 50 mm). Autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| natural | **T216.1** | 1 | 12,90 |
| blue | **T217.1** | 1 | 12,90 |
| green | **T218.1** | 1 | 12,90 |

| yellow | **T220.1** | 1 | 12,90 |
| sorted (blue, green, pink, yellow, orange) | **NY18.1** | 5 | 57,00 |

## Rotilabo®-micro-centrifuge tube racks

Made of highly transparent **PS**. With 24 holes in 3 rows, for 1.5/2 ml centrifuge tubes as well as test tubes and vials up to a ∅ of 12 mm. Each row is numbered from 1 to 8. Temperature stable from -40 to +70 °C. L 155 x W 76 mm. Set consists of 4 attachable racks.

| Art. No. | Pack Qty. (set) | € |
|---|---|---|
| **P166.1** | 1 | 36,35 |

# Centrifuge tube racks

## Racks for micro-centrifuge tubes

Made of **PP**. With alphanumerically labelled holes ∅ 11 mm for 100 centrifuge tubes with 1.5 - 2 ml volume. Does not float in water. Stackable. Temperature stable from -15 to +130 °C.
Dimensions: L 265 x W 110 x H 45 mm. Autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| white | **4562.1** | 1 | 15,20 |
| blue | **4563.1** | 1 | 15,20 |
| red | **4575.1** | 1 | 15,20 |
| yellow | **4581.1** | 1 | 15,20 |

## Mini reaction vial racks 2 in 1

Made of **PP**. With 25 slots for 1.5 / 2 ml reaction vials or screw vials up to 2 ml on one side and 16 slots for 0.2 / 0.5 ml PCR vials on the other side.
Dimensions: 75 mm long x 65 mm wide x 22 mm high. Autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue | **CXN7.1** | 10 | 26,15 |
| red | **CXN8.1** | 10 | 26,15 |
| yellow | **CXN9.1** | 10 | 26,15 |

## Cryo vials rack

By Nalgene®. Made of white **PC**. The snap-in attachment in the base stops the vials from turning when opening and closing the box and also enables speedy and convenient one-hand operation. With alpha-numerical coding for easy sample identification. Rubber knobs on base prevent slipping. 50 holes in a 5 x 10 array (∅ 12.5 mm).
Dimensions: L 197 x W 102 x H 28 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **H615.1** | 1 | 43,00 |

## Racks for reaction vials with screw cap

Made of **POM**. For 50 screw top vials. Hole ∅ 10.75 mm, locking system in base as well as ribbed holes allowing single-handed opening of most standard reaction vials with screw cap and cryogenic vials. Suitable for use in a water bath, non floating, retains stability even when stored under water. Stackable. Temperature stable from -196 to +121 °C.
Dimensions: L 293 x W 115 x H 39 mm.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue | **AEN2.1** | 10 | 105,90 |
| green | **AEN3.1** | 10 | 105,90 |

▶ PCR-vials see page 472

## PCR-racks

Made of **PP**, with lid. With 96 holes ∅ 6 mm for 0.2 ml PCR-tubes. Come in standard 8 x 12 micro-titre plate array. Are therefore excellent for PCR-plates, 8 or 12 tube strips or for individual PCR-tubes. PCR-racks can be easily mounted over the 32 x 0.2 ml holes of PCR-workstation. By securing them with 4 clips, the racks can be removed or inserted easily when required.
Dimensions: L 126 x W 86 mm. Height 33 mm with lid, 11 mm without lid. Autoclavable.

| Colour | Art. No. | Pack Qty. | € |

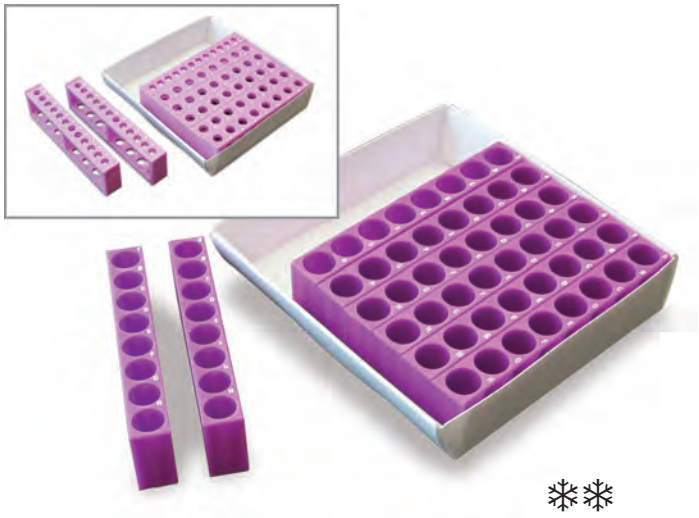
## Work2Store™ storage boxes



**Variable all-in-one rack and storage boxes:** Can be pulled apart for easy sample handling with large distances between rows.
Can be stored flat to save space.

- Alphanumeric numbering
- Stackable
- Temperature stable from -80 to +121 °C.
- Autoclavable

**Technical specifications:**

# Cryo racks

❄❄❄

## Cryo racks for cryo boxes

Made of polished stainless steel. Corrosion resistant, very robust and easy to clean. For storing cryo-boxes in freezers. With handles. Suitable for cryo boxes in sizes from 130 x 130 to 136 x 136 mm.

**① Horizontal racks for upright freezers**

| For box height (mm) | L x W x H (mm) | Compartments | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50 | 424 x 140 x 274 | 3 x 5 | **LH44.1** | 1 | 127,95 |
| 50 | 566 x 140 x 219 | 4 x 4 | **LH43.1** | 1 | 127,95 |
| 50 | 566 x 140 x 274 | 4 x 5 | **LH42.1** | 1 | 151,60 |
| 50 | 566 x 140 x 328 | 4 x 6 | **LH41.1** | 1 | 155,90 |

**② Vertical racks for chest style freezers**

| For box height (mm) | L x W x H (mm) | Compartments | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50 | 140 x 140 x 495 | 1 x 9 | **LH49.1** | 1 | 91,40 |
| 50 | 140 x 140 x 550 | 1 x 10 | **T440.1** | 1 | 89,20 |

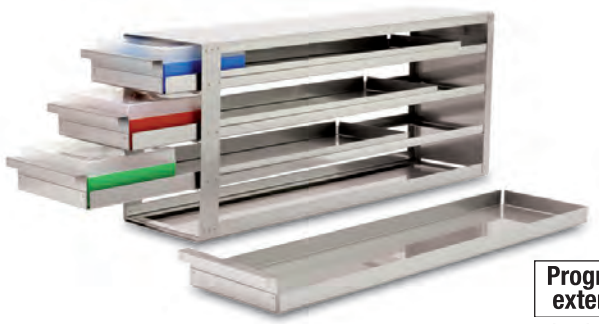
| 75-77 | 140 x 140 x 720 | 1 x 9 | **LH51.1** | 1 | 105,35 |

## Cryogenic racks for cryogenic boxes, aluminium



Made of aluminium, with carry handle. At least 30 % lighter than stainless steel racks. For the storage of cryogenic boxes in deep freezer chests or deep freezers, less effort is required for removal and insertion. Improved design for faster cooling rate. Suitable for cryogenic boxes in sizes from 130 x 130 to 136 x 136 mm.

**① Wide version for deep freezers**

| For box height (mm) | L x W x H (mm) | Compartments | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50 | 566 x 140 x 274 | 4 x 5 | **CLL6.1** | 1 | 203,20 |
| 50 | 566 x 140 x 328 | 4 x 6 | **CLL7.1** | 1 | 224,70 |

**② High version for deep freezer chests**

| For box height (mm) | L x W x H (mm) | Compartments | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50 | 140 x 140 x 550 | 1 x 10 | **CLL8.1** | 1 | 127,95 |

**Programme extension!**

❄❄❄

## Cryogenic racks for cryogenic boxes, cabinet modules

Made of stainless steel with polished surface, easy to clean. For the storage of cryogenic boxes in deep freezers, less effort is required for removal and insertion. Cabinet modules without pull-out stop. Suitable for cryogenic boxes in sizes from 130 x 130 to 136 x 136 mm.

| For box height (mm) | L x W x H (mm) | Compartments | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50 | 556 x 141 x 225 | 4 x 4 | **CLL9.1** | 1 | 148,35 |
| 50 | 556 x 141 x 280 | 5 x 4 | **CLN0.1** | 1 | 152,65 |

| 75 | 556 x 141 x 335 | 4 x 4 | **CLN3.1** | 1 | 159,10 |

❄❄❄

## Rotilabo®-stainless steel rack

Ideal for storing and transporting 6 storage boxes with 200 holes (P786.1), 12 boxes with 100 holes (N195.1ff/N200.1) or a combination of both. Very sturdy. Dimensions: L 285 x W 159 x H 439 mm. Shed heigth: 69 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **P959.1** | 1 | 263,40 |

## Rotilabo®-cryogenic boxes made of cardboard

Made of low temperature resistant cardboard. Flexible storage of cryo vials and other sample containers through variable configurations using different dividers. Also suitable for larger contains without grid dividers.
Dimensions: L 136 x W 136 mm.
**Delivery without** dividers, please order dividers separately.

**Fitting table for Rotilabo®-cryo boxes:**

| Sample vessel type | Cryobox | Divider |
|---|---|---|
| 0.5 ml reaction vial | Y054.2 / CLE8.1 | Y050.2 |
| 1.5/2 ml reaction vials | P895.3 / CLE9.1 | P900.2 |
| Cryovials up to 2 ml, internal thread | P895.3 / CLE9.1 | P900.2 |
| Cryovials up to 2 ml, external thread | P895.3 / CLE9.1 | P900.2 |

## Rotilabo®-cryo storage boxes

Made of **PP**. With **100 holes** (12.4 x 12.4 mm). For 0.5 and 1.5/2 ml centrifuge tubes and for cryo vials. Max. tube height 53.3 mm. Transparent lid with alphanumerically coded index card for speedy identification. Black box with black lid for the storage of light-sensitive samples. Stackable. Dimensions: L 140 x W 140 x H 60 mm.
Suitable for Rotilabo®-stainless steel rack P959.1.
Temperature stable from -90 to +121 °C. Autoclavable.

# Cooling racks

## Cryo-freezing device Mr. Frosty

By Nalgene®. Made of **PC**, lid and vial holder made of HDPE.
With foamed lining.
Simple application: only 100 % isopropylalcohol and a freezer are required. For 18 cryo-vials 1.2 / 2 ml. For reproducible, repeated cooling of specimens by approx. -1 °C/min. Optimal cellular yield after storage at very low temperatures. The vial holder prevents direct contact of the vials to the alcohol, the writing on the vials remains readable. The vial holder can be used additionally as a floating stand to defrost the samples in the water bath. Dimensions: H 86 x ∅ 112 mm. Lid-∅ 120 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AC96.1** | 1 | 117,20 |

## Labtop freezing boxes

By Nalgene®. Made of **PC**. For cooling heat-sensitive samples in the laboratory.

- Usable up to -20 °C (min. -40 °C)
- Protects against temperature fluctuation and power failure
- Markable grid surface on lid
- Breakproof and stackable, with non-slip feet
- With white PC lid with non-toxic gel filling or with transparent PC lid without gel filling

**Labtop box -20 °C:**
Bottom part made of blue, gel-filled PC.

**Labtop freezer boxes 0 °C:**
Bottom part made of green, gel-filled PC.

*Delivery incl. 16 adapters for remodelling the 1.5 ml holes into 0.5 ml holes for 0.5 ml tubes.

**For 12 vials (3 x 4), lid without gel filling**

## Freezing box

By Nalgene®. Made of **PC**, with non-toxic insulating liquid. Excellent for speedy and repeated cooling of samples. Can be used repeatedly for max. 45 min. Cools up to 2 ml alcohol-based solution in less than 3 min to -20 °C or up to 2 ml water-based solution in less than 4 min to 0 °C. 12 holes for 0.2 ml tubes (with adapters) to 2 ml. Holes have 3 x 4 array. Labels and markings do not dissolve as there is no direct contact between tube and dielectric liquid. Breakproof and stackable. Rubber feet on base prevent slipping. Comes with 16 adapters. Dimensions: L 151 x W 108 x H 125 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **L249.1** | 1 | 184,90 |

# Cooling racks

## Rotilabo®-cooling boxes

Double-sided, made of **PC**, for 20 centrifuge tubes 0.5 ml on one side and 20 vials 1.5 or 2 ml on the other. Ideal for cooling heat-sensitive samples on the lab benchtop. Also excellent for transporting frozen samples or as a storage box in refrigerators to protect against temperature fluctuation or power failure. Holes (∅ 8/12 mm) are alphanumerically coded on both sides. Comes with gel filling and transparent lid. Once they have been removed from the refrigerator, the boxes maintain a temperature of 0 °C (white box) for 5 hours or -15 to -20 °C (blue box) for approx. 2 hours. Dimensions of boxes (with lid): L 170 x W 110 x H 105 mm.

## Rotilabo®-ice boxes for PCR-plates

Made of **PP**. Filled with non-toxic gel filling. 96 slots ∅ 6 mm in 8 x 12 array. Ideal for cooling heat-sensitive samples on the laboratory desk.

Suitable for 0.2 ml PCR-vials, plates and centrifuge tube strips.

- Keeps the temperature at 4-7 °C for approx. 3 hours
- The rack changes its colour at approx. 7 °C
- Recommended storage temperature: -20 °C

Dimensions: with lid: L 141 x W 99 x H 44 mm,
without lid: L 141 x W 99 x H 38 mm.

| Colour change | Art. No. | Pack Qty. | € |

## Dry ice machines

To make a block of -79 °C cold dry ice
- A weight of 50 g in ~0.5 min
- A weight of 250 g in ~1 min

Multi-range unit, e.g. for lowering temperature in cooling baths or traps, precooling of tissue samples, transporting or storing biological substances, freezing blood or tissue samples, research in chemistry and physics etc.
Fits all standard short $CO_2$-gas bottles with top valve
(W 21.80 x 1/14“ acc. to DIN 477 no. 6).

**Instructions:**

Fit ice machine to $CO_2$-bottle, open valve, allow $CO_2$ to enter ice machine, close valve, open fastener and take out ice block.

**Dry ice machine for 50 g blocks**

H 30 x ∅ 50 mm.
Protuctiveness with 22 kg gas canister for approx. 90 blocks.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9282.1** | 1 | 223,60 |

**Dry ice machine for 250 g blocks**

H 60 x ∅ 80 mm.
Productiveness with 22 kg gas canister for approx. 16 blocks.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9285.1** | 1 | 289,20 |

## Cooling boxes

Made of **PP**, with isolation made of PU foam.
With hinged lid and bow handle (box 37 l with 2 side handles).
10 and 17 l boxes with loose-fit lid.

**Technical specifications:**

| Capacity (l) | L x W x H outer (mm) | Cooling power (±1 °C) | Weight (kg) |
|---|---|---|---|
| 10 | 350 x 225 x 310 | 17 h | 1.4 |
| 17 | 410 x 245 x 355 | 20.5 h | 2.1 |
| 25 | 407 x 314 x 425 | 26 h | 2.5 |
| 29 | 408 x 322 x 462 | 29 h | 2.7 |
| 37 | 550 x 349 x 407 | 32 h | 3.7 |

| 37 | **P256.1** | 1 | 67,20 |

## Thermoelectric cooler

- Operates via 230 V power supply (optional) or 12 V connector in the car
- Capacity 24 litres
- Strong PU insulation
- Secure lid
- Integrated storage compartment for the cable
- Integrated fan (39 dB) accelerates the cooling process
- Cooling capacity up to 20 °C below outside temperature,

Dimensions outside: L 407 x W 313 x H 435 mm,
inside: L 328 x W 243 x H 310 mm. Weight 3.6 kg.
**Delivery incl.** 12 V connector. Please order 230 V transformer separately.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Thermoelectric cooler | **P272.1** | 1 | 96,65 |
| Transformer | **P273.1** | 1 | 37,60 |

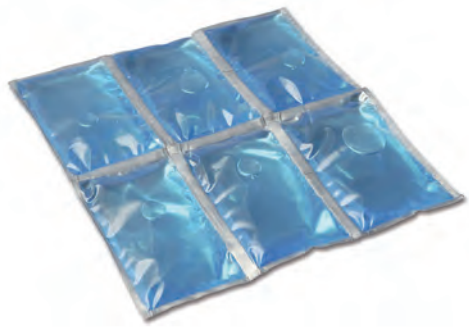
## Cooler bags Fold'N Cool™

Made of **polyester**, with PU coating on back. PEFA lining, suitable for foodstuffs, easy to clean. High-performance EPE foam insulation. Collapsible for space-saving storage. With adjustable shoulder strap, hanger loop and separate front bag.
Art. No. LP94.1 with 2 additional carry handles.

| Image | Vol. (l) | L x W x H outer (mm) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| ① | 5 | 230 x 155 x 190 | 310 | **LP95.1** | 1 | 17,20 |
| ② | 20 | 320 x 200 x 370 | 610 | **LP93.1** | 1 | 26,35 |
| ③ | 30 | 390 x 250 x 380 | 765 | **LP94.1** | 1 | 30,05 |

## Rotilabo®-cooling packs

Made of suitable for food-safe PA/PE, with gel filling.
Outstanding cooling properties. Multifunctional.



| Length (mm) | Width (mm) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|

| 600 x 240 x 18 | 12 x 3 | 600 | **LT06.1** | 10 | 64,30 |

## Insulating bags, Frozen Food Bag

Made of **PE**. With **EPE** foam insulation. Cooling capacity max 3 h.
Suitable for food.

| Volulme (l) | L x W x H outer (mm) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 19 | 500 x 465 x 7 | 110 | **LP96.1** | 10 | 38,20 |
| 26 | 585 x 475 x 7 | 120 | **LP97.1** | 10 | 44,10 |

## Rotilabo®-cooling packs

Made of environmental-friendly **PE**. Filled with coolant.
Dimensions: 169 x 75 x 19 mm. Weight 220 g each.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E447.1** | 5 | 7,00 |
| **E447.2** | 50 | 48,35 |

# Dewar containers

## Rotilabo®-cooling jacket

Insulating cooling pack in black microfibre sleeve. Maintains a temperature of 10 °C for approx. 8 hours. For cooling and keeping cool bottles with a ∅ of approx. 70-100 mm. Adapts to bottle shape.
Also suitable for angled containers.
Can be reused any number of times. Foldable for space-saving storage.
Dimensions: L 450 x W 200 mm, folded approx. L 200 x W 150 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CY97.1** | 1 | 31,10 |

## Liquid sample bags

By Nasco. Whirl-Pak®. Made of **LDPE**. **Sterile**.
Ideal for storing liquid and solid samples.

**Procedure:**

**1.** Can be opened easily by simply tearing the plastic along the perforation. The bag interior is therefore protected against contamination, as long as the bag is not used.

**2.** Practical pull-open loops enable easy opening of bag, without contact to the interior. The bag remains open when filling.

**3.** The wide-neck opening of the bag makes filling easier. Hold the bag as indicated and fill approx. 2/3 full.

**4.** The bags are closed by pulling on the outer loops.

**5.** Hold the bag at a distance and spin it at least 3 times (bag with volume >2500 ml, fold 4-5x to seal).

**6.** The bags are sealed tightly by bending the loops.

**With labelling space**

## Liquid sample bags with sponge

By Nasco. Whirl-Pak®. Made of **LDPE,** sponge and bag. **Sterile**. Speci-Sponge® for sample taking from laboratory benches, furniture, equipment and all other areas which must be tested for listeria, salmonella, *E.coli* and other pathogens. Sponge and bags are sterile. Sponge is free from bacteria and not growth-inhibiting. After "wiping" the sample, return the sponge to the bag. Add medium and if required incubate directly in the bag. Bags come with wire ties and large labelling area.
Dimensions of sponge when wet: L 76 x W 38 x H 16 mm.

| Vol. (ml) | Filling quantity (ml) | W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 540 | 360 | 115 x 230 | **T263.2** | 100 | 123,65 |
| 1650 | 1100 | 190 x 300 | **T265.2** | 100 | 170,95 |

S

## Liquid sample bags with sponge tester

By Nasco. Whirl-Pak®. Bag made of **LDPE**, material thickness 3 mm, with labelling space. **Sterile**. Stem and holder made of PP, sponge made of non-growth-inhibiting cellulose. Overall length (holder + sponge) 20.3 cm. For collecting surface samples in hard-to-reach areas.

**Procedure:**
Moisten sponge, squeeze off excess liquid, wipe across surface, place sponge back in bag. Hold stem on outside, unscrew and dispose of. Allow sponge to drop into bag and seal bag.

| Vol. (ml) | Filling quantity (ml) | W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 710 | 480 | 150 x 230 | **ACP7.1** | 50 | 124,70 |

# Homogenizing bags

## Liquid sample bags with sodium thiosulphate

By Nasco. Whirl-Pak®. Made of **LDPE**. **Sterile**. Thio-Bag® for collecting and neutralizing chlorinated water samples. Are lighter, less fragile, and more space efficient than bottles. The bag, depending on its size, contains 1 to 3 non-toxic tablets with 10 mg each of active sodium sulphate for neutralizing. With large labelling area and marking at 100/300 ml.

| Design | W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| For water samples up to 100 ml | 75 x 185 | **T259.1** | 100 | 37,95 |
| For water samples up to 300 ml | 115 x 230 | **T260.1** | 100 | 73,10 |

## Homogeniser bag stand BagOpen®

**For opening and holding bags.**
For single 400 ml bags. Self-adhesive pads adhere to the outer walls of the bag and to the side walls of the stand and hold the bag open. Reduces risk of sample contamination. Dimensions: W 80 x D 150 x H 250 mm.
**Delivery incl.** 2 adhesive pads.

| Art. No. | Pack Qty. | € |

# Foils

## PARAFILM® M

Ideal for sealing vessels, petri dishes, cells etc. High flexible (stretches up to 200 %). Clings even around irregular shapes and surfaces.

- The sealing film is free of plasticisers, and consists largely of polyolefin's and paraffin waxes
- PARAFILM® M complies with the general requirements of the FAD (Food and Drug Administration) for use under 55 °C, as well as satisfying GMP (Good Manufacturing Practice)
- PARAFILM® is resistant up to 48 hours against many polar substances, e.g. saline solutions, inorganic acids and alkaline solutions; after this period embrittlement may occur

Gas permeability in 24 hours at 23 °C with 50 % relative humidity for:
Oxygen: 350 $cm^3/m^2$
Nitrogen: 105 $cm^3/m^2$
Carbon dioxide: 1100 $cm^3/m^2$
Water vapor permeability in 24 hours at 37 °C and 90 % relative humidity for: 0.8 $g/m^2$.

**Technical specifications:**

| | |
|---|---|
| Film thickness | 120 µm |
| Temperature stability | -45 to +50 °C |
| Melting point | 60 °C |
| Elasticity | 200 % |

| Width (mm) | Length (m) | Art. No. | Pack Qty. (roll) | € |
|---|---|---|---|---|
| 50 | 75 | **H951.1** | 1 | 38,50 |
| 100 | 38 | **H666.1** | 1 | 36,50 |
| 100 | 75 | **CNP8.1** | 1 | 74,10 |

**Accessories:**

| | | | |
|---|---|---|---|
| Cutter for rolls, widths 50/100 mm | **CNP9.1** | 1 | 153,75 |

## Dura Seal®

Highly transparent stretch cling film on a LDPE-base. Ideal for covering beakers, Erlenmeyer flasks, test tubes, etc. Chemically resistant against most aliphatic, aromatic and chlorinated solvents as well as acids and alkaline solutions.

Excellent heat resistance (softening point at approx. 110 °C). Approved for microwave.

Application: Stretch the film and pull it over the container rim. The film clings automatically to the rims.

**Technical specifications:**

| | |
|---|---|
| Foil thickness | 100 µm |
| Temperature stability | up to approx. +100 °C |
| Elasticity | 500-800 % |

**Delivery** on rolls in a roll-off carton without layers of paper.

| Width (mm) | Length (m) | Art. No. | Pack Qty. (roll) | € |
|---|---|---|---|---|
| 102 | 150 | **E364.1** | 1 | 91,40 |
| 127 | 45 | **Y701.1** | 1 | 61,25 |

## Barriofilm® film

Based on vinylidene chloride, foil thickness 10 µm. With very good battery properties. Excellent for covering gel-electrophoresis plates, particularly with DNA- and RNA-sequencing gels. Foil does not stick and is easy to roll. Non-flammable, self-extinguishing High water vapour and oxygen barrier. Food-safe and microwave-safe. Temperature stable from -60 to +140 °C.
**Delivery incl.** foil cutter, in box.

| Width (mm) | Length (m) | Art. No. | Pack Qty. (roll) | € |

## Rotilabo®-aluminium foil disks

In a box, 1000 sheets separated with a layer of tissue paper. Aluminium foil 30 µm strong.

| Type | ∅ (mm) | Art. No. | Pack Qty. (box) | € |
|---|---|---|---|---|
| R 80 | 80 | **E723.1** | 1 | 52,25 |
| R 100 | 100 | **0953.1** | 1 | 64,45 |
| R 120 | 120 | **E724.1** | 1 | 83,35 |
| R 130 | 130 | **E725.1** | 1 | 92,20 |
| R 150 | 150 | **0196.1** | 1 | 105,35 |

## Foil Cover-ALLS™ aluminium foil cover

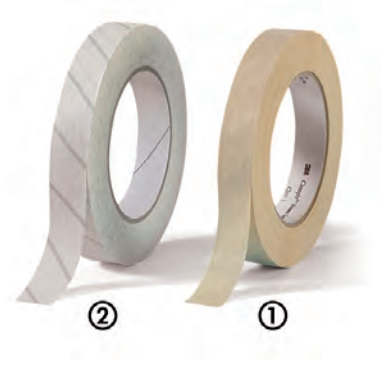
Pre-moulded aluminium foil cover, 25 µm thick.
For quick covering of various laboratory vessels. Suitable for sterilisation of Erlenmeyer flasks, beakers and measuring cylinders. Autoclavable.

| Height (mm) | Basic ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 25 | 38 | **YA87.1** | 252 | 36,55 |
| 44 | 51 | **YA89.1** | 252 | 42,90 |

## Polyfoil™ covers

Thermoplastic aluminium foils, polyester-coated. Square blanks.
Easy to fold, adapts well to surfaces. Resistant to mechanical influences.
**Resistant to most organic solvents as well as corrosive media.**
Suitable for sterilisation of laboratory vessels, incubation of cultures or temporary sterile storage of laboratory materials. FDA-compliant. Autoclavable.

| Size (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 102 x 102 | **YA90.1** | 100 | 50,00 |
| 130 x 130 | **YA91.1** | 100 | 63,45 |
| 203 x 203 | **YA92.1** | 100 | 85,95 |



## Rotilabo®-sterile indicator strips

Self-adhesive, for labelling or sealing sterilisation vessels. Labellable.
Roll length 55 m, strip width 19 mm, core inner ∅ 76 mm. Autoclavable.

① **Steam sterilisation:**
Changes colour from yellow to brown after 10 min at 121 °C
or after 2 min at 135 °C.

② **Hot air sterilisation (Poupinel method):**
The V imprint changes colour from green to brown after 30 min at 155 °C.

| Type | Art. No. | Pack Qty. (roll) | € |
|---|---|---|---|
| ① For steam sterilisation | **XC20.1** | 1 | 10,35 |
| ② For hot air sterilisation | **XC21.1** | 1 | 20,35 |

## Sterile indicator tapes

By 3M. For marking or sealing sterilisation vessels.
Labellable. Inner core ∅ 76 mm. Autoclavable.

**Technical specifications:**

| Type | ① steam sterilisation (Comply™) | ② hot air sterilisation (Indair™) |
|---|---|---|
| Specification | Changes colour from beige to dark brown after 10 min at 121 °C (after 2 min at 134 °C). Process indicator in compliance with EN ISO 11140-1:2005. | Changes colour from green to brown after approx. 30 min at 155 °C. |
| Roll length (m) | 55 | 50 |
| Strip width (mm) | 18 | 19 |

| Type | Art. No. | Pack Qty. (roll) | € |
|---|---|---|---|
| ① For steam sterilisation | **8221.1** | 1 | 17,15 |
| ② For hot air sterilisation | **H590.1** | 1 | 29,00 |

## Sterilisation monitoring

### Machine monitoring

System-independent function test for air extraction and steam penetration. Must be performed once per steriliser every day according to DIN EN 17665.
Not a direct indicator of sterilisation performance (= Performance Test).

### Treatment monitoring

Sterilisable materials are labelled with external indicators to allow differentiation between sterilisable materials and sterile materials.
This minimises the risk of using non-sterilised goods.

### Load/batch monitoring

A meaningful chemo-indicator is treated together with the load. This may be inserted in a special test piece.

### Indicator selection aid

| Monitoring step | Class* | Application | Product type | Art. No. |
|---|---|---|---|---|
| Treatment monitoring | 1 | Process indicators (treatment indicators) for differentiating between treated goods and untreated goods | Sterile indicator strips | XC20.1<br>XC21.1<br>8221.1<br>H590.1 |
| | | | Sterile indicator labels | T033.1<br>ANX6.1 |
| Machine monitoring | 2 | Indicators for daily air extraction and steam penetration testing | Bowie-Dick disposable test pack | ANX4.1 |
| Batch monitoring | 5 | Integrators for reaction to all critical variables in a series of defined sterilisation processes | SteriGage™ Integrator | ANX5.1 |

*Indicator classes according to DIN EN ISO 11140

## Comply™ indicator labels

By 3M. Simple identification labels for steam sterilisation, with treatment indicator, lead-free. Can be labelled with an indelible pen, easily removable without residues, especially from metal containers.
Dimensions: L 100 x W 25 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ANX6.1** | 500 | 192,45 |

## Comply™ SteriGage™ chemo-indicators

By 3M. Class 5 integrating indicators (integrators) for monitoring the sterilisation process within individual packaging. "Moving Front" technology ensures clear results: As the sterilisation process progresses, a dark strip forms, stopping either within the "Accept" band (pass) or within the "Reject" band (fail). The result can be read directly off the indicator without any need for interpretation. Suitable for steam sterilisation at +121 °C and +134 °C. High performance: reaction is identical to that of an bioindicator strip in the sterilisation process.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ANX5.1** | 100 | 90,85 |

## Sterile indicator label

Heat-resistant labels with sterilisation indicator field. Size 29 x 27.6 mm. Labels can be printed on either by hand or with a stamp. Colour change of indicator point from yellow to red at steam sterilisation after 5 to 10 minutes at 116 to 135 °C, depending on temperature.
Free from lead, copper and bismuth. 700 labels on roll.

| Art. No. | Pack Qty. (roll) | € |
|---|---|---|
| **T033.1** | 1 | 18,85 |

- Disposal bags with sterilisation indicator see page 705
- Data logger for autoclaves see page 804

## Indicators for autoclave monitoring

By 3M. Bowie-Dick disposable test pack. Heavy-metal-free indicators for daily air extraction and water vapour permeability test according to DIN EN 17665. Meets EN 867-1 1997, EN 867-4:2000, ISO 11140-1:1995 and ISO 11140-4:2001. Simple interpretation and fault detection through colour change from blue to pink, as well as non-reflective surface. No subsequent change of colour for safe storage and transparency of results. Reproducible.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ANX4.1** | 20 | 241,90 |

## Thermometer for autoclaves

For monitoring the temperature during autoclaving. Max. temperature is indicated by the moving red marker. Manual resetting by turn screw. Bimetallic thermometer with housing and removable base made of stainless steel, dust cap made of silicone rubber.
Watertight glass window, pressure resistant. Autoclavable.

**Technical specifications:**

| | |
|---|---|
| Measurement range | -20 to +150 °C |
| Graduations | 2 °C |
| Accuracy | ±1.5 °C |
| Dimensions | ∅ 81 x D 85 x H 95 mm |

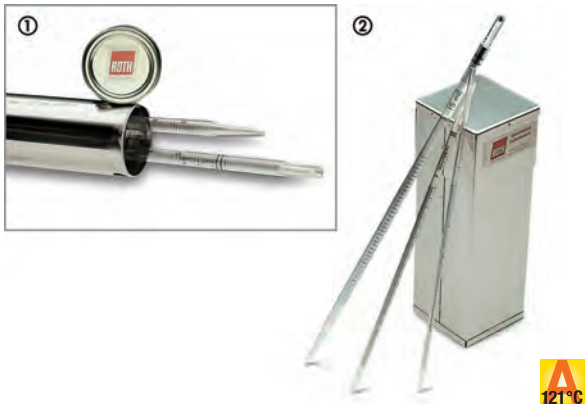
| Art. No. | Pack Qty. | € |
|---|---|---|
| **CXP0.1** | 1 | 54,65 |

## Pipette containers

Made of aluminium. For the storage of plastic pipettes and glassware between 150 and 480 mm in length, e.g. stirring bars, serological, Pasteur pipettes, volumetric pipettes and graduated pipettes. With silicone inner padding and lid for protection of the stored glass pipettes. Autoclavable.

| Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 160-200 | **CLN4.1** | 1 | 32,15 |
| 235-305 | **CLN5.1** | 1 | 37,45 |
| 315-385 | **CLN6.1** | 1 | 40,55 |
| 315-485 | **CLN7.1** | 1 | 42,80 |

## Varicon variable pipette containers



Made of aluminium. Round. Ideal for sterilising pipettes of different volume and size. Consists of two aluminium parts, which can be pushed inside each other. ∅ 60 mm.
Only one container size required for: all standard pipettes 280 to 420 mm and for all short- or Pasteur pipettes 145 to 235 mm.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Varicon RK 145-235 mm | **P978.1** | 1 | 50,45 |
| Varicon RS 280-420 mm | **P979.1** | 1 | 37,45 |

## Silicone insert

For laying in Varicon pipette container.
Prevents damage to pipettes.
Made of 2 mm thick silicone rubber. ∅ 58 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **P980.1** | 1 | 7,50 |

## Rotilabo® sterilising container for pipettes

Made of stainless steel. With silicone coated base and lid.
Sterilisable up to +205 °C.

① **Round**
The holes in the lid can be opened and closed by twisting the lid.

| Height (mm) | ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 380 | 50 | **C839.1** | 1 | 74,20 |
| 420 | 50 | **C840.1** | 1 | 74,20 |

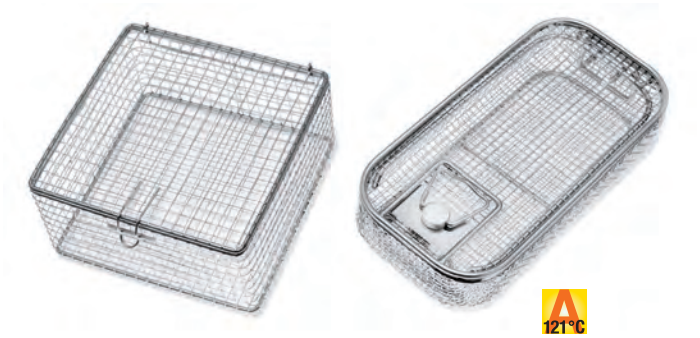
| 490 | 458 | **C872.1** | 1 | 191,35 |



## Rack for pipette containers

Made of stainless steel. With fixed tilt. Ideal for convenient storage of round and rectangular pipette containers at the workplace or in safe storage. Max. ∅ of round containers 74 mm, and max. edge length of rectangular ones 71 mm. Minimum length of containers 250 mm.

| For | W x D x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 4 containers | 195 x 235 x 229 | **P982.1** | 1 | 123,65 |
| 6 containers | 195 x 235 x 315 | **P983.1** | 1 | 127,95 |
| 8 containers | 195 x 235 x 405 | **P984.1** | 1 | 169,85 |

# Sterilisation

## Rotilabo®-sterilisation baskets

Made of stainless steel 18/10 (material 1.4301), electrolytically polished. With lid attached. Autoclavable.

| Type | L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Square | 180 x 180 x 90 | **EPA3.1** | 1 | 76,45 |
| Rectangular, with handle | 250 x 130 x 60 | **EPA4.1** | 1 | 107,00 |

## Rotilabo®-sterilisation baskets

Made of stainless steel 1.4301, electropolished. Mesh baskets spot - welded, 8 x 8 x 1 mm. Ideal for storing, transporting, cleaning and sterilising labware. Autoclavable.

## Sterilisation containers polySteribox®

Transparent special plastic, can be used for approx. 1250 sterilization cycles. **For the sterilization and storage of instruments.** Suitable for steam, gas and plasma sterilization. Hydrophobic PTFE filter stops germs and bacteria (replace after approx. 250 sterilizations, includes date insert). A sterilization mark and protective seal can be used to check the sterility of the contents. Safety seal for safe transportation. Stackable. Dishwasher safe.
Acc. to DIN 58952, 58953, EN 868-1/868-8/554, ISO 11607 and DIN EN ISO 17664 and 11137-1. CE certified. Autoclavable up to 134 °C. **Delivery incl.** PTFE filter (12-month filter, polySteribox M with permanent filter). Permanent filter set is optional. Please order separately.

# Cell culture bottles

## Plastic roller bottles

By Greiner Bio-One. Made of **PS**. **Sterile.** Graduated.
TC-surface treatment improves cell adhesion and increases the yield.
**DNase-, RNase- and human DNA-free.** Non-pyrogenic.
HDPE-screw closure available as a standard screw closure or as a filter screw closure with hydrophobic membrane (PET/PTFE) for optimal gas exchange.

| Max. filling cap. (ml) | ∅ x H (mm) | Growth surface ($cm^2$) | Screw closure | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 2550 | 122 x 271 | 850 | standard | **CE58.1** | 24 | 145,15 |
| 2100 | 122 x 271 | 850 | with filter | **CE59.1** | 24 | 159,10 |

## Suspension culture bottles with filter screw cap

By Greiner Bio-One. **Made of PS. Sterile.** Hydrophobic membrane (pore size 0.2 µm) for minimal risk of contamination and optimal gas exchange. High, angled neck reduces the risk of media contact with the inside of the screw cap and thus provides an additional layer of protection against contamination.

- Hydrophobic surface
- Ideal for suspension cultures, hybridoma cells and embryonal stem cells
- Optimal access with pipette
- Graduations and labelling space on side
- Optimal gas exchange thanks to high air flow rate of membrane
- Additional standard screw caps (without filter) in every box
- **DNase, RNase and human DNA free**
- Endotoxin free, free of cytotoxic substances

| Max. filling cap. (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 50 | **CNA6.1** | 200 (20 x 10) | 135,45 |
| 250 | **CNA7.1** | 120 (24 x 5) | 109,65 |
| 650 | **CNA8.1** | 40 (8 x 5) | 83,35 |

## Suspension culture bottles

By Greiner Bio-One. Made of **PS**. **Sterile.** With white screw cap.
Ideal for suspension cultures through strongly hydrophobic surfaces.
High, slanting bottle neck protects cap interior from contamination through medium.
Bottles are graduated on the side and have a labeling area.
**DNase-, RNase- and human DNA-free.**
Endotoxin free, free of cytotoxic substances.

| Max. filling cap. (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 50 | **CE51.1** | 200 | 135,45 |
| 250 | **CE52.1** | 120 | 136,55 |
| 650 | **CE53.1** | 40 | 92,45 |

## Cell culture bottles with filter screw cap

By Greiner Bio-One. Made of **PS**. **Sterile**. Hydrophobic membrane (pore size 0.2 µm) for minimal risk of contamination and optimal gas exchange. Angled neck reduces the risk of media contact with the inside of the screw cap and thus provides an additional layer of protection against contamination.

- Cell layers are easy to reach with the cell scraper
- Optimal access with pipette
- Graduations and labelling space on side
- Improved cell adherence through physical surface treatment
- Optimal gas exchange thanks to high air flow rate of membrane
- **DNase, RNase and human DNA free**
- Endotoxin free, free of cytotoxic substances

| Max. filling cap. (ml) | Working capacity (ml) | Growth surface ($cm^2$) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50 | 5-10 | 25 | **CE48.1** | 200 (20 x 10) | 145,15 |
| 250 | 15-38 | 75 | **CE49.1** | 120 (24 x 5) | 152,65 |

| 650 | 20-85 | 175 | **CE50.1** | 40 (8 x 5) | 93,45 |

## Tissue culture bottles

Made of **PS**. Lid made of **PE**. **Sterile**. Ideal for cultivating and storing cell cultures. Very high optical clarity. Non toxic. Bottom of bottle has been surface-treated for optimum cell growth. Slanting neck and large opening enable entire culture surface to be accessed.
**Variable closure:** Screw cap can be closed tightly for anaerobic cultures, or screwed into vent position for defined ventilation. Bottles are graduated and have a labeling area. Stackable.

| Useable area ($cm^2$) | Volume (ml) | L x W x H (mm) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 25 | 60 | 90 x 50 x 25 | 36 x 10 | **X845.1** | 360 | 378,40 |
| 75 | 270 | 150 x 85 x 35 | 20 x 5 | **X846.1** | 100 | 226,85 |
| 150 | 690 | 205 x 120 x 45 | 12 x 3 | **X847.1** | 36 | 176,30 |

## Cell culture bottles

By Greiner Bio-One. **Made of PS. Sterile.** Screw cap can be used in two positions: ventilation position or gastight cap. High, angled bottle neck reduces the risk of media contact with the inside of thecap.

- Cell layers are easy to reach with the cell scraper
- Optimal access with pipette
- Graduations and labelling space on side
- Improved cell adherence through physical surface treatment
- **DNase, RNase and human DNA free**
- Endotoxin free, free of cytotoxic substances

*With grid.

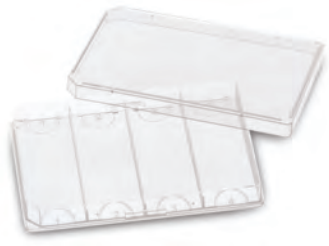
## Cell scrapers

By Greiner Bio-One. Made of **PS**. Swivel blade, made of **HDPE**, for gentle scraping of cells on difficult to reach surfaces. Individually **sterile** wrapped.

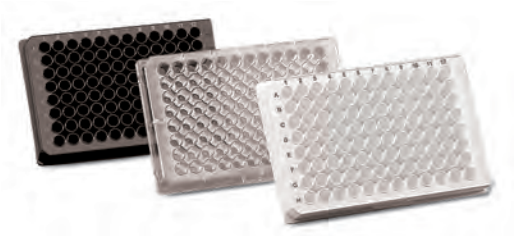


| Length (mm) | Blade width (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 280 | 18 | **CE60.1** | 100 | 226,85 |
| 400 | 18 | **CE61.1** | 100 | 262,30 |

## Cell scrapers

Made of **ABS**, blade made of flexible TPE. **Sterile**, individually packed. For cell harvesting in cell culture flasks and dishes. Swivelling movements, as well as horizontal and vertical blade rotation, enable a variety of applications and allow access to points that are difficult to reach.

| Length (mm) | Blade width (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 245 | 20 | **EKX9.1** | 100 | 79,00 |
| 385 | 30 | **EKY0.1** | 100 | 121,00 |



## FourWell Plate™ CELLSTAR®

By Greiner Bio-One. Made of **PS**. **Sterile.** Four-well plate for microscopic applications, for cultivation and processing of cells on microscope slides. Can also be used as incubation tray for blotting membranes.
Dimensions: L 127.8 x W 85.5 x H 14.4 mm (plate footprint conforms to ANSI standard).

- 4 individual chambers, each with a max. volume of 18.6 ml per well
- Numbered wells for secure sample identification
- Bevelled edges on the left-hand side of the plates serve as a guide
- Vents
- With cover panel
- **Free of detectable DNase, RNase and human DNA**
- **Free of detectable endotoxins, free of cytotoxic substances**

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CNA2.1** | 32 (4 x 8) | 117,20 |

# Cell culture plates, pans + vials

## Microtitration plates BRAND*plates*®

By Brand. Manufactured according to ANSI/SBS standards 1 to 4 - 2004 to ensure compatibility when carrying out manual processes and, in particular, automatic processes.

- 96 well standard format
- Clearly distinguishable by embossed alphanumeric colour code: grey for standard plates, blue for immunology, orange for the cell culture
- **Free of endotoxins, DNase, DNA, RNase, non-cytotoxic**

**Microtitration plates cellGrade™**

Made of **PS**.

- **Sterile** (individually packed, with cover)
- Standard plate for cultivating adherent cell cultures
- PS surface with various freely accessible chemical groups, e.g. carboxyl and hydroxyl groups
- Surface is hydrophilic (untreated PS is non-hydrophilic)
- Serum constituents are bound to the free chemical groups which allow indirect adhesion of cells

| Volume per well (µl) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 350 | transparent, F-bottom | **CNP6.1** | 50 | 131,15 |
| 350 | white, F-bottom | **XT72.1** | 50 | 246,20 |
| 350 | black, F-bottom | **XT73.1** | 50 | 246,20 |
| 330 | white, with transparent F-bottom | **XT74.1** | 50 | 600,95 |
| 330 | black, with transparent F-bottom | **XT75.1** | 50 | 600,95 |

**Microtitration plates, inertGrade™**

Made of **PS**.

- **Sterile** (individually packed, with cover)
- Suitable for cultivating suspension cell cultures
- Ideal for cell cultures if cell adhesion is to be avoided
- Optimised surface properties minimise cell binding, protein absorption, enzyme activation and cellular activation
- This allows, for example, premature differentiation of stem cells to be inhibited

| Volume per well (µl) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 330 | 96 well, transparent, U-bottom | **XT76.1** | 40 | 450,45 |
| 350 | 96 well, transparent, F-bottom | **XT77.1** | 40 | 450,45 |

**Microtiter plates pureGrade™ S**

Made of transparent **PS**. Untreated surface.

- **Sterile** (individually packed, with cover) or non-sterile
- Chimney shaped 96 well cavities, with alphanumeric labelling
- F profile (flat bottom shape) for precision optical measurements
- Sterile type is ideal for bacteriological assays
- Non-sterile type designed, in particular, for homogeneous assays, screenings and storage

| Volume per well (µl) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 350 | F-profile, **sterile** | **XT64.1** | 50 | 122,55 |
| 350 | F-profile, non-sterile | **CNP7.1** | 100 | 94,50 |

▶ For further information on Brand microtiter plates see page 464

## Cell culture plates

Made of **PS**. **Sterile** (Gamma sterilised), individually packed, with cover. Hydrophilic, negatively-charged surface through plasma treatment for uniform cell adhesion and cell growth.

- F profile (flat-shaped base)
- Optically clear for good cell visualisation
- Increased well edge reduces evaporation
- Condensation rings in the lid reduce cross-contamination
- Alphanumeric numbering
- Non-pyrogenic

| Wells | Volume per well (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 6 | 17 | **EKX5.1** | 100 | 149,00 |

| 96 | 0,39 | **EKX8.1** | 100 | 159,00 |

## Cell culture Multiwell plates

By Greiner Bio-One. Made of **PS**. **Sterile** (individually packed, cover plate for adherent cell cultures). TC-surface treated. Non-pyrogenic.
**Free of detectable DNase, RNase and human DNA. Free of detectable endotoxins, free of zytotoxic substances.** Alphanumeric well coding. F-bottom. Max. centrifuging: 4800 x g.

| Wells | Growth surface per well ($cm^2$) | Working volume per well (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 6 | 9,6 | 2-5 | **CE54.1** | 100 | 184,90 |

| 96 | 0,34 | 0,025-0,34 | **KL43.1** | 100 | 218,25 |

## Cell strainer EASYstrainer™

By Greiner Bio-One. Housing made of **PP**, filter diaphragm made of **PET**. **Sterile,** individually packed (single blister pack). For the filtration of cell suspensions and primary cell isolates, e.g. after organ digestion, for use in primary cell extraction or cell preparation for flow cytometry.

- Fits all standard 50 ml tubes
- With handle and mantle surface for improved aseptic handling
- Venting slot for rapid filtration, no overflowing of the cell strainer

Aids aseptic work: the mantle surface and handle protect against unintentional contact with the sterile filter material. The single blister pack allows for convenient and aseptic removal of the strainer. Venting slot between fitted cell strainer and tube allows the air in the tube to escape quickly during filtration and ensures that liquid does not accumulate between the strainer and the tube or that the strainer cannot overflow.

| Mesh size (µm) | Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 40 | green | **CLY9.1** | 50 | 97,40 |
| 70 | blue | **CNA0.1** | 50 | 97,40 |
| 100 | yellow | **CNA1.1** | 50 | 97,40 |

## Cell culture dishes

Made of **PS**. **Sterile** (gamma-sterilised). Optically clear for microscopy. Plasma-treated for optimal cell growth conditions, both for adherent cells and for cell suspensions. With vents to ensure optimal gas exchange. Stackable. The circular elevation on the edge prevents accidental opening of dishes during transit. Non-pyrogenic.

| Working capacity (ml) | Growth surface ($cm^2$) | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 3 | 9,4 | 35 x 10 | **PK37.1** | 500 (25 x 20) | 145,15 |

| 12,5 | 60,8 | 100 x 20 | **PK39.1** | 200 (20 x 10) | 111,80 |

## CELLreaktor™-tubes CELLSTAR®

By Greiner Bio-One. Made of **PP**, filter screw cap with PTFE-coated capillary pore filter membrane (USP Class VI certified, pore size 0.2 µm). **Sterile.** Temperature stability - tube: from -196 to +121 °C, screw cap: from -80 to +100 °C.
Tubes are autoclavable (without screw cap).

- Conical tube design facilitates direct cell harvesting
- With graduations and labelling space
- Excellent gas exchange
- Free of detectable DNase, RNase and human DNA
- Pyrogen free, non-cytotoxic

**Uses:**
- Miniaturisation of large scale test set-ups
- Maximises the number of parallel experiments
- Bioreactors for the cultivation of suspension cells and spheroid cells
- Expansion of aerobic bacteria, yeasts and micro-organisms
- Storage of substances which require gas exchange

| Volume (ml) | Max. centrifugability | Dimensions: ∅ x H (mm) |

|---|---|---|---|
| Conical bottom | **CNC4.1** | 1000 (200 x 5) | 263,40 |
| Self-standing | **CNC5.1** | 1000 (200 x 5) | 267,70 |

# Culture vials

## Culture vials

Made of AR® glass, clear. Autoclavable.
**Supplied without** screw caps (please order separately).

| Type | Volume (ml) | Outside ∅ (mm) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| Conical bottom | 15 | 16 | 125 | **EXE8.1** | 100 | 25,75 |
| Straight base | 15 | 16 | 125 | **EXE9.1** | 100 | 25,75 |

## Screw-cap closures

Made of **PP**, white, with integrated seal made of TPE, **leak-proof**.
- Extended closures, reduce risk of contamination
- Short screw thread for easy opening and closing
- Highest safety for sterilization through injected seal

Dimensions: outside ∅ 20 x L 30 mm.
Temperature stable from -10 to +121 °C. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **EXH0.1** | 100 | 34,35 |

DURAN WHEATON KIMBLE
Material DURAN®

## Culture tubes with screw caps

Made of DURAN®, with DIN-thread, screw caps made of PBT, gaskets PTFE-coated. Hot air sterilization to max. 180 °C. Autoclavable.

| Volume (ml) | Outside ∅ (mm) | Length (mm) | Thread | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 6 | 12 | 100 | GL 14 | **K248.1** | 50 | 158,00 |

## Sterile culture vials with screw cap

Made of **PS**. Cap made of **HDPE**. **Sterile**. Centrifugable to 3000 x g.
Coloured lid inserts for identification are optional (CK72.1ff). Volume 8 ml.
Dimensions: ∅ 13 x L 100 mm. Pyrogen free.
Temperature resistant in the range -80 to +80 °C.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AEL3.1** | 1000 (8 x 125) | 246,20 |

## Sterile culture vials

- Made of transparent **PS** or translucent **PP**
- With two-position **PE** closure for anaerobic and aerobic bacteria cultures
- **Sterile**
- With or without graduations and labelling space
- Available in space-saving box or economy-priced bag

| | PS vials | PP vials |
|---|---|---|
| Temperature stability | up to +70 °C | -190 to +121 °C |
| Centrifugable up to | 1400 x g | 3000 x g |

## Nutrient media bottles

By Nalgene®. Bottle made of **PETG**, screw cap made of HDPE.
**Sterile** (γ-sterilized). Square. Break-resistant and robust, transparent.
**Leakproof.** The 2 l-bottle has moulded handles to enable easier handling.
Low permeation of $CO_2$ and $O_2$ enables storage of nutrient media up to 6 months. Bottles and caps are non-pyrogenic. Sealed with a heat-shrink band sealing around cap and neck: Sterility is ensured as long as band is intact.

## Baffled Erlenmeyer flasks

By Nalgene®. Made of breakproof **PC**. Ideal as an alternative to glass flasks, with comparable growth rate for *E.coli* and *S.cerevisiae*.
The four incorporated baffles increase the mixing during trypsinizing, aeration or fermentation in cell culture or genetic engineering. Autoclavable.

* Straight neck for closing with Erlenmeyer-CAP-caps K395.1; K396.1; K397.1

| Volume (ml) | Type | Art. No. | Pack Qty. | € |

| 2000 | neck with beaded rim | **E107.1** | 1 | 50,45 |

S

## Sterile disposable Erlenmeyer flask

By Nalgene®. Made of crystal-clear **PETG**, screw-cap closures made of **HDPE**. **Sterile** (individually packed), SAL $10^{-6}$, non-pyrogenic, non-cytotoxic. With graduations. Suitable for agitation and suspension cultures, for making culture media or storage.

**Without baffles, with blue screw cap, ventilated.**
The ventilation filter made of hydrophobic PTFE membrane, pore size 0.2 µm allows sterile ventilation and reduces risk of contamination.

# Culture flasks

Material DURAN®

121 °C

## Rotilabo®-baffled flasks with straight neck

Made of DURAN®. Neck-∅ 38 mm, for Erlenmeyer CAP caps K395.1-K397.1. Flask for culture media with three integrated baffles for better mixing. Ideal for cultivating *S. cerevisiae* and aerobic bacteria cultures. Autoclavable.

*Narrow neck flask with flanged edge, cannot be used with Erlenmeyer CAP caps.

DURAN WHEATON KIMBLE

Material DURAN®

121 °C

## Erlenmeyer baffled flasks

Made of DURAN®. With diaphragm screw caps (GL 45 thread) and graduations. Four baffles on the bottom create a turbulent flow, enlarge gas exchange surface area and thus increase oxygen intake. Automated production ensures a reproducible flask geometry and consistent results. High wall thickness for tagged mechanical stability. With Retrace Code.
Temperature stable up to +140 °C. Autoclavable.

| 3 x 10 | natural | **K120.1** | 1 | 50,50 |
| 3 x 10 | red | **K121.1** | 1 | 57,00 |
| 3 x 10 | blue | **K122.1** | 1 | 57,00 |

## Rotilabo®-stands for petri dishes

For petri dishes with 100 mm ∅. Stacking height 230 mm, overall height 250 mm, inner ∅ 102 mm, outer ∅ 120 mm excl. handle, 137 mm incl. handle. Stand made of high grade steel are autoclavable.

| Material | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Steel, PE-coated (not autoclavable) | **L057.1** | 1 | 20,95 |
| High grade steel, electropolished | **L058.1** | 1 | 27,95 |

## Stand for ∅ 60 mm Petri dishes

Made of **PP**, powder coated steel base. With carry handle.
For Petri dishes with ∅ max. 60 mm. Capacity: max. 54 Petri dishes in 6 stacks. Dimensions: L 267 x W 171 x H 171 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CXP2.1** | 1 | 87,95 |

## Stands for ∅ 60 mm Petri dishes

Made of powder coated steel. For Petri dishes with ∅ max. 72 mm. Autoclavable.

| Number of Petri dishes | L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1 x 10 | 82 x 82 x 140 | **CXP3.1** | 1 | 34,35 |
| 3 x 10 | 82 x 246 x 140 | **CXP4.1** | 1 | 76,35 |

## Sealing tapes for petri dishes

Elastic, self-adhesive. As well for microtest plates, bottles, cans, etc. Excellent alternative to heat-shrinkable sleeves. Prevents water loss, gas diffusion and contamination. Waterproof and resistant to most solvents. Flexible even under low temperatures (-30 °C).
Temperature stable from -40 to +77 °C (for a short time stable to +100 °C).
Thickness 0.13 mm, width of roll 13 mm, Length of roll 33 m.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| transparent | **K427.1** | 1 | 52,60 |
| white | **K428.1** | 1 | 52,60 |
| red | **K429.1** | 1 | 52,60 |
| yellow | **K430.1** | 1 | 52,60 |
| blue | **K431.1** | 1 | 52,60 |

## Sealing tapes for petri dishes, gas permeable

Polyurethane based, elastic, self-adhesive. Ideal for cultivating aerobic bacteria, yeast cultures or plant seedlings.

- Safe sealing of Petri dishes
- Prevents contamination
- Even exchange of oxygen and carbon dioxide

Temperature stable from -80 to +100 °C.
Dimensions: L 282.58 x W 15.88 mm.

## Petri dishes, standard version

By Greiner Bio-One. Made of **PS**, transparent. **Sterile** or non-sterile. Flat stacking surfaces ensure high dimensional stability. Versatile: has a wide range of uses in microbiology and bacteriology. Ideal for microscopy.

Available in two versions:
- With vents to ensure optimal gas exchange.
- Without vents, for long incubation periods at 37 °C

**Sterile** (gamma-sterilised)

| ∅ (mm) | Height (mm) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|

▶ Further Bacterial cell spreaders see page 278

## Electroporation cuvettes

Cuvette made of **PC**, electrodes made of **aluminium**. Manufactured under clean-room conditions, individually packed. In 3 column widths, 1, 2 and 4 mm. Colour-coded lids according to column width. Compatible with most electroporation systems (Bio-Rad®, BTX®, Invitrogen®, Eppendorf and Kodak®/IBI®), and many more.

| Column width (mm) | Lid colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1 | orange | **PP38.1** | 50 | 164,50 |
| 2 | green | **PP39.1** | 50 | 164,50 |
| 4 | black | **PP40.1** | 10 | 38,55 |

## Clone cylinders

Made of **PS, sterile**. For isolating clones or for singling out cells or cell groups. Conical cylinder flared at lower edge for good contact with dish surface.

To isolate a clone, the base of the cylinder is coated with a thin grease film (e.g. sterile silicone oil) in order to ensure better sealing. The silicone side cylinder is placed over the selected clone. After adding a small quantity of Trypsin/EDTA and a short incubation period at 37 °C, the cells separate and can be transferred to other vessels.

| Size | Inside ∅ (mm) | ∅ x H (mm) | Art. No. | Pack Qty. | € |

| **Model** | **① Petriturn-M** | **② Petriturn-E** |
|---|---|---|
| Operation | manual | electric drive |
| Special features | · Strong drive and long running due to high mass of the rotary disc<br>· **Can be used on both sides** | · Non-contact operation of rotary disc via **sensor with automatic switch-off** (3 s to 2 min)<br>· Continuous operation possible |
| Foot switch-control | - | Can also be operated via foot switch (please order separately ③) |
| Suitable for petri dishes up to: | ∅ 100 mm, or to ∅ 150 mm by simply turning over | to ∅ 100 mm (Please order attachment for up to ∅ 150 mm separately ④) |
| Speed control | - | 10 to 100 $min^{-1}$, continuously variable |
| Voltage supply | - | Power unit 12 V DC / 5 VA |
| ∅ x H (mm) | 160 x 45 | 160 x 70 |

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① Petriturn-M | **N962.1** | 1 | 191,35 |
| ② Petriturn-E | **HT52.1** | 1 | 418,20 |

**Accessories:**

| | | | |
|---|---|---|---|
| ③ Foot switch (Petriturn-E) | **HT53.1** | 1 | 63,95 |
| ④ Rotary disc attachment for petri dishes ∅ 150 mm (Petriturn-E) | **HT54.1** | 1 | 63,00 |

## Hand-held colony counters

Battery-operated pen for counting and marking colonies.
- Acoustic or visual signal registers counting process
- Count up/down function
- Locking key to switch off counting function
- For counting up to 32 plates
- With totalling function

**Delivery incl.** pen, stand and battery (3 V, type: CR 1220).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KN08.1** | 1 | 315,00 |

**Accessories:**

| | | | |
|---|---|---|---|
| Spare pens, black | **KN09.1** | 12 per pack | 38,70 |
| Spare pens, sorted | **XT85.1** | 8 | 32,65 |
| Button cell battery CR 1225 (3 V) | **AEC3.1** | 1 | 5,35 |

## Colony counter SC6 PLUS

By Stuart. For fast and exact counting of bacterial colonies in Petri dishes.
- Counting is initiated by pressing down on the Petri dish with any pen
- Pressure sensitivity is individually adjustable
- Confirmation of count by audible signal (optional)
- With integrated average counter for evaluating up to 99 Petri dishes
- Optional light or dark background (dark background aids counting translucent colonies)
- With non-reflective LED lighting
- Three-digit LED display
- Connectivity to PC
- With antimicrobial BioCote® surface coating

**Technical specifications:**

| | |
|---|---|
| Digital display | 0-999 |
| Ambient temperature range | +5 to +40 °C |
| Dimensions (W x D x H) | 310 x 300 x 140 mm |
| Weight | 1.5 kg |
| Power supply | 230 V, 50 Hz |

**Delivery incl.** 2 Wolffhügel grids and 2 reducer rings (centring aids) for Petri dishes 50-90 mm in diameter, USB cable (1 m long). Please order magnifying glasses for counting microscopic colonies separately.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Colony counter SC6 PLUS | **EN38.1** | 1 | 789,00 |

**Accessories:**

| | | | |
|---|---|---|---|
| Magnifying glass, 1.7x magnification (with flexible swan neck stand) | **EN39.1** | 1 | 95,65 |
| Magnifying glass, 3x magnification (with fixed stand arm) | **EN40.1** | 1 | 115,00 |
| Clear protective covers | **EN43.1** | 5 | 76,80 |
| Replacement Wolffhügel grid | **EN41.1** | 10 | 95,00 |
| Replacement Petri dish holder | **TK07.1** | 1 | 66,00 |
| Replacement reducer rings (centring aids) | **EN42.1** | 2 | 32,70 |

## Micro pestles

Made of **PP**. For homogenising cells and tissue in reaction vials by hand or using laboratory stirrers. Length 70 mm. Autoclavable.

| For reaction vials | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0.5 ml | Standard | **CXH6.1** | 100 | 103,00 |
| 1.5 ml | Standard | **CXH7.1** | 100 | 103,00 |
| 0.5 ml | RNase/DNase-free, pyrogen free, individually packed | **CXH8.1** | 100 | 139,75 |
| 1.5 ml | RNase/DNase-free, pyrogen free, individually packed | **CXH9.1** | 100 | 139,75 |

## Quick-change chuck and pestle

Cone-shaped pestle made of autoclavable **PP**, quick change chuck made of stainless steel. Fits all standard laboratory-stirrers. Reusable.

Pestle-dimensions: Overall length 70 mm. Shaft-∅ 4.9 mm.
Cone can reduce from 6 to 2.5 mm, cone length 10 mm.

**Pestle can be changed when motor is running**:
Vessel can be held with one hand and pestle changed with the other.

Quick-change chuck suitable for all chucks that fit an 8 mm clamp.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Quick-change chuck | **P986.1** | 1 | 74,75 |
| PP-pestle | **P987.1** | 10 | 30,65 |

## Micro-homogenizers

Made of **PP**. Conical form. Autoclavable. For homogenizing cells and tissue in centrifuge tubes and test tubes. Overall length 206 mm. Shaft-∅ 5 mm. Cone can reduce from 8.2 to 2.9 mm, cone length 18 mm. Rounded base.

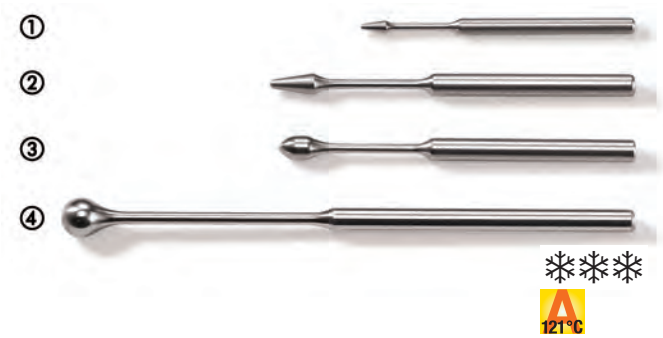
| Art. No. | Pack Qty. | € |
|---|---|---|
| **K994.1** | 6 | 24,55 |

## Rotilabo®-micro-pestle

Made of stainless steel. Ideal for homogenizing cells and tissues in 1.5 ml microcentrifuge tubes. Manufactured in one piece, no joints, no entrainment. Easy to disinfect. Minimal homogenate displacement through offset shaft. Conical shape.
Length 100 mm. ∅ of shrank 5 mm. Cones tapers from 8 to 4 mm over a length of 16 mm. Can be cooled to -196 °C. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **P985.1** | 1 | 67,75 |

## Rotilabo®-macro pestle



Made of stainless steel 1.4301. For the homogenisation of cells, tissue, foodstuffs samples and much more, manually or using laboratory stirrers. Suitable for 15 ml centrifuge tubes (e.g. Art. No. AN76.1f).

- Made from one piece and polished for a perfect fit
- Transitions are optimally designed for easy disinfection
- Tapered shank for minimal homogenate displacement
- Autoclavable

Dimensions: overall length 185 mm, handle length 100 mm. Shank ∅ 8 mm (tapering to 4.5 mm), taper ∅ 12 mm (tapering to 4 mm). Weight 60 g.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **NH32.1** | 1 | 41,85 |

# Homogenisers and pestles

## Rotilabo®-micro pestles

Made of stainless steel 1.4301. For homogenising cells, tissue, foodstuff samples and much more in reaction vials or reagent test tubes manually or using laboratory stirrers. Tailored from a single block and polished, perfect transitions, easy to disinfect. Tapered shank for minimal homogenate displacement. Autoclavable.

**Technical specifications:**

| For vessels | Overall length (mm) | Handle length (mm) | Stem length (mm) | Taper length (mm) | Weight (g) |
|---|---|---|---|---|---|
| **0.5 ml** | 94 | 60 | 26.3 (tapered from 6.0 to 3.0) | 10 (tapered from 6.0 to 2.9) | 16 |
| **1.5 ml** | 124 | 69 | 40 (tapered from 7.9 to 3.5) | 17 (tapered from 7.9 to 3.5) | 34 |
| **2.0 ml** | 120 | 67 | 40 (tapered from 8.0 to 3.5) | 11.2 (tapered from 8.6 to 1.7) | 35 |
| **13 ml** | 190 | 100 | 75 (tapered from 8.0 to 4.4) | 10 (round head, ∅ 15 mm) | 60 |

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① For 0.5 ml vessels | **YE13.1** | 1 | 31,55 |
| ② For 1.5 ml vessels | **YE14.1** | 1 | 34,10 |
| ③ For 2.0 ml vessels | **YE15.1** | 1 | 35,95 |
| ④ For 13 ml vessels | **YE16.1** | 1 | 40,45 |

## Homogenisers

Made of borosilicate glass.
Distance between mortar and pestle: 0.15 to 0.25 mm.

| Effective capacity (ml) | Inner ∅ (mm) | Height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2 | 8 | 120 | **TT57.1** | 1 | 30,00 |
| 5 | 12 | 135 | **TT58.1** | 1 | 33,45 |
| 10 | 15 | 150 | **TT59.1** | 1 | 35,60 |
| 15 | 16 | 155 | **TT60.1** | 1 | 36,90 |
| 30 | 25 | 175 | **TT61.1** | 1 | 42,80 |
| 50 | 32 | 195 | **TT62.1** | 1 | 51,10 |

## Pestles for homogenisers

Head made of **PTFE**, rod made of stainless steel.
Grooves on the lower edge. Rod ∅ 6.5 mm.

| Effective capacity (ml) | Height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 2 | 230 | **TT63.1** | 1 | 21,10 |
| 5 | 235 | **TT64.1** | 1 | 21,65 |
| 10 | 270 | **TT65.1** | 1 | 22,25 |
| 15 | 270 | **TT66.1** | 1 | 28,20 |
| 30 | 270 | **TT67.1** | 1 | 33,00 |
| 50 | 270 | **TT68.1** | 1 | 42,80 |

## Micro-tissue grinders

Made of borosilicate glass. With pestle. For pulverizing and homogenizing minute amounts, e.g. in histology. Autoclavable.

| Type | Height (mm) | Inside ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| G 1, 10 - 25 µl | 30 | ~4 | **0296.1** | 1 | 96,25 |
| G 2, 25 - 100 µl | 40 | ~6 | **0297.1** | 1 | 96,25 |
| G 3, 100 - 1000 µl | 50 | ~8 | **0298.1** | 1 | 96,25 |

## Micro-blenders

By Wheaton. Made of Wheaton typed 33 borosilicate glass.
High product yield due to smaller friction area. For single use, prevents cross-contamination, e.g. when handling radioactive samples.

| Volume (ml) | Inner ∅ (mm) | Length (mm) | Total length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 0,75 | 8 | 44 | 88 | **HLC0.1** | 25 | 219,30 |

- ▶ Homogenizers see page 1035
- ▶ Laboratory stirrers see page 1023

# Homogenisers and pestles

## Potter-Elvehjm homogenisers

Made of glass. For gentle disruption of soft tissue, e.g. for the extraction of cell organelles. Suitable for motor drive by laboratory stirrers.
Distance between mortar and pestle: 0.1 to 0.15 mm.

| Size | Volume (ml) | Pestle L x ∅ (mm) | Mortar L x ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 19 | 1 | 145 x 5 | 95 x 13 | **CXH1.1** | 1 | 113,45 |
| 21 | 5 | 205 x 6 | 140 x 16 | **CXH2.1** | 1 | 89,80 |
| 22 | 8 | 215 x 8 | 150 x 18 | **CXH3.1** | 1 | 100,30 |
| 23 | 17 | 265 x 10 | 175 x 25 | **CXH4.1** | 1 | 103,85 |
| 24 | 45 | 315 x 10 | 220 x 32 | **CXH5.1** | 1 | 111,30 |

## Dounce homogenisers

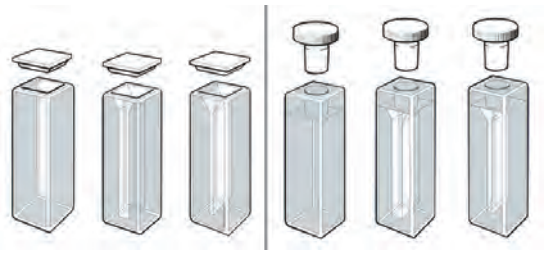
Made of glass. For grinding of cellular material while preserving the cell nucleus.
**Delivery incl.** two pestles, pestle A for coarse grinding, pestle B for fine grinding.

| Volume (ml) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5 | 37 | **CXC8.1** | 1 | 134,95 |
| 1 | 88 | **CXC9.1** | 1 | 134,95 |
| 2 | 60 | **CXE0.1** | 1 | 156,45 |
| 7 | 125 | **CXE1.1** | 1 | 150,30 |
| 15 | 157 | **CXE2.1** | 1 | 154,40 |
| 40 | 215 | **CXE3.1** | 1 | 150,50 |
| 100 | 232 | **CXE4.1** | 1 | 367,65 |

## Micro-blender acc. to Potter-Elvehjem

By Wheaton. Made of Wheaton typed 33 borosilicate glass. Micro-size for extremely precise work, reservoir and lip for pouring out the micro-sample. Can be autoclaved and sterilized to prevent cross-contamination.
Gap between pestle and vial: 0.1-0.15 mm.

| Usable volume (l) | Mortar L x ∅ (mm) | Total length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,1 | 65 x 4 | 110 | **HLC1.1** | 1 | 84,40 |



## Dual homogenisers

Made of glass.With tapered and cylindrical areas, for effective grinding and consistent homogenisation of tissue. Ideal for cellular tissue such as muscle, heart and lungs.
Distance between mortar and pestle: 0.1 to 0.15 mm.

| Volume (ml) | Pestle L x ∅ (mm) | Mortar L x ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1 | 155 x 4,5 | 80 x 13 | **CXE5.1** | 1 | 128,90 |
| 3 | 210 x 6 | 120 x 16 | **CXE6.1** | 1 | 128,90 |
| 5 | 228 x 6 | 150 x 18 | **CXE7.1** | 1 | 128,90 |
| 15 | 268 x 6 | 175 x 25 | **CXE8.1** | 1 | 146,20 |
| 30 | 305 x 10 | 215 x 32 | **CXE9.1** | 1 | 155,90 |
| 50 | 330 x 10 | 225 x 38 | **CXH0.1** | 1 | 197,80 |

# Cuvettes / Cuvette racks

## Rotilabo®-precision glass cuvettes

Made of special optical glass or UV-permeable quartz glass.
Supplied either with PTFE-seamed lid or liquid tight PTFE-stopper.

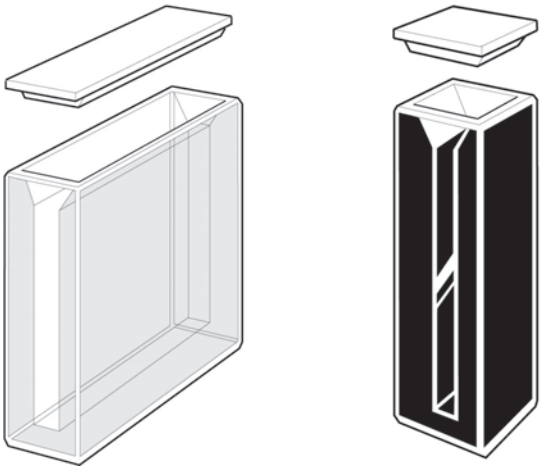
- Gauged spectral
- 10 mm thick, tolerance ±0.01 mm
- 2 polished sides
- Transmission ≥80 %

Dimensions:
Model, double seam lid: L 12.5 x W 12.5 x H 45 mm
Model, stopper: L 12.5 x W 12.5 x H 48 mm

Passband:

- Special-purpose optical glass: 320 - 2500 nm
- Spectrosil®-quartz glass 190 - 2700 nm

**Macro**, capacity 3.5 ml, inner width 10 mm



| Type | Cover | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Optical special-purpose glass | seamed lid | **X851.1** | 1 | 42,60 |
| Optical special-purpose glass | stopper | **Y030.1** | 1 | 82,10 |
| Quartz glass | seamed lid | **X852.1** | 1 | 82,25 |
| Quartz glass | stopper | **Y031.1** | 1 | 135,45 |

**Semi-micro,** capacity 1.4 ml, inner width 4 mm

| Type | Cover | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Optical special-purpose glass | seamed lid | **X853.1** | 1 | 65,35 |
| Optical special-purpose glass | stopper | **Y032.1** | 1 | 112,90 |
| Quartz glass | seamed lid | **X854.1** | 1 | 118,25 |
| Quartz glass | stopper | **Y033.1** | 1 | 167,70 |

**Micro,** capacity 0.7 ml, inner width 2 mm

| Type | Cover | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Optical special-purpose glass | seamed lid | **X855.1** | 1 | 72,95 |
| Optical special-purpose glass | stopper | **Y034.1** | 1 | 124,70 |
| Quarz glass | seamed lid | **X856.1** | 1 | 126,85 |
| Quarz glass | stopper | **Y035.1** | 1 | 170,95 |

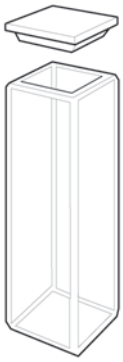
## Rotilabo®-precision glass cells

Made of special optical glass. With PTFE seamed lid.

- Spectrally calibrated
- Layer thickness 50 mm, tolerance ±0.02 mm
- Two polished sides
- Transmission ≥80 %

Dimensions: L 52.5 x W 12.5 x H 45 mm.
UV transmittance range: 320-2500 nm.

| Volume (ml) | Inner width (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 17,5 | 9,5 | **AHA7.1** | 1 | 115,05 |



## Rotilabo®-precision glass cells, black

Made of UV-transmittant Spectrosil® quartz glass with sturdy black walls.
With PTFE seamed lid.

- Spectrally calibrated
- Layer thickness 10 mm, tolerance ±0.01 mm
- Two polished sides
- Transmission ≥80 %

Dimensions: L 12.5 x W 12.5 x H 45 mm.
UV transmittance range: 320-2500 nm.

| Type | Volume (ml) | Inner width (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Semi-micro | 1,4 | 4 | **AHA5.1** | 1 | 203,20 |
| Micro | 0,7 | 2 | **AHA6.1** | 1 | 225,75 |

## Rotilabo®-glass fluorescence cell

Made of UV-transmittant Spectrosil® quartz glass, for fluorimetry.
With PTFE seamed lid.

- Spectrally calibrated
- Layer thickness 10 mm, tolerance ±0.01 mm
- Four polished sides and polished base
- Transmission ≥80 %

Dimensions: L 12.5 x W 12.5 x H 45 mm.
UV transmittance range: 190-2700 nm.

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Macro | 3,5 | **AHC0.1** | 1 | 163,40 |

## Single-use cells for fluorescence measurements

- Made of **PS** or **PMMA**, with 4 optical windows
- Volume 4 ml
- **PS** for measurements starting from 340 nm,
  **PMMA** for measurements starting from 300 nm
- Cavity-sorted production
- Layer thickness 10 mm
- Dimensions: L 12.5 x W 12.5 x H 45 mm

| Material | Art. No. | Pack Qty. | € |
|---|---|---|---|
| PS | **NK49.1** | 100 | 17,10 |
| PMMA | **NK50.1** | 100 | 19,15 |

## Rotilabo®-single-use cuvettes

Made of **PS**, **PPMA** or special plastic.
- Two optical windows
- Extremely low deviation in absorbance values
- Outstanding optical transmission values
- Cavity-sorted production

Layer thickness 10 mm. Dimensions: L 12.5 x W 12.5 x H 45 mm.

**Polystyrene (PS)**
Range of application: 340 to 900 nm.

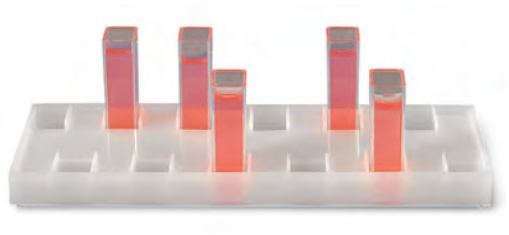
| Type | Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① Semi-micro | 1,6 | 10 x 100 | **XK20.1** | 1000 | 73,05 |
| ② Macro | 4,0 | 10 x 100 | **XK21.1** | 1000 | 74,15 |

**Polymethylacrylate (PMMA)**
Range of application: 300 to 900 nm.

| Type | Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① Semi-micro | 1,6 | 10 x 100 | **XK23.1** | 1000 | 85,95 |
| ② Macro | 4,0 | 10 x 100 | **XK24.1** | 1000 | 85,95 |

**Single-use UV**
For photometric measurements into the UV range.
Range of application: 220 to 900 nm.

| Type | Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① Semi-micro | 1,6 | 1 x 100 | **XK26.1** | 100 | 29,60 |
| ② Macro | 4,0 | 1 x 100 | **XK27.1** | 100 | 26,80 |



**Single-use, solvent resistant**
For substances containing polar solvents.
Range of application: 220 to 900 nm.

| Type | Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① Semi-micro | 1,6 | 1 x 100 | **XK28.1** | 100 | 29,60 |
| ② Macro | 4,0 | 1 x 100 | **XK29.1** | 100 | 26,15 |

## Lids for single-use cuvettes

Made of **PP**. Suitable for all single-use cuvettes macro and semi-micro.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **XK25.1** | 1000 | 32,20 |

## Rotilabo®-cuvette stand

Made of **PE**. For 12 cuvettes 10 mm thick. With staggered arrangement of holders. Low stand-depth for better observation of cuvette contents.
Dimensions: L 170 x W 50 x H 15 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9663.2** | 5 | 24,55 |

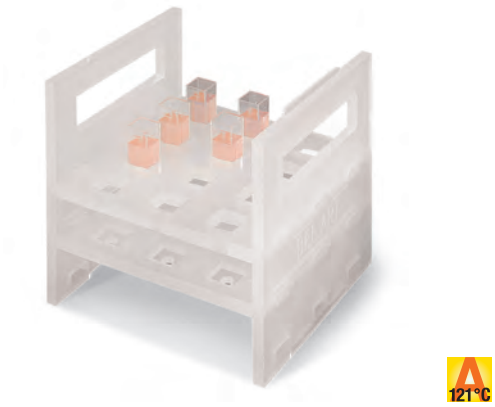
## Disposable cuvettes

By Brand. Made of **PS** or **PMMA**.
- Two optical windows
- Optically perfect transparency
- Sorted according to nest numbers to minimize extinction deviation
- Recessed windows to protect against scratching
- Arrow marks direction of irradiation

Standard-layer thickness 10 mm. Dimensions: 12.5 x 12.5 x 45 mm.
**Passband: PS: 340-900 nm. PMMA: 300-900 nm.**
Standard deviation:
- PS at 360 nm ≤0.005 extinction units.
- PMMA at 320 nm ≤0.004 extinction units.

**Polystyrol (PS)**

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Macro | 2,5-4,5 | **Y194.1** | 100 | 11,80 |
| Semi-micro | 1,5-3,0 | **Y195.1** | 100 | 12,40 |



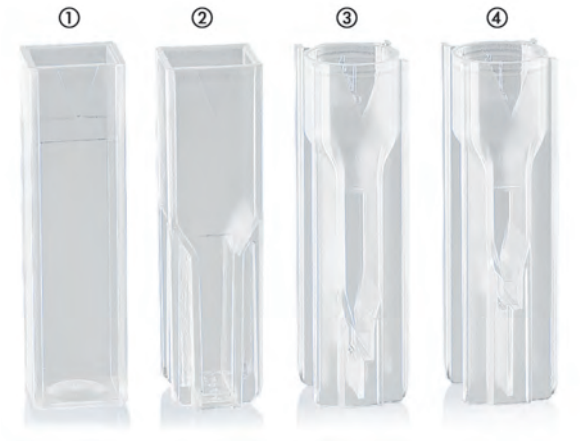
**Polymethylmethacrylate (PMMA)**

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Macro | 2,5-4,5 | **Y196.1** | 100 | 13,85 |
| Semi-micro | 1,5-3,0 | **Y197.1** | 100 | 14,90 |

## Lids for single-use cuvettes

Made of **PP**. Suitable for all single-use cuvettes macro and semi-micro.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **XK25.1** | 1000 | 32,20 |



## Rotilabo®-cuvette rack

Made of **PP**. For 12 cuvettes 10 mm thick. Extremely robust design. The special design of the rack eliminates scratching of cuvette surface. Stackable. Dimensions: L 115 x W 110 x H 105 mm.
Temperature stable to 130 °C. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9664.1** | 1 | 42,95 |

# Cuvettes / Cuvette racks

## UV-cuvettes

By Brand. Made of plastic.
For UV-measurement in **wave range 230-900 nm**.
Specially developed for the photometrical determination of proteins, ssDNA, dsDNA, RNA and oligonucleotides in the UV-range.

- Disposable cuvettes - no danger of contamination during cleaning
- High chemical stability
- Two optical windows
- Optically perfect transparency
- Sorted according to nest numbers to minimize extinction deviation
- Recessed windows to protect against scratching
- Arrow marks direction of irradiation

Micro-cuvettes are ideal specially for small sample volumes from 70 µl and available in two different centric heights (8.5 and 15 mm).
Standard thickness: 10 mm, dimensions 12.5 x 12.5 x 45 mm

Standard deviation:

240 nm ≤±0.007 extinction units

300 nm ≤±0.005 extinction units

| Type | Volume | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① Macro | 2,5-4,5 ml | **Y198.1** | 100 | 33,50 |
| ② Semi-micro | 1,5-3,0 ml | **Y199.1** | 100 | 35,95 |
| ③ Micro (z = 8.5 mm) | 70-850 µl | **Y200.1** | 100 | 24,30 |
| ③ Micro (z = 8.5 mm), individually packed, DNase, DNA and RNase-free | 70-850 µl | **CNT6.1** | 100 | 61,15 |
| ④ Micro (z = 15 mm) | 70-550 µl | **Y201.1** | 100 | 24,30 |
| ④ Micro (z = 15 mm), individually packed, DNase, DNA and RNase-free | 70-550 µl | **CNT7.1** | 100 | 61,15 |

## Accessories:

Round cover made of **PE** for UV micro cells by Brand. Provides a secure seal and allows the storage of samples at temperatures down to -20 °C.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue | **Y202.1** | 100 | 13,05 |
| yellow | **CNT8.1** | 100 | 13,75 |
| green | **CNT9.1** | 100 | 13,75 |
| orange | **CNX0.1** | 100 | 13,75 |

121°C

## Cell stand

By BRAND. Made of **PP**. For 16 cells with a light path of 10 mm.
Numbered slots. Dimensions: L 210 x W 70 x H 38 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CNP5.1** | 1 | 13,95 |

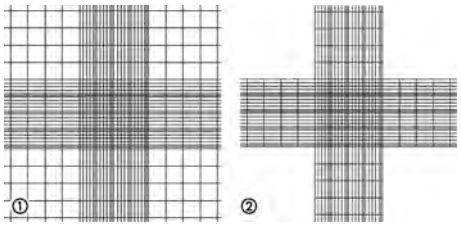
## Cells with 4 optical windows

By Brand. Made of **PS** or UV-transparent plastic.
Ideal for fluorescence spectroscopy.

- Optically flawless radiographic area
- UV cells with minimal autofluorescence
- Four optical windows for precise measurements
- Matt handle, can be labelled
- Produced under controllable room conditions with fully automatic packaging
- Sorted by nest numbers, minimal deviation of extinction values

Capacity: 2.5-4 ml. Dimensions: L 12.5 x W 12.5 x H 45 mm, window: W 10 x H 35 mm. Thickness: 10 mm.

**Technical specifications:**



| **Material** | **Polystyrene (PS)** | **UV-transparent plastic** |
|---|---|---|
| **Operating range** | 340-900 nm | 230-900 nm |
| **Standard deviation** (extinction units) | 360 nm ≤±0.005 | 320 nm ≤±0.007<br>300 nm ≤±0.005 |
| **Chemical resistance** (short-term resistance, 30 min.) | Ammonia<br>Hydrofluoric acid, 10%<br>Isopropanol<br>Sodium hydroxide<br>Hydrochloric acid, 36% | Acetone<br>Ammonia<br>Benzaldehyde<br>Butanone<br>Dioxane<br>DMF<br>DMSO<br>Acetic acid, 100%<br>Ethylacetate<br>Hydrofluoric acid, 10%<br>Isopropanol<br>Sodium hydroxide<br>Nitric acid, 65%<br>Hydrochloric acid, 36% |
| **Not resistant against** | Chloroform<br>Hexane | |

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Polystyrene cells | **EXP1.1** | 100 | 15,35 |
| Polystyrene cells | **EXP2.1** | 500 | 54,05 |

| Cells made of UV-transparent plastic | **EXP4.1** | 500 | 179,55 |

## Lids for single-use cuvettes

Made of **PP**. Suitable for all single-use cuvettes macro and semi-micro.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **XK25.1** | 1000 | 32,20 |

## ① Neubauer counting cells

By Marienfeld. Made of **special optical glass**, CE-certified, double grid.
Cell depth: 0.1 mm, large square: 1 mm², group square: 0.04 mm², smallest square: 0.0025 mm². Counting net with nine large squares. The large square in the centre is split into 16 group squares and these in turn are split into 16 least squares.
**Delivery incl.** two haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| excl. spring clamps | **T728.1** | 1 | 46,25 |
| with 2 spring clamps | **PC74.1** | 1 | 68,70 |

## ① Neubauer counting chamber, bright-lined

Made of **special optical glass**, CE-certified, double graticule division.
Same as Neubauer but with rhodium-plated chamber base. Therefore bright counter grating during standard setting of microscope.
**Delivery incl.** 2 haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without spring clamps | **T734.1** | 1 | 83,35 |

## ② Thoma counting chamber

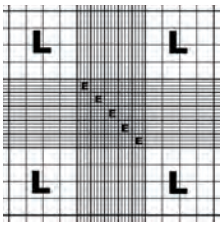
Made of **special optical glass**, CE-certified, double graticule division.
**For thrombocyte and erythrocyte counting.**
Chamber depth: 0.1 mm, smallest square: 0.0025 mm², counter grating with 5 large squares (without corner sections). The large centre square is subdivided into 16 group squares which, in turn, are divided into 16 mini squares.
**Delivery incl.** 2 haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without spring clamps | **T732.1** | 1 | 47,85 |

## ② Thoma new counting chamber

Made of **special optical glass**, CE-certified, double graticule division.
Same as Thoma. But without any lines in the boundary areas.
**Delivery incl.** 2 haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without spring clamps | **T733.1** | 1 | 50,75 |



▶ For haemacytometer-cover slips see page 290

## C-Chip Neubauer improved

Disposable counting cell **made of optical plastic**, lightweight and unbreakable. Precise quantification, high reproducibility. Same cell configuration as Neubauer improved glass counting cells. Double net ruling. Cell thickness 0.1 mm. Cell volume 10 µl.
Dimensions: L 75 x W 25 x H 1.6 mm. Cover slips are not required.

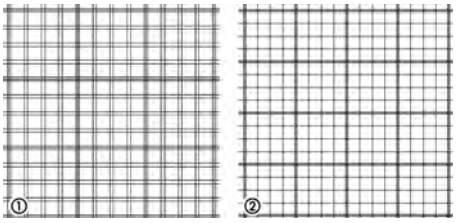
| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK36.1** | 50 | 160,20 |

## Neubauer counting chamber improved

By Marienfeld. Made of **special optical glass**, CE-certified, double graticule division.
**For leucocyte, thrombocyte and erythrocyte counting.**
Chamber depth: 0.1 mm, large square: 1 mm², group square: 0.04 mm², smallest square: 0.0025 mm².
Counter grating with 9 large squares.The four corner squares are for leucocyte counting.The large square in the centre is subdivided into 25 group squares and these in turn into 16 smallest squares.
Five group squares are for erythrocyte counting.
**Delivery incl.** 2 haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without spring clamps | **T729.1** | 1 | 45,05 |
| with 2 spring clamps | **PC72.1** | 1 | 68,70 |

## Neubauer counting chamber improved, bright-lined



Same as Neubauer improved but with rhodium-plated chamber base. Therefore bright counter grating during standard setting of microscope.
**Delivery incl.** 2 haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without spring clamps | **T735.1** | 1 | 80,65 |

## Neubauer counting chamber improved, with special depth

Same as Neubauer improved but chamber depth: 0.01 mm.
**Delivery incl.** 2 haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without spring clamps | **PC73.1** | 1 | 149,45 |

## ① Bürkner counting chamber

By Marienfeld. Made of **special optical glass**, CE-certified, double graticule division.
**For leucocyte and erythrocyte counting.**
Chamber depth: 0.1 mm, large square: 1 mm², group square: 0.04 mm². Counter grating with 9 large squares. They are used for leucocyte counting. Each large square is subdivided into 16 group squares for erythrocyte counting. The group squares have no subdivisions.
**Delivery incl.** 2 haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without spring clamps | **T730.1** | 1 | 48,40 |

## ② Fuchs-Rosenthal counting chamber

By Marienfeld. Made of **special optical glass**, CE-certified, double graticule division.
**For cell counting in liquor**.
Chamber depth: 0.2 mm, total surface: 16 mm².
Counter grating with 16 large squares. The total area is counted.
**Delivery incl.** 2 haemacytometer cover slips (20 x 26 mm).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without spring clamps | **T731.1** | 1 | 47,55 |

# Cover slips

## Cover slips

Acc. to ISO 8255-1, made of transparent borosilicate glass, hydrolytic class 1. Thickness no. 1 (0.13-0.16 mm).

- The visible spectral region is absorption-free
- Optically clean and free from smears, bubbles or streaks
- High chemical stability
- No interference from natural fluorescence even when working within short UV-range (e.g. 365 nm)
- Refractive index 1.5230

| Dimensions L x W (mm) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 18 x 18 | 5 x 200 | **0657.2** | 1000 | 19,90 |

## Cover slips

By Marienfeld. Made of hydrolytic class 1 borosilicate glass. Strength No. 1 (0.13-0.16 mm).

- Absolutely colourless, completely clear, suitable for fluorescence microscopy
- Very even, especially smooth surfaces
- Ready to use
- Suitable for use in coverslippers
- Satisfies the requirements of DIN ISO 8255
- CE-certified to IVD Directive 98/97/EC

| Length (mm) | Width (mm) | ∅ (mm) | Packaging | Art. No. | Pack Qty. | € |

## Precision cover slips

By Marienfeld. Made of hydrolytic class 1 borosilicate glass. **With defined thickness of 0.17 ±0.005 mm**, specially for high-resolution precision instruments. Refractive index 1.524 to 1.527 at 546.07 nm.

- Absolutely colourless, completely clear, suitable for fluorescence microscopy

Ideal for lenses with a high numeric aperture and high resolving power, e.g.:

- Dry lens (air immersion): N.A. > 0.7
- Water immersion lens: N.A. > 1.0
- Glycerine immersion lens: N.A. > 1.2
- Oil immersion lens: N.A. > 1.3

# Microscope slides

## Plastic cover slips

Made of **vinyl**. Individual cover slips are separated from one another by paper sheets. Dimensions: 22 x 22 mm, thickness 0.157 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK27.1** | 1000 | 92,05 |

## Standard microscope slides

By Menzel. Made of soda-lime glass, 76 x 26 mm, 1 mm thick, acc. to ISO 8037/1. Partly with frosted edge of 20 mm width. Different edge styles serve different purposes: slides with cut edges are preferable for normal microscopy, and slides with 45° and 90° cut angles are better for for use in pathology, and histology, because they reduce risk of cutting injury. They are also good for use in automatic machines.

| Design | Art. No. | Pack Qty. | € |

## Wash-N-Dry™ Coverslip rack

Made of **PP**. For 10 square or round cover slips from 18 to 25 mm. With grooves on the base for securing the cover slips, e.g. using rubber bands. Dimensions: L 39 x W 31 x H 24 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TH51.1** | 1 | 40,75 |

## Special size cover slips 75 x 50 mm

By Marienfeld. Made of borosilicate glass of hydrolytic class 1. Thickness 1 (0.13-0.16 mm).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **XT62.1** | 100 | 58,50 |

# Microscope slides

## DG microscope slides

Produced from hydrolytic class 3 high-quality float glass (soda-lime glass). Planarity and thickness distribution lie within very a tight tolerance band and are therefore ideally suited to microscopy applications (readjustment of the microscope is not necessary).

- Virtually free from surface defects, inclusions, streaks and bubbles
- The edges of the glass slides are uniform and crystal clear, reducing the risk of breakage along the edges
- Excellent wettability
- Dimensions 26 x 76 mm (to ISO 8037/1)
- Glass thickness 1.0 ±0.05 mm

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Cut | **NK72.1** | 50 | 3,35 |
| Cut edges, with matt strip | **NK73.1** | 50 | 3,90 |
| Edges ground to 90°, with white labelling surface | **NK74.1** | 50 | 5,40 |

## DG cover slips

Produced from hydrolytic class 1 borosilicate glass D263.

- Virtually free from surface defects, inclusions, streaks and bubbles and unwanted striation thanks to high optical homogeneity
- Highly transparent, colourless and nearly free from colour impurities
- Absorption-free within the visible spectrum
- Also suitable for fluorescence microscopy thanks to UV absorption
- High planarity
- High quality is assured through optimal cooling process
- Refractive indices matched to microscopy applications

# Adhesion slides

Made of soda-lime glass, with special adhesives for anchoring cells and tissues. Complex and expensive application of adhesives or protein layers is not necessary. No undesirable background staining. Ground edges 90° (except for ET08.1).
With labelling area.

**Programme extension!**

## Histobond®+ adhesion microscope slides

By Marienfeld. The silanized glass surface has a permanent positive charge which ensures that all types of tissue sections attach securely to the glass. Coloured labelling spaces offer potential uses in routine histology. Dimensions: L 76 x W 26 mm, thickness 1 mm.

**Suitable for:**
- In-situ hybridisation
- Problematic tissue samples, such as brain or spinal cord
- Multiple washing cycles, sections adhere firmly to the glass
- Microwave cooking

**Edges 90° grounded**

## SuperFrost®/Plus adhesion microscope slides

By Menzel. Freshly frozen tissue sections and cytology preparations are attracted electrostatically to the microscope slides. Dimensions: L 75 x W 25 mm, thickness 1 mm.

**Suitable for:**
- Fixed tissue sections, embedded in paraffin (2-5 µm)
- Cell adhesions for cyto-centrifugal preparations in standard Papanicolaou smears
- Immuno-peroxidase hybridisation
- In-situ DNA hybridisation

## SuperFrost Ultra Plus®-adhesion microscope slides

By Menzel. Formaldehyde-fixed paraffin or resin tissue sections (2-5 µm), frozen sections and delicate cytologic samples are electrostatically attracted. Dimensions: L 75 x W 25 mm, thickness 1 mm.

**Suitable for:**
- Difficult cytologic samples
- Microwave staining
- Immunoperoxidase processes when applying heat-induced antigen/ epitope retrieval (HIER, HMAR or HTAR)
- Optimized tissue adhesion for in-situ hybridisation
- Improved standardization and reproducibility of diagnostic routine staining processes
- 45° ground edges particularly well-suited for automatic processing

| Edges | Art. No. | Pack Qty. | € |
|---|---|---|---|
| cut 90° | **ET07.1** | 72 | 24,00 |
| cut 45° | **ET08.1** | 72 | 24,00 |

## SuperFrost® Plus Gold adhesion microscope slides

By Menzel. Fresh frozen sections or frozen section fixed in formalin are attracted to the slide and then chemically fixed onto the glass surface. Dimensions: L 75 x W 25 mm, thickness 1 mm.

**Suitable for:**
- Special staining methods (toluidine blue staining, hematoxylin staining and quick-freeze eosin section staining)
- Tissue sections up to 20 µm
- Bone, frozen heart, brain, skin and other tissue sections that are normally difficult to bind
- Immunocytochemical and in-situ DNA-hybridisation of frozen tissue sections
- Selection counting for immunofluorescence analysis in the event of low tissue quantities

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ET09.2** | 72 | 66,45 |

# Adhesion slides

## Polysine®-adhesion microscope slides

By Menzel. The samples are initially attracted electrostatically and then bound biochemically. The permanent adhesive provides excellent cell and tissue adhesion on the microscope slides. Polysine® microscope slides are not affected by enzyme predigestion or heating.
Dimensions: L 75 x W 25 mm, thickness 1 mm.

**Ideally suitable for:**
- Fresh frozen sections
- Paraffin-embedded (2-5 µm, fixed with alcohol, formalin, bouins or non-crosslinking sections)
- Extended staining process
- Extended in-situ DNA hybridisation and immunocytochemical methods
- Cytocentrifuge preparations

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ET10.1** | 72 | 20,65 |

## Roti®-Bond Adhesion Slides

**Fast and highly efficient immobilisation of cellular material with optimal structure conservation.**

The new adhesive coating of the Roti®-Bond adhesion slides reacts to natural surface structures of cells and tissues, anchoring them securely to the glass surface. Due to this procedure, based on different binding principles, the cells do not lose their antigenicity, their cell functionality and their three-dimensional structure.

- Assays using only several hundred cells possible
- No cell loss even during harsh incubation procedures
- Excellent recovery rate
- Compatible with all standard and modern assay systems and all fluorescent dyes
- Particularly adapted to assays using stem cells

Dimensions: L 75 mm x W 25 mm, thickness 1 mm

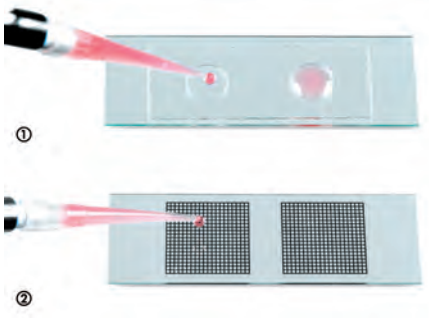
**Roti®-Bond adhesion slides 50 and 100 are delivered in Rotilabo®-slide boxes.**

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CL20.1** | 5 | 11,75 |
| **CL20.2** | 50 | 84,85 |
| **CL20.3** | 100 | 118,25 |

## Flexistrip spreading spatulas

Made of **PS**, for uniform spreading of blood smears on lens carriers. Usable on both sides. Dimensions: L 75 x W 26 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **L430.1** | 50 | 33,90 |



## Slides with moulds

By Menzel. Made of soda-lime glass, 76 x 26 mm. 1.2-1.5 mm thick with ground edges 90°. ∅ of mould 15 mm, depth approx. 0.6-0.8 mm.

| No. of moulds | Art. No. | Pack Qty. | € |

| one piece | 2 | 100 x 90 | 30 | **K331.1** | 10 | 28,95 |

**Preparation boards, without cover**
With punched grid (for 20 microscope slides) or without individual subdivisions (with continuous edge and central divider).

| Cover | Number of microscope slides | L x W (mm) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| without | 20 | 342 x 204 | 125 | **P957.2** | 10 | 64,30 |
| without | - | 342 x 204 | 110 | **CPT8.2** | 10 | 58,40 |

## Rack for preparation folders

Made of **ABS**. For 5 preparation folders each with 20 slides.
Easy and safe storage and removal of folders. Clamps with labelling area for quick identification also serve as a handle.
Temperature resistant in the range -10 to +90 °C. Stackable.
Dimensions: L 340 x W 226 x H 125 mm. Suitable for Art. No. AXK6.1ff.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PC61.1** | 1 | 42,50 |

## Rotilabo®-slide box

For 100 microscope slides 26 x 76 mm. Base and lid are attached to a wooden frame and the outside is covered with black paper. Wooden serrated strip with black printed numbers, the index card is loosely enclosed. The inside is made of moulded plastic (PS) with 2 tilting slats for easy removal of the miscroscope slides. 380 g net weight.
Dimensions: L 275 x W 185 x H 40 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **K335.1** | 1 | 30,05 |

## Rotilabo®-microscope slide boxes

Made of **PS**, coloured. For 100 microscope slides 76 x 26 mm.
With hinged lid, nickel-plated lock and cork insert, to prevent damage to the slides inside. Affixed index card in lid. The numbers on the index card correspond to those embossed on the bottom of the box. Stackable.
Dimensions: L 208 x W 175 x H 34 mm.

② **For up to 10 microscope slides:**
Dimensions: L 240 x W 240 x H 45 mm

| Lid material | Temperature resistance | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| PETG, transparent | -20 to +60 °C | **HL97.1** | 1 | 192,45 |
| ABS, black | -20 to +80 °C | **HL98.1** | 1 | 192,45 |

# Staining racks/Staining chambers

## Rotilabo®-staining boxes

Made of **acetal-polymer** (POM). Volume 80 ml. Resistant against most staining reagents, however irreversible discoloration possible.
Temperature resistant from -170 to +121 °C. Autoclavable.
Dimensions: L 64 x W 76 x H 92 mm.
**Delivery incl.** connector clips.
Without microscopic slide holder (please order separately).

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue | **HA44.1** | 1 | 13,25 |
| yellow | **HA45.1** | 1 | 13,25 |
| green | **HA46.1** | 1 | 13,25 |
| pink | **HA47.1** | 1 | 13,25 |
| white | **HA48.1** | 1 | 13,25 |

## Rotilabo®-microscope slide holders

Microscopic slide holders for 12 microscope slides 76 x 26 mm. Grey. Vertical storage of microscope slides prevents the labelling areas from coming in contact with the staining solution. Temperature resistant from -170 to +121 °C. Autoclavable. Dimensions: 60 x 64 x 97 mm.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Microscope slide holders | **HA49.1** | 1 | 15,40 |

## Universal microscope slide cuvettes

For histology, cuvettes made of black **POM**.

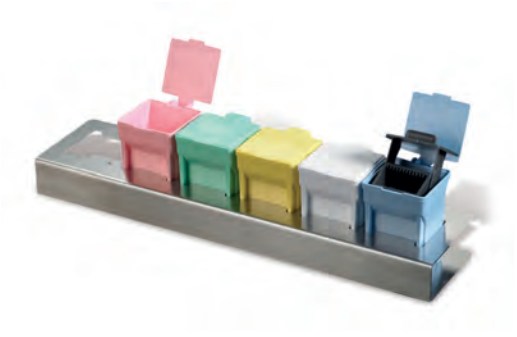
- Clip on lid makes structure impermeable to light. There is a compartment in the lid for drying agent (for example bluegel), which can be closed with a plate that also serves as a note board for labelling slides. Easy to transport racks for 25 microscope slides of standard format, slots for slides are numbered. For volume approx. 250 ml, only 150 ml are needed. Closes airtight, important for volatile solutions.
- Contains no metal, no danger of corrosion when using aggressive solvents
- Easy to clean
- The exposition, development and second stain of samples can be done in a time saving way without changing microscope slides by transporting the slides in the rack.

**Staining cuvette**

consisting of staining trough 2286.1 and staining rack 2287.1.

| L x W x H (mm) | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 100 x 87 x 51 | POM | **2285.1** | 1 | 19,15 |

**Staining trough**



and/or storage container for 25 microscope slides.

| L x W x H (mm) | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 100 x 87 x 51 | POM | **2286.1** | 1 | 13,75 |

**Staining rack**

(insert) for serial staining of 25 microscope slides.

| L x W x H (mm) | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 91 x 79 x 38 | POM | **2287.1** | 1 | 5,95 |

## Rack for Rotilabo®-staining boxes

Made of aluminium. Holds up to six Rotilabo®-staining boxes HA44.1ff.
Dimensions: L 425 x W 105 x H 38 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AEK9.1** | 1 | 77,75 |

## Staining boxes and inserts

Staining boxes for microscope slides, made of **PMP**, clear, comes with two lids, one of which closels tightly, the other has a small opening for attaching the insert during staining. Insert made of PP, with handle, for 20 microscope slides 76 x 26 mm. Suitable for microwaves.

| Type | L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Box | 101 x 81 x 70 | **2290.2** | 4 | 62,35 |
| Insert | 86 x 70 x 21 | **2291.2** | 2 | 14,25 |

▶ Microscope slides and cover slips on page 290

## Staining boxes

Made of **PMP**, with lid, for eight microscope slides 76 x 26 mm.
Dimensions: L 58 x W 54 x H 86 mm. Suitable for microwave.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **2292.2** | 4 | 53,25 |

DURAN WHEATON KIMBLE

## Coplin staining jar

Made of lime-soda-glass. For 10 microscope slides 76 x 26 mm.
Outer ∅ 66 mm. Height 108 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **H548.1** | 1 | 14,65 |

## Staining boxes acc. to Schiefferdecker

Made of **PMP**. Staining boxes with lid for 20 microscope slides (10 pairs) 76 x 26 mm. Dimensions: L 89 x W 70 x H 50 mm. Microwave safe.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **XC73.1** | 4 | 49,45 |

Staining boxes and troughs made of soda-lime glass have a maximum usage temperature of approx. 100 °C. It is very important to avoid sudden changes in temperature as this type of glass does not have good thermal shock resistance. The temperature should not exceed 60 °C during cleaning. The use of neutral to slightly alkaline cleaning agents is recommended.

121°C

## Coplin staining jar

Made of **PP**. For 10 microscope slides 76 x 26 mm.
With screw cap, opening ∅ 53 mm for easy loading.
Dimensions: ∅ 60 x H 114 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YC09.1** | 1 | 10,70 |

## Coplin staining jars, with screw cap

Made of sodium-lime glass, with screw cap made of plastic and PE foam insert. For 10 microscope slides 76 x 26 mm.

| Type | Height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| High form | 108 | **ETE2.1** | 6 | 77,95 |

121°C

## Embedding cassettes Macro

Made of special high-density polymer. **Extra high (12 mm), ideal for holding oversized tissue samples** during the embedding process or for storage. Solvent-proof. With lid and labelling area. Easy to open and can be closed repeatedly.
Outer dimensions: L 41 x W 27.5 x H 12 mm. Autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| white | **EE16.1** | 250 | 85,50 |

## Rotilabo®-metal lids

Reusable, made of high-grade stainless steel. Ideal for closing standard embedding cassettes. With perforation for optimal liquid diffusion.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **H950.1** | 5 | 20,35 |

## Metal embedding moulds

Made of stainless steel, with glossy finish, suitable for histology. Aids removing paraffin embeddings and allows ideal centring of findings in the paraffin block.

| Design | L x W x H outer (mm) | Inner L x W (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Standard | 52 x 35 x 11 | 23 x 36 | **TT29.1** | 10 | 48,40 |
| For biopsies | 52 x 35 x 11,6 | 7 x 7 | **TT30.1** | 10 | 48,95 |

## Macro embedding moulds

Made of **PVC**. With smooth inner surface and rounded corners for easy sampling. Volume 5 ml. Dimensions outside: L 37 x W 24 x H 10 mm, inside: L 35 x W 22 x H 7 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AEK8.1** | 500 | 72,85 |

## Sponges for embedding cassettes

Synthetic sponge, for embedding in Rotilabo®-embedding cassettes. Colour: blue. With controlled porosity. Can easily be placed in embedding cassettes. Suitable for the preparation of biopsies.
Dimensions: L 32 x W 26 x H 2.5 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TT56.1** | 500 | 21,95 |

## Rotilabo®-storage systems

For keeping and storing up to 250 embedding cassettes. With large labelling area. Dimensions: L 405 x W 230 x H 51 mm.
- Type ①: Made of PS. Can be stacked easily.
- Type ②: Made of coated, water-resistant carton

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① Drawer | **HT97.1** | 6 | 134,40 |
| ② Box | **HT98.1** | 12 | 76,35 |

# Precision tweezers

## Precision tweezers, straight with fine tips

By DUMONT®. Made of Inox or Dumoxel®, autoclavable.
LH57.1 and types 5XL and L5 have a serrated outer surface for extra grip.

*Inox02 is not autoclavable.

**Information on the various alloys in DUMONT® precision tweezers**

| Alloy | Antimagnetic | Temperature stability | Autoclavable | Special features |
|---|---|---|---|---|
| Steel (C, Mn, Si) | No | n. a. | No | Very hard for thick tips, not corrosion resistant |
| Inox02 (C, Mn, Cr, Si) | No | up to 400 °C (DIN 50914) | No | Standard stainless steel |
| Inox08 (C, Mn, Cr, Mo, V) | No | up to 400 °C (DIN 50914) | Yes (up to 180 °C) | Medical stainless steel, corrosion resistant, good resistance to salts |
| Antimagnetic steel (C, Cr, Ni, Mo) | 80 % | up to 400 °C (DIN 50914) | Yes (up to 270 °C) | Corrosion resistant |
| Dumoxel® (C, Cr, Ni, Mo, Cu) | 95 % | up to 400 °C (DIN 50914) | Yes (up to 270 °C) | Good resistance to corrosion, including mineral and organic acids |
| Dumostar® (C, Cr, Mo, Mn, Co, Ni, Si) | 100 % | up to 500 °C | Yes | Elastic, high resistance to corrosion, including mineral and organic acids, as well as salts |
| Titanium (C, Fe, O, H, N, Ti) | 100 % | up to 430 °C | Yes | Highest corrosion resistance to chemicals such as nitric acid, chlorides and salt water. More flexible and 40 % lighter than stainless steel |

# Forceps

## Rotilabo®-tweezers set

Four stainless steel tweezers (Remanit 4301) in a case.

**Contents:**

1 tweezer with fine tip, curved, 120 mm
1 straight tweezer, blunt tip, 130 mm
1 tweezer with guide pin, straight, 130 mm
1 coverslipper tweezer, curved, 115 mm

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PX40.1** | 1 | 32,90 |

## Rotilabo®-tweezers set

Four tweezers made of stainless steel 18/10 (material 1.4301), in etui. Red PTFE coating with good anti-adhesive properties forms a separating layer between the tweezer material and the sample. Dull colour of the coating enables glare-free working under the bright lighting in microscopy. The chemical-resistant coating also protects against contact with the nickel contained in the stainless steel.

**Contents:**

1 tweezer with fine tip, curved, L 120 mm
1 pointed tweezer with guide pin, L 130 mm
1 pointed tweezer curved, L 130 mm
1 blunt tweezer, L 145 mm

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ENX5.1** | 1 | 51,50 |

## aspirette® battery powered vacuum forceps

By Hirschmann. With vacuum pump. Ideal for handling small objects up to 70 g in weight. With one-button operation. Ergonomically designed. Suitable for handling membrane filters, optical lenses, microchips, cover slips, slides, etc. Rechargeable up to 1000 x.
**Delivery incl.** battery charger 230 V, 3 suction cups and 3 needles with ∅ 3.2 / 6 and 10 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **A247.1** | 1 | 193,50 |

## Spare suction parts for aspirette®

Consists of 3 suction nozzles and cups ∅ 3.2 / 6 and 10 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **N178.1** | 1 | 29,40 |

## Forceps with PTFE-coating

Made of stainless steel 18/10 (Remanit 4301), with resistant PTFE coating. Suitable for liquids such as acids, bases and solvents as long as coating is intact. Non adhesive. Black. Temperature stable from -200 to +260 °C. Autoclavable.

## Needle-suture combinations

By B. Braun. Absorbable and non-absorbable suture materials, 300 grade stainless steel needles. **Sterile**, individually packed.

**Atraumatic needle-suture combination:** smooth transition between needle and suture ensures minimal wound trauma.

### Technical specifications of suture material:

| Suture type | Suture design | Material | Coating | Loss of tensile strength | Material absorption |
|---|---|---|---|---|---|
| **Safil®** | braided | Polyglycolic acid | Polyglyconate | 18 days 50 % | approx. 60-90 days |
| **Dafilon®** | Monofilament | Polyamide 6/6.6 | none | n.a. | non-absorbable |
| **Silkam®** | braided | Silk | Wax and silicone rubber | n.a. | non-absorbable |

### Technical specifications of needles:

| Needle type | Curvature | Body | Bow length* (mm) |
|---|---|---|---|
| **DS16** | 3/8 circle | Cutting | 16 |
| **DS19** | 3/8 circle | Cutting | 19 |

*Distance between needle tip and end of needle, measured along the outer curve of the needle.

### Needle-suture combinations

| Type | Colour | USP | metric | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|---|
| Safil® / DS16 | violet | 5/0 | 1 | 45 | **XC22.1** | 36 | 353,70 |

### Short sutures (PreCuts)

Without needle. **Sterile.** Can be removed individually.

| Type | Colour | USP | metric | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|---|
| Silkam® | black | 3/0 | 2 | 3 x 45 | **XC34.1** | 36 | 209,65 |
| Silkam® | black | 4/0 | 1,5 | 3 x 45 | **XC35.1** | 36 | 209,65 |

## Overview of suture and needle types

### Recommendations for use:

| Type | Properties | Indications |
|---|---|---|
| **Safil®** | - High tensile strength<br>- Minimal tissue trauma<br>- Smooth suture<br>- Low memory effect<br>- Ease to handle | Safil® is indicated for surgical applications requiring a braided, synthetic and absorbable suture material, particularly for procedures in the gastrointestinal tract area, in gynaecology and urology, in ophthalmic surgery, microsurgery, subcutaneous suturing and ligature. |
| **Dafilon®** | - Soft and supple<br>- Excellent knot security<br>- Minimal tissue trauma<br>- Low memory effect | Dafilon® is indicated for skin closure as interrupted or intracutaneous suture, and for securing drains and catheters, as well as dental procedures. It is used in microsurgery, ophthalmology and neurosurgery. Dafilon is not suitable for permanent placement in the body. |
| **Silkam®** | - Excellent handling properties<br>- Good knot security | Silkam® is indicated for surgical applications requiring the use of a non-absorbable suture material. Applications include general surgery, skin closure, dental surgery, neurosurgery and ligatures. |
| **Cutting needles (DS)** | Three edges run along the entire length of the needle to provide an effective and gentle piercing action. | Skin needles: the three-edged, outer-cutting needle body is indicated for suturing of coarse tissue. |

| straight | **KX93.1** | 10 | 21,95 |
| curved | **KX94.1** | 10 | 24,10 |
| Lancets | **KX95.1** | 10 | 32,25 |

**With wooden handle** (not shown)

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| straight | **KX96.1** | 10 | 18,50 |
| curved | **KX97.1** | 10 | 21,05 |

## Solofix® blood lancets

By B. Braun. Made of stainless steel. **Sterile.** Puncturing lancets for capillary blood collection, optimal puncture depth.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ATK9.1** | 500 | 15,30 |

## Probes, blunt

Made of stainless steel, material number 1.4301. Autoclavable.

| ∅ (mm) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1 | 130 | **LX79.1** | 1 | 7,50 |
| 1,5 | 160 | **LX80.1** | 1 | 7,50 |

## Micro dissecting chisel

By Hammacher. Made of stainless steel. Length 125 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TC35.1** | 1 | 39,70 |

## Martini sharp double spoon

By Hammacher. Made of stainless steel. Spoon, round. Length 135 mm. Autoclavable.

| ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 3/3.5 | **TC28.1** | 1 | 48,25 |
| 3.5/4 | **TC29.1** | 1 | 48,25 |
| 4/4,5 | **TC30.1** | 1 | 48,25 |

## Retractor

By Hammacher. Made of stainless steel. Tines blunt. Length 160 mm. Autoclavable.

| Type | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① | Single-tine, one-sided | **TC31.1** | 1 | 34,15 |
| ② | Double-tine, one-sided | **TC32.1** | 1 | 43,65 |

## Retractor

By Hammacher. Made of stainless steel. Length 100 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TC34.1** | 1 | 99,35 |

## Rotilabo®-embryo spoon Banivo

Made of stainless steel. To hold delicate structures.
Perforated spoon allows fluid to drain.
Dimensions: spoon ∅ 15 mm, depth 3 mm. Overall length 145 mm.
Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TL85.1** | 1 | 64,40 |

## Mini mirror

Plastic handle made of **POM**, white. Autoclavable.

| Length (mm) | Mirror ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 165 | 14 | **LX47.1** | 1 | 16,70 |

## Miniature mirror handle

By Hammacher. Made of stainless steel Wironit (austenitic chrome-nickel steel with 18 % chrome and 10-12 % nickel), non-corrosive, anti magnetic, acid-resistant. Hollow. Length 140 mm. ∅ 8 mm.
Matches miniature mirrors HCL6.1ff and HCL8.1ff. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **HCL5.1** | 1 | 11,05 |

## Miniature mirror

By Hammacher. Made of stainless steel Wironit (austenitic chrome-nickel steel with 18 % chrome and 10-12 % nickel), non-corrosive, anti magnetic, acid-resistant. Ideal for all types for cleaning and sterilization.
Mirror ∅ 22 mm. Matches miniature mirror handle HCL5.1
**Delivery without** mirror handle, please order separately.

| Type | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Plan | Standard | **HCL6.1** | 12 | 28,70 |

## T-shaped dissecting needles

Made of stainless steel, nickel plated. Length 51 mm.
Approx. 375 needles per box.

| Art. No. | Pack Qty. (box) | € |
|---|---|---|
| **CEC6.1** | 1 | 32,20 |

## Dissecting needles

With plastic handle made of **PS**. Length 30 mm, head ∅ 3 mm.
Assorted colours.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK47.1** | 100 | 2,80 |

121°C

## Mouse Restrainer

Made of **PMP**, transparent. With large opening to hold mice weighing from 18-35 g. The mouse can be inserted forwards or backwards. The mouse can be immobilised in two positions in the restrainer by a gate. When the mouse is in the restrainer, its dorsal skin is easily accessible from above, e.g. for performing subcutaneous injections. With tail first entry, the tail of the mouse can be conveniently positioned outside the restrainer for taking blood samples.
The restrainer mounted to a lab worktop or other surface (fastening material not included).
Dimensions: L 174 x W 100 x H 67 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PK28.1** | 1 | 71,95 |

NEU NOUVEAU NEW

## Preparation surfaces, glass

By Hammacher.

| Type | L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① Glass plate | 95 x 70 x 6 | **HEA2.1** | 1 | 7,50 |
| ② Glass block | 150 x 75 x 20 | **HEA3.1** | 1 | 32,75 |

## Preparation surfaces

**Made of HDPE.** Can be used on both sides, with a large preparation surface on one side and two smaller surfaces on the other side. Printed with helper lines and straight edges, as well as circles with diameters from 4 to 14 mm. With all-round drip channel and anti-slip rubber feet.

| L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 330 x 279 x 12,5 | **CXL9.1** | 1 | 94,75 |
| 575 x 400 x 12,5 | **CXN0.1** | 1 | 150,50 |

## Tray for preparation surfaces

Made of **PS.** Suitable for use with preparation surfaces CXN0.1. Collects liquid overflow as required. Slip-resistant. Can be stacked to elevate the preparation surfaces to a comfortable working height. Dimensions: L 656 x W 481 x H 91 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CXN1.1** | 1 | 123,65 |

## Disposable preparation surfaces

Made of corrugated plastic, suitable for use on both sides. Printed with helper lines and rulers, as well as circles with diameters from 4 to 16 mm and 2 to 6 cm. Temperature stable from -27 to +71 °C.

| L x W (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 152 x 203 | **CKP5.1** | 24 | 69,80 |
| 229 x 305 | **CTY6.1** | 12 | 52,80 |
| 305 x 483 | **CTY7.1** | 12 | 98,20 |

## Dissecting dishes

Made of **HDPE**, with flexible PVC dissecting mat. With slip-resistant base, non-corrosive, breakage-resistant and leak-proof. Dissecting mats are washable, durable and have a smooth surface.

| Type | Outer L x W (mm) | Inner L x W (mm) | Height (mm) | Art. No. | Pack Qty. | € |

| Large | 363 x 273 | 315 x 220 | 48 | **CEC8.1** | 1 | 24,40 |

## Covers for dissecting dishes

Made of transparent PET. For samples up to a height of 76 mm.

| for dissecting dish type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Small | **CEC9.1** | 1 | 7,50 |
| Large | **CEE0.1** | 1 | 9,15 |

## Rotilabo®-tweezers set

Four tweezers made of stainless steel 18/10 (material 1.4301), in etui. Red PTFE coating with good anti-adhesive properties forms a separating layer between the tweezer material and the sample. Dull colour of the coating enables glare-free working under the bright lighting in microscopy. The chemical-resistant coating also protects against contact with the nickel contained in the stainless steel.

**Contents:**

1 tweezer with fine tip, curved, L 120 mm
1 pointed tweezer with guide pin, L 130 mm
1 pointed tweezer curved, L 130 mm
1 blunt tweezer, L 145 mm

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ENX5.1** | 1 | 51,50 |

# Dissecting sets for anatomy

## Rotilabo®-dissecting sets

In zip-up case, with elastic loops to hold instruments.

**Contents of small dissecting set for microscopy:**
1 dissecting scissors for microscopy, straight, L 115 mm
1 scalpel, pointed, L 155 mm, blade 40 mm
1 tweezer, pointed, straight, L 105 mm
1 lancet, straight, with plastic handle, L 140 mm
1 lancet with plastic handle, L 140 mm
1 spatula for easy lifting of tissues, L 160 mm, B 10 mm

**Contents of large dissecting set for microscopy additionally:**
1 dissecting scissors for microscopy, curved, L 115 mm
1 razor, folds out, with plastic handle
1 dissecting needle with plastic handle, L 140 mm

| Type | Art. No. | Pack Qty. | € |

## Dissecting set

In zip-up case, with elastic loops to hold instruments.
**Contents:**
1 pair of scissors, sharp-blunt, L 140 mm
1 pair of small scissors, L 110 mm
1 pair of tweezers, blunt, L 140 mm
1 pair of tweezers, sharp, L 110 mm
1 scalpel handle No. 4
5 scalpel blades, type 23
2 dissecting needles, sharp

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CAL6.1** | 1 | 24,70 |

## Chemist set, large

By Hammacher. Instruments made of stainless steel, autoclavable.

*Scissors made of steel, nickel plated and coated, non-autoclavable.

In plastic box, dimensions: L 214 x W 102 x H 27 mm.
**Contents:**
1 micro double spatula, 130 mm
1 micro spoon spatula, spoon 5 x 7 mm
1 micro powder spatula, flexible, 185 mm
1 double spatula, rigid, 185 mm
1 tweezers, straight, sharp, 160 mm
1 scissors*, straight, serrated, 170 mm
1 Poly spoon, 180 mm
1 weighing spoon
1 double spatula, wide, round on both sides, 150 mm

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TE20.1** | 1 | 69,70 |

## Dissecting sets for microscopy

In wooden box.

**Small.** Dimensions: L 195 x W 85 x H 32 mm.

**Contents:**

- All-metal scalpel, 35 mm
- Dissecting needle, pointed
- Dissecting needle, lance shaped
- Splinter forceps, 110 mm
- Section lifter, 45 x 8 mm
- Dissecting scissors, 110 mm, straight

| Art. No. | Pack Qty. | € |
|---|---|---|
| **LX82.1** | 1 | 32,20 |

**Large.** Dimensions: L 195 x W 95 x H 35 mm.

**Contents same as LX82.1, plus:**

- Razor
- Dissecting probe, curved
- Dissecting scissors, 110 mm, curved

| Art. No. | Pack Qty. | € |
|---|---|---|
| **LX83.1** | 1 | 39,60 |

## Dissecting set

In case, W 85 x L 195 x H 30 mm.

**Contents:**

1 scalpel handle No. 4 with 6 blades (type 21 + 23)
1 dissecting needle with plastic handle
1 self-closing tweezer, angled tip L 140 mm
1 coverslipper tweezer, L 160 mm
1 anatomic tweezer, blunt tip, L 140 mm
1 small scissors L 115 mm
1 scissors, blunt tip, L 130 mm
1 double spatula, L 170 mm
10 dissecting needles

| Art. No. | Pack Qty. | € |
|---|---|---|
| **0829.1** | 1 | 46,80 |

## Dissecting set for anatomy, Premium

By Hammacher. Instruments made of stainless steel, autoclavable.

*Instruments with wooden handle are non-autoclavable.

In wooden box, dimensions: L 190 x W 100 x H 35 mm.

**Contents:**

1 scissors, buttoned, 145 mm
1 cartilage knife with scraper, wooden handle*, 180 mm
5 scalpel* with wooden handle, ball shaped, blade length 25-45 mm
1 tweezers, 105 mm, blunt
1 tweezers, 105 mm, sharp
1 muscle retractor, 100 mm
1 tube, double, straight
1 blunt probe, 130 mm, ∅ 1 mm
2 surgical needles, ½ circle

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TE19.1** | 1 | 331,35 |

## Instrument oil

By Hammacher. Synthetic oil, silicone-free. Odourless and transparent, leaves no brown marks on the instruments. Spot-on application through safety/anti-drop valve.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **HCY1.1** | Application bottle 12 ml | 16,45 |

## Sterilisation containers polySteribox®

Transparent special plastic, can be used for approx. 1250 sterilization cycles. **For the sterilization and storage of instruments.** Suitable for steam, gas and plasma sterilization. Hydrophobic PTFE filter stops germs and bacteria (replace after approx. 250 sterilizations, includes date insert). A sterilization mark and protective seal can be used to check the sterility of the contents. Safety seal for safe transportation. Stackable. Dishwasher safe.
Acc. to DIN 58952, 58953, EN 868-1/868-8/554, ISO 11607 and DIN EN ISO 17664 and 11137-1. CE certified. Autoclavable up to 134 °C. **Delivery incl.** PTFE filter (12-month filter, polySteribox M with permanent filter). Permanent filter set is optional. Please order separately.

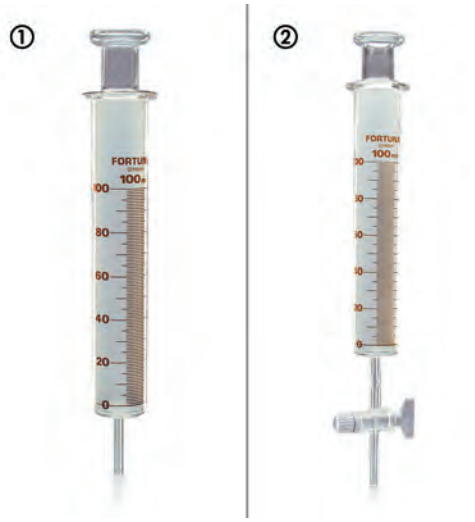
# Gas equipment

## ① Rotilabo®-gas bag



Made of natural rubber. Egg-shaped, ideal for mixing or short-term storage of gases. Max. circumference approx. 85 cm. Assorted colours.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **0933.1** | 100 | 13,95 |

## ② Rotilabo®-gas bags maxi

Made of Latex. Ideal for testing air or gas intake and/or release from apparatus. Also for short-term storage of gases. When empty 22 cm long. Assorted colours.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TA08.1** | 10 | 21,45 |

## Piston samplers

Made of Durobax®-glass. For carrying out gasometric experiments. Graduated. Acid and alkali resistant.

**Applications:** analysis of air and breathable air, identification of respiratory quotient, indirect water analysis, qualitative gas combustion, illuminating gas analysis etc.

**With capillary attachment,**
without spigot, inner ∅ approx. 2.5 mm, outer ∅ approx. 6.5 mm

## Plastigas®-bags

Made of multiple laminated aluminium foil, thermoplastically welded with inner polyethylene layer. Ideal for storing small amounts of gas under low pressure.

**Bag 2.5 l** with connection nozzle for bubble tubing.
Also with taped septum for removing samples with syringe.

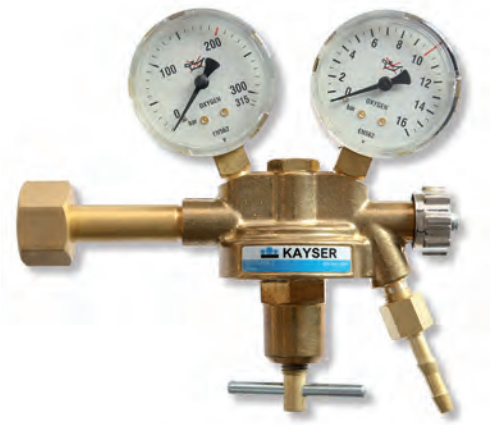
**Bag 27.0 l** with screw-on valve and metal hose nozzle.
Also with septum for removing samples with syringe.

**Bubble tubing**, 80 cm long.

Accessories for Art. No. 0848.1 please order separately.

| Type | Volulme (l) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① Plastigas®-bags | 2,5 | **0848.1** | 1 | 29,00 |
| ② Plastigas®-bags | 27,0 | **0847.1** | 1 | 84,90 |
| ③ Bubble tubing | - | **H547.1** | 1 | 17,15 |

## Gas leak detector testo 316-1



By Testo. Ideal for tracing leaks in pipes, flanges, screw connectors, gas pipes etc. For methane. With visual and acoustic alarm. Sensor has extremely short reaction time.

**Technical specifications:**

| | |
|---|---|
| Range | 0 to 10.000 ppm CH4 |
| Alarm threshold | >200 ppm LED yellow / >10.000 ppm LED red |
| Battery life | >5 h |
| Working temperature | 4 to 45 °C |
| Dimensions (L x W x H) | 190 x 57 x 42 mm |
| Weight | 300 g |

**Delivery incl.** battery (9 V).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **P757.1** | 1 | 215,00 |

## Bottle pressure regulators, single-stage

By Kayser. Made of brass. Manufactured acc. to EN ISO 2503.
For safe emptying of gas from steel cylinders to max. 200 bar, with simultaneous reduction to required working pressure of 10 bar.
With safety valve (is triggered at 12 bar). Graduated in 0.5 bar increments.

**Technical specifications:**

| **Type of gas** | Connection for bottle | Connection for tube |
|---|---|---|
| **Compressed air** | G ⅝″ pressure screw | G ¼″ right |
| **Hydrogen** | W 21.8 x 1/14″ left | G ⅜″ left |
| **Oxygen** | G ¾″ right | G ¼″ right |
| **Nitrogen** | W 24.32 x 1/14″ right | G ¼″ right |
| **Calibrating gas** | M 19 x 1.5 left | G ⅜″ left |
| **Inert gases/$CO_2$** | W 21.8 x 1/14″ right | G ¼″ right |
| **Inert gases/$CO_2$ - vol.-strom 0-28/30 l/min*** | W 21.8 x 1/14″ right | G ¼″ right |
| **Purging gases - vol.-strom 0-50 l/min** | W 21.8 x 1/14″ left | G ⅜″ left |

* Work manometer with double scale (l/min and bar)

| Type of gas | Connection for bottle | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| For compressed air | G 5/8″ pressure screw | **0270.1** | 1 | 79,55 |
| For hydrogen | W 21.8 x 1/14″ left | **0284.1** | 1 | 79,55 |
| For oxygen | G ¾″ right | **0285.1** | 1 | 79,55 |
| For nitrogen | W 24.32 x 1/14″ right | **0288.1** | 1 | 79,55 |
| For calibrating gas | M 19 x 1,5 left | **0280.1** | 1 | 79,55 |
| For inert gases/$CO_2$ | W 21.8 x 1/14″ right | **0286.1** | 1 | 79,55 |
| For inert gases/$CO_2$ volume flow 0-28/30 l/min | W 21.8 x 1/14″ right | **0290.1** | 1 | 79,55 |
| For forming gas volume flow 0-50 l/min | W 21.8 x 1/14″ left | **0289.1** | 1 | 79,55 |

Material DURAN®

## Gas sampling tubes

Made of DURAN®. Acc. to DIN 12473-1, with two one-way cocks, standard ground joint 14.5 and sampling nozzle (Thread GL 14).
Capillary tube (Inner-∅ 2.7 mm, outer-∅ 8 mm) on the one side and olive (outer-∅ 8 mm) on the other side. With labelling area.

| Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 350 | **KX55.1** | 1 | 88,45 |
| 500 | **KX56.1** | 1 | 98,70 |
| 1000 | **KX57.1** | 1 | 141,90 |

## Gas pressure regulators, two stage

By Air Liquide. Made of chrome-plated brass. Ideal for all high-purity gases and gas compounds except acetylene and corrosive gases.
Excellent for use wherever constant outlet pressure is required.

**Technical specifications:**

| | |
|---|---|
| Max. inlet pressure | 200 bar |
| Working temperature | -20 to +50 °C |
| Weight | 1.6 kg |
| Dimensions (L x W x H) | 180 x 98 x 135 mm |
| Contact inlet | bottle attachment acc. to DIN 477 |
| Contact outlet | clamping ring connection for 6 mm tube |
| Overal leakage rate | 3 x $10^{-7}$ mbar l/s |

**Back pressure 0.05-1 bar**. Graduated in 0.1 bar-increments.

| Type of gas | Connection for bottle | Art. No. | Pack Qty. | € |

# Sampling for powders / granulates

## Tubus sampler

By Bürkle. Made of stainless steel (1.4404). Suitable for use with foodstuffs. For pourable bulk goods up to approx. 10 mm in diameter, e.g. hazel nuts, cereals, granulates, crystalline solids (e.g. sugar).
Insert Tubus into a sack to the desired sampling depth.
The sample flows directly through the open tube into the sampling bag.
Tube ∅ 40 mm. Autoclavable.

| Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 40 | **EP04.1** | 1 | 133,20 |
| 80 | **EP05.1** | 1 | 166,65 |

## QuickPicker samplers

By Bürkle. Made of transparent PP or stainless steel 1.4404, suitable for foodstuffs. For removal of bulk goods from bags and direct transfer into original sampling bottles. Insertion depth 300 mm. Total length 500 mm. Volume 75 ml. Tube ∅ 25 mm. Sampler is autoclavable (without bottle).
**Delivery incl.** two 250 ml LDPE sampling bottles and cleaning brush.

| Material | Art. No. | Pack Qty. | € |
|---|---|---|---|
| PP | **YK99.1** | 1 | 140,85 |
| Stainless steel | **YL00.1** | 1 | 223,60 |

**Accessories:**

| | | | |
|---|---|---|---|
| Sampling bottle, LDPE, 250 ml | **YL01.1** | 1 | 2,90 |

## Powder and granulate sampler

By Bürkle. Made of stainless steel 1.4404. Suitable for use with foodstuffs. Conforms to EN ISO 707 and IDF (International Dairy Federation).
Suitable for sampling milk powder. The sampler is inserted into bags and the sample is removed using a semicircular profile lance.
Insertion depth 385 mm. Volume 150 ml. Total length 480 mm.
Outer ∅ approx. 28 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YL02.1** | 1 | 174,15 |

## SiloPicker

By Bürkle. Made of stainless steel (1.4404). For sampling bulk goods from silos, tanks, BigBags or other large containers.
Chamber volume: 100 ml. Length: 130 cm. Outer ∅ 50 mm. Autoclavable.

**Application:**
- Insert SiloPicker into bulk goods
- The closure sleeve automatically closes the collection container
- When the sampling depth has been reached, briefly pull back the SiloPicker
- The bulk goods flow into the collection container
- Pull out the SiloPicker
- Empty the sampler

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YX85.1** | 1 | 396,70 |

**Accessories:**

| | | | |
|---|---|---|---|
| Extension rod, 100 cm | **YX86.1** | 1 | 66,05 |

▶ Sampling bags from page 252
▶ Bottles from page 114
▶ For scoops see page 196

# Control seals

121 °C

## Zone samplers

By Bürkle. Made of aluminium, stainless steel (1.4404) or stainless steel (1.4404)/PTFE. For sampling bulk goods, e.g. from bags, drums, bins, BigBags and silos. Tube ∅ 25 mm. Suitable for use with foodstuffs. Autoclavable.

**Application:**
- Close the chambers by turning the handle
- Insert the sampler to the desired depth
- Open the chambers to allow the bulk goods to flow into the collector
- Close the chambers
- Withdraw the sampler
- Reseal the puncture using an adhesive seal

### ① All-layer samplers

Open inner tube for large sample volumes. Meets ISTA standard for seed lengths of 10 mm (wheat, oats) and 5 mm (flax, vetch).

**Technical specifications:**

| Material | Total length (cm) | Insertion depth (cm) | Number of chambers | Chamber volume (ml) |
|---|---|---|---|---|
| Aluminium | 55 | 43 | 3 | 70 |
| Aluminium | 85 | 71 | 3 | 130 |
| Aluminium | 150 | 135.5 | 5 | 260 |
| Stainless steel | 55 | 43 | 3 | 70 |
| Stainless steel | 85 | 71 | 3 | 130 |
| Stainless steel | 150 | 135.5 | 5 | 260 |

| Material | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Aluminium | 55 | **YH96.1** | 1 | 195,65 |
| Aluminium | 85 | **YH97.1** | 1 | 211,80 |
| Aluminium | 150 | **YH98.1** | 1 | 269,85 |
| Stainless steel | 55 | **YH99.1** | 1 | 589,10 |
| Stainless steel | 85 | **YK00.1** | 1 | 679,40 |
| Stainless steel | 150 | **YK01.1** | 1 | 818,10 |

### ② Multi-samplers

Inner tube with separate chambers.
For multi-taking target-point samples from various sample depths.

**Technical specifications:**

| Material | Total length (cm) | Insertion depth (cm) | Number of chambers | Chamber volume (ml) |
|---|---|---|---|---|
| Aluminium | 55 | 43 | 3 | 14 |
| Aluminium | 85 | 71 | 3 | 17 |

| Stainless steel/PTFE | 55 | 43 | 3 | 14 |
| Stainless steel/PTFE | 85 | 71 | 3 | 17 |
| Stainless steel/PTFE | 150 | 135.5 | 5 | 17 |

| Material | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Aluminium | 55 | **YK02.1** | 1 | 217,15 |
| Aluminium | 85 | **YK03.1** | 1 | 240,80 |
| Aluminium | 150 | **YK04.1** | 1 | 310,70 |
| Stainless steel/PTFE | 55 | **YK05.1** | 1 | 419,25 |
| Stainless steel/PTFE | 85 | **YK06.1** | 1 | 471,95 |
| Stainless steel/PTFE | 150 | **YK07.1** | 1 | 685,85 |

### ③ Uno-samplers

One closed sampling chamber.
For taking target-point samples from a specific sample depth.

**Technical specifications:**

| Material | Total length (cm) | Insertion depth (cm) | Number of chambers | Chamber volume (ml) |
|---|---|---|---|---|
| Stainless steel/PTFE | 55 | 43 | 1 | 17 |
| Stainless steel/PTFE | 85 | 71 | 1 | 17 |
| Stainless steel/PTFE | 150 | 135.5 | 1 | 17 |

| Material | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Stainless steel/PTFE | 55 | **YK08.1** | 1 | 427,85 |
| Stainless steel/PTFE | 85 | **YK09.1** | 1 | 478,40 |
| Stainless steel/PTFE | 150 | **YK10.1** | 1 | 699,85 |

## Accessories for zone samplers

**Emptying device for multi- and uno-samplers**
By Bürkle. Made of stainless steel (1.4301).

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Rack with 3 funnels, length 1 m | **YK11.1** | 1 | 346,15 |
| Funnel, single | **YK12.1** | 1 | 54,10 |

**Cleaning brush**
By Bürkle. Made of PVC and stainless steel. ∅ 25 mm. Length 100 cm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **EE50.1** | 1 | 45,45 |

## Control seals, metal-detectable

For hermetic sealing of pierced bags, cartons or BigBags after sampling. Barrier layer made of aluminium with extra-strong bonding layer, food-safe adhesive. Temperature-resistant from -20 °C to +70 °C, bonding temperature at least 0 °C. ∅ 95 mm. 1000 pieces on the roll.

| Label | Art. No. | Pack Qty. (roll) | € |

# Sampling for pasty / compound substancess

## Security control seals, coloured

By Bürkle. Aluminium barrier layer. Foodstuff-compatible adhesive. Prevents products from leaking out after sampling. Suitable for foodstuffs, pharmaceuticals, cosmetics, dietary supplements and frozen food. Sealed gastight. Can be labelled indelibly.
Temperature stable from -20 up to max. +40 °C.
Label dispenser is optional, please order separately.

**Close-it food & pharma**

Label size: W 95 x H 95 mm. 500 labels per roll.

| Colour | Art. No. | Pack Qty. | € |

## Plunge borers, conical

By Bürkle. Made of stainless steel 1.4301. Conically shaped with sharp edges and a solid handle. Suitable for use with foodstuffs. Acc. to EN ISO 707. For sampling soft and paste-like substances, such as cheese, butter, mud, clay, soap and wax. Insert the borer into the substance and turn it to cut out the sample material. Autoclavable.

| Insertion depth (mm) | Total length (cm) | Pipe-∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 120 | 18 | 10-15 | **YP34.1** | 1 | 65,95 |
| 170 | 22 | 11-18 | **YP35.1** | 1 | 97,85 |

## Plunge borer, cylindrical

By Bürkle. Made of stainless steel 1.4301. With sharp cutting crown. Suitable for use with foodstuffs. For sampling paste-like and semi-solid substances. Use the suction piston to push out the bored samples from the cylinder. Insertion depth 200 mm. Total length 260 mm.
Inner diameter approx. 8 mm. Outer diameter approx. 10 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YP36.1** | 1 | 133,30 |

## Pigment samplers

By Bürkle. Made of stainless steel 1.4404. With half-open groove for very adhesive substances or quarter-open groove for less adhesive substances. For sampling pigments, pastes and agglomerating bulk goods. Insert the lance to the desired depth. Turn the handle so that the sample is collected in the open groove. Withdraw the lance. Remove the sample.
Tube diameter 30 mm. Autoclavable.

| Length (mm) | Groove opening (%) | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 300 | 25 | 145 | **YP37.1** | 1 | 202,10 |
| 300 | 50 | 85 | **YP38.1** | 1 | 223,60 |
| 600 | 25 | 312 | **YP39.1** | 1 | 292,40 |
| 600 | 50 | 179 | **YP40.1** | 1 | 317,15 |

## Samplers for viscous and liquid mediums

By Bürkle. Made of PP or PTFE/FEP (chemically inert).
Suitable for use with foodstuffs. Tube-∅ 25 mm, tip-∅ 32 mm.

① **Visco sampler**

Very strong suction power for sampling viscous, non-self-flowing substances such as mud, slime, watery clay and soil samples, oils, emulsions, creams. Samples are sucked and ejected via a suction piston.

② **Liqui sampler**

For liquid mediums. Compliant with DIN EN ISO 15 528. Practical push-button one-handed operation. For all-layer and target-point/soil sampling. For **all-layer sampling**, slowly plunge the liqui sampler into the liquid with the button pressed (valve open). Release the button, the valve closes. Withdraw the sampler and remove the sample.
For **target-point/soil sampling**, plunge the liqui sampler down to the target point/soil with the valve closed. Press the button, the valve opens and liquid flows in. Release the button, the valve closes. Withdraw the sampler and remove the sample.

## Plunging siphon made of PP

For easy removal of liquid samples. The top end features a stopcock and the bottom end has a ball valve. With transparent pipe for good visibility. For drums with a minimum opening ∅ of 22 mm. Suitable for foodstuffs.

Ideal for all-layer and target point sampling.
**All-layer sampling:** Plunge the siphon slowly into the liquid with the open stopcock. Close the valve. Withdraw the siphon and remove the sample. Empty sample into container via handle.
**Target point sampling:** Plunge the siphon with the closed stopcock down to the target point. Open the stopcock - the liquid will flow in. Close the stopcock. Withdraw the siphon and remove the sample. Empty sample into container via handle.

Model 3 is infinitely variable from 100 to 200 cm.

## Mini visco samplers

By Bürkle. Made of stainless steel 1.4404. For sampling viscous substances such as pastes, muds, creams and oils. Ideal for the pharmaceutical and cosmetics industry. Samples are sucked and ejected via a suction piston. Suction point with 2 mm suction hole. Suction points available with a larger diameter for more viscous mediums, please order separately. Autoclavable.

# Liquid sampling

## Rotilabo®-sampling containers

For use with Rotilabo® telescope rods (please order separately).
**Delivery incl.** beaker holder.

① **Rotilabo®-swing beaker**
For sampling liquids, e.g. out of deep tanks, pans or narrow shafts.
Vessel swings into the horizontal position.
For opening ∅ from 150 mm (Art. No. NH30.1 from 130 mm).

| Volume (ml) | Material | Art. No. | Pack Qty. | € |

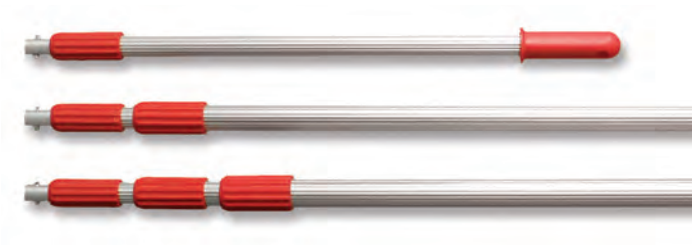
| 1000 | Stainless steel (1.4301) | **NH30.1** | 1 | 183,85 |

② **Rotilabo®-angle beaker**
Tilt angle is adjustable to 90° through quick adjustment of the joint.



| Volume (ml) | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 600 | PP | **N104.1** | 1 | 49,70 |
| 1000 | PP | **N105.1** | 1 | 50,80 |
| 2000 | PP | **N106.1** | 1 | 55,45 |

③ **Rotilabo®-beaker with digging edge**
For sampling of powders, granulates, pastes and sludge.

| Volume (ml) | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1000 | Stainless steel (1.4301) | **NH31.1** | 1 | 138,70 |

④**Rotilabo®-bottle holder**
Fits bottles up to max. ∅ 88 mm. With quick-release clamp. Inclination angle is adjustable by up to 90° through quick adjustment of the joint.
**Delivery incl.** bottle with screw cap.

| Volume (ml) | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 750 | Holder made of PP<br>Tightening strap made of PA<br>Bottle made of PE | **N107.1** | 1 | 57,70 |

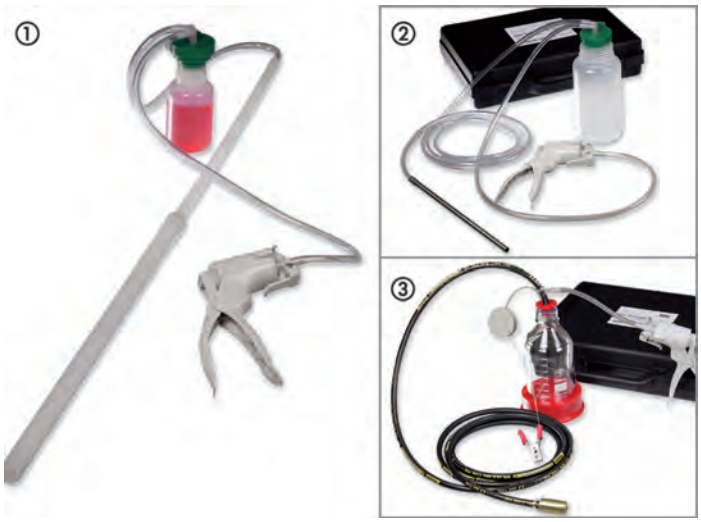
## Rotilabo®-telescope rods

Made of aluminium and **PP**.
Can be combined with Rotilabo®-sampling containers.
Not suitable for aggressive liquids.

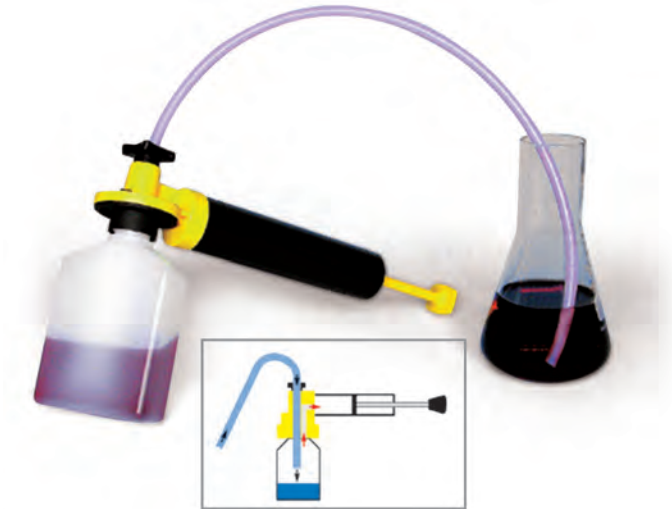
| Adjustable length | Art. No. | Pack Qty. | € |
|---|---|---|---|
| from 0.6 to 1.2 m | **9254.1** | 1 | 26,35 |
| from 1.25 to 2.5 m | **9255.1** | 1 | 33,90 |
| from 1.0 to 3.0 m | **9257.1** | 1 | 52,60 |
| from 1.65 to 4.5 m | **T251.1** | 1 | 73,30 |

## Rotilabo®-sample scoops

With solid handle bar, made of transparent **PP**.
For taking specific samples from tanks, tubs, galvanic baths, lakes, etc.
Length of handle 100 cm, ∅ 20 mm.



| Capacity (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 250 | **9220.1** | 1 | 61,20 |
| 600 | **9225.1** | 1 | 63,35 |
| 1000 | **9236.1** | 1 | 65,60 |



## Rotilabo®-chemo-sampler

Made of **PP**, grey. Length 100 cm. For safe sampling of aggressive liquids.
The sample is drawn up directly in the unscrewed bottle.
**Delivery incl.** sample bottle 1000 ml.
Accessories: Sample bottle made of **PE**, with screw-on cap.

| Type | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Chemo-Sampler | - | **T273.1** | 1 | 75,20 |
| Sample bottles | 500 | **T274.1** | 5 | 14,10 |
| Sample bottles | 1000 | **T275.1** | 5 | 15,50 |

## Liquid samplers UniSampler

By Bürkle. Easy to use: The sample is taken directly into the sample tube via a vacuum. There is no danger of contamination.

① **UniSampler with telescope lance**
For sampling liquids from specific depths.
Telescopic suction pipe can be pulled out variably from 100 cm to 150 cm.
Suction pipe made of PP, tube made of PVC.
**Delivery incl.** 5x250 ml and 5x500 ml sample vials made of PP and an adapter for all bottle sizes from 100 ml to 1 litre.
**Procedure:**
1. Pull out the suction lance to the desired sampling depth.
2. Fit the sample bottle onto the adapter.
3. Lower the suction lance into the medium.
4. Create a vacuum with the hand pump and take a sample.
5. Remove the filled sample bottle, close and label it.

② **UniSampler with hose**
Sampling system for deep, narrow and winding areas. The tube is pulled downwards by the heavy stainless steel pipe. PVC-tube, length 2.50 m.
**Delivery incl.** 1000 ml PP-bottle and adapter for all bottle sizes from 100 to 1000 ml, comes in a case for easy transport.
**Function**:
1. Lower suction tube to the desired depth.
2. Fit the sample bottle onto adapter.
3. Create a vacuum with the hand pump and take a sample.
4. Remove the filled sample bottle, close and label it.

③ **UniSampler Ex**
For sampling combustible liquids, Hazard Class A I (e.g. petrol).
The glass bottle and tube are electro-conductively connected and are grounded with an grounding cable. PTB-approval D-333-009 618/00.
**Delivery incl.** 4 m tube and 1000 ml glass bottle, in transport case.
**Function:**
1. Ground device.
2. Lower suction tube to the desired depth.
3. Fit the adapter onto the sample vial.
4. Create a vacuum with the hand pump, take a sample.
5. Remove the filled sample vial, close and mark it.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① UniSampler with telescopic lance | **AH45.1** | 1 | 251,55 |
| ② UniSampler with tube | **AH46.1** | 1 | 184,90 |
| ③ UniSampler Ex | **AH47.1** | 1 | 350,45 |

## Sampling pumps

Ideal for obtaining liquid samples even from difficult to reach areas.
Liquid only comes in contact with the PE-tube and the sample vessel.
Also suitable for viscous samples (e.g. oils). The sample vessel is screwed into the pump and can be sealed tightly after taking the sample.
Tube is easy to change and can be replaced quickly.
Procedure: a vacuum is produced by pullin up the pump.
The liquid is drawn off and collected in the PE-bottle.

| Type | Art. No. | Pack Qty. | € |

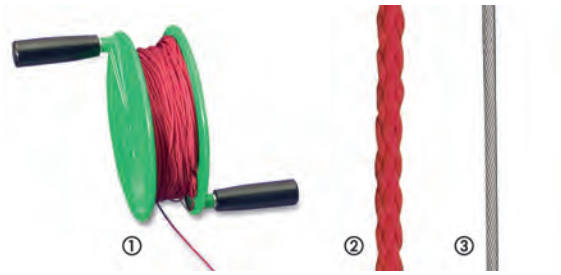
# Liquid sampling

## Rotilabo®-glass dipping bottle

Made from non-sparking materials. Nickel-plated brass dipping frame, closure made from electrically conductive polyamide, clear glass bottle, autoclavable.
For taking sludge and water samples as well as samples of group A petroleum products, explosion groups IIA and IIB.
Approved for use in EX safety zone 0.
Safe closure for rapid bottle exchange.
High weight for rapid lowering.
Dimensions: outer ∅ 148 mm, height 330 mm. Weight 3.3 kg.
Capacity 1000 ml.

**Delivery without** manual rope spool and lowering rope (please order separately).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T266.1** | 1 | 461,20 |



## Rotilabo®-dipping bottle Ex

Made from non-sparking brass, nickel-plated.
For sampling of group A petroleum products, explosion groups IIA, IIB and IIC. Approved for use in EX safety zone 0.
Removable bottle top for easy cleaning.
High weight for rapid lowering.
Dimensions: outer ∅ 89 mm, height 443 mm. Weight 3.2 kg.
Capacity 1000 ml.

**Delivery without** manual rope spool and lowering rope (please order separately).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T267.1** | 1 | 470,85 |

## Accessories for dipping bottles

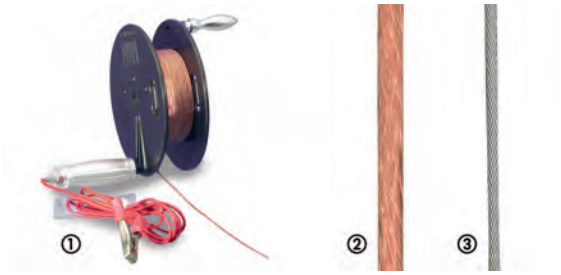
① **Manual rope spool** made of **PP**, excluding rope.
Spool ∅ 100 mm, total ∅ 180 mm, 55 mm wide.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T269.1** | 1 | 91,30 |

② **Lowering rope** made of **PP**, ∅ 2.3 mm, 10 m long.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T272.1** | 1 | 12,10 |

③ **Lowering rope** made of **V2A**, ∅ 1.25 mm, 10 m long.



| Art. No. | Pack Qty. | € |
|---|---|---|
| **T271.1** | 1 | 31,10 |

**Use of dipping bottles**

- Lower the dipping bottle to the desired depth.
- To open the plug pull lowering rope with a short and powerful tug.
- After filling the bottle pull back the lowering rope.
- With T267.1, open the closure and drain the bottle.
- With T266.1, open the closure and remove the bottle.

**Notes on explosion protection**

Only electrically conductive manual rope spools with an earth connection and electrically conductive lowering ropes made of non-sparking materials for sampling flammable and highly flammable liquids.

## Accessories for dipping bottles, for highly flammable solutions

① **Manual rope spool** with earthing cable, without rope, made entirely from conductive plastic. Explosion groups II A and II B.
Spool ∅ 100 mm, total ∅ 180 mm, 55 mm wide.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **EP11.1** | 1 | 222,55 |

② **Lowering rope** made of electrically conductive **4.5 copper**, 10 m long.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **EP10.1** | 1 | 120,40 |

③ **Lowering rope** made of **V2A**, ∅ 1.25 mm, 10 m long.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T271.1** | 1 | 31,10 |

## SteriPlast®Bio sample scoops

By Bürkle. Made of green **PE**, **sterile**. For sampling powders, granulates and pastes. Sample scoop and packaging are made from renewable raw materials and fully recyclable. Cleanroom-manufactured (class 7), individually packed. Suitable for use with foodstuffs.

| Volume (ml) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 25 | 141 | **CPP9.1** | 10 | 20,30 |
| 50 | 160 | **CPT0.1** | 10 | 20,40 |
| 100 | 205 | **CPT1.1** | 10 | 21,00 |
| 150 | 216 | **CPT2.1** | 10 | 22,05 |

## Sample scoops SteriPlast®

By Bürkle. Made of **PS**, **sterile**, with transparent lid. For sterile and contamination-free sampling, e.g. of powders, granulates and pastes. Sample scoop can be sealed with lid after taking sample. Cleanroom-manufactured (class 7), individually packed. Suitable for use with foodstuffs.

| Volume (ml) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 25 | 142 | **CPP5.1** | 10 | 27,45 |
| 50 | 161 | **CPP6.1** | 10 | 29,35 |

| 150 | 218 | **CPP8.1** | 10 | 30,45 |

## SteriPlast®-single-use samplers

By Bürkle. Made of PS, blue. **Sterile.** For sampling of powders, granulates, pastes and liquids, especially in the food, animal feed and pharmaceutical industries.
Compliant with the EU Food and FDA Regulations, applicable within the scope of HACCP/IFS foreign body management.
Cleanroom-manufactured (class 7), individually packed.

① **Food spoon**

| Volume (ml) | Length (mm) | Art. No. | Pack Qty. | € |

| 500 | 280 | **HET9.1** | 10 | 38,75 |

## SteriPlast®-single-use sampler, detectable

By Bürkle. Made of PS, blue. **Sterile.** For sampling powders, granulates, pastes and liquids. Compliant with EU Food and FDA Regulations.
A special additive makes the single-use samplers visible in metal detectors or per X-rays and can be sorted out using regular systems for checking for foreign bodies.
Cleanroom-manufactured (class 7), individually packed.

| 10 | 170 | **CPT4.1** | 100 | 47,30 |

## Sample spatula SteriPlast®

By Bürkle. Made of **PS**, **sterile**. For sterile and contamination-free sampling, e.g. of powders, granulates and pastes. Insertion depth 150 mm. With long, sturdy handle and sharp blade for piercing paper and plastic bags etc. Sample spatula is optionally available with a lid made of PS which allows the sample to be sealed straight after it is taken. Cleanroom-manufactured (class 7), individually packed. Suitable for use with foodstuffs.

| Design | Total length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Without lid | 263 | **CLT5.1** | 10 | 16,85 |
| With lid | 268 | **CLT6.1** | 10 | 24,70 |

## Disposable sample scoops

Made of **PS**, **sterile** (gamma-sterilised, individually packed).
With or without lid.

- Long handle allows safe distance between sample and hand
- Flat base for upright storage
- Usable as a weighing bottle

For sampling, analysis or conveyance of substances.

**With lid, white**.
Lid with tab. Spoon and sample container in one.

| Volume (ml) | Total length (mm) | Scoop L x W x H (mm) | Art. No. | Pack Qty. | € |

# Disposable sampling systems

## Single-use samplers for solids

By Bürkle. Made of **HDPE**. For samples of bulk goods, powders and granulates. No contamination by other samples, no complicated and time-consuming cleaning. Manufactured under cleanroom conditions. Packed individually in film, unsterile or **sterile**.

① **Powder Dispo**
For cross-section samples of cohesive, powdery substances. Conically shaped sampler for BigBag or sack penetration.

| Length (mm) | Volume (ml) | ∅ (mm) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 300 | 60 | 21 | unsterile | **ETX3.1** | 10 | 55,05 |
| 300 | 60 | 21 | **sterile** | **ETX4.1** | 10 | 63,95 |
| 500 | 100 | 21 | unsterile | **NH28.1** | 10 | 66,65 |
| 500 | 100 | 21 | **sterile** | **ETX5.1** | 10 | 71,65 |

② **DispoLance**
For free-flowing powder and fine granulates. Insert the lance down to the desired depth. Empty via the open end of the handle direct in the sample bag.

| Length (mm) | Volume (ml) | ∅ (mm) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 300 | variable | 21 | unsterile | **ETX6.1** | 10 | 51,80 |
| 300 | variable | 21 | **sterile** | **ETX7.1** | 10 | 59,15 |
| 500 | variable | 21 | unsterile | **ETX8.1** | 10 | 65,55 |
| 500 | variable | 21 | **sterile** | **ETX9.1** | 10 | 69,75 |

③ **MicroDispo**
For target point samples of small quantities of free-flowing bulk materials up to a grain size of 0.5 mm. Insert the sampler, pull up the handle of the pull rod and take the sample. Press the handle down to empty the sample into a vessel.

| Length (mm) | Volume (ml) | ∅ (mm) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 500 | 10 | 21 | unsterile | **HC55.1** | 10 | 67,35 |
| 500 | 10 | 21 | **sterile** | **ETY0.1** | 10 | 96,25 |
| 1000 | 10 | 21 | **sterile** | **ETY1.1** | 10 | 112,90 |

④ **ZoneDispo**
For cross-section samples of free-flowing bulk materials and fine granulates. Insert the closed zone sampler down to the desired depth and open; the bulk material flows in. Close the sampler, pull it out and empty via the opened chamber.
The sample can be secured and transported in the closed sampler.

| Length (mm) | Volume (ml) | ∅ (mm) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 500 | 100 | 25 | unsterile | **HC58.1** | 10 | 91,40 |
| 500 | 100 | 25 | **sterile** | **ETY2.1** | 10 | 109,90 |
| 1000 | 200 | 25 | unsterile | **ETY3.1** | 10 | 116,10 |
| 1000 | 200 | 25 | **sterile** | **ETY4.1** | 10 | 131,15 |

## Single-use samplers for fluids

By Bürkle. Made of **HDPE**. For sampling viscous media and liquids. No contamination by other samples, no complicated and time-consuming cleaning. Manufactured under cleanroom conditions.
Packed individually in film, unsterile or **sterile**.

① **ViscoDispo**
For high-viscosity media up to max. 100 000 mPas. Insert the sampler into the liquid. Pull up the handle of the pull rod to take the sample. Then press the pull rod down to empty the sample into a vessel.

| Length (mm) | Volume (ml) | ∅ (mm) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 500 | 100 | 21 | unsterile | **HC52.1** | 10 | 74,85 |
| 500 | 100 | 21 | **sterile** | **ETT5.1** | 10 | 74,75 |
| 1000 | 200 | 21 | unsterile | **HC53.1** | 10 | 85,80 |
| 1000 | 200 | 21 | **sterile** | **ETT6.1** | 10 | 96,65 |

② **LiquiDispo**
For low-viscosity liquids up to max. 2000 mPas. Insert the sampler into the liquid. Pull up the handle of the pull rod to take the sample. Then press the pull rod down to empty the sample into a vessel.

| Length (mm) | Volume (ml) | ∅ (mm) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 500 | 100 | 21 | unsterile | **HC50.1** | 10 | 72,55 |
| 500 | 100 | 21 | **sterile** | **ETT7.1** | 10 | 74,75 |
| 1000 | 200 | 21 | unsterile | **HC51.1** | 10 | 82,45 |
| 1000 | 200 | 21 | **sterile** | **ETT8.1** | 10 | 96,65 |

③ **DispoPipette**
For cross-section and target point samples of liquids with a variety of viscosities (opening ∅ 2.5/5.5 mm). When the sampler is opened, the liquid flows in or out; when closed, it is held in the sampler.

| Length (mm) | Volume (ml) | ∅ (mm) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 500 | 100 | 21 | unsterile | **ETT9.1** | 10 | 44,80 |
| 500 | 100 | 21 | **sterile** | **ETX0.1** | 10 | 55,55 |
| 1000 | 200 | 21 | unsterile | **ETX1.1** | 10 | 51,80 |
| 1000 | 200 | 21 | **sterile** | **ETX2.1** | 10 | 66,65 |

# Centrifugal pumps

## Rotary pumps

With magnetic clutch for circulating water.
Complete with 1.5 m cable and plug. Protective system IP 67.

**Please note:**

- Pumps must not be allowed to run dry
- Pumps are not self-priming and must always be installed below liquid level when used externally
- Temperature stable from -10 to +40 °C
- Can be used inside the pumping medium
- Output is non-adjustable

**Technical specifications:**

| **Model** | ① | ② | ③ | ④ |
|---|---|---|---|---|
| Flow rate max. (l/min) | 4.5 | 40 | 10 | 20 |

## Centrifugal pump

Medium contacting parts made of **PP**, **EPDM** and **ceramic**.
With magnetic clutch. Continuous running for transferring and circulating chemicals and gaseous liquids possible.
Adapter, outer thread ¼″. Magnetic resistance to fracture protects the motor against external interference. Economical in use of electricity, long-life due to low friction.
Not self-priming. Not suitable for dry operation.

**Technical specifications:**

| | |
|---|---|
| Flow rate | max. 13,8 l/min |
| Lift of pump | max. 2.3 m |
| Power input | 51 W |
| Power output | 10 W |
| Ideal for temperatures | from -20 to +85 °C |
| Dimensions (H x L x W) | 100 x 150 x 112 mm |
| Weight | ca. 1.7 kg |
| Current | 230 V, 50/60 Hz |

| Art. No. | Pack Qty. | € |

## Centrifugal pump

Medium contacting parts made of **PP**, **EPDM** and **ceramic**.
With magnetic clutch. For aggressive chemicals, acids, alkalis and gaseous liquids.
Adapter, outer thread ½″. Continuous running possible.
No shaft sealing ring, therefore little friction and long-life of pump.
Not self-priming.

**Technical specifications:**

| | |
|---|---|
| Flow rate | max. 52 l/min |
| Lift of pump | max. 6.0 m |
| Ideal for temperatures | from -20 to +85 °C |
| Power input | 95 W |
| Dimensions (H x L x W) | 143 x 214 x 102 mm |
| Weight | ca. 3.0 kg |
| Current | 230 V, 50 Hz |

| Art. No. | Pack Qty. | € |
|---|---|---|
| **A903.1** | 1 | 579,45 |

# Membrane liquid pumps

## Membrane liquid pumps LIQUIPORT®

By KNF. Ideal for delivering neutral and aggressive liquids.

- Flow rate can be adjusted from 10-100 % via knob with LED-display
- Standby-mode
- Maximum pressure control
- Selfpriming
- Dry running
- Long-life
- Protective system: IP65 (hoseproof)
- Permissible liquid temperature max. 80 °C
- Main supply 100-230 V, 50/60 Hz
- Membranes PTFE-coated, valves FFPM

All models are also available with external control, please check with our Sales Department.

**Technical specifications:**

| Model | NF 100 | NF 1.100 | NF 300 | NF 1.300 |
|---|---|---|---|---|

## SIMDOS® 10 metering pumps

By KNF. Suitable for pumping neutral and aggressive liquids.

- Optimised pump head geometry with safety feature prevents fluids from leaking into the pump drive.
- Operating modes: continuous pumping (unlimited time), continuous pumping with timed switch-off, volumetric metering and series metering
- With calibration function for better accuracy
- Adjustable pump characteristics (e. g. for vaporous, viscous liquids)
- Pause function without loss of data
- Dry-run safe, self-priming and maintenance-free
- EPDM diaphragm, PTFE-coated, valve plate/seals made of FFKM

All models are also available with external control, please check with our Sales Department.

**Technical specifications:**

| | |
|---|---|
| Delivery rate | 1-100 ml/min |
| Metering capacity | 1-1000 ml |
| Metering time | 1 s - 99 h 59 min |
| Max. suction head | 3 mWS |
| Max. pressure | 6 bar |
| Allowable medium temperatures | +5 to +80 °C |
| Connection for ID/AD hose | 4 / 6 mm |
| Power requirement | 24 W |
| Protection class | IP 65 |
| Noise level | <40 dBA |
| Dimensions W x D x H | 93 x 134 x 144 mm |
| Weight | 0.9 kg |
| Power supply | 100-240 V, 50/60 Hz |

**Delivery incl.** connection kit (hose and screw fitting) and intake filter.

# Peristaltic pumps

## Membrane dosing pumps

Powerful, speed-controlled stepper motor.
Constant, continuous dosing performance. Adjustment range up to 1:1000.
Traffic lights concept to indicate pump status.
**PTFE** membrane, universally resistant to chemicals.

**Technical specifications:**

| Model | DDE 6-10 | DDE 15-4 |
|---|---|---|
| Max. flow rate (l/h) | 6 | 15 |
| Suction lift (mWS) | 6 | |
| Max. pressure (bar) | 10 | 4 |
| Ambient temperature (°C) | 0 to 45 | |
| Temperature of medium (°C) | -10 to 45 | |
| Parts with media contact | PVC/FKM/ceramics | |
| For tubes ID/AD (mm) | 4/6 | 6/9 |
| Max. sound pressure level (dB(A)) | 60 | |
| Degree of protection (housing) | IP 65 | |
| Dimensions W x D x H (mm) | 102 x 251 x 196 | 102 x 251 x 200.5 |
| Weight (kg) | 2.4 | |
| Mains connection | 100-240 V, 50/60 Hz | |

**Delivery incl.** assembly plate as base or for wall mounting.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| DDE 6-10 | **PE71.1** | 1 | 514,95 |
| DDE 15-4 | **PE72.1** | 1 | 675,10 |

## Accessories: multifunction valve for diaphragm metering pump

Made of **PVDF**. To maintain the necessary counterpressure and vent the pump at start-up. Compact valve for connecting directly to the pump. Dimensions: L 139 x H 92 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PE73.1** | 1 | 218,25 |

## Roth Cyclo II pericyclic pumps

Pumps for all applications in the laboratory, in chemical analysis and biotechnology.

- **1- or 2-channel head pumps** (∅ 62 mm)
- **3- or 6-roll pump head** for lower pulsation
- Simple operation with two knobs:
  Infinitely variable speed setting from 0 to 100 %
  adjustable left-hand/right-hand motion
- Tube can be changed easily in a few seconds
- Variable tube pressure
- With easy to disassemble pump head for problem-free cleaning
- Pump head can be turned by 90°
- Matching tube cassettes for 3 different tube sizes
- Temperature and current limiter for maximum reliability
- Stackable
- Tube with 1.6 mm wall thickness can be used

**Technical specifications:**

| | |
|---|---|
| Safe delivery pressure | 1 bar |
| Voltage | 100-230 V |
| Drive / Power | DC-motor / 10 W |
| Weight | 1.6 kg |
| Dimensions (W x D x H) | 134 x 190 x 131 mm |

**Flow rates are dependent on tubing size** (wall thickness 1.6 mm):

| Tube cassette | Y375.1 | Y376.1 | Incl. in delivery |
|---|---|---|---|
| Tube-inner-∅ (mm) | 1.6 | 3.2 | 4.8 |

| Cyclo II with 2-channel pump head, 6 rolls | **EP76.1** | 1 | 1538,35 |

Accessories:

| | | | |
|---|---|---|---|
| Tube cassette for tube inner-∅ 1.6 mm | **Y375.1** | 1 | 103,75 |
| Tube cassette for tube inner-∅ 3.2 mm | **Y376.1** | 1 | 103,75 |

# Peristaltic pumps

## Tube Pumps Sci-Q 323

By Watson-Marlow. Particularly suitable for applications in the laboratory and for research.

- Expansion and end pump head with 4 rolls for lower pulsation is available as an accessory
- Flow rate up to 2000 ml/min with 3 rolls
- Flow rate up to 1600 ml/min with 4 rolls
- Can be expanded with additional pump heads to up to 6 parallel channels
- Hose can be inserted quickly and easily with the flip-top-pump head
- Digital speed control
- Manually steerable
- Easy to read display and wipeable membrane keyboard
- Chemically stable housing
- Maintenance-free, quiet motor
- For use with 1.6 mm thick hoses (please order separately)

**Technical specifications:**

| Hose-ID (mm) | 0.5 | 0.8 | 1.6 | 3.2 | 4.8 | 6.4 | 8.0 |
|---|---|---|---|---|---|---|---|
| 3-Roll-head: Flow rate (ml/min) | 0.45-12 | 1.1-28 | 4.1-110 | 15-400 | 33-880 | 54-1400 | 75-2000 |
| 4-Roll-head: Flow rate (ml/min) | 0.45-12 | 0.90-24 | 3.8-100 | 13-340 | 29-760 | 45-1200 | 60-1600 |
| Max. number of pump heads (at 0.5 bar) | 6 | 6 | 4 | 2 | 2 | 1 | 1 |

| | |
|---|---|
| rpm | 15-400 rpm (adjustable in increments of 5) |
| Ideal for temperatures | 5-40 °C |
| Noise levell | <70 dBA |
| Weight | 4.7 kg |
| Dimensions (H x L x W) | 225 x 230 x 132 mm |
| Current | 230 V, 50/60 Hz - change-over to 120 V |

**Delivery incl.** one 3-roll-end-pump head.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **Y545.1** * | 1 | 3332,50 |

* Longer delivery times possible. Please check with our Sales Department.

**Accessories:**

| | | | |
|---|---|---|---|
| Extension pump head, 3-roll | **Y546.1** | 1 | 407,45 |
| Extension pump head, 4-roll | **Y547.1** | 1 | 407,45 |
| End-piece pump head, 4-roll | **Y548.1** | 1 | 407,45 |

## Peristaltic pumps set Hei-FLOW

By Heidolph. For conveying liquids.

- Analog speed adjustment
- Constant speed even under varying load
- Reversible direction of rotation (ccw/cw)
- Stackable housing (max. 2 pump drives)
- Pump drives Hei-FLOW Advantage 01 with maximum speed button for faster filling and drainage of tubing

**Characteristics of the pump head:**

- For tubing wall thickness of 1.6 mm
- Tubing outer diameters of between 4 mm and 9.5 mm are freely selectable
- Low pulsation is ensured by 5 rollers
- Easy and quick tubing replacement
- Stainless steel rollers and roller mounts

**Technical specifications:**

| **Type** (Hei-FLOW) | ① **Value 01** | ② **Advantage 01** |
|---|---|---|
| Delivery rate (ml/min) | 0.8-413 | 0.4-409 |
| Speed (rpm) | 10-120 | 5-120 |
| Control accuracy (%) | ±2 | ±0.5 |
| Analog interface | no | yes |
| Motor power (W) | 71 | 100 |
| Weight excluding pump head (kg) | 6.8 | 8.2 |
| Dimensions W x D x H (mm) | 166 x 256 x 225 | |

**Flow rates are dependent on tubing size** (wall thickness 1.6 mm):

| Inner ∅ (mm) | 0.8 | 1.7 | 3.1 | 4.8 | 6.3 |
|---|---|---|---|---|---|

# Peristaltic pumps

## Hei-FLOW Precision peristaltic pumps

By Heidolph.
For conveying and metering liquids.

### Pump drives

- Digital display
- Dispensing volume 0.1-9999 ml
- Intermittent dispensing
- Simple calibration of delivery and dispensing volumes
- With maximum speed button for faster filling and drainage of tubing
- Constant speed even under varying load
- Reversible direction of rotation (ccw/cw)
- Stackable housing (max. 2 pump drives)
- Analog and digital (RS 232) interfaces
- Hei-FLOW Precision 01 pump drive suitable for multichannel operation

**Technical specifications of the pump drives:**

| Hei-FLOW model | Precision 01 | Precision 06 |
|---|---|---|
| Delivery rate in single-channel mode (ml/min) | 0.02-409 | 2-2072 |
| Speed (rpm) | 5-120 | 24-600 |
| Control accuracy (%) | ±0.5 | |
| Multichannel operation possible | yes | no |
| Motor power (W) | 100 | |
| Weight excluding pump head (kg) | 8.3 | 7.7 |
| Dimensions W x D x H (mm) | 166 x 256 x 225 | |

**Modular design:**
pump drive, pump head and pump hose are freely combinable (please order separately).

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Hei-FLOW Precision 01 pump drive | **CYC4.1** | 1 | 2911,00 |
| Hei-FLOW Precision 06 pump drive | **CYC5.1** | 1 | 2810,00 |

### Pump heads for Hei-FLOW Precision

**1-channel pump head SP quick for Hei-FLOW Precision 01 and 06**
- For standard tubing with a wall thickness of 1.6 mm
- Tubing outer diameters of between 4 mm and 9.5 mm are freely selectable
- Low pulsation is ensured by 5 rollers
- Easy and quick tubing replacement
- Stainless steel rollers and roller mounts

**Flow rates are dependent on tubing size (wall thickness 1.6 mm):**

| Inner ∅ (mm) | 0.6 | 1.7 | 3.1 | 4.8 | 6.3 |
|---|---|---|---|---|---|
| Delivery rate (ml/min) | | | | | |
| Precision 01 | 0.38-9 | 2-40 | 5-126 | 12-233 | 17-409 |
| Precision 06 | 2-33 | 8-186 | 26-653 | 59-1529 | 89-2072 |

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 1-channel pump head SP quick (SWS 1.6 mm) | **CYC6.1** | 1 | 457,00 |

**4-channel pump head for Hei-FLOW Precision 01**
- For use with up to 4 hose cassettes, with snap lock for easy insertion during operation
- Low pulsation is ensured by 8 rollers
- For 2 stopper hoses with a wall thickness of 0.9 mm
- Tubing outer diameters of between 0.2 mm and 2.8 mm are freely selectable
- To feed and convey different volumes, hoses of different diameter can be inserted into the hose cassette
- Roller pressure can be adjusted using an adjustment screw

**Flow rates are dependent on tubing size (wall thickness 0.9 mm):**

| Inner ∅ (mm) | 0.2 | 0.5 | 0.9 | 1.4 | 2.8 |
|---|---|---|---|---|---|
| Delivery rate (ml/min) | | | | | |
| Precision 01 | 0.02-0.49 | 0.08-2 | 0.24-6 | 0.60-14 | 2-36 |

For multichannel operation of Hei-FLOW Precision 01, an adapter for multichannel pump heads and 1 to 4 hose cassettes (please order separately) are required in addition to the 4-channel pump head.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① Adapter for multichannel pump heads | **CYC7.1** | 1 | 164,00 |
| ② 4-channel pump head | **CYC8.1** | 1 | 762,00 |
| ③ Hose cassette | **CYC9.1** | 1 | 243,00 |

## Accessories for Hei-FLOW Precision 01 in multichannel operation

# Peristaltic pumps

## HiClass rotarus® peristaltic pumps

By Hirschmann. The stainless-steel housing makes this pump ideal for use in pharmaceuticals and food production.
Choose from two different motor versions: 50i series for low flow rates or high viscosity media and 100i series for high flow rates.
Available with single-channel pump head or multichannel pump head. Alternatively, up to 3 single-channel pump heads can be connected in a daisychain for multichannel operation.

- Control panel directly on pump housing for quick and easy input of basic functions
- Quick-change pump heads
- Reversible direction of rotation (CW / CCW)
- Load-based speed control
- Suitable for continuous duty
- Stackable
- PC connectivity via USB and RS 232 ports

**Technical data on pump drives:**

| **Motor version** | **50i series** | **100i series** |
|---|---|---|
| Motor power (W) | 50 | 85 |
| Speed range (RPM) | 0.2-100 | 5.0-500 |
| Delivery rate depending on pump head (ml/min) | 0.0005-1200 | 0.025-6900 |
| Steps (RPM) | 0.1 | |
| Total power consumption (W) | 60 | 90 |
| Protection rating | IP 65 | |
| Weight (kg) | approx. 7.3 | approx. 10.1 |
| Dimensions (H x W x D) mm | 220 x 100 x 205 | 220 x 100 x 270 |
| Power supply | 115-240 V/ 50-60 Hz | |

**Technical data on pump models:**

| **rotarus® model** | **Standard** | **flow** | **volume** |
|---|---|---|---|
| Control panel on pump housing | x | x | x |
| External control panel with touchscreen | - | x | x |

# Membrane controlled vacuum pumps

## Rotilabo®-piston pump CR-KP292

Compact pump for vacuum and pressure applications.
Suitable for pumping air and neutral gases.

**Applications:**
pressure filtration of aqueous solutions, use in vacuum ovens, vacuum drying and gas sampling.

**Technical specifications:**

| | |
|---|---|
| Delivery rate | 9.2 l/min |
| End vacuum (abs.) | 292 mbar |
| Pressure | 3.3 bar |
| Motor power | 25 W |
| Connections for hose ID | 6 mm |
| Dimensions (L x W x H) | 194 x 114 x 191 mm |
| Weight | 2.0 kg |
| Power supply | 230 V, 50 Hz |

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CYA9.1** | 1 | 307,45 |

**Conversion table for delivery rates**

| m³/s | m³/h | l/min | l/s |

**Programme extension!**

## Rotilabo®-diaphragm vacuum pump CR-MV100

For conveying and compressing neutral and aggressive gases and vapours in accordance with the resistance of the given materials.
Continuous manual vacuum adjustment.

**Application areas:** suitable for vacuum filtration, vacuum drying and solid phase extraction.

**Technical specifications:**

| | |
|---|---|
| Delivery rate | 10 l/min |
| End vacuum (abs.) | 100 mbar |
| Motor power | 48 W |
| Connections for hose ID | 6 mm |
| Vacuum regulators | Needle valve |
| Measurement range / scaling | 1000 to 1 mbar / 50 mbar |
| Dimensions (W x D x H) | 144 x 198 x 244 mm |
| Weight | 2.7 kg |
| Power supply | 90-260 V; 50/60 Hz |

**Materials of pump parts in contact with media:**

| | |
|---|---|
| Seal | EPDM |
| Hose nozzle / connecting part | PP |
| Valve | FKM |
| Diaphragm | PTFE-coated |
| Hose / separator | PVC |
| Connector head / pump head | Ryton |

**Delivery incl.** vacuum metering block with pressure gauge and exhaust silencer.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ECK4.1** | 1 | 763,25 |

**Accessories:**

| | | | |
|---|---|---|---|
| Hose nozzle for hoses ID 8 mm | **HLY8.1** | 1 | 21,30 |

# Membrane controlled vacuum pumps

## LABOPORT®-membrane vacuum pumps

By KNF. Ideal for pumping and evacuating **air and neutral or slightly aggressive or corrosive gases and vapours.**

- Thermal switch and power fuse
- Gas and ambient temperature limit: 40 °C
- Suitable for continuous operation
- Very quiet and has minimal vibration
- Voltage frequency: 230 V, 50 Hz

Optional accessories:
- Fine regulator head: For adjustment of the vacuum. Scale: 50/100 mbar increments
- Silencer for all pump types to be assembled on delivery side
- Suction filter for K517.1, Y371.1 and L110.1, to be assembled on intake side

**Technical specifications:**

## Membrane controlled vacuum pumps and compressors

By KNF. Ideal for pumping, evacuating and compressing **air and neutral or slightly aggressive and/or corrosive gases and vapours.**
Generates oil-free air pressure and vacuum.
Assists in the analysis and measurement of gases.

- Pump head made of aluminium
- All AN models have a neoprene diaphragm, AT models (T789.1) are PTFE coated
- Max. gas and ambient temperature: 40 °C
- Units have been designed for continuous operation
- Very quiet
- Gas tight
- Non-corroding
- Following order numbers come with noise absorption and hose support C561.1, T356.1
- Power supply: 230 V/50 Hz

**Technical specifications:**

# Membrane controlled vacuum pumps

Programme extension!

## LABOPORT® chemically resistant membrane vacuum pumps

By KNF.
For conveying and evacuating **aggressive gases and vapours**.

**Applications:** for vacuum filtration, drying, distillation, gel drying, SPE, rotation evaporator, vacuum furnace.

- Inner, media-contact area ATEX-compliant acc. to "ATEX II 2GB IIB+H2 T3X internal atmosphere only"
- High gas density
- Permissible media and ambient temperature +5 to +40 °C
- Max. operating pressure 1 bar
- Suitable for continuous duty
- Connections for hose with ID 10 mm
- Power supply: 230 V/50 Hz

**Materials:**
- Pump head: TFM™ PTFE
- Diaphragm: PTFE-coated
- Valves: FFPM

Models N810.3FT.18G, N820.3FT.18G, N840.3FT.18G with integrated gas ballast valve.

## LABOPORT® SD automatic drying vacuum pumps for humid gases

By KNF. Chemically consistent, **for highly aggressive and corrosive gases and steam.**
The pump blows condensed fluid out of the pump heads at a high speed during evacuation. The vacuum in the vessel remains constant.

**Application:**
Ideal for e.g. steam sterilizers or for vacuum drying on vacuum drying cabinets to accelerate evacuation time considerably.

- With PTFE pump heads, PTFE-coated membranes, FFPM valves
- Two heads
- High steam and condensate compatibility
- Gas tight, leak rate approx. 6 x $10^{-3}$ mbar x l/s
- Max. gas and ambient temperature: +40 °C
- With thermal switch and main fuse
- Hose connection ID 10 mm
- Power supply: 230 V/50 Hz

**Technical specifications:**

| Type | N820.3FT.40.18 | N840.3FT.40.18 |
|---|---|---|

# Membrane controlled vacuum pumps

## Membrane controlled vacuum pump N920 KT.29.18 G

By KNF. For all applications which require **high suction speed at low pressure.** For delivering and sucking air, gases and vapours, for withdrawing and evacuating samples from containers or systems.

**Properties:**
- **Flow rate can be adjusted** by regulating the speed with the potentiometer
- Very quiet and low on vibration
- Membrane stabilizing system for high suction speed at low vacuum range
- Model N920KT.29.18G with integrated gas ballast valve
- Max. gas and ambient temperature 40 °C
- Power supply: ~90-240 V, 50/60 Hz

**Application range:**
For a variety of procedures and processes, e.g. in laboratories, which need to be performed under vacuum conditions. Can also be used in the semiconductor and pharmaceutical industry, chemical and analytic engineering.

**Technical specifications:**

| | |
|---|---|
| Output (l/min) | 21 |
| Final vacuum (abs.mbar)<br>- without gas ballast<br>- with gas ballast | <br>2.0<br>5.0 |
| Max. working overpressure (bar) | 0.5 |
| Power output (W) | 135 |
| Adapters for hose inner-∅ (mm) | 10 |
| Weight (kg) | 8.6 |
| Pump head | PPS |
| Membrane | PTFE-coated |
| Valves | FFPM |

| Muffler/suction filter | **EP20.1** * | 1 | 23,65 |

* Longer delivery times possible. Please check with our Sales Department.

## ME 1 and ME 1C vacuum membrane pumps

By Vacuubrand. Ideal for pumping and evacuating gases and vapours. High specific resistance (especially ME 1C).

**Applications:**
vacuum filtration for sample preparation in chemical, microbiology, waste water and other analytical processes.

- Simple to use with central power switch mounted on pump housing
- Whisper quiet and very low vibration
- Requires minimal benchtop space
- Long membrane lifetime
- Weight 5 kg
- Dimensions: L 247 x W 121 x H 145 mm
- Finely adjustable vacuum regulation valves are optionally available for ME 1 and ME 1C with manual vacuum control via leakage air. Regulation valve rotates in different directions for optimal visibility.

**Technical specifications:**

| Model | ME 1 | ME 1C |
|---|---|---|
| Number of heads / stages | 1/1 | |
| Max. pumping speed at 50/60 Hz ($m^3$/h) or (l/min) | 0.7/0.85 or 11.7/14.2 | |
| Vacuum abs.(mbar) | 100 | |
| Max. abs. back pressure (EX) (bar) | 1.1 | |
| Connection suction side (mm) | Hose nozzle DN 6/10 | Hose nozzle DN 10 |
| Connection pressure side (mm) | Silencer / G ⅛″ | Hose nozzle DN 10 |
| Rated motor power (kW) | 0.04 | |
| Parts contacting media | Aluminium, PTFE | ETFE, PTFE |

| Vacuum regulation valve with manometer for ME 1 | **NA19.1** | 1 | 115,05 |
| Vacuum regulation valve with manometer for ME 1C | **NA20.1** | 1 | 240,80 |

# Membrane controlled vacuum pumps

## Membrane pumps MD 1 and MD 1C

By Vacuubrand. For evacuating and conveying gases down to an extremely low end vacuum.

- **Three-stage, for high suction even at low pressures**
- Very quiet and low vibration
- Long service life
- Easy to replace membrane and valve

Available in two designs:
- **MD 1**: Wide range of applications for neutral gases
- **MD 1C**: Especially for aggressive gases through the use of chemical-resistant fluoroplastics, as well as excellent condensate compatibility due to built-in gas ballast valve

**Technical specifications:**

| **Model** | **MD 1** | **MD 1C** |
|---|---|---|

## Membrane controlled pump ME 4 NT

By Vacuubrand. Ideal for analytic applications with **non-aggressive gases**, for the laboratory and industrial use.

- Continuous, oil-free pumping of gases
- Very low leakage rate due to extremely tight coupling technology
- Highly flexible **FPM**-double membranes with tissue reinforcement for long membrane life
- Compact drive system for extremely quiet and smooth running
- High life-cycle
- Easy changing of membrane and valve

**Technical specifications**:

| | |
|---|---|
| Max. suction speed 50/60 Hz ($m^3$/h) or (l/min) | 4.0/4.4 or 67/73 |
| Final pressure (mbar abs.) | 70 |
| Max. pressure difference between intake and outlet (bar) | 2 |
| Connection at suction side, hose shaft (mm) | 10 |
| Pressure side | Sound absorbers |
| Motor output (kW) | 0.18 |
| Dimensions L x W x H (mm) | 243 x 239 x 198 |
| Weight (kg) | 11 |

# Rotary vane pumps

## MPC-series membrane controlled pumps

By Welch Vacuum. Ideal for conveying and compressing
**neutral and aggressive gases and vapours.**
Application range: In physical and chemical laboratories
for vacuum-filtration, -distillation, -drying, etc.

- Connection-/pump head made of PTFE with carbon fiber reinforcement
- Gasket EPDM, Screw connectors PVDF, valves PEEK, membrane disk NBR, connecting elements PP
- Max. supply pressure / max. outlet pressure 1 bar
- Inlet-/Outlet side for tube interior-∅ 8 mm
- Max. ambient level 40 °C
- Max. operating gas-temperature 80 °C
- Main supply 230 V, 50/60 Hz

**Technical specifications:**

| Type | MPC 101 Z (2-stage) | MPC 301 Z (2-stage) | MPC 601 T (3-stage) |

## Rotary vane pump packages CRVpro series

By Welch Vacuum.
Complete package with two-stage rotary vane pumps.

**Advantages:**
- Low operating temperature due to enhanced cooling geometry
- Coating of the pump body and the oil container as protection against chemical vapours
- Low oil consumption and corrosion inhibitor due to low heat development during operation
- Large oil reservoir reduces the concentration of chemicals, whereby the oil change intervals are increased

**Applications:**
- Freeze dryer (CRVpro 4/6/8)
- Vacuum centrifuge (CRVpro 6)
- Vacuum furnaces (CRVpro 8)
- Schlenk Technology (CRVpro 4)
- Glove Box (CRVpro 8)

**Technical specifications:**

| Type | CRVpro 4 | CRVpro 6 | CRV pro 8 |

# Rotary vane pumps

## XS rotary vacuum pumps

By Vacuubrand. For pressure ranges up to $10^{-3}$ mbar.

**Advantages:**

- High suction capacity, even at low ultimate pressure
- High water vapour tolerance
- Active corrosion protection against ingress of corrosive gases and oil components at standstill through vacuum-tight oil circuit
- New circulation lubrication system
- Compact design and low weight
- Starts reliably even at low temperatures
- Long oil change intervals thanks to high usable oil volume
- Easy maintenance thanks to telescopic design

### ① Single-stage version

## XS rotary pumps packages

By Vacuubrand.

**Package 1 + 2**

**Delivery incl.:**

- Two-stage pump with oil fill
- Exhaust filter FO for removing oil mist
- Butterfly valve VS 16 with extremely low leakage rate and low gas release
- PP adapter, small flange DN 16 on DN 10 hose nozzle. Clamping and centring rings

**Package 3**

**Delivery incl.:**

- Two-stage pump with oil fill
- Exhaust filter FO for removing oil mist
- Butterfly valve VS 16 with extremely low leakage rate and low gas release
- PP adapter, small flange DN 16 on DN 10 hose nozzle. Clamping and centring rings
- Set comprising vacuum meter DCP 3000 with pressure transducer VSK 3000

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Package 1 incl. RZ 2.5 + FO + VS 16 + SW DN 10 | **NA10.1** * | 1 | 2322,00 |
| Package 2 incl. RZ 6 + FO + VS 16 + SW DN 10 | **NA11.1** * | 1 | 2784,25 |
| Package 3 incl. RZ 6 + FO + VS 16 + SW DN 10 + set comprising DCP 3000 and VSP 3000 | **CTL3.1** * | 1 | 3741,00 |

* Longer delivery times possible. Please check with our Sales Department.

# Vacuum meter

## Accessories for XS rotary pumps

By Vacuubrand.

① **Exhaust filter FO**
Provides optimal protection against oil-polluted air in the laboratory.
Receptacle made of PMP, highly resistant to chemicals.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| FO for RE 2.5, RZ 2.5 and RZ 6 | **N404.1** * | 1 | 299,95 |
| FO for RZ 9 | **CTL4.1** * | 1 | 352,60 |

② **VS butterfly straight way valves**
Made of stainless steel.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| VS 16, KF DN 16 | **CTL5.1** * | 1 | 333,25 |
| VS 25, KF DN 25 | **CTL6.1** * | 1 | 398,85 |

**PP adapter from small flange (KF) to hose nozzle (SW)**
For connecting hoses with inner ∅ 10 or 15 mm to the pumps.
*1 The smaller inner ∅ may result in a loss of suction.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| PP adapter from KF 16 to SW 10 | **CTL7.1** * | 1 | 20,10 |
| PP adapter from KF 25 to SW 10*1 | **CTL8.1** * | 1 | 27,85 |
| PP adapter from KF 25 to SW 15 | **CTL9.1** * | 1 | 29,35 |

**AK suction side separator**
Retains particles and liquid droplets, e.g. when used on drying cabinets. Fits directly onto suction port. Clear catch tank allows optimal condensation control. Single condensate outlet.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ③ AK for RE 2.5, RZ 2.5 | **CTN0.1** * | 1 | 261,25 |
| AK for RZ 6 | **CTN1.1** * | 1 | 313,90 |
| ④ AK for RZ 9 | **CTN2.1** * | 1 | 326,80 |

⑤ **Main flow oil filter for RZ 9**
Filters microparticles out of the oil. This extends oil life and reduces servicing requirements. The maintenance indicator saves unnecessary filter changes.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Main flow oil filter for RZ 9 | **CTN3.1** * | 1 | 436,45 |

**Clamping and centring rings**
For attaching valves, hose nozzles etc. A single clamping ring and a single centring ring of the same size are required to ensure that a proper connection is made.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Aluminium clamping ring KF DN 10/16 | **CTN4.1** * | 1 | 17,00 |
| Outer centring ring KF DN 10/16 with NBR seal | **CTN5.1** * | 1 | 8,10 |
| Aluminium clamping ring KF DN 20/25 | **CTN6.1** * | 1 | 19,90 |
| Outer centring ring KF DN 20/25 with NBR seal | **CTN7.1** * | 1 | 9,15 |

**Pump oil**

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 1 l pump oil | **N406.1** * | 1 | 32,60 |

* Delivery times may apply to these products. Please ask our sales staff.

## Vacuum regulator VAR and vacuum meter VAC

The units are connected to an vacuum pump in series on the pressure side.
- Connections for hose with inside ∅ 8 mm
- Stand mounting possible (using spring clamps on the back of the device)

① **Vacuum regulator VAR**
With regulator for controlling and maintaining the vacuum.
Continuously variable for variable vacuum level.

② **Vacuum meter VAC**
Ideal for displaying the current vacuum level.

**Technical specifications:**

| | |
|---|---|
| Measuring range | 1020 to 0 mbar |
| Graduation | 10 mbar |
| Dimensions (W x D x H) | 80 x 80 x 150 mm |

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Vacuum regulator VAR | **Y457.1** | 1 | 209,65 |
| Vacuum meter VAC | **NA03.1** | 1 | 146,20 |

## Vacuum meter DVR 2

By Vacuubrand. With integrated pressure transducer made of aluminium oxide ceramics. Digital pressure indicator, with analogue illustration. Different units (mbar, hPa, Torr) can be set. Battery-powered meters. Adjustable on-time (1 to 1000 min) or permanent run settings. Battery change display. Mercury- and cadmium-free. With switch-on/off. With thread for support rod.

**Technical specifications:**

| | |
|---|---|
| Measuring range | 1080 to mbar (hPh)<br>810 to 1 Torr |
| Measuring accuracy | <1 mbar (0.75 Torr) |
| Vacuum connection | Small flange DN 16 and screw-on<br>staged tube shaft DN 6/10 (for tube with ID 6 or 10 mm) |
| Measuring principle | capacitive, absolute pressure measuring independent of gas type |
| Dimensions (L x W x H) | 115 x 115 x 66 mm |
| Weight | 375 g |

**Delivery incl.** 9 V lithium battery and support rod.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **L111.1** | 1 | 602,00 |

# Vacuum meter

## Vacuum meter for coarse and fine vacuum

By Welch Vacuum. Digital multi-range vacuum meter for measuring absolute pressure in the coarse and fine vacuum ranges.
With chemically resistant combined sensor (PIEZO/PIRANI) for corrosive and aggressive gases and vapours.

- Automatic changeover between capacitive and PIRANI measurement ranges
- Temperature compensated for operating temperatures from 0 to + 60 °C
- Calibration of individual measured values
- With clamp for attaching to stand rods ∅ 8-12 mm.
- Battery or mains operation

**Technical specifications:**

| | |
|---|---|
| Measurement range | 1050 to $10^{-3}$ mbar absolute pressure |
| Resolution | 1 mbar (1050 to 100 mbar)<br>0.5 mbar (99 to 1 mbar)<br>0.1 mbar (0.9 to 0.1 mbar)<br>0.01 mbar (0.09 to 0.01 mbar)<br>0.001 mbar (0.009 to 0.001 mbar) |
| Measuring principle | capacitive<br>acc. to PIRANI |
| Measurement accuracy<br>capacitive acc. to PIRANI | 0.8 % full scale (5 to 1050 mbar)<br>±20 % of displayed value |
| Reproduction uncertainty | <0.5 % |
| Measuring lead | 3 m |
| Dimensions L x W x H (mm)<br>Display unit<br>Sensor | <br>80 x 36 x 125 mm<br>80 x 40 x 40 mm |
| Weight | 0.7 kg |
| Power supply | 90-260 V, 50/60 Hz |

**Delivery incl.** power adapter (9 V/200 mA), hose nozzle DN 8-10, clamp and 9 V battery.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CNL1.1** | 1 | 846,05 |

## Vacuum meter DCP 3000 with pressure transducer

By Vacuubrand. LCD graphic display with digital pressure indicator and bar graph representation. Different units (mbar, hPa, Torr) can be set. Separate pressure transducer with measurement cable for flexible positioning of meter (cable length 2 m). Can be used as a tabletop unit or with a support.

**Technical specifications:**

| **Model** | **① Pressure transducer VSK 3000** | **② Pressure transducer VSP 3000** |
|---|---|---|
| Measuring ranges | 1080 to 0.1 mbar<br>810 to 0.1 Torr | 1 x $10^{3}$ to 1 x $10^{-3}$ mbar<br>75 x $10^{2}$ to 1 x $10^{-3}$ Torr |
| Measurement accuracy | <±1 mbar | ±15 % of displayed value within the 0.01 to 10 mbar range |
| Resolution | 0.1 mbar | 10 % of displayed decade |
| Vacuum connection | for hoses with IDs 6, 8 or 10 mm | |
| Measuring principle | capacitive | Heat conduction according to PIRANI |
| Sensor material, contacting medium | Aluminium oxide ceramic | |
| Dimensions of display unit (L x W x H) | 124 x 124 x 114 mm | |
| Weight | 440 g | |
| Mains connection | 100-230 V, 50/60 Hz | |

**Delivery incl.** DCP 3000 vacuum meter with desired pressure transducer, measuring cable and support.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Vacuum meter DCP 3000 with pressure transducer VSK 3000 | **LY74.1** | 1 | 1118,00 |
| Vacuum meter DCP 3000 with pressure transducer VSP 3000 | **LY75.1** | 1 | 1096,50 |

**Accessories:**

| | | | |
|---|---|---|---|
| Replacement/additional pressure transducer VSK 3000 | **LY76.1** | 1 | 410,65 |
| Replacement/additional pressure transducer VSP 3000 | **LY77.1** | 1 | 381,65 |
| Extension leads for pressure transducers VSK 3000 and VSP 3000, 10 m | **LY78.1** | 1 | 90,95 |

## Vacuum controllers CVC 3000 detect

By Vacuubrand. Two-point vacuum regulator with integrated ceramic diaphragm vacuum sensor.

- Backlit LCD graphic display with bargraph
- "Detect" function for automatic boiling pressure detection
- Vacuum measurement is integrated within the valve block - direct connection of CVC 3000 detect between pump and vacuum application
- Ten programs with vacuum and time presets, each storable in ten program steps
- Process time is adjustable from 1 to 1440 min
- Integrated venting valve - easy pressure equalisation or ventilation with inert gas at the end of the process
- Non-return valve - no interference with adjacent applications using a shared vacuum source

**Technical data:**

| | |
|---|---|
| Measurement ranges | 1081 to 0.1 mbar<br>810 to 0.1 Torr |
| Measurement accuracy | <±1 mbar |
| Resolution | 0.1 mbar |
| Vacuum connection | For hoses with ID 6/10 mm |
| Venting valve, connection | For hoses with ID 4-5 mm |
| Measuring principle | Capacitive, absolute pressure measurement independent of gas type |
| Display unit dimensions (L x W x H) | 181 x 162 x 174 mm |
| Weight | 1.5 kg |
| Power supply | 100-230 V, 50/60 Hz |

**Delivery incl.** vacuum controller CVC 3000 detect with vacuum valve, venting valve, non return valve, power supply and ① bench stand or ② stand mount.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① CVC 3000 detect benchtop unit | **AEP6.1** | 1 | 1988,75 |
| ② CVC 3000 detect stand-mounted unit | **AEP7.1** | 1 | 1988,75 |

## SC 920 G vacuum pump system with remote control

By KNF. Chemical-resistant, suitable for aggressive and corrosive gases and vapours.

- Can be controlled via a PC or remote control
- Increased safety: No need to open the fume cupboard to operate the vacuum system
- LCD screen displays actual and target values
- Automatic boiling point detection and boiling point tracking using integrated ramp function
- High recovery rates even with solutions that have very low boiling points
- Delivery rate (in %) can be adjusted via speed
- Integrated gas ballast valve
- Quiet operation

**Technical specifications:**

| | |
|---|---|
| Delivery rate | max. 21 l/min |
| End vacuum abs.<br>without gas ballast<br>with gas ballast | <br>max. 2 mbar<br>max. 5 mbar |
| Tube connection | ID 10 mm |
| Receiving flask | Made of coated glass (implosion-resistant), capacity: 500 ml |
| Port | Mini USB |
| Dimensions (W x H x D) | 366 x 423 x 294 mm |
| Total weight | 15.2 kg |
| Power supply | 100-240 V, 50/60 Hz |

**Materials of pump parts in contact with media:**

| | |
|---|---|
| Pump head | PPS |
| Diaphragms | PTFE-coated |
| Valves | FFPM |
| Seals | FPM |
| Tube shafts | PVDF |

**Radio remote control:**

| | |
|---|---|
| Display | LCD |
| Operation | Touchscreen/push-and-turn dial |
| Range | max. 50 m |
| Power supply | Batteries (4 x 1.2 V 2500 mAh AA) or power supply |
| Dimensions (W x H x D) | 90 x 205 x 55 mm |
| Weight | 0.51 kg |

**Delivery incl.** radio remote control with batteries and power supply, 2 Receiving flasks, 2 flask clamps, USB cable for connecting to a PC and software (compatible with Windows).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **EHP1.1** | 1 | 4479,55 |

# Vakuumsystems

## Chemical-resistant LABOXACT®-SEM vacuum systems

By KNF. Ideal for application with rotary evaporators.

**Design:**
- **Digital-vacuum meter**, shows the current pressure in the system
- **Fine control valve** for infinitely adjustable vacuum regulation
- **Safety ventilation valve** enables the piston to be aired at any time to stop evaporation
- **Separate On/Off-switch** for pump
- **Inert gas supply**
- Connection for hose-ID 10 mm
- Power supply 230 V, 50 Hz
- Comes completely assembled

**Advantages:**
- Safe monitoring of evaporation
- High recovery rate, even when using low boiling solvents
- The closed system allows for gentle distillation
- Infinitely variable regulation of vacuum via fine control valve
- Once the desired vacuum has been achieved, the fine regulator valve can be closed and the pump switched off
- Maintenance-free and quiet

**Delivery incl.** base plate, separator, condenser, fine control valve, vacuum meter (digital), safety ventilation valve, cables and tubes.

## Chemical-resistant LABOPORT®-SC vacuum systems

By KNF. With separator, condenser and vacuum-controller.
For laboratories which require a clean and controlled vacuum.

**Examples of applications:**
- Vacuum distillation and -filtration
- Rotary evaporators
- Vacuum drying
- Vacuum impregnation
- Gel drying, etc.

**Design:**
- **Vacuum-Controller** for controlled vacuum processes
- The control unit switches the pump off or closes it, when the required vacuum has been achieved or exceeded
- Connection for hose-ID 10 mm
- Power supply 230 V, 50 Hz
- Comes completely assembled

**Advantages:**
- Automatic control of vacuum
- Controlled solvent recovery through high-performance condenser (delivery side)
- Collecting of particles in the system (suction side)
- Maintenance-free and quiet

**Delivery incl.** base plate, separator, condenser, vacuum-controller with control unit, cables and tubes.

## Laboratory vacuum system LVS 105 T-10 ef

By Welch Vacuum. Specially designed for rotary evaporators, distillation, filtration, vacuum ovens and vacuum drying. Chemical resistant diaphragm vacuum pump and vacuum controller. To provide a freely selectable vacuum of ±1 mbar, pump speed is continuously adapted to the gas load.

**Advantages:**

- Faster process results are ensured by constant evaporation and degassing
- Automatic vacuum adjustment and control
- Integrated solvents library with stored distillation-specific parameters or freely adjustable boiling points
- Multilingual digital display (languages include DE, FR, EN and ES)
- Low-noise operation through speed reduction

**Pump parts materials in contact with media:**

| | |
|---|---|
| Seal | EPDM |
| Screw coupling / terminals | PP, PVDF |
| Valve | PEEK |
| Diaphragm | PTFE backing |
| Vacuum hose | PTFE |
| Connector head / pump head | PTFE with carbon fibre reinforcement |

**Technical specifications:**

| | |
|---|---|
| Delivery rate | 20 l/min |
| Vacuum abs. | <2.0 mbar |
| Max. inlet/outlet pressure | 1 bar |
| Connections for ID hoses | 8 mm |
| Output | 830 W |
| Dimensions (W x D x H) | 250 x 260 x 435 mm |
| Weight | 9.5 kg |
| Power supply | 90-240 V, 50/60 Hz |

**Delivery incl.** chemical resistant diaphragm pump with gas ballast valve, built-in controller, ecoflex control unit, suction-side separator with 500 ml round bottom flask, pressure-side coil condenser with 500 ml round bottom flask and safety valve.

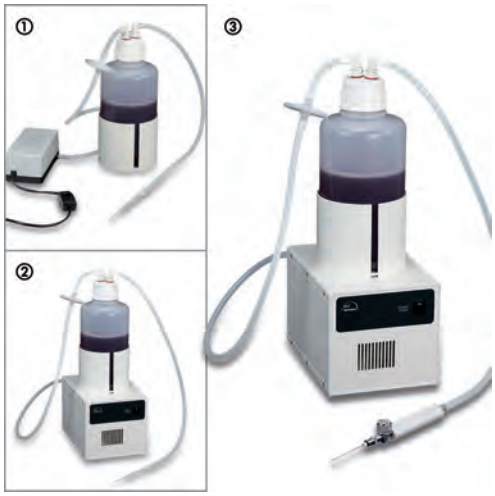
| Art. No. | Pack Qty. | € |
|---|---|---|
| **NH35.1** * | 1 | 3434,65 |

* Longer delivery times possible. Please check with our Sales Department.

## Safety suction system biovac 106

By Welch Vacuum. For safe and precise extraction of liquids, and non-explosive supernatants from microscopic slides, Petri dishes and other containers.

- Incl. highly durable chemical-resistant membrane pump
- The connection between the membrane pump and the handpiece are made with quick-coupling with double-sided stop valve
- Different pipettes or glass tips can be inserted via pipettor holder. Delivery includes 8-channel-suction screen
- Integrated 2 l drain bottle (autoclavable) with built-in float valve, closes automatically once max. filling level has been reached
- Has an integrated filter holder for the membrane filter between the drain bottle and membrane pump
- Membrane filters with max. 0.22 µm pore size, ∅ 55 mm can be used. Comes equipped ex works with: PTFE filter, 0.22 µm, ∅ 55 mm
- If desired, the pump can also be switched on/off via foot switch (available as an optional accessory)



**Technical specifications:**

| | |
|---|---|
| Suction speed | 0.72 $m^3$/h or 12 l/min |
| Ultimate pressure | <100 mbar |
| Max. supply pressure | 1 bar |
| Max. outlet pressure | 1 bar |
| Ambient temperature | +10 to +40 °C |
| Media temperature | max. +40 °C |
| Dimensions (W x D x H) | 357 x 145 x 277 mm |
| Weight | 8 kg |
| Current | 50/60 Hz, 115 or 230 V (adjustable) |

| Type | Art. No. | Pack Qty. | € |

# Suction systems

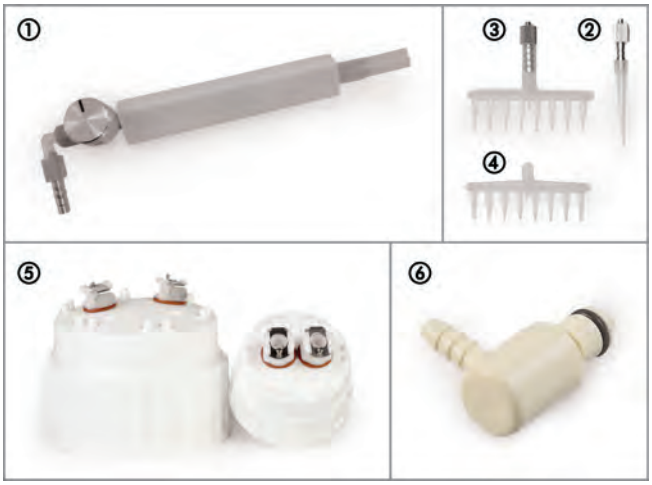
## Vacuum safety extraction systems AZ, AC, AA

By Hettich Benelux. For safe vacuum extraction of liquid residues.

**Basic equipment:**
- Vacuum pump
- Collecting bottle made of PP, vacuum resistant, autoclavable
- Screw cap with 2 quick release couplings for right sealing of the collecting bottle after the hoses are disconnected
- Aeration insert for pressure equalisation during autoclaving of collecting bottle
- Safety filter to protect the vacuum pump and environment
- 3 m silicone rubber hose for placing extraction system away from the workbench

**Technical specifications:**

| Type | ① AZ02 / AZ04 | ② AC02 / AC04 | ③ AA02 / AA04 |
|---|---|---|---|
| Suction capacity (l/min) | 8 | 25 | 17 |
| End vacuum (abs.) (mbar) | 700 | 250 | 100 |
| Additional sampling points (optional) | - | 1 | 1 to 3 |
| Housing dimensions W x D x H (mm) | 75 x 170 x 60 | 170 x 220 x 155 | 170 x 220 x 155 |
| Weight (kg) | 1.5 | 4.5 | 5.5 |
| Power supply | 230 V, 50 Hz | | |



① **Type AZ**
- Simple system for extraction of small volumes
- Attachment of Pasteur pipettes or aspiration pipettes directly to the hose
- Please order metal stand for the collecting bottle separately

② + ③ **Type AC/AA**
- Lacquered aluminium housing
- Compact design, safety bottle holder mounted on high-performance vacuum pump
- Suitable for multiple sampling points

③ **Additional features of type AA**
- Handle with trumpet valve AH 01 for attaching various suction instruments and a mechanical flow rate control system; incl. adapter for Pasteur pipettes, adapter for 1 ml pipette tips and angle adapter
- Vacuum pump with automatic cut-out. The pump cuts out automatically on completion of extraction and when the terminal vacuum is reached

## Aspiration pipettes

Made of **PS**. **Sterile.** Pipettes without cotton stopper, without graduation. Suitable for vacuum applications and liquid handling where high precision is not required. Safe alternative to pasteurizing pipettes made of glass.

| Volume (ml) | Design | Packaging | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 2 | **sterile** | individually wrapped | 271 | **NA41.1** | 500 | 51,50 |
| 10 | **sterile** | individually wrapped | 295 | **NA42.1** | 200 | 57,00 |

## BioChemVacuuCenter BVC liquid extraction stations

By Vacuubrand. Safe, exact and effective extraction of liquids in all laboratory areas (chemistry, biochemistry and biology).
- Anatomically shaped VHC extraction handle with continuous tube, mechanism does not come into contact with fluids
- With swivelling pipette holder, for left and right handed users
- Lockable button for continuous extraction, µl precision extraction using thumbwheel
- Simultaneous extraction at 2 workstations is possible by connecting an optional second extraction handle
- Hydrophobic protective filter with 0.2 µm pore size for protection of the pump unit and the environment

① **BVC Basic**
- Without vacuum pump, for connecting to external vacuum sources
- With mechanical vacuum control for optimal working volume

② + ③ **BVC Control and BVC Professional**
- With high-performance, chemical resistant diaphragm pump ME 1C
- Continuous fine adjustment of vacuum/suction power electronically via touch panel
- Continuous vacuum with minimised pumping times by automatic pump activation/deactivation
- Very low noise level for a comfortable working environment

③ **BVC Professional**
- Also included: non-contact level sensor for electronic monitoring of the fluid level in the collection bottle
- Self-closing PVDF quick couplings for safe bottle changing

Note: when the quick couplings are fitted, unscrew the cap before autoclaving and place it on the bottle.

**Technical specifications of diaphragm pump ME 1C:**

| | |
|---|---|
| Max. vacuum abs. | 150 mbar (shutoff vacuum) |
| Max. suction capacity at 50/60 Hz | 0.7/0.85 $m^3$/h or 11.7/14.2 l/min |
| Motor rating | 0.04 kW |

**Delivery incl.:**
**BVC Basic**
Housing, 4 l **PP** collection bottle (vacuum resistant, autoclavable), sterilisable protective filter (0.2 µm pore size), extraction handle VHC$^{pro}$ (autoclavable), 3 adapters to hold various pipettes and tips, silicone rubber tube (2 m long).
**BVC Control and BVC Professional**
Also included: diaphragm pump and operating unit
**BVC Professional**
Also included: level sensor and quick couplings.

**Optional**
2 l borosilicate glass bottle for working with chemically aggressive solutions, plastic casing protects against mechanical damage and minimises loss of fluid in the event of glass breakage. An adapter is available to securely hold the glass bottle in the BVC Control and BVC Professional pump units. Self-closing quick couplings, made for PVDF for convenient and safe bottle changing.

* Longer delivery times possible. Please check with our Sales Department

## Aspirator

By Brand. Bottle-top suction device, e.g. for cell culture. For safe and quick suction of liquid residue from bottles, test tubes and other storage. Items that touch the sample are made of **PP, PE and EPDM**.
- A vacuum pump is not required
- A vacuum is generated by pressing down the piston
- Suction volume per piston stroke max 25 ml
- Vacuum can be regulated with hand regulator
- GL 45 thread (with GL 45/32 and GL 45/S 40 thread adapters)
- Adapter and suction tube are autoclavable
- Can be disassembled easily for cleaning and maintenance
- Can also be used with pipettor tips, pasteur pipettes or capillary pipettes
- Incl. spare dosing unit

| Art. No. | Pack Qty. | € |

# Water jet pumps

## Water jet pump

Made of **PP**, ideal for sucking up liquids and vapours and for producing a vacuum. With integral non-return valve. Can be detached for easy cleaning.

**Tap connection via:**

Coupling nut R¾″ or
reducing adapter R½″ or
hose connection (olive) with outer-∅ 10-12 mm
Vacuum connection: Olive with outer-∅ 6-9 mm

Please order following accessories separately:
Adapters from R¾″ on M22 x 1 (perlator thread), with seal.

**Technical specifications:**

| | |
|---|---|
| Water consumption | approx. 190 l/h at 3.5 bar flow pressure |
| Pump capacity | approx. 400 l air/h at 3.5 bar flow pressure |
| Max. vacuum at 3.5 bar water pressure | approx. 16 mbar at +12 °C<br>approx. 24 mbar at + 20 °C |
| Length of water jet pumps at R¾″-connection | approx. 210 mm |

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Water jet pump | **7366.1** | 1 | 48,70 |
| Adapter with Perlator thread | **N876.1** | 1 | 11,50 |

## Low pressure-water jet pumps

Made of nickel-plated brass with plastic sleeve. With vacuum strength 16 mbar (at 0.5 bar and +14 °C). Water consumption 4-12 l/min.
With integral no-return valve. Dimensions: H 185 x W 80 mm.
Weight approx. 250 g. Pump capacity at 5 bar water pressure 2.5 l/min.
Connection suction nozzle 9-14 mm.

| Model | Art. No. | Pack Qty. | € |
|---|---|---|---|
| With tubing connection and 2 hose clips | **9660.1** | 1 | 160,00 |
| With ½″ thread connection (20 mm) | **9661.1** | 1 | 169,00 |
| With ¾″ thread connection (26 mm) | **9662.1** | 1 | 169,00 |

## Rotilabo®-rubber tubes

Temperature range -10 to +50 °C. Red, made of natural rubber, not pressure resistant. Hardness: 45 Shore A.

## Rotilabo®-rubber tubing set

The set contains the following rubber tubes:

Standard lab tubes, each 10 m long:
Inner ∅ 6 mm, outer ∅ 10 mm
Inner ∅ 8 mm, outer ∅ 12 mm

Vacuum tubes, each 5 m long:
Inner ∅ 6 mm, outer ∅ 16 mm
Inner ∅ 8 mm, outer ∅ 18 mm

# Tubing

## Rotilabo®-safety gas tubes

For supplying Bunsen burners that operate using gas in accordance with DIN 30665. With non-buckling, elastic coupling sleeve, suitable for all three gas groups acc. to DVGW-Worksheet G 260, controlled and tested as per DIN-DVGW-Reg.-No. DG - 4607 AU 2366.
Not suitable for connection to gas cylinders. Inner-∅ 9 mm.

| Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 50 | **1716.1** | 1 | 35,10 |

## Rotilabo®-gas tubing

For laboratory gas burners that operate using gas in acc. with DIN 30665. Ideal for all 3 gas types, which are described in the German Municipal Services (DVGW). Pamphlet G260. Acc. to DIN 30664 Part 1, without casing and armouring. Suitable for pressures up to 100 mbar. Tested as per DIN-DVGW- Reg.- No. NG - 4607 AU 2362. Not suitable for connection to gas cylinders! ∅-inner 10 mm, ∅-outer 14 mm.

| Length (m) | Art. No. | Pack Qty. | € |

| 5 | **E485.1** | 1 | 48,00 |

## PVC-pressure tubes with tissue insert

By Nalgene®. Max. working temperature -21 to +82 °C.
Clear, shore-hardness 65. Gas- or chemically sterilisable.
Very good flexibility and pliable. Tasteless and approved for the food industry (FDA-approval). Suitable when working under pressure, for weak acids, alkaline solutions and salt solutions.
Inner-∅ and maximum working pressure are marked on tube.

| ∅ inside (mm (inch)) | Wall thickness (mm) | Max. pressure at 23 °C (bar) | Max. pressure at 52 °C (bar) | Art. No. | Pack Qty. (m) | € |

## Silicone tubes Versilic®

By Saint-Gobain. Temperature range from -50 to +200 °C (short-term to +220 °C). Transparent, hardness 60 Shore A. Autoclavable. With peroxide cross-linked silicone. Biologically inert (USP XXIII Class 6), have no inhibitory effect on cell cultures.
In compliance with following standards:

- Ph. Eur. (2. Edition)
- Biological tests, US-Pharmacopeia Class VI
- Biocompatibility requirements of Standard ISO 10993,(General toxic irritation and sensitization, cytotoxicity, haemocompatibility)
- FDA- and BfR-Lists as well as in compliance with EU guidelines for quality tests conducted on foodstuffs
- Produced under GMP-conditions, ISO 9001 and EN 13485

# Tubing

## Pharmed®-tubes

By Saint-Gobain. Max. working temperature +135 °C, yellowish-brown, made of TPE, hardness 64 Shore. Excellent for fermentative processes, cultivation of cell cultures etc. Special tube **for peristaltic pumps**. Good chemical resistance. Low gas permeability and high ageing stability. Autoclavable.

## PharMed® BPT stopper hoses for peristaltic pumps

By Saint-Gobain. With biocompatible fluid surface specially for micro-biological applications. Temperature stable from -50 to +135 °C. Natural colours. Impervious to UV rays and light. Low gas permeability. In accordance with USP class VI, ISO 10993 and FDA. Hardness: 64 Shore A. Autoclavable.

**Stopper hoses**
- 2 stoppers
- Stopper spacing: 152 mm
- Overall length: 381 mm

## Tygon®-hoses S3™ E-3603

By Saint-Gobain. Temperature range from -46 to +74 °C. Transparent.
DEHP-free. FDA-compliant. Hardness 56 shore A.
Very smooth, polished inner wall. Good chemical resistance. Autoclavable.

**Standard tubes**
For normal laboratory applications; also suitable for coolers, incubators and peristaltic pumps.

| Inside ∅ (mm) | Outside ∅ (mm) | Wall thickness (mm) | Art. No. | Pack Qty. (m) | € |

## Tygon®-hoses 2001 ultra-pure

By Saint-Gobain. Temperature range -78 to +57 °C, transparent, made of **TPO**. Hardness 69 Shore A. Autoclavable.
Doesn't contain plasticizers and oils.
Very flexible, extremely good chemical resistance, durable.
Increased durability when used **in peristaltic pumps**.
Acc. to FDA-requirements.

| ∅ inside (mm (inch)) | Outside ∅ (mm) | Wall thickness (mm) | Art. No. | Pack Qty. (m) | € |

## Tygon®-hoses E-1000 Ultra-Soft

By Saint-Gobain. Transparent, DEHP-free.
Operating temperature -55 to +52 °C. Hardness: 40 Shore A.
Soft, pliable, stays flexible even at low temperatures (-55 °C).
Good alternative to silicone tubing with good chemical resistance.
Suitable for general laboratory applications and peristaltic pumps.

## Tygon®-hoses 2375

By Saint-Gobain. Temperature range from -59 to +54 °C.
Flexible, made of **TPO**. Hardness 75 Shore, transparent, without plasticizer.
Suitable for extreme chemical applications. Resists acids, bases, ketones (methyl ethyl ketone), salts and alcohols.
The smooth inside wall minimise particle deposits.

## Rotilabo®-butyl hoses

Made of **butyl rubber (IIR)**, black, without inlay.
Approx. 8x less air diffusion than other natural rubber hoses.
Good chemical resistance.
Durometer: 60 Shore A. Temperature resistant up to 100 °C.

| Inside ∅ (mm) | Outside ∅ (mm) | Wall thickness (mm) | Art. No. | Pack Qty. (m) | € |

## FLURAN®-tubes F-5500-A

By Saint-Gobain. Temperature range -51 to +204 °C,
**fluor caoutchouc**, black, hardness 60 Shore A.
Excellent resistance against caustic chemils, oils, benzenes, solvents and most acids. Resistant to ozone, sunlight and weather, tearproof and hard-wearing. Their pliability and elasticity make them suitable **for peristaltic pumps**.

## Tygon®-hoses A-60-G

By Saint-Gobain. Temperature range -60 to 135 °C.
From **TPE**, Hardness 61 shore A. Black. Suitable **for peristaltic pumps** and for chemical and industrial applications. Ozone-stable.
Long service life, extremely weatherproof. Lower gas permeability than rubber tubes. Very high resistance to anorganic liquids.

| ∅ inside (mm (inch)) | Outside ∅ (mm) | Wall thickness (mm) | Art. No. | Pack Qty. (m) | € |

## Iso-Versinic® Fluoroelastomer-tubes

By Saint-Gobain. Temperature range from -20 to +200 °C (short-term to +300 °C).
**Fluor caoutchouc**, black, hardness 60 Shore A (HC36.1 and HC37.1), hardness 70 Shore A (HC38.1 to HC42.1). Suitable for delivering very aggressive chemicals and for demanding applications in the laboratory and industry. Good resistance against hydrocarbons, oils, strong acids, oxidants, aromatic and chloric solvents. Non-aging and weatherproof. Flameproof.

| Inside ∅ (mm) | Outside ∅ (mm) | Wall thickness (mm) | Art. No. | Pack Qty. (m) | € |

## Fastening tool

Made of metal. For fastening and cutting cable ties. The corrugated cable ties or fasteners are secured in a single operation and then cut.
The required tension can be individually set.
Colour: blue or red.
Assorted ties Art. No. 1729.1 and 1735.1.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **H977.1** | 1 | 90,20 |

## Rotilabo®-ties

Made of **PA**. Temperature stable from -40 to +85 °C.
Suitable for fastening tool H977.1.

| Length (mm) | Width (mm) | For binding to max | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 180 | 4,5 | ∅ 50 mm | **1729.1** | 100 | 10,00 |
| 102 | 2,5 | ∅ 22 mm | **1735.1** | 100 | 5,05 |

## Rotilabo®-tubing gauge

Ideal for determining inner or outer ∅ of hoses, glass tubes, etc.
For inner ∅ from 1-25 mm. For outer ∅ from 1.5-21 mm.
With easy-to-read engraved numbers. Dimensions: W 90 x L 165 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **4892.1** | 1 | 6,90 |

## Tube cutter

For all tubes with ∅ max. 13 mm.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Tube cutter | **6737.1** | 1 | 19,75 |
| Spare blades for tube cutter | **6738.1** | 5 | 35,10 |

## Rotilabo®-hose- and tube-cutter

Made of stainless steel 18/10, with high gloss finish.
Ideal for cutting hoses and centrifuge tubes of max. outer ∅ 10 mm.
Blade length 2.5 cm. Total length 10 cm.
**Delivery incl.** artificial leather case.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CK56.1** | 1 | 19,35 |

# Tubing accessories

## Rotilabo®-tube clamps

Made of **POM**. Resistant against UV-rays and with good chemical properties. Temperature stable from -40 to +90 °C (and short-term up to +110 °C).

| Suitable for hoses with outer ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|

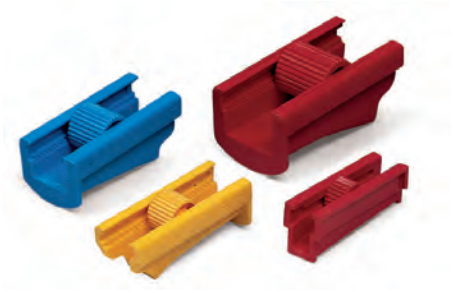
| 25-30 | **0785.1** | 10 | 26,85 |

## Rotilabo®-tube clamps

Made of nickel-plated steel, with pressed knurled screw. Temperature stable to +150 °C.

| Span (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 10 | **0564.1** | 6 | 14,65 |
| 15 | **0565.1** | 6 | 24,20 |
| 20 | **0566.1** | 6 | 30,35 |



# Tubing accessories

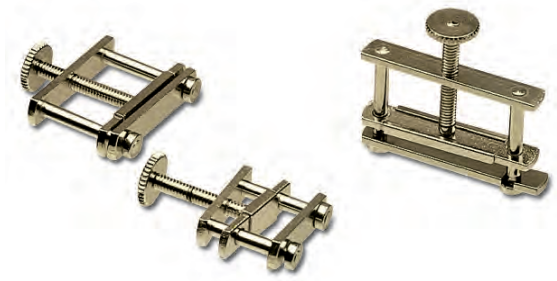
## Rotilabo®-pinchcock

Made of **high-grade steel** with spring clip. Excellent for closing elastic tubes with an outer ∅ of 10 to 15 mm. Variably adjustable clamp for permanent opening if necessary. Tube is fixed securely to pinchcock via clamp. Single-handed operation possible.
**Delivery incl.** silicon tube 20 cm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **H452.1** | 1 | 10,70 |

## Rotilabo®-tube clamps

Made of **PBT**. One-hand operation, can be operated with one hand. Variably adjustable up to total closing of tube.
Easy on tubes, can be sterilized to +160 °C.



| for hose ∅ (mm) | Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 14 | red | **1158.1** | 12 | 48,40 |

① **T-pieces with straight connectors**. Total length 115 mm.

| Outside ∅ (mm) | For hoses with inner ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 8 | 6-8 | **EKH1.1** | 1 | 4,65 |
| 10 | 8-10 | **EKH2.1** | 1 | 5,55 |

② **Y-pieces with straight connectors**. Total length 115 mm.

| Outside ∅ (mm) | For hoses with inner ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 8 | 6-8 | **EKH3.1** | 1 | 4,95 |
| 10 | 8-10 | **EKH4.1** | 1 | 5,90 |

③ **Universal connector with conical connectors**. Total length 110 mm.

| Outside ∅ (mm) | For hoses with inner ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 6-14 | 6-14 | **EKH5.1** | 1 | 7,40 |

## Rotilabo®-check valves

Made of **PP**, natural/transparent. Ideal for liquids. Consists of 2 parts.
Prevents pressure drop or backflow. With conical ends.
Temperature stable to +100 °C.

| Length (mm) | For hoses with inner ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 60 | 7,8-10 | **E804.1** | 5 | 16,70 |
| 70 | 9,5-12,5 | **E805.1** | 5 | 25,75 |

# Tubing connectors

## Rotilabo®-tubing quick disconnectors

Made of **PE**, natural/transparent. High sealing quality. Easy to disconnect. With conical ends. Temperature stable to +100 °C.

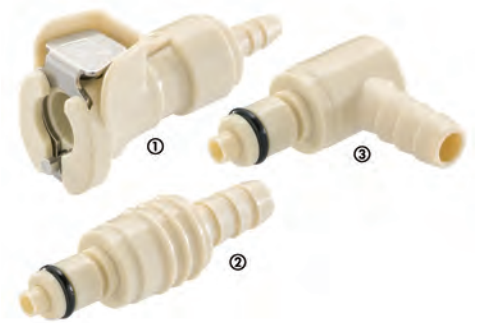
| Outlet ∅ (mm) | For hoses with inner ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 2 | 4-5 | **E806.1** | 10 | 14,70 |
| 3 | 6-7 | **E807.1** | 10 | 16,70 |
| 4 | 8-9 | **E808.1** | 10 | 18,60 |
| 6 | 9-12 | **E809.1** | 10 | 20,10 |
| 7 | 11-14 | **E810.1** | 10 | 22,70 |

121°C

## Metal tube connectors

Made of high-quality nickel-plated and bright chromium-plated brass. Can be autoclaved at 134 °C. Ideal for connecting needles, syringes and stopcocks with tubing. Extensions for Luer-Lock female (LLF) and male (LLM) fittings.

| Tube connection inner-∅ | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① 1,5 mm LLF | **P334.1** | 1 | 12,40 |
| ④ 3,0 mm LLF | **P335.1** | 1 | 10,55 |
| ② 1,5 mm LLM | **P336.1** | 1 | 14,55 |
| ③ 3,0 mm LLM | **P343.1** | 1 | 11,80 |



121°C

## Metal tube extensions, conical

Made of high-quality nickel-plated and bright chromium-plated brass. Can be autoclaved at 134 °C. Ideal for connecting needles, syringes and stopcocks with tubing. Extensions for Luer-Lock female (LLF) and male (LLM) fittings.

| Tube connection inner-∅ | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① 2-6 mm LLF | **P337.1** | 1 | 24,20 |
| ③ 5-9 mm LLF | **P338.1** | 1 | 24,20 |
| ② 2-6 mm LLM | **P341.1** | 1 | 24,75 |
| ④ 5-9 mm LLM | **P342.1** | 1 | 26,45 |

## Quick-release couplings

For easy, leak-free connection and disconnection of hoses. With hose connectors. Optionally with shut-off, stops the flow automatically upon disconnection. Can be sterilised with gamma rays.

**Technical specifications:**

| | |
|---|---|
| Flow opening NW | 3.2 mm |
| Operating temperature | 0 to +71 °C |
| Operating pressure | Vacuum up to 8.3 bar |
| Materials in contact with media | PP, EPDM and stainless steel |

**① Female connection, straight**

| For hoses with inner ∅ (mm) | Shut-off | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1,6 | without | **HAH5.1** | 1 | 13,80 |

121°C

## Metal stopcocks

Made of high-quality brass, nickel-plated and bright chromium-plated. Can be autoclaved at 134 °C. Luer-Lock female (LLF) to male (LLM), 3-way cocks female on the side. Suitable or pressures to max. 3 bar.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① 2-way cock | **P339.1** | 1 | 38,70 |
| ② 3-way cock | **P340.1** | 1 | 46,25 |

# Tubing connectors

## Rotilabo® hose valves

For the transfer of liquids or gases. Max. pressure 1 bar.
Operating temperature +5 to +40 °C. Available in various materials:
PVDF (natural colours) offers better chemical resistance than
PP/PE (red/white).

**2-way valves**

| Material | Outlet ∅ (mm) | For hoses with inner ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|

## Rotilabo®-tubing connectors

Made of natural coloured **PE**.
**Stopcock connectors**, pressure load to 0.3 bar.

| Connection | Outside ∅ (mm) | Length (mm) | Weight (g) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| Both sides ⅜″ (outer-∅ 10 mm) | 10 | 70 | 6 | **1622.1** | 5 | 20,65 |
| Both sides ½″ (outer-∅ 14 mm) | 14 | 95 | 17 | **1623.1** | 5 | 25,40 |

## Rotilabo®-tubing sleeve connectors

Keck system, made of **PBT**, with **EPDM** seal. Outer ∅ 9 mm, length 43 mm. Lightblue. Adapters for tubing sleeve connectors - Keck system, white. Outlet 8 mm.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Rotilabo®-tubing sleeve connectors | **0354.1** | 10 | 27,85 |
| Rotilabo®-tubing connectors | **0343.1** | 5 | 17,15 |

## Rotilabo®-tubing connectors system Keck

Made of **PBT** with **EPDM** flat seal. Ideal for fast, safe and leakproof connections of tubing to glass hose connectors and glass threads. High chemical resistance. Temperature stable to max. +130 °C.

**For glass olives** (clamp. ring, thread cap, tubing sleeve connector, seals)

| suitable for | Tubing sleeve connector outer-∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| GL 14 (Schott) yellow | 9 | **H072.1** | 10 | 75,20 |
| GL 14 (Schott) yellow | 4,5 | **H073.1** | 10 | 75,20 |

**For glass thread** (thread cap, tubing sleeve connector, seals)

| suitable for | Tubing sleeve connector outer-∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| GL 14 (Schott) yellow | 9 | **H075.1** | 10 | 57,95 |
| GL 14 (Schott) yellow | 4,5 | **H076.1** | 10 | 57,95 |

## Draincocks

Made of **PE**, with separate air vent canal. With variable speed regulation of flow. Sealing made of aveolite. Not suitable for glass threads.

| Lock | Art. No. | Pack Qty. | € |
|---|---|---|---|
| DIN 51 | **5665.1** | 3 | 22,05 |
| DIN 45 | **X530.1** | 3 | 23,45 |
| DIN 50 | **X531.1** | 3 | 28,85 |
| DIN 61 | **5666.2** | 4 | 29,55 |

## FLUXX®-dispensing taps

Made of **PE**. The patented ventilation system allows easy, clean and fast filling and transfer of fluids without gurgling.

- Dispenses fluids cleanly and empties containers completely
- High leak tightness

Not suitable for glass threads.

**For bottles**

| Cap size | Outlet ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| DIN 38 | 13 | **XP70.1** | 10 | 21,45 |

**For canisters**

|---|---|---|---|---|
| DIN 51/DIN 40 | 13 | **T358.1** | 3 | 11,30 |
| DIN 61/DIN 40 | 13 | **T359.1** | 3 | 13,05 |

**For drums** with ¾″ or 2″ internal threads

| Cap size | Outlet ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ¾″ (BSP) external thread | 23 | **XP74.1** | 2 | 8,40 |
| 2″ Tri-Sure® course-pitch thread | 23 | **XP75.1** | 2 | 8,40 |
| 2″ Tri-Sure® fine-pitch thread | 23 | **XP76.1** | 2 | 8,40 |

## Information on threads

The thread on a drum is defined, among other things, by diameter (A and B) and thread pitch (C). The values given in the table give a rough indication of the thread type, however this cannot reliably be determined by measuring the thread using a sliding caliper alone. Manufacturer-specific threads are also available in addition to the standard threads. The drum supplier can generally provide information on the thread type.

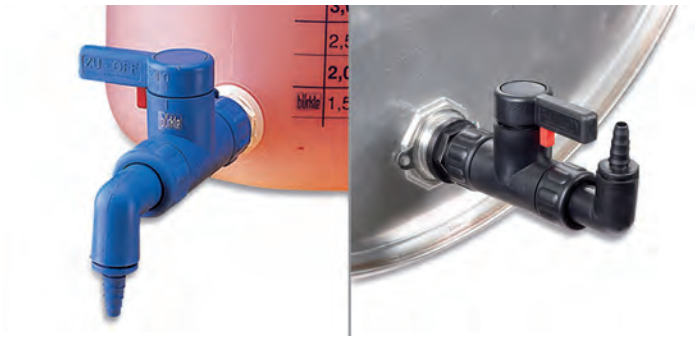
We will be happy to provide you with information on containers which you purchase through us.

| Thread | Diameter excl. thread A (mm) | Diameter incl. thread B (mm) | Thread pitch C (mm) |
|---|---|---|---|
| DIN 38 | 34.6 | 36.6 | 9 |
| DIN 40 | 38.8 | 42.2 | 4 |
| DIN 45 | 41.1 | 44.7 | 4 |
| DIN 50 | 46.1 | 50.1 | 4 |
| DIN 51 | 50.2 | 54.8 | 5 |
| DIN 60 | 55.3 | 60.3 | 6 |
| DIN 61 | 55.6 | 60.5 | 5 |
| DIN 71 | 67.0 | 72.3 | 7 |

## Spouts

Flexible **PE** pouring tube with snap lid, screwed into a screw cap. With Alkozell seal and riser tube for smooth pouring. Not suitable for glass-threads.

| Lock | Art. No. | Pack Qty. | € |
|---|---|---|---|
| DIN 45 | **TE90.1** | 2 | 16,15 |
| DIN 51 | **TE91.1** | 2 | 16,70 |
| DIN 61 | **TE92.1** | 2 | 18,05 |



# Stopcocks

## Compact draincock

Made of **PP**, seals made of **PE/PTFE**. Tightly closing. Connection with R¾″ cap nut. Easy to open and close. Can be operated single-handed. Space-efficient design: tap does not protrude beyond base of the container and need not be removed when storing the container.
Optimized drainage spout for uniform, non-splashing flow.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PE42.1** | 1 | 15,00 |

## Draincocks

By Bürkle. Tightly closing. With ¾″-internal screw thread.
Easy to open and close. Can be operated single-handed.
With rotatable anti-drip and dosing scale.
**Delivery incl.** smaller drainage spout (outer-∅ 6-8 mm) for narrow bottle mouths. Adapter for ¾″-internal screw thread (only for Art. No. LP75.1).

| Image | Material | Seal | Conductivity | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| ① | PP | PE/PTFE | no | **2683.1** | 1 | 24,20 |
| ② | PA | PTFE | yes | **LP75.1** | 1 | 25,45 |

## Adapters

| For | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Inner thread coarse, ∅ approx. 2.2 cm (e.g. Bürkle, Hünersdorf) | **P215.1** | 1 | 6,25 |
| Inner thread coarse, ∅ approx. 2.05 cm (e.g. Bürkle, Kautex) | **P216.1** | 1 | 6,25 |
| Barrel inner thread, cylindric, R¾″ ∅ 2.55 cm | **P217.1** | 1 | 6,25 |
| Coarse thread, inner, Tri-Sure® 2″ | **P218.1** | 1 | 14,55 |
| Fine thread, inner, 2″ | **P219.1** | 1 | 14,55 |

- ▶ PTFE-thread tape see page 1145
- ▶ Rotilabo®-space-saving canister see page 93

## Air drum draincock

Made of **PE**. Self-venting. Thread connector outside ¾″. NW 13 mm.
**Suitable for Rotitainer®-cans** in combination with adapter P944.1.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| white/red | **Y496.1** | 3 | 15,95 |

## Drum ball valve

Made of **PP**. For drums in horizontal position with threaded connection.
Inlet thread ¾″ inside, outlet thread ¾″ outside. Sealing with threading tape.
Supplied without hose nozzle, please order separately.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Drum ball valve | **P943.1** | 1 | 52,80 |
| Hoze nozzle, curved 90°, ∅ 12 mm | **P946.1** | 1 | 3,20 |
| Hoze nozzle, straight, ∅ 12 mm | **P947.1** | 1 | 2,20 |
| Thread adapter Tri-Sure® fine-pitch thread, suitable for Rotitainer® | **P944.1** | 1 | 10,35 |
| Thread adapter Tri-Sure® 2″, coarse-pitch thread | **P945.1** | 1 | 3,10 |

## Spigot extension set

Extends the distance between the spigot and the wall of the container.
Suitable for air drum draincock Art.-No. Y496.1 and barrel ball valve P943.1.
**A set consists of:**
1 Pipe extension 150 mm, material **PP**, 2 x ¾″
1 Bosshead, material **PP**, inner thread 2 x ¾″
2 Flat gaskets for inner thread ¾″

| Art. No. | Pack Qty. (set) | € |
|---|---|---|
| **AH28.1** | 2 | 21,45 |

## Dosing pumps with screw cap

Made of **HDPE.** For canisters 10 to 30 l with matching DIN-closure.

| Lock | Delivery rate (ml/stroke) | Length lifting tube (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| DIN 50 | 30 | 175 | **P241.1** | 1 | 13,60 |
| DIN 60 | 100 | 398 | **P242.1** | 1 | 59,45 |

## Siphon with stopcock

By Bürkle. Made of **LDPE/PVC**. Stopcock made of **PP**.
For rapid filling of aqueous fluids.
Delivery rate: 9 l/min, immersion depth: 100 cm, hose inner ∅: 15 mm.
**Delivery incl.** hose with kink protection and lifting eye.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YC59.1** | 1 | 49,95 |

## Pump-it® canister pump

By Bürkle. Ideal for rapid and clean emptying of canisters and small barrels. Exact dosing, no dripping. Please order matching thread adapter separately. For liquids up to a maximum viscosity of 500 mPa · s at 20 °C.

**Technical specifications:**

| | |
|---|---|
| Flow rate | max. 6 l/min |
| Material pump | PP |
| Material seals | FKM |
| Thread | 64 mm (BSI) |
| Weight | 310 g |
| Size | 60 cm |
| Lifting tube length | 100 cm |

| Art. No. | Pack Qty. | € |
|---|---|---|
| **1601.1** | 1 | 123,65 |

## Accessories for Pump-it®-canister pump

Made of **PP**.

**Thread adapters for inner threads**

| Image | Thread | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① | 2″ steel-fine thread | **1603.1** | 1 | 15,30 |
| ② | 2″ Mauser-coarse thread | **1604.1** | 1 | 15,30 |
| ③ | 2″ Tri-Sure®-coarse thread | **1606.1** | 1 | 14,85 |

**Thread adapters for outer threads**

| Image | Thread | Art. No. | Pack Qty. | € |

# Barrel pumps

## OTAL®-Dispensing pumps

By Bürkle. Foot/hand pumps work on using air pressure.
Foot pumps with bellows and air hose for filling containers standing at a distance. Stoppers made of **PVC**.
Foot or hand pumps available in different designs:

- Telescope feed tube made of **PP** or **PVDF**; PVDF has better chemical resistance than PP
- With outlet pipe or with flexible hose with stopcock

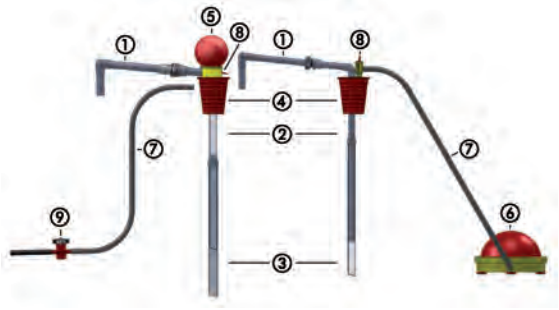
**Technical specifications:**

| Model | Foot pumps | Hand pumps |
|---|---|---|
| For containers max. | approx. 120 l | approx. 60 l |
| Flow rate | 26 or 12 l/min | |
| Telescope feed tube, max. immersion depth | 70 cm | |
| Air hose, length | 1.5 m | - |
| Outlet pipe, length | 20 cm | |
| PVC-stoppers for bung width from | ∅ 30 to 70 mm | |

**Foot pumps**

| Type | Feed tube | Flow rate capacity (l/min) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① with bent outlet pipe | PP, ∅ 18 mm | 26 | **1847.1** | 1 | 93,55 |
| ② with bent outlet pipe | PVDF, ∅ 16 mm | 16 | **HT03.1** | 1 | 149,45 |
| ③ Hose with stopcock | PP, ∅ 12 mm | 12 | **AN74.1** | 1 | 92,35 |

**Hand pumps**



| Type | Feed tube | Flow rate capacity (l/min) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ④ with bent outlet pipe | PP, ∅ 18 mm | 26 | **1720.1** | 1 | 79,45 |
| ⑤ with bent outlet pipe | PVDF, ∅ 16 mm | 20 | **HT04.1** | 1 | 141,90 |
| ⑥ Hose with stopcock | PP, ∅ 12 mm | 12 | **AN75.1** | 1 | 78,40 |

## Mini-dispensing pump

Made of **PP**. With standard stopper for openings of ∅ 20 to 36 mm.
Ideal for filling smaller amounts. Flow rate max. 4 l/min.
Transporting tube: length 45 cm, ∅ 10 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E335.1** | 1 | 53,05 |

## Spare parts for OTAL® filling pumps

By Bürkle.

*A pipe set consists of an outlet elbow, riser tube, draw tube (330 mm) and connecting pieces.

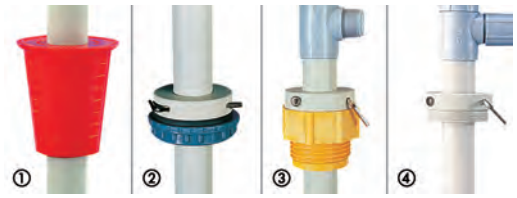
## Gas-tight barrel and container pump

By Bürkle. Made of **PP**, with tubing made of **PVC**.
Pump capacity 200 ml/stroke. Gases emerging from the container are led back to the main container with the aid of a gas dispensing tube, preventing contamination of surroundings while pumping. Also attach a stopcock to the gas and liquid line. Universal adapter for openings from 30 to 70 mm.
Ideal for container heights from 40 to 70 cm. Tubing length approx. 120 cm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E013.1** | 1 | 235,45 |

## Barrel pumps made of PP



By Bürkle. For safe dispensing of liquids from barrels, canisters and tanks. Available either with rigid funnel or with flexible dispensing tube **(PVC)** with stopcock. Immersion tube ∅ 32 mm. Barrel screw connections must be ordered separately.

**With curved nozzle**

| Immersion depth (mm) | Total length (mm) | Delivery rate (ml/stroke) | Art. No. | Pack Qty. | € |

## Accessories for barrel pumps PP and PTFE

| Image | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| - | Discharge tube for barrel pumps PP Y958.1 ff | **Y970.1** | 1 | 33,95 |
| - | Discharge hose, PVC, 1.2 m with stopcock; for barrel pumps PP Y964.1 ff | **1788.1** | 1 | 30,00 |
| ① | Barrel plug, PVC, for hole-∅ 40 to 70 mm | **9276.1** | 1 | 23,60 |
| ② | Barrel screw joint made of PP, for 2″ fine steel thread | **1789.1** | 1 | 30,65 |
| ③ | Barrel screw joint made of PP, for 2″ internal fine steel thread and adapter for Tri-Sure® internal course thread | **T243.1** | 1 | 38,20 |
| ④ | Container screw joint with locknut (2″ fine steel thread); for attaching in any position; 60 mm mounting hole | **T244.1** | 1 | 36,80 |
| - | Barrel adapter made of PP, internal thread DIN 51-2″BSP | **YK28.1** | 1 | 20,10 |
| - | Barrel adapter made of PP, internal thread DIN 61-2″BSP | **YK29.1** | 1 | 18,40 |

## PTFE barrel pumps

By Bürkle. Made of **PTFE** and **FEP**. Excellent chemical resistance for safe filling of ultrapure and aggressive liquids. Stopcock stops liquids from dripping and prevents hazardous vapours from escaping. Immersion tube ∅ 32 mm. Please order barrel screw fittings separately.

**① With discharge tube**

| Immersion depth (mm) | Delivery rate (ml/stroke) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 600 | 270 | **LY53.1** | 1 | 390,25 |
| 950 | 400 | **AH27.1** | 1 | 412,80 |

**② With outlet hose**

| Immersion depth (mm) | Delivery rate (ml/stroke) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 600 | 270 | **NH33.1** | 1 | 380,55 |
| 950 | 400 | **NH34.1** | 1 | 412,80 |

## Acid and alkali pumps

Made of **PP**, **PTFE**, **Hastelloy**. Battery operated. Ideal for safe emptying and transfering of water-like liquids (for most acids and alkalis etc.). General purpose and easy-to-use. High flow rate (up to 6 l/min) and light (weight approx. 500 g including batteries). ∅ of dip tube 25 mm. 2 rechargeable batteries (Mono 1.5 V) are recommended for use. **Delivery without** Akku (please order separately).

| Suction pipe length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 400 | **E490.1** | 1 | 360,15 |
| 600 | **E491.1** | 1 | 392,40 |

**Accessories:**

| | | | |
|---|---|---|---|
| Akku Mono D | **X228.2** | 2 | 18,25 |

# Electro barrel pumps

## Barrel pumps AccuOne and EnergyOne

By Bürkle.

- Parts in contact with medium are made of **Hastelloy C**, **PP, PVDF** and **PTFE**
- Unique hybrid system allows fast and versatile filling of liquids, the supply units can be changed to use either with battery or power pack.
- The drive can be disconnected easily via a clip lock. This makes it possible to use one drive for filling at several stationary pump stations.
- Flow rate 12 l/min. Can be regulated continuously via TouchPanel from 0.4 l/min to 12 l/min
- Please order barrel screw fittings separately
- Drainage hose with nozzle is optionally available. Drainage hose connection ¾″

**AccuOne**

- Barrel pump driven by rechargeable battery (offers versatility and independence from the power supply)
- Lithium-ion rechargeable battery, 14.4 V, 1.5 Ah
- Up to 600 litres of delivery volume per battery charge
- Weight 750 g

**Delivery incl.** fixed drainage elbow, rechargeable battery and power outlet adapter.

| Immersion depth (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 500 | **PL80.1** | 1 | 470,85 |
| 700 | **PL81.1** | 1 | 485,90 |
| 1000 | **PL82.1** | 1 | 498,80 |

**EnergyOne**

- Outlet operated barrel pump (offers versatility and independence from the battery charge)
- Power outlet adapter 230 V
- Unlimited filling duration
- Weight 580 g

**Delivery incl.** fixed drainage elbow, power outlet adapter and international socket adapter.

| Immersion depth (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 500 | **PL83.1** | 1 | 398,85 |
| 700 | **PL84.1** | 1 | 412,80 |
| 1000 | **PL85.1** | 1 | 425,70 |

Accessories:

| | | | |
|---|---|---|---|
| Rechargeable battery without outlet adapter | **PL86.1** | 1 | 116,10 |
| Outlet adapter | **PL87.1** | 1 | 64,20 |
| Outlet adapter incl. plug | **PL88.1** | 1 | 131,15 |
| Outlet hose with nozzle | **PL89.1** | 1 | 73,10 |
| Pump station with immersion pipe length 500 mm | **PL90.1** | 1 | 133,30 |
| Pump station with immersion pipe length 700 mm | **PL91.1** | 1 | 136,55 |
| Pump station with immersion pipe length 1000 mm | **PL92.1** | 1 | 141,90 |
| Barrel screw joint made of PP, for 2″ fine steel thread | **1789.1** | 1 | 30,65 |
| Container screw joint with locknut (2″ fine steel thread); for attaching in any position; 60 mm mounting hole | **T244.1** | 1 | 36,80 |
| Barrel plug, PVC, for hole-∅ 40 to 70 mm | **9276.1** | 1 | 23,60 |
| Mauser 2″, coarse thread, inside | **PL93.1** | 1 | 37,90 |
| Barrel screw joint made of PP, for 2″ internal fine steel thread and adapter for Tri-Sure® internal course thread | **T243.1** | 1 | 38,20 |

## Electro barrel pumps

By Lutz. For pumping liquid media out of bulk storage containers.

**Application:**

- **Set 1 and 2**: **aqueous liquids**, diluted acids and alkaline solution, hydrogen peroxide etc.
- **Set 3**: low-viscosity **alkaline** solution, sodium hydroxide, potassium hydroxide, ammonia water, formic acid, acetic acid, etc.
- **Set 4**: most **concentrated acids and alkaline solutions** such as hydrochloric acid, sulphuric acid, hydrofluoric acid etc.
- **Set 5 Explosion-proof**: **highly flammable hydrocarbons such as** ethanol, gasoline, isopropanol, kerosine, methanol, crude petroleum, etc.
- **Set 6 Explosion-proof: explosive liquids such as** acetone, concentrated Formic acid, ethyl acetate, buthyl acetate, concentrated Acetic acid, nicotine, toluene, styrene, etc.

**Technical specifications:**

| Set | 1 | 2 | 3 | 4 | 5 Explosion-proof | 6 Explosion-proof |
|---|---|---|---|---|---|---|
| Motor explosion-proof | no | | | | yes | |
| Output (W) | 200 | | 500 | 575 | 460 | |
| Immersion depth of pipe (mm) | 650 | 1000 | | | | |
| Material of nozzle | PP | | PP/FEP | PVDF | Brass / PTFE | Niro / FEP |
| Material of immersion pipe | PP | | | PVDF | Stainless steel | |
| Flow rate max (l/min) | 75 | | 85 | 80 | 95 | |
| Delivery height max (mWs) | 7 | | 19 | 17 | 14 | |
| Density max (kg/dm³) | 1.3 | | 1.4 | 1.8 | 1.6 | |
| Viscosity max (mPas) | 300 | | | 800 | 350 | |
| Cable length (m) | 3 | 5 | | | | |
| Mains supply | 230 V AC / 50 Hz | | | | | |

**Set 1 and 2:**
**Delivery incl.** 1.5 m PVC-tube ¾",
one-hand nozzle valve PP, hanging device.
**Set 3:**
**Delivery incl.** 2.0 m PVC-coil tube¾" (DN 19),
nozzle PP, barrel adapter (PP).
**Set 4:**
**Delivery incl.** 2.0 m special chemical tube ¾" (DN 19),
nozzle PVDF, barrel adapter (PP).
**Set 5 explosion-proof:**
**Delivery incl.** 2.0 m solvent tube ¾" (DN 19) conductive hose attachments, nozzle brass/PTFE, potential equalization cable, barrel adapter PP, safety plug not explosion-proof. All-purpose motor, explosion-proof in compliance with type of protection II 2 G EEx de IIC T6 (ATEX), stainless steel pumping station, explosion-proof Ex II 1/2 G IIB T4 (ATEX).
**Set 6 explosion-proof:**
**Delivery incl.** 2.0 m chemical tube ¾" (DN 19) conductive hose attachments, nozzle Niro/FEP, potential equalization cable, barrel adapter PP, safety plug not explosion-proof, all-purpose motor, explosion-proof in compliance with type of protection II 2 G EEx de IIC T6 (ATEX), stainless steel pumping statio, explosion-proof Ex II 1/2 G IIB T4 (ATEX).

## Mini solvent pump

By Bürkle. Hand pump for small drums up to 5 l.

- For high-purity fluids as well as flammable media
- Parts in contact with media are made from **PTFE** and **stainless steel**
- Delivery rate: approx. 1.8 l/min
- Earthing cable connection for dissipating electrostatic charge
- Works on the over-pressure principle, pressure relief valve protects against excessive pressure build-up
- Transfer of medium at the touch of a button
- Integrated spout (outer ∅ 7 mm) prevents dripping and allows for hose attachment
- With GL 45 thread

**Delivery incl.** earthing cable and PTFE riser tube (inner ∅ 6 mm, wall thickness 1 mm, length 400 mm).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **APE4.1** | 1 | 402,05 |

**Accessories:**

| | | | |
|---|---|---|---|
| Threaded adapter, PTFE, GL 45 / S 40 | **APE5.1** | 1 | 32,15 |
| Threaded adapter, ETFE, GL 45 / GL 38 | **APE6.1** | 1 | 32,15 |
| Threaded adapter, ETFE, GL 45 / GL 32 | **APE7.1** | 1 | 32,15 |

## Drip tray safety wall bracket

For safe collection of residual liquids from pump tubes or samplers. Resistant to diluted alkalis and acids. The collecting tank can be filled with a neutralisation medium which dilutes and neutralises the residual liquid. The upright tube is securely mounted to the wall using sturdy tube clamps. The tube clamps can easily be opened to take out the safety stand. The collecting tank can be used to drain off the liquid. Dimensions: length 1000 mm. Inner ∅ 35 mm. Suitable for barrel pumps Y958.1ff, Y964.1ff, AH27.1f and NH33.1f.

**Delivery incl.** safety stand, collecting tank, tube clamps, mounting hardware.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TL59.1** | 1 | 53,75 |

## Solvent pump

For filling of high-purity liquids.

- **Delivery incl.** two immersion tubes for 10 l and 25 l stainless steel drums with 2″ steel fine pitch thread
- Fixed drainage elbow with stopcock
- Pump can be shut off hermetically by two ball valves
- Works according to excess pressure principle

**Note:** the drum and the pump must be grounded using the Roth antistatic set (Art. No. 0213.1) during filling of flammable liquids.

**Technical specifications:**

| | |
|---|---|
| For drum sizes | 10 l and 25 l |
| Immersion depths | 275 mm and 435 mm |
| Overall length incl. pump ball | 450 mm and 600 mm |
| Weight | approx. 1.2 kg |
| Compression gland thread type | 2" steel fine pitch thread |
| Parts with media contact | Stainless steel (1.4301) and PTFE |

| Art. No. | Pack Qty. | € |
|---|---|---|
| **N103.1** | 1 | 392,40 |

**Warning:**
Corrosion through acidification can occur when using chlorinated solvents. If the required safety precautions are taken (immediate washing and removal from drum), the pump can be carefully used, with such solvents. Not for use with acids.
To prevent crystallization, pump should be rinsed with water after use with alkalis.

# Solvent pumps

## Sekuroka® stainless steel safety pumps

For filling of flammable liquids.
- Immersion tube is infinitely adjustable to drum depth
- Near-complete emptying of drums
- Works according to piston stroke principle
- Removable drainage elbow for connecting a drainage hose with stopcock (please order separately)

**Note:** the drum and the pump must be grounded using the Roth antistatic set (Art. No. 0213.1) during filling of flammable liquids.

**Technical specifications:**

| Model | Type I | Type II |
|---|---|---|
| For drum size (l) | up to 50 | up to 200 |
| Delivery rate (ml/stroke) | 140 | 200 |
| Immersion depth (mm) | 570 | 910 |
| Overall length (mm) | 680 | 1020 |
| Weight (kg) | 1.2 | 1.8 |
| Compression gland thread type | 2" steel fine pitch thread | |
| Parts with media contact | Stainless steel (1.4301, 1.4305) and PTFE | |

| I | **N502.1** | 1 | 220,40 |
| II | **N503.1** | 1 | 240,80 |

## Accessories for stainless steel safety pump

**Drainage hose with stopcock** .
DN 8 ball valve made of stainless steel, 12.8 mm bushing.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T276.1** | 1 | 206,40 |

**Drum plug made of PVC** for openings from 40 to 70 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9276.1** | 1 | 23,60 |

**Replacement parts set** : knurled bush, two O-rings, guide bush, stop neck, disc

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9599.1** | 1 | 28,70 |

## Solvent pumps, foot operated

By Bürkle. For filling drums with high purity liquids such as solvents.
- A compression gland and stopcock allow the drum and pump to be hermetically sealed
- Immersion tube is infinitely adjustable to drum depth
- Available in two types:
  ① With discharge tube
  ② With outlet hose and stopcock

**Note:** the drum and the pump must be grounded using the Roth antistatic set (Art. No. 0213.1) during filling of flammable liquids.

**Technical specifications:**

| | |
|---|---|
| Delivery rate | approx. 20 l/min |
| Immersion depth | 950 mm |
| Overall length | 1485 mm |
| For drum sizes up to | 220 l |
| Weight | Type ① approx. 3.5 kg / ② approx. 4.4 kg |
| Compression gland thread type | 2" steel fine pitch thread |
| Parts with media contact | Stainless steel (1.4301) and PTFE |

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① With discharge tube | **CPT5.1** | 1 | 464,40 |
| ② With outlet hose and stopcock | **CPT6.1** | 1 | 622,45 |

## Roth antistatic-set

Prevents fire and explosion caused by electrostatic charge. Consists of two insulated cables 3 mm / 3 m with vice grip wrenches on both sides and a blank copper wire 2 mm / 3 m with a vice grip wrench on one side.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **0213.1** | 1 | 53,70 |

## Mini-Dispenser Piccolo

By Vitlab. With two fixed volumes. Ideally suited to dispensing long series. Manual push-button delivery, automatic refilling. Good chemical resistance thanks to high-quality materials, but not suitable for vapourous media.

- Precise media delivery
- Freely rotatable discharge tube on the bottle
- Choice of 2 fixed volumes
- Thread GL 28
- **Parts in contact with media:** PTFE, FEP, ETFE, PFA, borosilicate glass, Pt-Ir

| Volume (µl) | Accuracy (%) | Precision (%) | Art. No. | Pack Qty. | € |

121 °C

## Rotilabo® II dispenser

- Direct displacing piston with wiping PFA lip seal reduces crystallisation of liquids
- Improved volume adjustment due to internal toothed strip, volumes can be set quickly and precisely
- Valve block rotatable by 360° on the bottle, with GL 45 thread
- Swivelling cap does not obstruct dispensing
- Vent valve with safety bulb closes dosing channel when vent cannula not fitted
- Screwable ventilation stoppers for quick assembly of a drying tube
- Telescopic intake tube, infinitely adjustable to different bottle heights
- Suitable for calibration in conjunction with measuring instrument inspection according to ISO 9001 and GLP; change to factory calibration is displayed
- Autoclavable at 121 °C (2 bar), according to DIN EN 285, without disassembly
- Marked as DE-M, according to DIN EN ISO 8655-5

**Materials in contact with media:** Borosilicate glass, $Al_2O_3$ ceramic, ETFE, FEP, PFA, PTFE, platinum-iridium, PP (cap)

**Usage limits:** Temperature from +15 °C to +40 °C, steam pressure up to max. 500 mbar, kinematic viscosity up to 500 $mm^2/s$, density up to 2.2 $g/cm^3$

**Specifications of supplied threaded adapters and suction tubes:**

| Nominal capacity (ml) | Bottle thread adapter | Suction tube, length (mm) |
|---|---|---|
| 2, 5, 10 | GL 25, GL 28/S 28, GL 32, GL 38, S 40 | 125-240 |
| 25, 50. 100 | GL 32, GL 38, S 40 | 170-330 |

**Delivery incl.** certificate of quality, telescopic suction tube, assembly spanner and threaded adapter made of PP.

| Vol. (ml) | Graduations (ml) | Accuracy/coefficient of variation (±µl) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,2-2 | 0.05 | 10 / 2 | **HAC6.1** | 1 | 254,80 |
| 0,5-5 | 0.10 | 25 / 5 | **HAC7.1** | 1 | 254,80 |

# Dispensers

## Dispensette® *S* / Dispensette® *S* Organic

By BRAND. For accurate dispensing aggressive and non-aggressive media. Suitable for sterile dispensing.

**Models:**
- ① **Digital** - Easy-to-read digital display via mechanical counting mechanism; Easy Calibration technology for quick calibration
- ② **Analog** - Quick adjustment of dispensing volume, safe and reliable volume setting through internal rack
- ③ **Fix** - Non-adjustable dispensing volume for routine applications

**Features:**
- Easy dispensing and quick ventilation through floating piston
- Rapid ventilation through improved fluid mechanics
- Valves without additional seals for easier cleaning
- Rotates through 360°, valve block with GL 45 thread
- Dispensing syringe with swivel-mounted screw cap for protection against media contact
- Telescopic suction tube adjustable to different bottle sizes
- Recirculation valve prevents loss of reagent and allows quick, bubble-free ventilation
- DE-M approved
- Suitable for calibration in conjunction with measuring instrument inspection according to ISO 9011 and GLP
- Alteration of factory calibration is indicated
- Easy to disassemble for cleaning
- Fully autoclavable at 121 °C
- Microfilter can be connected to the ventilation opening for sterile dispensing

**Limits of use:**
Max. vapour pressure 600 mbar; max. viscosity 500 $mm^2/s$; max. temperature 40 °C; max. density 2.2 $g/cm^3$.

**Limits of error:**

| Nominal volume (ml) | Accuracy (±µl) | Variation coefficient (±µl) |
|---|---|---|
| 1 | 6 | 2 |
| 2 | 10 | 2 |
| 5 | 25 | 5 |
| 10 | 50 | 10 |
| 25 | 125 | 25 |
| 50 | 250 | 50 |
| 100 | 500 | 100 |

**Delivery incl.:** certificate of quality, telescopic suction tube, recirculation valve and recirculation tube, assembly spanner and threaded adapter made of PP.

**Specifications of supplied threaded adapters and suction tubes:**

| Nominal capacity (ml) | Bottle thread adapter | Suction tube length (mm) |
|---|---|---|
| 1, 2, 5, 10 | GL 24-25, GL 28/S, GL32-33, GL 38, S 40 | 125-240 |
| 25, 50. 100 | GL 32-33, GL 38, S 40 | 170-330 |

## Dispensette® S

**Range of applications:**
colour code: red. For dispensing aggressive reagents directly from the supply bottle: e.g. concentrated alkalis and acids such as $H_3PO_4$. $H_2SO_4$ (excluding, e.g., HCl, $HNO_3$ and HF), saline solutions and a wide range of organic solvents.

**Materials in contact with media:**
borosilicate glass, $Al_2O_3$ ceramics, platinum-iridium, ETFE, FEP, PFA, PTFE and PP.

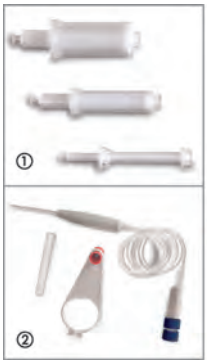
## Dispensette® S Organic

**Range of applications:**
colour code: yellow. Ideal for dispensing organic solvents, e.g. chlorinated and fluorinated hydrocarbons such as trichlorofluoroethane and dichloromethane, acids such as concentrated HCl and $HNO_3$ (excluding HF) as well as for trifluoroacetic acid (TFA), tetrahydrofuran (THF) and peroxides.

**Materials in contact with media:**
borosilicate glass, $Al_2O_3$-ceramics, tantalum, ETFE, FEP, PFA, PTFE and PP.



**Dispensette® S Organic, analog**

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5-5 | 0,1 | **ECN9.1** | 1 | 333,25 |
| 1-10 | 0,2 | **ECP0.1** | 1 | 333,25 |
| 2,5-25 | 0,5 | **ECP1.1** | 1 | 424,65 |
| 5-50 | 1,0 | **ECP2.1** | 1 | 451,50 |
| 10-100 | 1,0 | **ECP3.1** | 1 | 598,80 |

## Telescopic suction tubes

By Brand. For Dispensette®, seripettor® *pro* and Titrette®.
Made of FEP, individually adjustable length.

| Nominal capacity (ml) | Outer ∅ (mm) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1 / 2 / 5 / 10 | 6 | 70-140 | **PP81.1** | 1 | 13,50 |
| 1 / 2 / 5 / 10 | 6 | 125-240 | **PP82.1** | 1 | 17,75 |
| 1 / 2 / 5 / 10 | 6 | 195-350 | **PP83.1** | 1 | 25,75 |
| 1 / 2 / 5 / 10 | 6 | 250-480 | **PP84.1** | 1 | 20,00 |
| 25 / 50 / 100 | 7,6 | 170-330 | **PP85.1** | 1 | 25,75 |
| 25 / 50 / 100 | 7,6 | 250-480 | **PP86.1** | 1 | 26,55 |

## seripettor®/seripettor® *pro* dispenser

By Brand.

- Dispensing: push plunger down, fills automatically
- Suitable for serial dispensing by means of flexible dispensing hose made of PTFE with safety handle, length approx. 800 mm (please order separately)
- **Suitable for dispensing sterile media:** screw the valve block with suction tube onto the filled bottle, seal the valve block with the cap, attach the autoclavable sterile filter (0.2 µm) at the side and autoclave at 121 °C. Remove the cap from the valve block under clean bench conditions, screw in the sterile dispensing unit and attach the actuating unit
- If the snug fitting plunger seal is worn, the dispensing unit can be interchanged
- GL 45 thread

**Materials in contact with media:**

- seripettor®: FEP, PP, PE, EPDM
- seriipettor ® pro: PP, PE, Borosilicate glass, $Al_2O_3$-ceramic , ETFE, PFA, FEP, PTFE, Pt-Ir

**Limits of use:** 15 to 40 °C, vapour pressure max. 500 mbar, max. density 2.2 g/cm³, viscosity 300 mm²/s (2 ml device), 150 mm²/s (10 ml device) or 75 mm²/s (25 ml device)

**Limits of error:**

| Nominal volume (ml) | Accuracy (±µl) | Variation coefficient (±µl) |
|---|---|---|
| 2 | 24 | 4 |
| 10 | 120 | 20 |
| 25 | 300 | 50 |

**Delivery incl.** dispensing syringe, suction tube, replacement dispensing unit and PP adapter (GL 32, S 40).

**seripettor®**

For dispensing aqueous solutions, buffer solutions, culture media, diluted, non-oxidising acids and agars up to max. 60 °C.

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,2-2 | 0,04 | **PP91.1** | 1 | 138,70 |
| 1-10 | 0,2 | **PP92.1** | 1 | 138,70 |
| 2,5-25 | 0,5 | **PP93.1** | 1 | 163,40 |

**seripettor®** *pro*

For dispensing aqueous solutions, buffer solutions, culture media, acids (e.g. concentrated HCl), polar solvents (e.g. acetone), etheric oils and UV-sensitive media.

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,2-2 | 0,04 | **PP94.1** | 1 | 247,25 |
| 1-10 | 0,2 | **HX64.1** | 1 | 263,40 |
| 2,5-25 | 0,5 | **HX65.1** | 1 | 348,30 |

Accessories:

| | | | |
|---|---|---|---|
| ① 2 ml dispensing unit, non-sterile | **PP95.1** | 3 | 27,10 |
| ① 10 ml dispensing unit, non-sterile | **HX66.1** | 3 | 29,05 |

| ① 25 ml dispensing unit, **sterile** | **HX69.1** | 5 | 77,90 |
| ② 2 + 10 ml dispensing hose, flexible with handle | **HX70.1** | 1 | 81,65 |
| ② 25 ml dispensing hose, flexible with handle | **HX71.1** | 1 | 84,50 |
| Syringe filter "RC", 0.2 µm pore size | **EE80.1** | 100 | 122,00 |

## Dispensette® S Trace Analysis, analog

By BRAND.

**Range of applications:**

- For accurate dispensing of highly pure media in trace analysis
- Dispensing of metal traces, usually in the low ppb range - or even in the ppt range, depending on application
- The established cleaning process for use in trace analysis is explained in the operating instructions
- Usable as a hydrofluoric acid dispenser with platinum-iridium valve spring

**Models:**

- Dispensing needle with recirculation valve: prevents loss of reagent and allows fast, bubble-free ventilation
- Dispensing needle without recirculation valve: prevents contamination of the bottle contents

**Features:**

- Depending on requirements, the spring material is made of platinum-iridium or tantalum
- Valves without additional ring seals for easier cleaning
- Dispensing plunger with snug fitting seal
- Complete dispensing unit is easy to replace in case of wear
- Reliable volume control through inner rack mechanism
- Rotates through 360°, valve block with GL 45 thread
- Dispensing needle with swivel-mounted screw cap for protection against media contact
- Telescopic suction tube adjustable to different bottle sizes
- DE-M approved
- Suitable for calibration in conjunction with measuring instrument inspection according to ISO 9011 and GLP
- Alteration of factory calibration is indicated
- Microfilter can be connected for sterile dispensing

**Materials in contact with media:**
High-purity plastics (PTFE, ETFE, PCTFE, FEP and PFA), sapphire valves, platinum-iridium or tantalum spring material.

**Limits of use:**
Max. vapour pressure 600 mbar; max. viscosity 500 mm²/s; max. temperature +40 °C; max. density 3.8 g/cm³.

**Limits of error:**

| Nominal volume (ml) | Accuracy (±µl) | Variation coefficient (±µl) |
|---|---|---|
| 10 | 50 | 10 |

**Delivery incl.** certificate of quality, telescopic suction tube, assembly spanner and threaded adapter GL 28 / S 28 (ETFE), GL 32 (ETFE) and S 40 (PTFE). Version with recirculation valve also includes a recirculation tube.

| Type | Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Platinum-iridium, without RDV | 1-10 | 0,2 | **ECX1.1** | 1 | 676,20 |
| Platinum-iridium, with RDV | 1-10 | 0,2 | **ECX2.1** | 1 | 720,25 |
| Tantalum, without RDV | 1-10 | 0,2 | **ECX3.1** | 1 | 676,20 |
| Tantalum, with RDV | 1-10 | 0,2 | **ECX4.1** | 1 | 720,25 |

## Accessories for Dispensette® S Trace Analysis, analog

**Replacement dispensing unit with retaining ring**

Easy replacement with no need for additional tools. Nominal capacity 10 ml. Calibrated, including certificate of quality.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ECX5.1** | 1 | 330,05 |

# Dispensers

## Dispenser FORTUNA® POLYFIX®

By Poulten & Graf.
- Conformity certified
- Precision dispensing plunger
- Quick adjustment with easy action
- Rotatable fine adjustment
- GL 32 thread

**Delivery incl.** dispensing syringe set, suction hose made of PTFE, two GL 40 and GL 45 threaded adapters made of PP.

**With glass plunger and clear glass cylinder.**
For dispensing aqueous media.

| Volume (ml) | Graduations (ml) | Tolerance (±ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2-10 | 0,2 | 0,04 | **P312.1** | 1 | 132,25 |
| 10-50 | 1,0 | 0,2 | **P313.1** | 1 | 149,45 |

**With PTFE-encased plunger and clear glass cylinder.**
For dispensing weak acids and alkalis.

| Volume (ml) | Graduations (ml) | Tolerance (±ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2-10 | 0,2 | 0,04 | **PK97.1** | 1 | 175,25 |
| 10-50 | 1,0 | 0,2 | **PK98.1** | 1 | 193,50 |

**With glass plunger and brown glass cylinder.**
For dispensing light-sensitive media.

| Volume (ml) | Graduations (ml) | Tolerance (±ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2-10 | 0,2 | 0,04 | **PK99.1** | 1 | 176,30 |
| 10-50 | 1,0 | 0,2 | **PL00.1** | 1 | 194,60 |

## Bottle holder for dispensers

By BRAND. **Made of PP.** For secure attachment of bottle top dispensers or digital burettes during work with small storage bottles. Completely made from plastic and therefore ideal for trace analysis and use in aggressive environments (e.g. acid vapours in extractor).
Base plate L 220 x W 160 mm, length of stand rod 325 mm.
Weight: approx. 1.1 kg.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CNN2.1** | 1 | 164,50 |

## Dispenser FORTUNA® OPTIFIX® series

By Poulten & Graf.

**Properties:**
- Ergonomic design with colour-code system
- Resistant to abrasion, UV radiation, acids and acid vapours
- Valve block without metal springs; no contamination of the dispensed liquid
- Quick volume adjustment with easy action and rotatable fine adjustment
- Visually recognisable dosing direction
- Screws directly onto bottle with thread GL 32
- Easy to dismantle and clean.
- Conformity testing acc. to DIN EN ISO 8655-5

**Tolerances:**

| Nominal capacity (ml) | Accuracy (±ml) | Variation coefficient (±ml) |
|---|---|---|
| 2 | 0.012 | 0.004 |
| 5 | 0.030 | 0.010 |
| 10 | 0.060 | 0.020 |
| 30 | 0.180 | 0.060 |
| 50 | 0.300 | 0.100 |
| 100 | 0.600 | 0.200 |
| 200 | 1.200 | 0.400 |
| 300 | 1.800 | 0.600 |
| 500 | 3.000 | 1.000 |

## Dispenser FORTUNA® OPTIFIX® BASIC

For dosing **aqueous media, crystallizing substances and diluted acids and alkalises.**
Dispensing cylinder made of glass, plastic-coated.
Dosing cylinder made of glass, PTFE-coated. Autoclavable.

**Delivery incl.** suction hose made of PTFE, two threaded adaptors (GL 40 and GL 45) made of PP.

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5-2 | 0.1 | **E821.1** | 1 | 297,80 |
| 1-5 | 0.1 | **E822.1** | 1 | 297,80 |
| 2-10 | 0.2 | **E823.1** | 1 | 297,80 |
| 5-30 | 0.5 | **E824.1** | 1 | 409,60 |
| 10-50 | 1 | **E825.1** | 1 | 449,35 |
| 20-100 | 2 | **E826.1** | 1 | 754,65 |
| 40-200 | 5 | **E827.1** | 1 | 1129,85 |
| 60-300 | 5 | **E828.1** | 1 | 1574,90 |
| 100-500 | 5 | **E829.1** | 1 | 1766,25 |

## Dispenser FORTUNA® OPTIFIX® SOLVENT

For dosing **solvents and low-viscosity media (up to 100 mPa · s).**
Dispensing cylinder made of glass, plastic-coated.
Dosing piston made of glass, without coating. Autoclavable.

**Delivery incl.** suction hose made of PTFE, two threaded adaptors (GL 40 and GL 45) made of PP.

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5-2 | 0.1 | **E833.1** | 1 | 297,80 |
| 1-5 | 0.1 | **E834.1** | 1 | 297,80 |
| 2-10 | 0.2 | **E835.1** | 1 | 297,80 |
| 5-30 | 0.5 | **E836.1** | 1 | 410,65 |
| 10-50 | 1 | **E837.1** | 1 | 449,35 |
| 20-100 | 2 | **E838.1** | 1 | 754,65 |
| 40-200 | 5 | **E839.1** | 1 | 1122,30 |
| 60-300 | 5 | **E840.1** | 1 | 1585,65 |
| 100-500 | 5 | **E841.1** | 1 | 1777,00 |

## Dispenser FORTUNA® OPTIFIX® SAFETY

For dosing **strong acids and aggressive chemicals**.
Dispensing cylinder made of glass, plastic-coated.
Dosing cylinder made of glass, PTFE-coated with sealing lip.

**Delivery incl.** suction hose made of PTFE, two threaded adapters (GL 40 and GL 45) made of PTFE.

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5-2 | 0.1 | **E842.1** | 1 | 388,10 |
| 1-5 | 0.1 | **E843.1** | 1 | 388,10 |
| 2-10 | 0.2 | **E844.1** | 1 | 388,10 |
| 5-30 | 0.5 | **E845.1** | 1 | 532,15 |
| 10-50 | 1 | **E846.1** | 1 | 581,60 |
| 20-100 | 2 | **E847.1** | 1 | 825,60 |

## Dispenser FORTUNA® OPTIFIX® SAFETY S

For dispensing **fuming acids and other aggressive chemicals as well as odorous liquids**.
Dispensing cylinder made of glass, plastic-coated.
Dispensing piston made of glass, PTFE-coated with sealing lip.
With safety stopcock at the output channel and additional safety valve in the ventilation tube.

**Delivery incl.** suction hose made of PTFE, two threaded adaptors (GL 40 and GL 45) made of PTFE.

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5-2 | 0.1 | **PL11.1** | 1 | 477,30 |
| 1-5 | 0.1 | **PL12.1** | 1 | 477,30 |
| 2-10 | 0.2 | **PL13.1** | 1 | 477,30 |
| 5-30 | 0.5 | **PL14.1** | 1 | 643,95 |
| 10-50 | 1 | **PL15.1** | 1 | 694,45 |
| 20-100 | 2 | **PL16.1** | 1 | 938,50 |

## Dispenser FORTUNA® OPTIFIX® HF

For dispensing **highly aggressive and toxic chemicals (e.g. liquid acid).**
Dispensing cylinder made of PTFE.
Dosing cylinder made of glass, PTFE-coated with sealing lip.

**Delivery incl.** suction hose made of PTFE, two threaded adapters (GL 40 and GL 45) made of PTFE.

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-5 | 0.1 | **PL17.1** | 1 | 695,55 |
| 2-10 | 0.2 | **PL18.1** | 1 | 695,55 |
| 6-30 | 0.5 | **PL19.1** | 1 | 1032,00 |
| 10-50 | 1 | **PL20.1** | 1 | 1538,35 |

## Thread-adapters for all FORTUNA® OPTIFIX® dispensers

For dispensers with thread GL 32.

| Thread (drum) | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| GL 45 | PTFE | **L903.1** | 1 | 75,45 |
| GL 25 | PP | **L896.1** | 1 | 12,20 |
| GL 38 | PP | **L897.1** | 1 | 13,60 |
| GL 40 | PP | **L898.1** | 1 | 15,05 |
| GL 45 | PP | **L899.1** | 1 | 15,80 |

## Thread adapter for dispenser

| Material | Thread (drum) | Thread (Dispenser) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Brass | 2″ Tri-Sure®-finethread | GL 32 | **1751.1** | | 49,35 |
| Fluororubber | GL 40 | GL 45 | **P321.1** | 1 | 21,45 |
| PTFE | GL 40 | GL 45 | **KY92.1** | 1 | 88,35 |
| PTFE | S38-430, suitable for ex. for AE00.3, HN44.3, HN60.3, HN54.1 | GL 45 | **KY68.1** | 1 | 53,20 |

▶ Further thread adapters see p. 50

# Dispensers

## Dispensers ceramus® classic

By Hirschmann.

- **Ceramic piston:** no wear by friction, no swelling, no thermal problems, high chemical stability
- Variable volume setting
- Suction tube is screwed on tightly, therefore completely leakproof
- Absolutely reproducible work
- Quick and safe setting of volume
- Parts can be replaced easily
- Thread A32
- Without dismantling, steam sterilizable at 121 °C/2 bar
- Certificate of conformity

**Delivery incl.** 3 thread adapters (A28/S40/A45), 1 installation wrench, certificate of quality.

| Volume (ml) | Graduations (ml) | Tolerance (±ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,2-1 | 0,05 | 0,01 | **1591.1** | 1 | 278,45 |
| 0,4-2 | 0,05 | 0,02 | **1592.1** | 1 | 278,45 |
| 1-5 | 0,10 | 0,05 | **1593.1** | 1 | 278,45 |
| 2-10 | 0,25 | 0,10 | **1594.1** | 1 | 278,45 |
| 5-30 | 0,50 | 0,30 | **1595.1** | 1 | 366,60 |
| 10-60 | 1,00 | 0,60 | **1596.1** | 1 | 401,00 |

## Dispensers made of PP

By Hirschmann. With glass flask for dosing aqueous and organic media. Sterilisable up to 121 °C, with A32 screw thread. Certificate of conformity.

**Delivery incl.** 3 thread adapters (A28, S40, A45), certificate of quality.

| Volume (ml) | Graduations (ml) | Tolerance (±ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2-10 | 0,25 | 0,10 | **P207.1** | 1 | 205,35 |
| 10-60 | 1,00 | 0,60 | **P208.1** | 1 | 297,80 |

## ceramus® dispenser

By Hirschmann.

- **Media backflow system**
- **Ceramic piston:** no wear by friction, no swelling, no thermal problems, high chemical stability
- Suction tube is screwed on tightly, therefore completely leakproof
- The dispenser on the bottle is freely rotatable
- Luer-Lock connection on the back
- Ergonomic grip
- Quick and safe setting of volume
- Absolutely reproducible work
- Parts can be replaced easily
- A45 thread
- Without dismantling, steam sterilizable at 121 °C / 2 bar
- Certificate of conformity

**Delivery incl.** 3 thread adapters (A32/A38/S40), 1 assembly wrench, with certificate of quality.

### Variable volume setting

| Volume (ml) | Graduations (ml) | Tolerance (±ml) | Art. No. | Pack Qty. | € |

### Special version for problematic media

For dosing hydrofluoric acid and other problematic media.
Pistons, cylinders, valve seats and balls made of ceramic, valve springs made of plating/iridium.

| Volume (ml) | Graduations (ml) | Tolerance (±ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2-10 | 0,25 | 0,1 | **T306.1** | 1 | 798,75 |

# Digital dispenser

## Ultra / Ultra HF dispenser

For dispensing highly pure acids and alkalis.
Suitable for use in ultra trace analysis.

**Features:**
- **Free of metals**
- Made of high quality and highly pure plastics (PTFE, TFM and PFA)
- Calibrated and mechanically tested for precision and accuracy
- 38-430 thread (fits ROTIPURAN® Ultra products)

**Special features of Ultra dispenser:**
- Acid cleansed
- Manufactured in cleanroom (class 100)

**Special features of Ultra HF dispenser:**
- Specially for dispensing hydrofluoric acids
- Also suitable for analytical acids

When using bottles with a GL45 thread, please order fastening for dispenser KK11.1 separately.

| Model | Volume (ml) | Graduation (ml) | Tolerance (±ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| Ultra | 0,5-5 | 0,5 | 0,02 | **KK97.1** | 1 piece | 2234,95 |
| Ultra HF | 0,5-5 | 0,5 | 0,02 | **KK98.1** | 1 piece | 1757,65 |

## Accessories for Ultra/Ultra HF dispenser

**Bottle holder**

Stabilises bottles when using a dispenser.
The four-screw system is suitable for both square bottles and round bottles.
The bottle holder is designed for ROTIPURAN® Supra and Ultra bottles with capacities from 250 ml to 2 litres.

| Product | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Bottle holder | **KK99.1** | 1 piece | 93,00 |

**Fastening for Ultra/Ultra HF dispenser to GL45**

Made of PTFE. For bottles with GL45 thread, specially for the use of ROTIPURAN® Supra products with Ultra and Ultra HF dispensers.

| Product | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Fastening for ROTIPURAN® Supra (GL45) | **KK11.1** | 1 piece | 256,95 |

▶ Further accessories for the opus® dispenser see p. 404

## Digital dispenser opus® dispenser

By Hirschmann. For motor-driven dosing directly from the lab bottle. Microprocessor-controlled piston stroke system guarantees highest accuracy and precise, reproducible results.
- Safe and easy handling via external touch screen with clearly arranged menu keys; with quick-cal function for simple calibration of other temperatures or other media
- High media flexibility thanks to highly resistant, inert materials (ECTFE, borosilicate glass 3.3, Hastelloy, FEP, PTFE)
- Media carrying parts are steam sterilisable (121 °C)
- Time-controlled serial dosing up to 9999 reruns, enables integration in automated process runs
- Methods memory for 9 different procedures
- Media feedback system for ventilation without loss of reagent
- Universal Luer-connection for dry pipes, filters etc.
- Can be battery or socket operated (storage batteries not included in the delivery; please order separately)
- Stepper function for delivery of up to 10 different partial quantities
- Sucking and draining speeds can be set
- 4 languages (G, E, F, S) integrated by default
- Optional system platform for secure standing, please order separately

## Automatic titrating burettes

Acc. to Schilling. Made of **PE**, burette made of borosilicate glass 3.3, with Schellbach stripes. No danger of breakage and high chemical resistance. With feet on bottle for enhanced stability.
With blue ring graduation, calibrated to "Ex". Press button for precise dosing, fine titration with microscrew and exact spout tip, finest droplets.
Graduation corresponds to Class B (tolerances acc. to DIN ISO 385).
The burette is a universal helper in laboratories, electroplating applications, water processing stations, sewage plants and in field tests, etc.

# Digital burettes

## Digital burettes continuous E and RS

By Vitlab. Pulse-free dispensing. Continuous delivery of desired volume without drawing up reserves. Easy and fatigue-free operation of the control elements. Volume dispensed per turn of the handwheels: 2.5 ml (continuous E) or 5.0 ml (continuous RS).

- Specially developed return dosing system for ventilation without loss of reagent
- Power supply with longlife, easy-to-change 1.5 V micro batteries and charge indicator
- Electronics removable as a unit, service friendly modular design
- Dispensing range 0.01 ml to 999.9 ml
- Discharge tube rotatable through 360°
- Vertically and horizontally adjustable discharge tube
- Digital burette with safety valve
- Telescopic suction tube for different bottle sizes from 200 to 350 mm
- Simple calibration program
- Connection for drying tube
- The defined limits of error according to DIN EN ISO 8655-3 are not exceeded even when dispensing partial volumes
- Not suitable for crystallising media

**Delivery incl.** 1 continuous E or RS digital burette (GL 45 standard thread), 3 PP adapter (GL 32, GL 38, S40), certificate of quality containing test values, 1 telescopic suction tube, 1 discharge tube, 2 1.5 V micro/AAA batteries.

| Type | Volume/turn (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Digital burette continuous E | 2,5 | **AA89.1** | 1 | 705,20 |
| Digital burette continuous RS | 5,0 | **AA90.1** | 1 | 705,20 |

## Accessories for digital burettes continuous E / RS

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Dry pipe (without filling) | **AA91.1** | 1 | 35,40 |
| Telescopic suction pipe made of FEP/ETFE, L 200-350 mm | **AA92.1** | 1 | 31,10 |
| Ejection cannula incl. reverse dosing valve | **AA93.1** | 1 | 27,75 |

▶ Glass bottles see page 32

## Titrette®-digital burettes

By Brand. Bottle-top burette for quick and reliable titration. High accuracy provides results within class A accuracy limits to DIN EN ISO 385.

- Smooth-acting gear for accurate trickle titration
- Lightweight and stable thanks to compact design
- Freely rotatable valve block, GL 45 thread
- Titrating tube is horizontally and vertically adjustable for flexible positioning
- Easy to use, no switching over between filling and titrating
- Can be removed for cleaning
- Can be calibrated without tools
- The next calibration due date can be stored
- The current displayed value can be stored with automatic stop
- Adjustable up to 20 ml to three decimal places
- Parts in contact with media are made of borosilicate glass, $Al_2O_3$, ETFE, PFA, FEP, PTFE, platinum-iridium, PP
- DE-M
- **Permissible conditions of use:** temperature +15 to +40 °C, vapour pressure up to max. 500 mbar, viscosity up to 500 $mm^2/s$
- Optionally available with PC interface

**Technical specifications:**

| Capacity (ml) | Partial volume (ml) | Correctness (≤%) | Variation coefficient (≤%) |
|---|---|---|---|
| 10 | 10 | 0,10 | 0.05 |
| | 5 | 0,20 | 0.10 |

# Digital burettes

## Digital burettes opus® titration

By Hirschmann. For motor-driven titration directly from the lab bottle. Microprocessor-controlled piston stroke system guarantees highest accuracy and precise, reproducible results.

- Safe and easy handling via external touchscreen with clearly arranged menu keys; with quick-cal-function for simple calibration of other temperatures or other media
- High media flexibility thanks to highly resistant, inert materials (ECTFE, borosilicate glass 3.3, Hastelloy, FEP, PTFE)
- Media carrying parts are steam sterilisable (121 °C)
- Serial dosing function enables integration in automated process runs
- Methods memory for 9 different titration procedures
- Media feedback system for ventilation without loss of reagent
- Universal Luer-connection for dry pipes, filters etc.
- Can be battery or power operated (storage batteries not included in the delivery; please order separately)
- Possible to choose between volume pre-selection, quick and drop titration
- Sucking and draining speeds can be set
- 4 languages (G, E, F, S) integrated by default

**Technical specifications:**

| Flexible ejection unit, spiral shaped, inside diameter ∅ 1.5 mm | **PA75.1** | 1 | 71,85 |
| Ejection unit for titration, variable | **PA76.1** | 1 | 45,10 |

### Information on threads

The thread on a drum is defined, among other things, by diameter (A and B) and thread pitch (C). The values given in the table give a rough indication of the thread type, however this cannot reliably be determined by measuring the thread using a sliding caliper alone. Manufacturer-specific threads are also available in addition to the standard threads. The drum supplier can generally provide information on the thread type.

We will be happy to provide you with information on containers which you purchase through us.

| Thread | Diameter excl. thread A (mm) | Diameter incl. thread B (mm) | Thread pitch C (mm) |
|---|---|---|---|
| DIN 38 | 34.6 | 36.6 | 9 |

## Digital burettes solarus®

By Hirschmann.

- Sustainable power supply via solar cell, i.e. no batteries, no charging
- Large display, display from 0.01 to 99.99 ml
- 2-button operator guidance
- "Quick-Cal" function for individual calibration
- Bidirectional RS 232 interface
- Valves are easy to replace, valve block rotates freely, thread GL 45
- Handwheels with soft-touch surface
- No reagent loss through return system
- Parts that come into contact with medium are made of highly resistance fluoroplastics: Valve block and housing made of ECTFE, intake and output hose made of FEP
- Media-transporting parts including the output unit steam-sterilisable at 121 °C / 2 bar

**Technical specifications:**

| Volume (ml) | Correctness (≤%) | Variation coefficient (≤%) |
|---|---|---|
| 10 | 0.3 | 0.1 |
| 20 | 0.2 | 0.1 |
| 50 | 0.2 | 0.1 |

**Delivery incl.** basic unit with A45 screw thread and output unit, 3 thread adapters A32, A38, S40, intake hose (L 310 mm), return hose and quality certificate acc. to DIN EN ISO 8655.

| Type | Art. No. | Pack Qty. | € |

| Basic device 10 ml | **HLY7.1** * | 1 | 789,05 |
| Basic device 20 ml | **Y063.1** * | 1 | 789,05 |
| Basic device 50 ml | **Y064.1** * | 1 | 789,05 |

* Longer delivery times possible. Please check with our Sales Department.

**Accessories:**

| | | | |
|---|---|---|---|
| Titration output unit | **X607.1** | 1 | 27,45 |
| Replacement return hose | **X609.1** | 1 | 7,65 |
| Replacement suction hose 310 mm | **L477.1** | 1 | 13,05 |
| Replacement suction hose 400 mm | **L478.1** | 1 | 16,35 |

## TitroLine® 5000

By SI Analytics. Very easy to use automatic titrator for pH and mV titration: Select saved standard method, connect electrodes and press Start. In just a few minutes, the sample is titrated and the result is displayed on the screen. Result can also be output as a PDF file to USB.

**Range of applications:**

- Current acid-alkali titration such as acid capacity, nitrogen according to Kjeldahl and total acid in wine and beverages (Set 2)
- Titration of chloride and sodium chloride (salt) in foods such as mustard, cheese, milk, water and other samples (Set 3)
- Current redox titration such as iodine and peroxide value, permanganate index, CSB and other applications (Set 1 + metal combination electrode Pt 62 RG)

**Technical specifications:**

# Syringes/needles

## Disposable syringes Inject®

By B. Braun. Acc. to ISO 7886-1. 2-piece, cylinder made of **PP**, piston rod made of **PE**. **Sterile** (EO-sterilised, individually wrapped). Smudge-proof, black graduation. The scale goes beyond the nominal volume. Safe piston stopper for smooth filling up to maximum volume. Latex-, PVC- and silicone-free.

① **Luer-connection**

| Nominal capacity (ml) | Max. volume (ml) | Graduation (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2 | 3 | 0,1 | **0056.1** | 100 | 7,00 |
| 5 | 6 | 0,2 | **0057.1** | 100 | 9,15 |

## Disposable syringes Inject®-F

By B. Braun. 2-piece fine dosage syringes.
Volume 1 ml, graduation 0.01 ml.

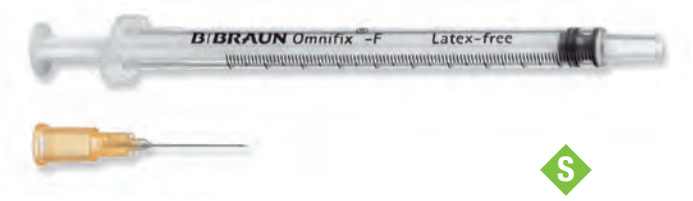
Made of **PP/PE**. Sterile (individually wrapped), latex-free and PVC-free. Green piston rod, black graduation, smudge-proof.

**With efficiency pin** on piston rod for reducing rest volume.
Centric Luer-attachment.

| Volume (ml) | Graduation (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1 | 0,01 | **T987.1** | 100 | 19,15 |

## Omnifix® disposable syringes

By B. Braun. Acc. to ISO 7886-1. 3-part, made of **PP**.
**Sterile** (EO-sterilized, individually wrapped). Black graduation, smudge-proof. Reliable piston stopper prevents accidental removal of piston rod.



Smooth-running piston with double sealing ring for slow and bubble-free filling and injecting. Particularly ideal for dosing smaller volumes.
Made of synthetic rubber, latex-free, acc. to ISO 10993 and DIN EN 90993. PVC-free.

① **Luer-fitting**

## Disposable syringes Omnifix®-F

By B. Braun. 3-piece fine dosage syringes.
Volume 1 ml, graduation 0.01 ml.

Made of **PP/PS**, **sterile** (individually wrapped), latex-fee and PVC-free. Piston stopper made of synthetic rubber, black graduation, smudge-proof. Centric Luer-attachment.

Smooth-running with double gasket, for dosing very small volumes. Ideal for extremely slow filling and injecting. Minimal rest volume.
Outer- ∅ 0.5 mm, length 16 mm.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| With needle 25 G | **0053.1** | 100 | 36,50 |
| Without needle | **H999.1** | 100 | 17,75 |

## Omnican®-insulin syringes

By B. Braun. Acc. to EN ISO 8537. **Sterile** (EO-sterilised).
Three piece syringe with integrated plunger stop. Latex and PVC free.
Integrated stainless steel cannula for minimal loss of fluid.
With triple facet bevel and silicone coating. ∅ 0.30 mm (30 G), L 12 mm.
**Delivery incl.** protective caps.

# Microlitre syringes by HAMILTON

## Technical specifications:

| | |
|---|---|
| Accuracy | ≤ ±1 % of nominal volume |
| Test pressure | 0.6 MPa |
| Working temperature | -10 to +50 °C |
| Material of body | Borosilicate glass |
| Tip type 2 | **12° grinding**, bent slightly inwards; for piercing septum, in all chromatographic methods. |
| Tip type 3 | **90° grinding, blunt**; for HPLC-applications or for exact dosing e.g. for thin-layer chromatography. |

## Series 700 MICROLITER®-syringes

By HAMILTON. For dosing liquids.
The piston is firmly fixed in the glass body.
Needle and piston are made of stainless steel.
Needle 51 mm, bent slightly inwards, sealed in wall.

**Technical specifications:**

**Tip type 2:**

| Model | Volume (µl) | Pitch (µl) | Needle-∅ inside (mm) | Needle-∅ outside (mm) | Art. No. | Pack Qty. | € |

## Series 1700 GASTIGHT®-syringes

By HAMILTON. For dosing liquids and gases. Glass body and piston are replaceable. Stainless steel pistons with PTFE-seal.
Needle made of stainless steel, 51 mm, exchangeable.

**Tip type 2:**

| Model | Volume (µl) | Pitch (µl) | Needle-∅ inside (mm) | Needle-∅ outside (mm) | Art. No. | Pack Qty. | € |

# Microlitre syringes

A variety of models available for different applications.

- Tested up to 3.0 bar liquid pressure
- Calibrated with an accuracy of ±1 %
- Precise and easy to read scale
- Precise workmanship prevents, as far as possible, air bubbles from forming

**General instructions for use:**
Micolitre syringes should be washed with an organic solvent immediately after use. Drying temperature may not exceed 60 °C. When dry, the syringes should be stored at room temperature. Never touch the flask with the naked hand!

## Microlitre syringes with super-elastic plunger

Cannot be permanently bent. Plunger will return into previous form.

**Syringe volume 5 µl**

| Range of application | Pitch (µl) | Needle-∅ outside (mm) | Needle-∅ inside (mm) | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|---|
| GC | 0,1 | 0,52 | 0,13 | 50 | **E108.1** | 1 | 61,95 |

| 500 | 10 | **E125.1** | 1 | 73,40 |

## Microlitre syringes with plunger guide

Capacity 10 µl. Graduated in 0.1 µl steps. With slanted needle, length 50 mm, inner-∅ 0.18 mm, outer-∅ 0.52 mm. Precision ±1 %.

**With variable external guide.**
Locking screw enables reproducible injections of same volumes.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E126.1** | 1 | 68,30 |

**With PTFE-tube**. For added plunger protection.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E127.1** | 1 | 64,00 |

## Gastight syringes

With specially polished syringe hole and plunger needle made of PTFE. Gas- and liquid tight up to a maximum pressure of 5.0 kg/cm². Accuracy and reproducibility better than ±1 %. Replaceable needle with slanted tip.

**Syringe with screw head fitting**
Needle length 30 mm, ∅ inside 0.30 mm, ∅ outside 0.56 mm.
Unused volume 2.2 ±0.3 µl. **Needle included.**

| Volume (ml) | Graduations (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1 | 0,02 | **E128.1** | 1 | 145,15 |

| 10 | 0,2 | **E136.1** | 1 | 122,55 |

## Accessories for gastight syringes

**Replacement needle** with screw head fitting.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E132.1** | 5 | 74,75 |

**Needle with Luer-Lock-connector** and chamfered tip.
Length 50 mm, ∅-inner 0.30 mm, ∅-outer 0.56 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E137.1** | 5 | 73,65 |

## Disposable micro hematocrit capillary tubes

By Marienfeld.
- Made of AR-glass
- CE to IVD 98/79 EG
- Acc. to ISO 12772
- Length: 75 ±0.5 mm, thickness: 0.2 ±0.025 mm.
- For centrifuging blood samples
- With or without heparinisation. Sodium-heparin (80 iu/ml ±30 %) applied as a thin, homogeneous film delays coagulation of blood.
- Colour-coded end is fire polished to reduce centrifuge wear.

**With sodium heparinisation**

| Volume (µl) | Inside ∅ (mm) | Outside ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 60 | 0,9-1,2 | 1,3-1,4 | **TX79.1** | 10 x 100 | 27,45 |
| 75 | 1,1-1,2 | 1,5-1,6 | **TX80.1** | 10 x 100 | 26,80 |

**Without heparinisation**
Seal with wax immediately after filling and centrifuge.

| Volume (µl) | Inside ∅ (mm) | Outside ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 60 | 0,9-1,0 | 1,3-1,4 | **TX77.1** | 10 x 100 | 24,30 |
| 75 | 1,1-1,2 | 1,5-1,6 | **TX78.1** | 10 x 100 | 23,55 |

## Accessories for micro hematocrit capillary tubes

By Marienfeld. Wax plates for sealing micro hematocrit capillary tubes. Numbered from 1 to 48.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TX82.1** | 6 | 26,35 |

# Capillary pipettes

## minicaps disposable capillary pipettes

By Hirschmann.

- Made of Borosilicate glass 3.3
- Not heparinised
- Certificate of Conformity
- CE acc to IVD 98/79 EG
- In acc. with ISO 7550
- Tolerance 0,5 %
- Variation coefficient 1 %
- Independent filling via capillary action (end-to-end)

## minicaps-pipettor aids

By Hirschmann. Ideal for emptying disposable capillary pipettes minicaps.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T749.1** | 2 | 5,95 |

## ringcaps®-micropipetter pipetting aid

By Hirschmann. Manual pipetting aid for disposable capillary pipettes with ring marks (e.g. ringcaps®), with two replaceable adapters for optimal fit to the pipette size. For volumes from 1-200 µl. CE acc. to IVD 98/79 EG.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AH26.1** | 1 | 27,85 |

# Pasteur pipettes/Disposal pipettes

## Pasteur pipettes

Made of lime soda clear glass. Hydrolytic class 3. **Sterile** or non sterile. Uniformly shaped. Wall thickness 0.55-0.8 mm.
With neck for cotton stoppers. Autoclavable.

For one-time use in serological and microbiological laboratories.
Also suitable for filling and draining NMR vials.

**Without cotton stoppers, non sterile.**
**With open tip.**

| Total length (mm) | Length of tip (mm) | Tip outer ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 150 | 60 | 1,3 | **4518.1** | 1000 | 48,60 |

## Pasteur pipettes, plastic

Made of **PS**. Sterile, individually packed. With fine extended tip. For use with pipette bulbs or as aspiration pipettes in combination with suction systems. Safe alternative to Pasteur pipettes made of glass.
Outer ∅ 6 mm, Outer ∅ Tip 1.5 mm.

| Total length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 145 | **EKN7.1** | 200 (4 x 50) | 59,90 |
| 230 | **EKN8.1** | 200 (4 x 50) | 69,80 |

## Aspiration pipettes

Made of **PS**. **Sterile.** Pipettes without cotton stopper, without graduation. Suitable for vacuum applications and liquid handling where high precision is not required. Safe alternative to pasteurizing pipettes made of glass.

| Volume (ml) | Design | Packaging | Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 2 | **sterile** | individually wrapped | 271 | **NA41.1** | 500 | 51,50 |
| 10 | **sterile** | individually wrapped | 295 | **NA42.1** | 200 | 57,00 |

## Suction cup

For Pasteur pipettes, graduated and volumetric pipettes with a capacity of up to 10 ml.

*Suitable for Pasteur pipettes

| Suction capacity (ml) | Hole ∅ (mm) | Colour | Material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 1,8 | 5* | transparent | Natural rubber/latex | **8404.1** | 100 | 30,10 |

| 5 | Blue | 25 per pack | **ET29.1** | 375 | 67,55 |
| 10 | Orange | Individual | **ET30.1** | 200 | 41,90 |
| 10 | Orange | 25 per pack | **ET31.1** | 250 | 48,40 |

## Disposable pipettes without tip

**Straight pipettes for highly viscous liquids or suspensions.**
Made of biologically inert **PS** (with colour-coded cotton stopper).
**Sterile.** Easy-to-read graduation. RNase-/DNase-free, non-pyrogenic, non-cytotoxic and non-haemolytic.

| Volume (ml) | Stopper colour | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 10 | Orange | Individual | **NA48.1** | 200 | 42,65 |

## Disposable demeter pipettes

**Dilution pipettes for bacteriological examinations in food laboratories and in the dairy products industry.**
Made of biologically inert **PS** (with colour-coded cotton stopper).
**Sterile.** Easy-to-read graduation. RNase-/DNase-free, non-pyrogenic, non-cytotoxic and non-haemolytic.

1.1 ml pipettes graduated at 0.5 ml, 1 ml and 1.1 ml.
2.2 ml pipettes graduated at 0.5 ml, 1 ml, 2 ml, 2.1 ml and 2.2 ml.

| Volume (ml) | Stopper colour | Packaging | Art. No. | Pack Qty. | € |

## Rotilabo®-safety pipette bulbs

Made of natural rubber. For volumetric and graduated pipettes.
Glass ball valve is opened by pressing marked point.

**Standard model**
For pipettes up to 10 ml. Total length 125 mm, weight 50 g.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **0251.1** | 1 | 7,15 |

**Universal model**
For pipettes up to 100 ml, with ∅ up to 9 mm.
Total length 152 mm, weight 58 g.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PC78.1** | 1 | 6,75 |

## Multi-coloured pipette bulb

Hand-made of natural rubber. Ideal for pipetting, distributing and measuring with volumetric or graduated pipettes.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **L960.1** | 1 | 15,50 |

## Rotilabo®-safety pipette bulbs Flip

Made of natural rubber. With detachable safety valve.
Evacuating via removable automatic valve. Can be cleaned inside.
Suction and emptying with the aid of two operating points. Suitable for volumetric and graduated pipettes from 10-100 ml with ∅ from 6-8 mm.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| red | **C261.1** | 1 | 10,25 |

▶ Graduated and volumentric pipettes, see page 416

# Manual pipetting aids

## Pipetting aids macro

By Brand.

- For graduated, volumetric and delivery pipettes from 0.1 to 200 ml
- Suction of up to 50 ml in 11 seconds following one-time ventilation
- Single-level operation for sucking and delivering liquid
- Spring-loaded control lever for delicate pipetting
- Blow-out function
- Drip stop via hydrophobic membrane filter (3 µm)
- Membrane filter: PP housing; PTFE membrane
- Fully autoclavable at 121 °C (2 bar) according to DIN EN 285
- Replaceable valve system

Effortless pipetting: The further up the pipette lever is operated, the faster the pipette is filled. To deliver the liquid, move the pipette lever fully downward. Even when flowing freely, the pipette's volume accuracy is not affected.

**Delivery incl.** spare filter.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Neutral | **X478.1** | 1 | 53,25 |
| blue | **X479.1** | 1 | 53,25 |
| magenta | **X480.1** | 1 | 53,25 |
| green | **X482.1** | 1 | 53,25 |

**Accessories:**

| | | | |
|---|---|---|---|
| Unsterilised spare membrane filter | **X484.1** | 1 | 8,20 |
| Unsterilised spare membrane filter | **X485.1** | 10 | 58,40 |
| Spare valve system (PP, PTFE, silicone) | **X486.1** | 1 | 28,80 |
| Spare adapter (silicone), length 44 mm | **AK02.1** | 1 | 6,95 |

## Pipetting aid

Head and bottom part made of synthetic rubber.
Suction bulb made of PE. With 3-point operation. For graduated and volumetric pipettes from 1 to 50 ml. Can be taken apart for cleaning.
Advantage: filling can be accelerated by pulling head part.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **C614.1** | 1 | 23,45 |

## Pipette fillers pi-pump® 2500

Made of acid-resistant plastic. Safe and precise. Thumbwheel for drawing and dispensing liquid. Size 2-25 ml with venting lever for fast emptying.

| Colour | Size | for pipettes up to (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| red | 25 | 25 | **0387.1** | 1 | 17,50 |

**Accessories:**

| | | | |
|---|---|---|---|
| Spare cone, rubber | **E385.1** | 1 | 4,30 |

## pipetus® junior

By Hirschmann. **Manual pipetting aids** for all standard graduated- and volumetric pipettes from 0.5-100 ml. Easy and safe to use.
Weighs only 115 g. Defined lifting capacity app. 2 ml when full. With hydrophobic PTFE-membrane filter 0.2 µm for integral overflow protection.

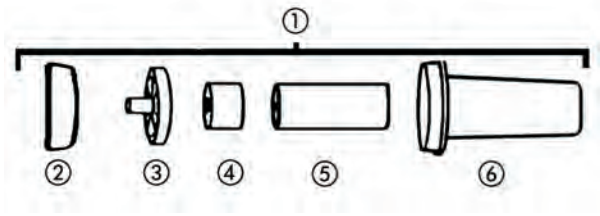
| Art. No. | Pack Qty. | € |
|---|---|---|
| **L468.1** | 1 | 139,75 |

## pipetus®

By Hirschmann. **Battery-operated pipetting aid**

- For pasteur-, graduated- and volumetric pipettes with volumes between 0.1 and 200 ml
- Easy-to-read colour display for optical control of all functions
- Permanent rechargeable-battery capacity display
- Preset pipetting mode (EX or Blow-out)
- Display for set pipetting speed (5 speeds available)
- Safety check valve integrated
- Non-stop working capacity up to 1 week
- Audible signal when battery capacity is under 10 %
- Recharging via charging station or directly with battery charger, overload protection
- Pipettor can be sterilized (excluding PTFE-filter) at 121 °C
- Weight 200 g

**Delivery incl.** 2 sterile round filters, 1 safety valve, power pointcharger and inductive charging station.



| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| pipetus® | **N472.1** | 1 | 428,95 |

## pipetus® standard

By Hirschmann. **Electric pipetting aids** consisting of ergonomically formed handle, double hose and pump with mains cable. Ideal for all standard pipettes 0.1 to 100 ml. For effective working with EX or Blow-out pipettes. Pipetting speed can be preset directly on the pump.
Built-in safety valve prevents overfilling. Integral PTFE-membrane filter 0.2 µm and additional high-capacity filter on pump part.
Hose length 150 cm. Cable length 140 cm.
Connected load 220 V / 50 Hz / 2 W.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| without sterile filter | **1534.1** | 1 | 250,50 |
| with sterile filter | **B010.1** | 1 | 292,40 |

# Cordless pipette fillers

## accu-jet® *pro*

By Brand. **Battery-operated pipette controller**

- For glass and plastic pipettes from 0.1-200 ml
- Ergonomic design, excellently balanced
- Continuously-adjustable control of the pipetting speed
- Robust, powerful pump for fast filling (50 ml in 10 seconds)
- LED lights up when there are approx. two hours of battery-power left
- 8 hours of continuous pipetting with a 10 ml pipette without recharging
- Corrosion protection through active pressure compensation
- Safety valve / membrane filter against liquid penetration
- Select either gravity-delivery or motorized blow-out as liquid delivery mode
- Weight 190 g

Single-handed operation: select gravity-delivery or motorized blow-out, and adjust the motor speed range with one hand. Pipetting buttons for sensitive control of filling and dispensing rates, especially for lower volume pipettes.

**Delivery incl.** nickel-metal hybrid battery (230 V/50 Hz), 2 battery compartment covers, wall support, 2 spare membrane filters 0.2 µm, sterile.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| dark blue | **NA54.1** | 1 | 437,55 |

## RF 3000™ battery operated pipetting aid

**Battery operated.** Pipette holder made of PP, interchangeable PTFE membrane filter prevents contamination. Autoclavable.

- For glass and plastic pipettes between 1 and 100 ml
- Ergonomically shaped housing for fatigue-free working
- UV-resistant housing material
- 2 pipetting speeds (High or Low Speed)
- Gravity mode, for non-motorised fluid drainage
- 20 h continuous duty, can be used while charging is in progress
- LED-based low battery indicator
- User friendly thanks to concave shaped finger pads
- With labelling space on the side
- Five-coloured pipette holder for distinguishing between apparatus
- Additional pipette adapter for low pipetting volumes
- Weight approx. 200 g.

**Delivery incl.** power supply (100-240 V, 50/60 Hz), lithium ion battery, 3 spare membrane filters (PTFE 0.45 µm), 5 pipette holders, silicone-adapter, stand and wall mount.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **TC16.1** | 1 | 263,40 |

## Replacement parts for RF 3000™

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Replacement membrane filter | **AN90.1** | 5 | 32,60 |
| Replacement charger | **TC17.1** | 1 | 63,35 |
| Replacement lithium ion battery | **TC18.1** | 1 | 34,95 |

## Rotilabo®-drawer tray, 9 compartments

Made of **PVC**, with subdivided lengthwise. Ideal for pipettes, thermometers, columns, etc. Outer dimensions: L 355 x W 300 x H 45 mm. Dimensions of the compartments: L 345 x W 27 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **8111.1** | 1 | 50,35 |

## SONOREX PR 140 D/DH ultrasonic pipette cleaner

By Bandelin. Ultrasonic pipette cleaner to gently clean volumetric glass or plastic devices up to a length of 755 mm.

- Short cleaning times
- Timer (1, 2, 3, 4, 5, 10, 15, 30 min or continuous run)
- Particularly robust thanks to the V4A stainless steel tray (1.4571)
- Drop handles for easier transportation
- Ball valve means that it can be emptied quickly and easily
- Model PR 140 DH with optional heating (can be adjusted from 20-80 °C) to increase the cleaning effect, e.g. in the case of grease residue and stubborn soiling

**Technical specifications:**

| Model | PR 140 D | PR 140 DH |
|---|---|---|
| Capacity | Min. 9 to max. 18 l | |
| Inner dimensions (L x W x H) | 150 x 150 x 895 mm (useful depth 850 mm) | |
| Outer dimensions (L x W x H) | 330 x 330 x 1003 mm | |
| Operating frequency | 35 kHz | |
| Peak ultrasonic output | 860 W | |
| HF power | 200 $W_{eff}$ | |
| Heating output | - | 700 W |
| Weight | 19.5 kg | 19.7 kg |
| Power supply | 230 V, alternatively 115 V, 50/60 Hz | |

Number of pipettes to be cleaned in the pipette basket:
9 mm ∅ - approx. 90 pcs; 10.7 mm ∅ - approx. 55 pcs; 14 mm ∅ - approx. 35 pcs; 20.0 mm ∅ - approx. 15 pcs; 29 mm ∅ - approx. 10 pcs.

**Delivery incl.** stainless steel lid and PE pipette basket (inner dimensions: ∅ x H 120 x 275 mm).

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Model PR 140 D | **ECX9.1** * | 1 | 3086,35 |
| Model PR 140 DH | **ECY0.1** * | 1 | 3430,35 |

* Longer delivery times possible. Please check with our Sales Department.

## Rotilabo®-washing system for pipettes

Made of **HDPE**. Washing system for gentle cleaning of pipettes based on pipetting principle. A complete system consists of a washing unit and/or cleaning vessel and a pipette basket.

**All individual components must be ordered separately.**
**Delivery without tube.**

- ① **Washing unit** with draining siphon for automatic water change. Suitable for use with pipette baskets.
- ② **Cleaning vessel** for pre-washing pipettes or brushes with cleaning solution.
- ③ **Pipette baskets** for immersing pipettes in the cleaning vessels or washing units and for transporting the pipettes. Height of basket 300 mm. Optional extension piece is also available which enables the basket (Art. No. Y813.1) length to be extented from 650 to 870 mm.

① **Washing unit**

| For pipette length (mm) | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 600 | 170 x 990 | **Y809.1** | 1 | 160,20 |
| 460 | 170 x 735 | **Y810.1** | 1 | 160,20 |

② **Cleaning vessel**

| For pipette length (mm) | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 600 | 162 x 650 | **Y811.1** | 1 | 73,10 |
| 460 | 162 x 505 | **Y812.1** | 1 | 73,10 |

③ **Pipette basket**

| For pipette length (mm) | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 600 | 145 x 650 | **Y813.1** | 1 | 38,20 |
| 460 | 145 x 500 | **Y814.1** | 1 | 36,25 |

Accessories:

| | | | |

| Extension piece for pipette basket Y813.1 | **Y815.1** | 2 | 15,80 |
| Silicone hose, 10 m | **9581.1** | 1 | 51,75 |

## Rotilabo®-pipette tray

Made of **PVC**. For pipettes from 120 mm in length.
Dimensions: L 300 x W 220 x H 38 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **7220.1** | 1 | 19,25 |

# Pipette accessories

## Pipette cleaning container

Made from **LDPE**. For gentle cleaning of volumetric and graduated pipettes. Versatile, also suitable for storing and wetting pipettes.

① **Cleaning cylinder**
Leakproof pipette cylinder with sturdy wide base.

| For | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Cleaning basket **CXT0.1** | 152 x 460 | **CXP8.1** | 1 | 112,90 |
| Cleaning basket **CXT1.1** | 152 x 610 | **CXP9.1** | 1 | 119,35 |

② **Cleaning basket**
Pipette basket with drainage holes. Inner foam padding prevents damage to pipettes.

| For | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Pipette length 460 mm | 102 x 580 | **CXT0.1** | 1 | 143,00 |
| Pipette length 610 mm | 102 x 810 | **CXT1.1** | 1 | 155,90 |

## ① Pipette stand

Made of **PP**. 16 spaces: For 8 pipettes up to 8 mm ∅ and 8 pipettes up to 16 mm ∅. Small holes in the base allow the liquid to run out.
Dimensions: L 200 x W 75 x H 150 mm. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **HX82.1** | 1 | 12,85 |

## ② Pipette stands with foot

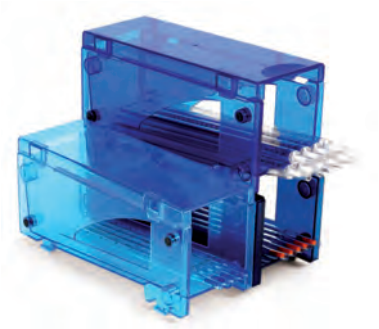
Made of **PP**. 28 spaces: For 18 pipettes up to 10 mm ∅ and 10 pipettes up to 15 mm ∅. Small bore holes in the base allow the liquid do run out.
Top part can also be used separately, please order base with PVC bar separately. The top section of the complete system is height-adjustable.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Stand top part with 28 spaces, ∅ 175 mm | **HX80.1** | 1 | 23,55 |
| Foot with PVC rod, ∅ foot 230 mm | **HX81.1** | 1 | 15,75 |

## Pipette container

Made of aluminium. For the storage of plastic pipettes and glassware between 150 and 480 mm in length, e.g. stirring bars, serological, Pasteur pipettes, volumetric pipettes and graduated pipettes. With silicone inner padding and lid for protection of the stored glass pipettes. Autoclavable.

| Length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 160-200 | **CLN4.1** | 1 | 32,15 |
| 235-305 | **CLN5.1** | 1 | 37,45 |
| 315-385 | **CLN6.1** | 1 | 40,55 |
| 315-485 | **CLN7.1** | 1 | 42,80 |



## Rotilabo®-pipette stand

Made of **PP**. Rotating. With 94 ports of different ∅ for graduated and bulb pipettes on various sizes with a maximum ∅ of 13 mm. With reinforced base and additional turntable disk to protect pipette tips.
Dimensions: H 470 mm, ∅ 230 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **7364.1** | 1 | 50,00 |

▶ For further pipette containers and sterilization containers for pipettes see page 261

## Pipette combi rack

Made of **ABS**. For storage of measuring pipettes and serological pipettes under a laminar flow container or fume hood. Racks can be combined horizontally or vertically. Magnets on both sides for mounting the racks to metal walls. Inclined position of pipettes for safe storage; straight lid can be used as additional storage surface.
Dimensions: L 301 x W 100 x H 127.5 mm.

**Delivery incl.** three pipette racks in matching blue colour tones.

| Art. No. | Pack Qty. (set) | € |
|---|---|---|
| **NA53.1** | 1 | 81,60 |

## Rotilabo®-Pipette racks

Robust pipette rack with 4 levels for holding graduated pipettes from 0.1 to 25 ml. Dimensions: L 291 x W 88 x H 401 mm.

- Available in two designs: Acrylic glass or ABS
- ABS-pipette racks with additional holders on both long sides for manual pipetting aids and pipette fillers

| Design | Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Acrylic glass | colourless | **CX88.1** | 1 | 153,65 |
| ABS | blue | **CX89.1** | 1 | 102,15 |
| ABS | red | **CX90.1** | 1 | 102,15 |

## Rotilabo®-pipette tray

Made of **PVC**, fits most drawers. Divided lengthways into 4 parts.
Dimensions: L 420 x W 300 x H 40 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **7230.1** | 1 | 32,95 |

▶ Further drawer inserts, see page 729

## Stem pipettor Acura® *manual* 810

By Socorex. **Microlitre pipettor for 1:10 dilution**

Air suspension pipettor with two pre-calibrated fixed volumes in one piston stroke enables sequential delivery of 1 and 0.1 ml of same liquid. For more flexibility, the volumes can be used either individually or together for dilution.The metal cone guarantees perfect fit of the long PP stem tips, which is of great advantage when removing samples from narrow vessels, Stomacher® - and other homogenizing bags. The Acura® manual 810 is an ideal alternative to standard graduated pipettors for serial 1:10 dilution in bacteriology.

**Stem tips:** Made of **PP** (inner-∅ 4 mm), **sterile.**

**Protection filters**: For protection against intrusion of liquid and any risk of contamination. The protection filters are easy to change and to remove.

**Properties:**

- Two pre-calibrated fixed volumes - no setting-up required
- Both volumes 1 and 0.1 ml can be calibrated separately from each other
- Simple carrying out of all functions
- Excellent ergonomics, light weight
- The metal shaft enables long stem tips to be used
- Justip™ system for height adjustment of tip ejection
- Simple and faultless ejection of stem tips
- Completely autoclavable at 121 °C
- Replaceable PE protection filter

**Technical specifications:**

The values were obtained with distilled water at a constant (±0.5 °C) room temperature between 20 and 25 °C, acc. to EN ISO 8655.

| Volume (µl) | Inaccuracy (E %) | Non-precision (CV %) |
|---|---|---|
| 100 | <±2.0 | <2.5 |
| 1000 | <±0.5 | <0.4 |

| Volume (µl) | Tip type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 100 + 1000 | Stem tip | **HK00.1** | 1 | 253,70 |

**Accessories:**

| | | | |
|---|---|---|---|
| Stem tips made of PP, L 190 mm, **sterile** | **HK01.2** | 1000 (40 x 25) | 70,95 |
| Protection filters made of PE | **HK02.1** | 100 | 25,30 |
| Pipettor stands for 3 pipettors, light grey | **EP93.1** | 1 | 100,00 |
| Rack pipette holder for 2 pipettes, blue | **TY58.1** | 1 | 19,90 |

# Piston pipettors

## Micro-dispensing pipettors Acura® 865

By Socorex.
Manual dispensing pipettors for serial dosing in the microliter range.

- Three-way valve enables continuous dosing
- Low weight and ergonomic design for fatigue-free working
- Easy to operate function keys
- Gentle piston stroke activation
- Large volume display window
- The valve unit can be rotated
- Liquid can be supplied from hose, syringe or optionally via the bottle
- Simple calibration system
- With customised serial number and test certificate
- Can be autoclaved fully assembled at 121 °C

**Technical specifications:**

| Capacity (µl) | Graduation (µl) | Non accuracy (%) | Non precision (%) |
|---|---|---|---|
| **5-50** | 0.1 | 5 µl <±5.0 | 5 µl <±2.0 |
| | | 50 µl <±1.5 | 50 µl <±0.4 |
| **20-200** | 0.2 | 20 µl <±2.5 | 20 µl <±1.5 |
| | | 200 µl <±1.0 | 200 µl <±0.3 |
| **100-1000** | 1 | 100 µl <±1.5 | 100 µl <±0.6 |
| | | 1000 µl <±0.6 | 1000 µl <±0.2 |

**Delivery incl.** silicone hose, single-channel dosing cannula made of stainless steel, valve cap for drawing-off liquid from a disposable syringe.

| Volume (µl) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 5-50 | **EP88.1** | 1 | 396,70 |
| 20-200 | **EP89.1** | 1 | 363,35 |
| 100-1000 | **EP90.1** | 1 | 339,70 |

## Accessories for micro dispensing pipettors Acura® 865

**Ideal for sucking up liquid from bottle:**

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Bottle with Luer-adapter, made of PP, 30 ml | **EP91.1** | 1 | 46,20 |

**Further accessories:**

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 8-channel cannulas made of stainless steel with Luer-lock adapter | **EP92.1** | 1 | 151,60 |
| Pipettor stands for 3 pipettors, light grey | **EP93.1** | 1 | 100,00 |
| Rack pipette holder for 2 pipettes, blue | **TY58.1** | 1 | 19,90 |

## Dispensertips

Classic dispensertips, suitable for Ripette®, Ripette® pro, HandyStep®, Distriman®, Multipette® 4780 and other compatible dosing systems. Comply with DIN EN ISO 8655. Sterile models are DNA/RNase/ATP free.

**Technical specifications:**

| Control wheel | 1 | 2 | 3 | 4 | 5 | | |
|---|---|---|---|---|---|---|---|
| Increments | 48 | 23 | 15 | 11 | 8 | | |
| **Tips (ml)** | Capacity (µl) | | | | | Non accuracy | Non precision |

## Ripette®

Adjustable piston pipettor for serial pipetting in the voume range from 1 µl to 5 ml without refilling, with up to 48 dispensing settings.
Tested to DIN EN ISO 8655, with Certificate of Conformity.
Easy to operate setting device cuts down on fatigue during long-term use.
Light, robust construction, ergonomic design.

## Ripette® pro

Manual series dispenser with sight glass for easy tip selection and setting the dispensing volume.

- Stroke setting wheel with 10 positions
- 10 program numbers and 12 tip sizes give you a choice of 120 different setting options
- Straightforward display of stroke setting and dispensing volume in sight glass
- Anatomical design, easy-action dispensing button, low weight
- Good chemical resistance
- Suitable for Dispenser tips, Ritips® professional, PD-Tips from Brand, Combitips®, Combitips® plus
- Includes a certificate of quality
- Conformity certified, with serial number

# Piston pipettors

## HandyStep® S

By Brand. Manual multi-dispenser for fast, repetitive dispensing of liquids. The PD-Tips allow volumes of between 2 µl and 5 ml to be dispensed in up to 49 steps with a single filling. HandyStep® S and PD-Tips work on the positive displacement principle. High viscosity, high density and high vapour pressure liquids can be dispensed with extremely high precision. Direct displacement allows contamination-free operation since no aerosols are formed.

**Properties:**
- Ergonomic design
- Stroke length setting wheel with 9 positions
- Easy tip attachment - the PD-Tips are inserted straight from below
- Safe tip removal at the touch of a button - no need to touch the dispenser tips
- Easy-to-read display, no battery required
- Innovative plastics provide increased resistance to chemicals
- For use with PD-Tips, Combitips®, Combitips® plus, Ritips®, Repet Tips, Encode™ Tips and other compatible tips
- Working temperature range: 15 to 40 °C
- Maintenance free, factory calibrated
- Includes a certificate of quality
- DE-M approved

**Technical specifications:**
(accuracy table for HandyStep® S when used in combination with PD-Tips)

| PD tip size | Volume range (µl) | Accuracy≤± % stroke adjustment = % of nominal capacity | | Variation coefficient ≤± % stroke adjustment =% of nominal capacity | |
|---|---|---|---|---|---|
| | | 10 % | 2 % | 10 % | 2 % |
| 0.1 ml | 2-10 | 1.6 | 8.0 | 2.0 | 5.0 |
| 0.5 ml | 10-50 | 0.8 | 4.0 | 0.6 | 1.4 |
| 1.0 ml | 20-100 | 0.8 | 4.0 | 0.4 | 1.0 |
| 1.25 ml | 25-125 | 0.8 | 4.0 | 0.3 | 0.8 |
| 2.5 ml | 50-250 | 0.7 | 3.5 | 0.2 | 0.8 |
| 5.0 ml | 100-500 | 0.5 | 2.5 | 0.2 | 0.6 |
| 10.0 ml | 200-1000 | 0.4 | 1.5 | 0.2 | 0.5 |
| 12.5 ml | 250-1250 | 0.3 | 1.5 | 0.2 | 0.4 |
| 25 ml | 500-2500 | 0.3 | 1.5 | 0.2 | 0.4 |
| 50 ml | 1000-5000 | 0.3 | 1.5 | 0.15 | 0.4 |

Limits of error referred to the dispensing volume set according to PD-tip size with the instrument, tip, environment and distilled water at a constant temperature of 20 °C and under smooth and steady operation. This test is performed in accordance with DIN EN ISO 8655-5. The nominal capacity ist the maximum volume printed on the PD-tip.

**Delivery incl.** shelf/rack mount and 3 PD tips: 0.1, 1 and 10 ml.

## HandyStep® electronic

By Brand. Microprocessor-controlled, storage battery operated hand-held dispenser. Ergonomic design enables fatigue-proof serial dosing.

**Three functions:**
- Dispensing
- Automatic dispensing (the unit calculates the temporal mean value between three dispensing stages and automatically continues working at the same rhythm)
- Pipetting

**Properties:**
- Variable volume adjustment between 1 µl and 50 ml
- Automatic size recognition of PD-Tips from Brand with type coding
- One-hand operation
- Can be used with almost all other standard dispenser tips
- With Certificate of Quality
- DE-M approved

**Technical data:**
(table of accuracy for HandyStep® electronic in combination with PD-tips).

| PD-tip size | Volume range | Sub-divisions | Nominal volume (Accuracy ≤±%) | | Nominal volume (Variation coefficient ≤%) | |

## PD-Tips

By Brand. Precision dispenser tips with patented type coding, **PP** cylinder, **HDPE** piston (0.1 ml made of LCP). Suitable for various compatible metering systems, e.g. HandyStep® electronic, Gilson® Repetman®, Rainin AutoRep™ E (with automatic size recognition); HandyStep®, Rainin AutoRep™ M, Eppendorf® Multipette® 4780 and EDOS® 5221 (without automatic size recognition). In conformity with ISO 8655, with batch certificate.

CE marked in accordance with IVD directive 98/79 EC.

## Stepper™ 411

By Socorex. For precise serial pipetting.

- 4-finger activation function eliminates thumb fatigue
- Stop mechanism: Self-locking mechanism prevents false delivery
- Dose range: 53 volumes from 10 to 5000 µl
- Only 3 different tip sizes, colour-coded
- Up to 73 doses per filling
- Enables fast work rates, up to 2 doses per second
- Individually calibrated with test certificate

An separate adjustable head of matching colour is available for each tip size; it displays the dosing volume and number for a filled tip.

| Art. No. | Pack Qty. | € |

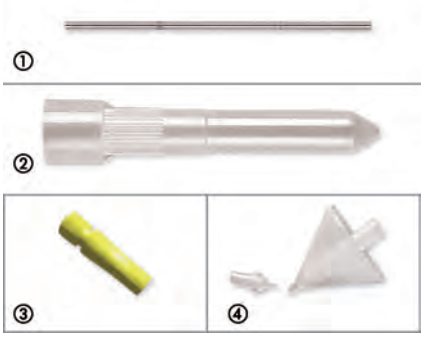
# Positive displacement pipettors

## Piston pipettors, digital Transferpettor

By Brand. **Positive displacement pipettors for difficult media**

For foaming media (e.g. tenside solutions), high-vapor-pressure media (e.g. alcohols, ether, hydrocarbons), viscous media and high-density media (e.g. concentrated protein solutions, oils, resins, fats, glycerine, mercury, sulphuric acid).

Unlike air displacement pipettes, the Transferpettor piston is in direct contact with the aspirated liquid to be expelled. This principle always provides precise, reproducible results, regardless of the pipetting speed and the ambient conditions. Capillaries and tips can be reused, since the minimal residual wetting is negligible for most applications. Where carry-over is not permitted, such as with infectious or radioactive media, an air displacement pipette with disposable tips should be used.



**Range of application:**
- Media with densities up to 13.6 g/cm$^3$
- Viscosity up to 140 000 mm$^2$/s (depending on size of apparatus)
- Vapour pressure up to 500 mbar
- Working temperature range 15 to 40 °C

DE-M approved, with Certificate of Quality.

**Technical specifications:**

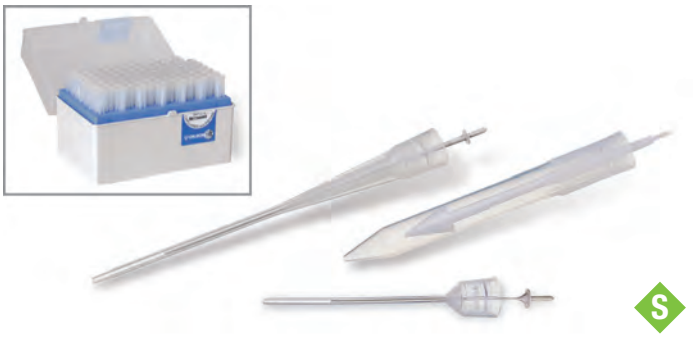
# Positive displacement pipettors

## Positive displacement pipettes MICROMAN® E

By Gilson. Positive displacement system without air cushion between sample and piston prevents contamination as well as aerosol formation and produces precise and reproducible pipetting results. Caps fit straight out of the box, pistons and capillaries lock into place automatically ("QuickSnap System").

**For difficult-to-process media, e.g.:**
- Viscous media, e.g. oils, glycerol, gel loading buffer
- Media with a high vapour pressure (acetone, hexane or other solvents)
- Sterile media
- PCR/qPCR preparations
- Radioactive media
- Cold/warm solutions



**Advantages:**
- QuickSnap system for easy handling
- Volume lock for safe pipetting
- Ergonomically designed and comfortable handle
- Lightweight and narrow CP tips for narrow vessels

Conformity certified to DIN EN ISO 8655 with inspection certificate.
CE/IVD approved.

| Silicone fat for 5 ml/10 ml pipettors | **TA33.1** | 1 | 16,10 |

## Rotilabo®-microlitre pipettors

Robust quality pipettors with variable volume for routine work and demanding applications.

- Ergonomic finger rest for comfortable handling and one-handed operation
- Separate tip eject button
- Central, large pipettor button for smooth piston movement
- Separate volume adjustment, for left and right handed users
- Easy-to-read display
- Integrated calibration function for easy adjustment without tools
- Corrosion-resistant piston and ejector
- Slim shaft
- DE-M approved, with certificate of quality
- CE-IVD-approved
- Completely autoclavable at 121 °C (2 bar) according to DIN EN 285
- A filter for protection of the pipettors is optional with volumes of 5 ml and higher, please order separately

**Technical specifications:**

| **Volume (µl)** | Accuracy* (%) | Variation coefficient* (%) |
|---|---|---|
| **0.5-10** | 10 µl <±1.0 | 10 µl≤0.5 |
| **2-20** | 20 µl <±0.8 | 20 µl≤0.4 |

| **500-5000** | 5000 µl <±0.6 | 5000 µl≤ 0.2 |
| **1000-10 000** | 10 000 µl <±0.6 | 10 000 µl≤ 0.2 |

* Calibrated to deliver ‚Ex'. Error limits are based on the nominal capacity (= maximum volume) indicated on the instrument, obtained with instrument and distilled water at equilibrium with ambient temperature at 20 °C, during smooth, steady operation. The error limits are within the limits of DIN EN ISO 8655-2. A = Accuracy, CV = Coefficient of variation.

# Microlitre pipettors, BRAND

## Microlitre pipettors Transferpette® electronic

By BRAND. Microprocessor-controlled piston pipettors.

- Ergonomic control for easy operation
- Height-adjustable finger rest for optimal position of hand to operating keys
- 5 Functions: Pipetting, mixing, reverse pipetting, dispensing, gel-electrophoresis mode
- High pipetting speed
- 8-hour continuous pipetting possible
- Ready for use during charging cycle
- Referesh mode for increasing battery life
- Slim pipette shaft enables pipetting in narrow tubes
- Easy Calibration Function - Adjusting without tools, in accordance with ISO 9001 and GLP/GMP
- Pipettor shaft is completely autoclavable
- DE-M approved
- With Certificate of Quality
- CE/IVD-compliant

# Microlitre pipettors, BRAND

## Microlitre pipettes Transferpette® S

By BRAND. Manual positive displacement pipettes for demanding applications.

- Anatomically shaped finger hook for comfortable handling
- Central pipetting button and separate ejection function
- One-handed operation for both left and right handers
- Corrosion-resistant piston and ejector
- Fully autoclavable at 121 °C (2 bar), acc. to DIN EN 285
- DE-M approved
- CE mark (IVD)
- Volume change protection
- Multichannel pipettes with freely rotatable pipetting unit (360°)

**Transferpette® S, variable:**
- 4-digit volume display for maximum precision, always clearly visible
- Featuring Easy Calibration technology for readjustment without special tools

# Microlitre pipettors, Gilson

## Pipetman® Neo

By Gilson. Infinitely adjustable air cushion pipettor.
Robust, durable, precise and easy to maintain.

- Grease-free sealing system
- Clip tip ejector made of metal for easy dismantling and secure grip
- Multichannel pipettes with patented piston stroke mechanism which eliminates differences in volume between individual channels
- With Certificate of Conformity in accordance with DIN EN ISO 8655 with Test Protocol
- CE-mark in accordance with IVD

# Microlitre pipettors, Gilson

## Pipetman® G

By Gilson. Variable air-displacement pipette offering one of the lowest pipetting forces on the market. Equipped with a clip ejector made of metal for an easy tip removal. These pipette models are noted for their robustness, accuracy, ease of maintenance and long life.

- Easy dismantling and maintenance
- Despite the low pipetting force, the initial pressure point is easy to feel during pipetting
- P5000G and P10 ml G pipettes come with a protective filter which protects the piston and prevents contamination
- Conformity certified to DIN EN ISO 8655 with inspection certificate
- CE mark to IVD

## Pipetman® L

By Gilson. Lightweight and safe yet robust quality pipette.
**Pipette with greatly reduced pipetting forces** - increases throughput without compromising on comfort.

- Patented Lock/Unlock System for safe pipetting
- The set volume is locked during the first pipetting operation
- Easy release of the volume adjustment lock
- Ergonomic handle
- Adjustable tip ejector for left- and right-handed users
- Plastic tip ejector
- 2D identification code
- Completely autoclavable

# Microlitre pipettors, Socorex

## Micro/macrolitre pipettors Calibra® *digital*

By Socorex. A reliable pipette line noted for its mechanical precision, ergonomics and user friendliness. The setting ring (step gauge) minimises the risk of maladjustment during pipetting and keeps adjustment work to a minimum.

- Super-fast volume adjustment
- Fully autoclavable
- Separate tip ejector
- Narrow shaft, light weight and soft piston action for optimal ease of use
- Attractive colour coding caps for differentiation between the various pipettes
- Resistant to shock, heat, chemicals and UV light
- Each pipette is individually calibrated and delivered with an inspection certificate

**Multichannel pipettors:**
- Turns on the handpiece by 360° and can be adjusted as desired

# Microlitre pipettors, Socorex

121°C

## Micro-/macrolitre pipettors Acura®

By Socorex. Acura® the manual range of pipettors excels for its speedy and reliable volume setting. It possesses all the features typical for the new generation of instruments and offers extremely high pipetting comfort.

- Completely autoclavable
- Lightweight
- Extremely gentle piston activation
- Separate, large tip ejector button
- Easy tip ejection
- Slim pipettor shaft
- All function buttons are easy to operate
- Justip™-tip adjustment-system enables exact adjustment of shaft height
- Innovative and rapid calibration system with integral spanners
- Original serial number and control certificate

**Multichannel pipettors:**
- Housing can be rotated by 360° for optimal working comfort
- Step-by-step tip ejection

# Microlitre pipettors, Sartorius

## Air cushion-piston pipettors mLINE®, variable

By Sartorius. mLINE®-one-channel pipettors require very little force for pipetting or tip ejection and are characterized by their extremely low weight.

- Completely autoclavable once the Safe-Cone-filter has been removed.
- Ergonomic design enables fatigue-free operation
- Thermo-insulation of inner components improves accuracy
- Easy-to-read display
- Opti-load tip loading mechanism for simple tip ejection
- The start knob makes automatic Safe-Cone filter ejection possible
- Ergonomically designed bow-shaped finger rest with ID-window for individual marking
- Five different coloured knob covers for colour coding
- Certificate of conformity, with test protocol
- Safe-Cone filter prevents contamination of pipettor and sample material (suitable for pipettes from 10 µl on). Please order separately.

# Microlitre pipettors, Sartorius

## Microlitre pipettors eLINE® electronic

By Sartorius. Electronic microlitre pipettors.

- Twice as fast as mechanical pipettors
- Covers the volume range of two mechanical pipettors
- Reduced effort when pipetting
- Electronically-controlled tip ejection, tip ejection button for both right and left-hand users
- Improved pipetting reproducibility, for user-independent result
- Ergonomic design
- Optiload tip loading mechanism
- Rotatable dispensing head
- Typical applications: PCR, ELISA
- Pipetting still possible while loading
- Multi-channel models with Optiload tip-loading mechanism and rotatable dispensing head
- Articles LP85.1 and LP89.1 with autoclavable dispening head

**Functions:**
- Pipetting, reverse pipetting
- Pipetting with mixing / cycle counter
- Dispensing: Multiple dispensing, sequential dispensing
- Diluting, diluting with mixing, multi-aspiratung
- 6 memory settings
- 9 speeds for suction and dispensing
- Single point calibration

**Technical specifications microlitre pipettors 1-channel:**

## Safe-Cone-Filters

For Sartorius-pipettes from 10 µl. The replaceable filters serve as a barrier against liquid permeation and harmful vapours and therefore also protect the pipettor interior, e.g. against radioactive, biologically dangerous or corrosive samples. They also protect against cross-contamination.
The safe-cone-filters should be replaced at regular intervals (after 50-250 pipetting actions) or immediately in the event of overpipetting.
**Two models available:**
**Safe-Cone-Filter Plus** for highly demanding applications such as cell culture, bacteriological and virological work and in microbiology.
**Safe-Cone-Filter Standard** for normal applications to prevent against contamination of the pipettor and the sample material.

# Microlitre pipettors, Sartorius

121°C

## Microlitre pipettors Proline® Plus, variable

By Sartorius. Suitable for all types of routine laboratory applications.
Ergonomic design allows fatigue-free operations and minimizes work effort.

- Fully autoclavable when Safe-Cone filters are removed
- Robust, yet light and easy to use
- Volume setting by click stops, easy-to-read display
- Thermal insulation of inside components for improved accuracy
- Highly resistant to chemicals and UV light
- Multichannel pipettes with Optiload tip loading mechanism
- Compatible with numerous tips
- Long shaft for narrow laboratory tubes
- Easy to clean; no tools required for disassembling
- With calibrating tools for easy self-calibration
- Suitable for both left-handed and right-handed users
- Replaceable Safe-Cone filter to prevent contamination of pipette and sample (for pipettes from 10 µl). Please order separately.
- High-level accuracy and precision according to ISO 8655
- CE/IVD marking
- Individual Certificate of Quality

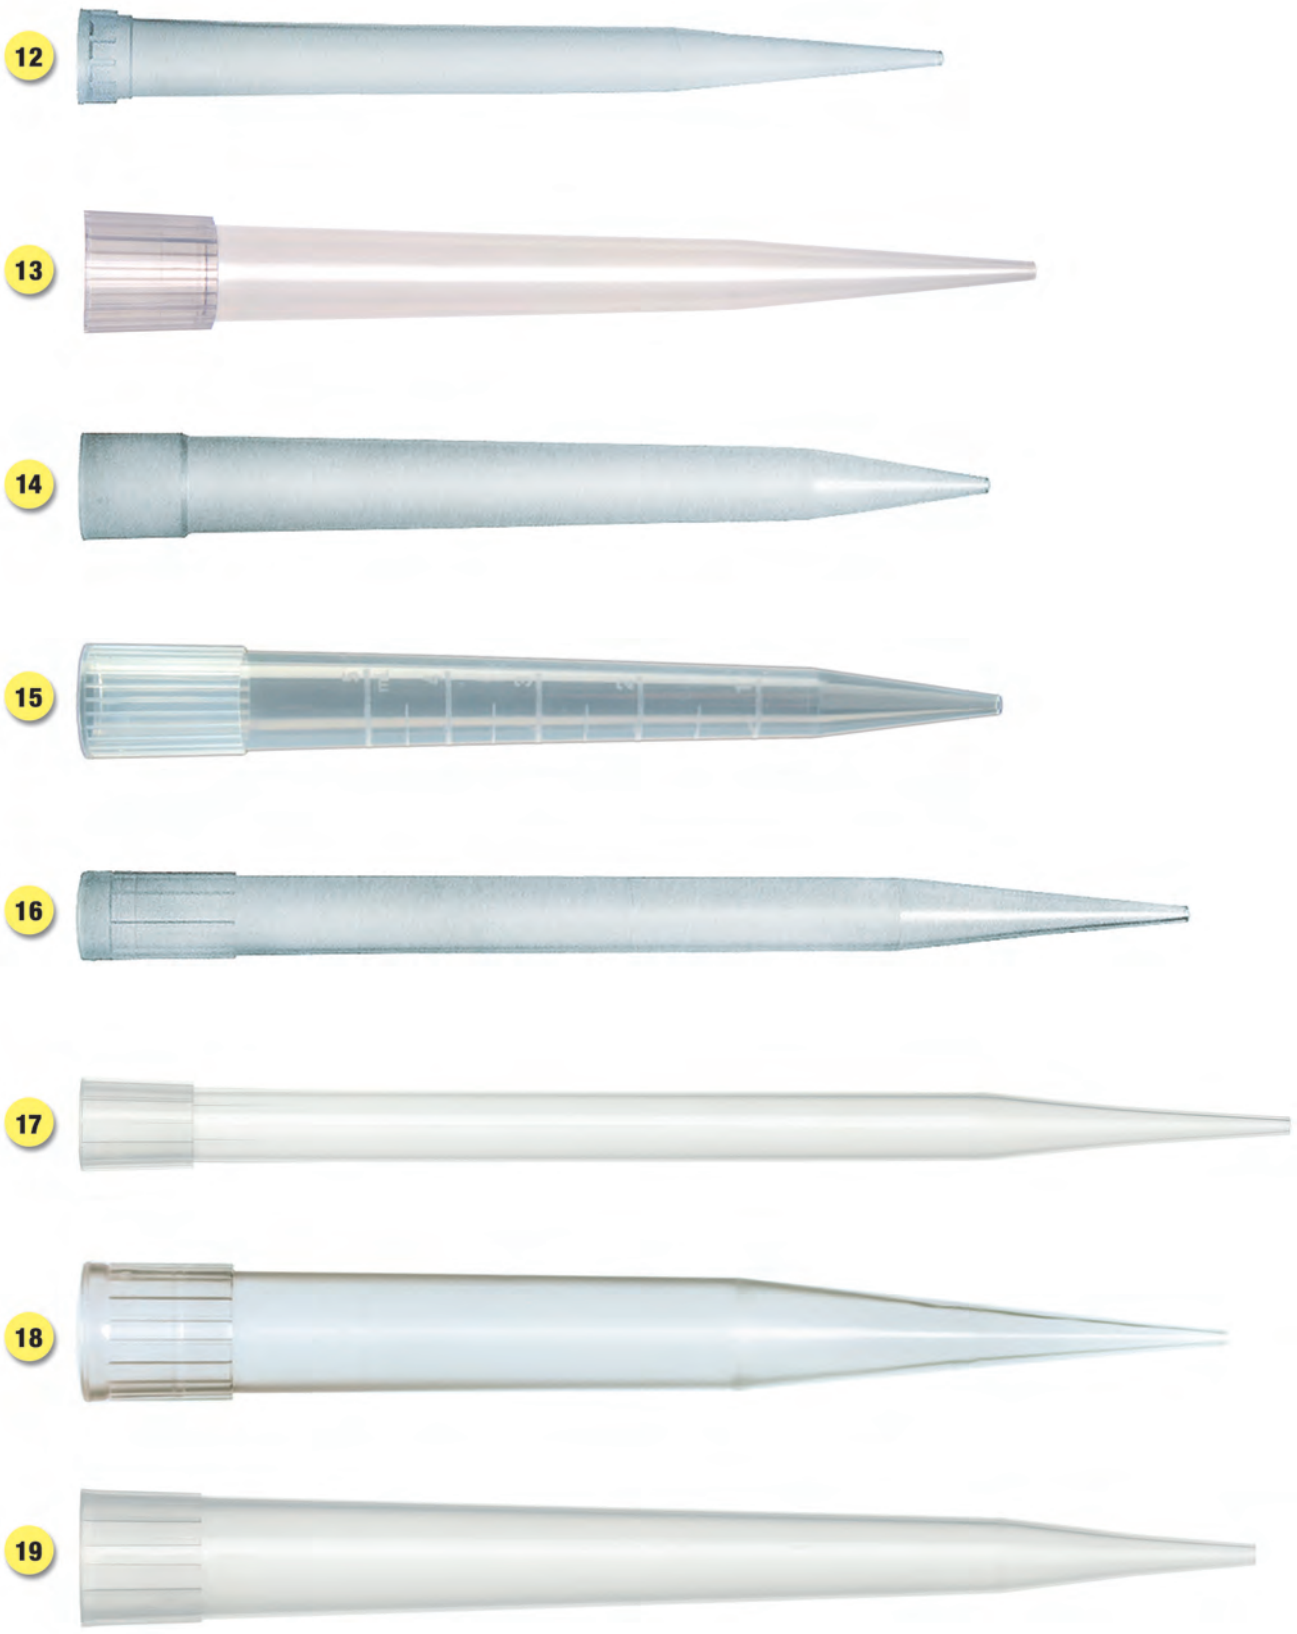
| 100-1200 | bulk-packed (bag), unsterile | **2679.1** | 1000 | 12,85 |
| 100-1200 | in MultiTray-insert unsterile | **KE24.1** | 16 x 60 | 45,15 |
| 100-1200 | in hinged lid rack, unsterile | **CLE3.1** | 10 x 60 | 31,15 |

## 11 Standard 50-1200 µl

Colourless. Suitable for Sartorius eLINE® LP85.1 and LP89.1. Autoclavable.



| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 50-1200 | bulk-packed (bag), unsterile | **LT33.2** | 480 | 23,20 |
| 50-1200 | in hinged lid rack, unsterile | **LT34.1** | 10 x 96 | 81,00 |

The pipette tip fitting tables for all microlitre pipettor models can be found on pages 432-446.

Fitting information is provided as general recommendations. It is recommended that a check be made by the user.
Pipette tip samples are available on request.

## Pipettor tips, standard

Made of PP. Autoclavable.

121°C

## 12 Standard MAKRO 0.1-2 ml

Colourless. Length 115 mm. Suitable for Eppendorf, Socorex. Autoclavable.

| Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,1-2 | bulk-packed (bag), unsterile | **K315.1** | 250 | 47,20 |

## 13 Standard MAKRO 1-5 ml

Colourless. Length 134 mm. Suitable for Sartorius, Socorex, Labmate and Roth. Autoclavable.

| Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-5 | bulk-packed (bag), unsterile | **CX70.1** | 300 | 31,15 |
| 1-5 | in rack, unsterile | **XP91.1** | 1 x 50 | 24,95 |

## 14 Standard MAKRO 1-5 ml

Colourless. Length 120 mm. Suitable for Starlab, Gilson, Oxford. Autoclavable.

| Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-5 | bulk-packed (bag), unsterile | **5846.1** | 250 | 22,40 |
| 1-5 | in rack, unsterile | **XP92.1** | 1 x 50 | 24,95 |

## 15 Standard MAKRO 1-5 ml

Colourless. Graduated. Suitable for Eppendorf, Sartorius, Socorex. Autoclavable.

| Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-5 | bulk-packed (bag), unsterile | **AT51.1** | 2 x 250 | 91,40 |
| 1-5 | in rack, unsterile | **AT52.1** | 2 x 50 | 70,95 |

## 16 Standard MAKRO 1-5 ml

Colourless. Length 148 mm. Suitable for Finnpipette® and Brand. Autoclavable.

| Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-5 | bulk-packed (box), unsterile | **6946.1** | 75 | 13,95 |
| 1-5 | bulk-packed (bag), unsterile | **6946.2** | 500 | 51,10 |
| 1-5 | in rack, unsterile | **XP93.1** | 1 x 50 | 24,95 |

## 17 Standard 0.5-5 ml

Transparent. Length 160 mm. Suitable for Roth, Brand. CE-Identification (IVD). Autoclavable.

| Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5-5 | bulk-packed (bag), unsterile | **HL73.1** | 200 | 24,30 |
| 0,5-5 | in TipBox for 5 ml tips, unsterile | **HL74.1** | 1 x 28 | 40,75 |

## 18 Standard MAKRO 1-10 ml

Colourless. Length 150 mm. Suitable for Socorex and Finnpipette®. Autoclavable.

| Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-10 | bulk-packed (bag), unsterile | **E736.1** | 100 | 37,55 |
| 1-10 | in hinged lid rack, unsterile | **PC77.1** | 1 x 24 | 27,85 |

## 19 Standard MAKRO 1-10 ml

Transparent. Length 156.5 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Sartorius. CE-Identification (IVD). Autoclavable.

| Volume (ml) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-10 | bulk-packed (bag), unsterile | **HL75.1** | 100 | 22,05 |
| 1-10 | in TipBox for 10 ml tips, unsterile | **HL76.1** | 1 x 18 | 52,50 |

## Pipette tip coding

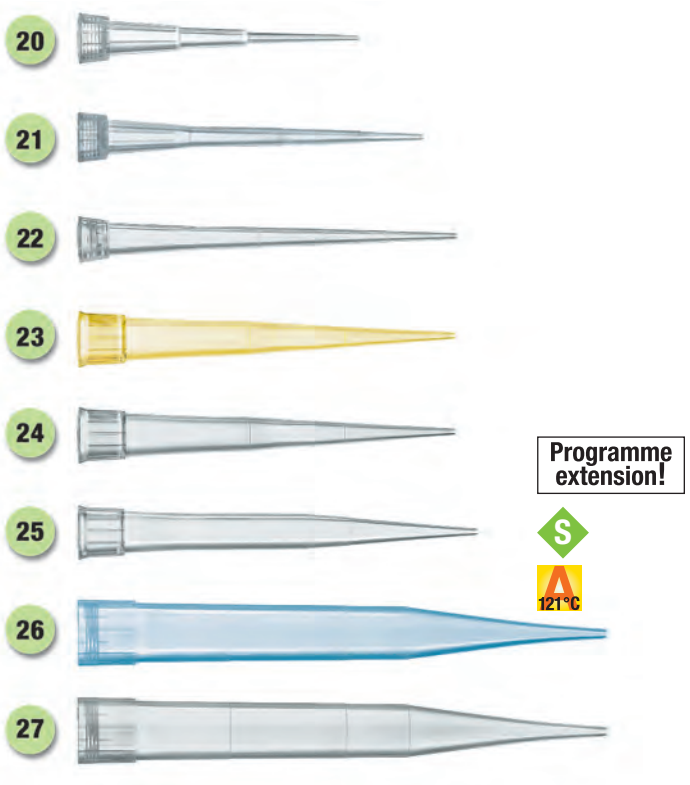
▶ To find appropriate tips for each pipettor and appropriate pipettors for every tip - refer to the fitting table on page 432

## TipBox 5 ml / 10 ml



By Brand.

- Made of **PP**
- Unsterile
- Round with lid
- For 5 ml or 10 ml pipettor tips
- Filled with pipettor tips (HL74.1 (17), HL76.1 (19))
- Autoclavable

| Art. No. | Pack Qty. | € |
|---|---|---|
| **HL74.1** | 1 x 28 | 40,75 |
| **HL76.1** | 1 x 18 | 52,50 |

# Pipette tips, Brand

- **Sterile** or unsterile
- Produced in a cleanroom environment, automatically palletised and packaged
- High-quality polypropylene types, free of DiHEMDA and Oleamid
- Produced without plasticizer, cadmium-free colour pigments
- Graduated for quick volume identification
- **Palletised tips and filter tips free of DNA, RNases, endotoxins and ATP**
- **Sterile tips incl. BIO-CERT® grade packaging: sterile** in accordance with ISO 11 137 and AAMI guidelines, an SAL of $10^{-6}$ is guaranteed, with certificate
- Autoclavable at 121 °C (2 bar), according to DIN EN 285
- CE marked in accordance with IVD directive 98/79 EC

## 20 pipette tips Brand 0.1-20 µl

By Brand. Colourless. Length 37 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. Specially designed for nanoscale applications. CE mark (IVD). Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,1-20 | Standard | loose in bag, unsterile | **AL17.1** | 1000 | 35,45 |
| 0,1-20 | Standard | palletised, unsterile | **ALT4.1** | 10 x 96 | 59,70 |
| 0,1-20 | Standard | in TipBox, unsterile | **HL65.1** | 5 x 96 | 47,20 |
| 0,1-20 | Standard | in TipBox, **sterile** | **ALT5.1** | 10 x 96 | 107,00 |
| 0,1-20 | Ultra Low Retention | in TipBox, unsterile | **ALT6.1** | 5 x 96 | 62,25 |
| 0,1-20 | Ultra Low Retention | in TipBox, **sterile** | **ALT7.1** | 10 x 96 | 119,35 |

## 21 Brand pipette tips 0.5-20 µl

By Brand. Colourless. Length 46 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,5-20 | Standard | loose in bag, non-sterile | **HKA4.1** | 1000 | 32,25 |
| 0,5-20 | Standard | palletised, non-sterile | **HKA5.1** | 10 x 96 | 50,15 |
| 0,5-20 | Standard | in TipBox, non-sterile | **HKA6.1** | 5 x 96 | 44,95 |

## 22 pipette tips Brand 1-50 µl

By Brand. Colourless. Length 50 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. 2.5 µl, 10, 25 and 50 µl graduations for quick volume identification. CE mark (IVD). Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1-50 | Standard | loose in bag, unsterile | **ALT8.1** | 1000 | 19,05 |
| 1-50 | Standard | palletised, unsterile | **ALT9.1** | 10 x 96 | 55,40 |
| 1-50 | Standard | in TipBox, unsterile | **ALX0.1** | 5 x 96 | 48,50 |
| 1-50 | Standard | in TipBox, **sterile** | **ALX1.1** | 10 x 96 | 104,85 |
| 1-50 | Ultra Low Retention | in TipBox, unsterile | **ALX2.1** | 5 x 96 | 56,95 |
| 1-50 | Ultra Low Retention | in TipBox, **sterile** | **ALX3.1** | 10 x 96 | 123,10 |

## 23 pipette tips Brand 2-200 µl

By Brand. Yellow. Length 50 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. 20 µl and 100 µl graduations for quick volume identification. CE mark (IVD). Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2-200 | Standard | loose in bag, unsterile | **HL67.1** | 1000 | 19,30 |

## 24 pipette tips Brand 2-200 µl

By Brand. Colourless. Length 50 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. 20 µl and 100 µl graduations for quick volume identification. CE mark (IVD). Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 2-200 | Standard | palletised, unsterile | **ALX4.1** | 10 x 96 | 51,55 |
| 2-200 | Standard | in TipBox, unsterile | **HL68.1** | 5 x 96 | 41,90 |
| 2-200 | Standard | in TipBox, **sterile** | **ALX5.1** | 10 x 96 | 97,85 |
| 2-200 | Ultra Low Retention | in TipBox, unsterile | **ALX6.1** | 5 x 96 | 54,80 |
| 2-200 | Ultra Low Retention | in TipBox, **sterile** | **ALX7.1** | 10 x 96 | 112,90 |

## 25 pipette tips Brand 5-300 µl

By Brand. Colourless. Length 53 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. 50 µl, 100 µl and 300 µl graduations for quick volume identification. Thin-walled tip, suitable for reverse pipetting. Ideal for working with multichannel pipettes. CE mark (IVD). Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 5-300 | Standard | loose in bag, unsterile | **ALX8.1** | 1000 | 23,25 |
| 5-300 | Standard | palletised, unsterile | **ALX9.1** | 10 x 96 | 51,55 |
| 5-300 | Standard | in TipBox, unsterile | **ALY0.1** | 5 x 96 | 46,70 |
| 5-300 | Standard | in TipBox, **sterile** | **ALY1.1** | 10 x 96 | 96,65 |
| 5-300 | Ultra Low Retention | in TipBox, unsterile | **ALY2.1** | 5 x 96 | 54,80 |
| 5-300 | Ultra Low Retention | in TipBox, **sterile** | **ALY3.1** | 10 x 96 | 112,90 |

## 26 pipette tips Brand 50-1000 µl

By Brand. Blue. Length 70 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. 250 µl, 500 µl and 1000 µl graduations for quick volume identification. CE mark (IVD). Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50-1000 | Standard | loose in bag, unsterile | **HL70.1** | 2 x 500 | 23,15 |
| 50-1000 | Standard | loose in bag, unsterile | **HL70.2** | 10 x 500 | 92,90 |

## 27 pipette tips Brand 50-1000 µl

By Brand. Colourless. Length 70 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. 250 µl, 500 µl and 1000 µl graduations for quick volume identification. CE mark (IVD). Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50-1000 | Standard | palletised, unsterile | **ALY4.1** | 10 x 96 | 52,60 |
| 50-1000 | Standard | in TipBox, unsterile | **HL71.1** | 5 x 96 | 42,80 |
| 50-1000 | Standard | in TipBox, **sterile** | **ALY5.1** | 10 x 96 | 108,60 |
| 50-1000 | Ultra Low Retention | in TipBox, unsterile | **ALY6.1** | 5 x 96 | 56,35 |
| 50-1000 | Ultra Low Retention | in TipBox, **sterile** | **ALY7.1** | 10 x 96 | 126,85 |

## Ultra Low Retention pipette tips

The surfaces of the Ultra Low Retention tips by Brand are produced through a special, patented physicochemical process. The homogeneous, defect-free surfaces thus produced have extremely low surface tension - over 50 % less than PTFE. This significantly reduces sample loss and provides substantially higher reproducibility when working with critical medias.

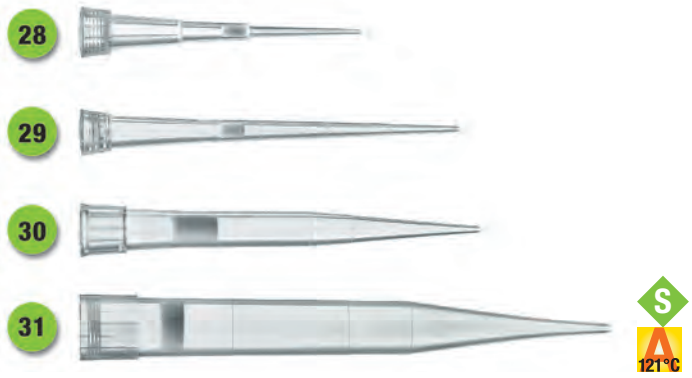
- Ideal for biological samples that contain detergents such as Triton® X-100, SDS, Tween etc.
- No additives that can be leached out! No siliconisation of the surface!
- High chemical resistance. Ideal for working with solvents
- Autoclaved at 121 °C (2 bar) without any detrimental effect on material properties

## Palletised pipette tips TipRacks

By Brand.
- Palletised pipette tips in refill units (TipRacks)
- Produces less waste than filled TipBoxes
- Tips and filter tips up to 1000 µl, free from DNA, RNase, endotoxins and ATP
- **Delivery incl.** transfer aid for easy transfer in TipBoxes

121°C

## TipBox



By Brand.
- Made of **PP**
- With flap-/slip lid
- Stackable
- Available in two different heights
- Low form for 96 tips max. 300 µl (HL65.1 (2), HL68.1 (9))
- Tall form for 100 tips max. 1000 µl or 1250 µl (HL71.1 (15))
- Filled with pipettor tips
- Autoclavable

## Filter tips

Non-self sealing filter tips by Brand have a PE filter that is free from chemical additives. The combination of pore diameter and filter length prevents the passage of aerosols to the tip shaft. The filter reliably serves this function. On the other hand, a liquid can pass very slowly should it accidentally come into contact with the filter. Since the filter does not swell, the sample can be recovered from the filter by simply actuating the pipette's blow-out function, or by centrifugation if necessary. This is a major advantage when working with valuable samples. An added advantage is that the sample is protected from contamination as the filter contains no additives!

# Filter tips, Brand

## 28 filter tips Brand 0.1-1 µl

By Brand. Colourless. With PE filter. Length 37 mm. Suitable for Roth, Brand, Eppendorf, Gilson, Finnpipette®, Sartorius. Specially designed for nanoscale applications. CE mark (IVD). Autoclavable.

| Vol. (µl) | Design | Packaging | Art. No. | Pack Qty. | € |

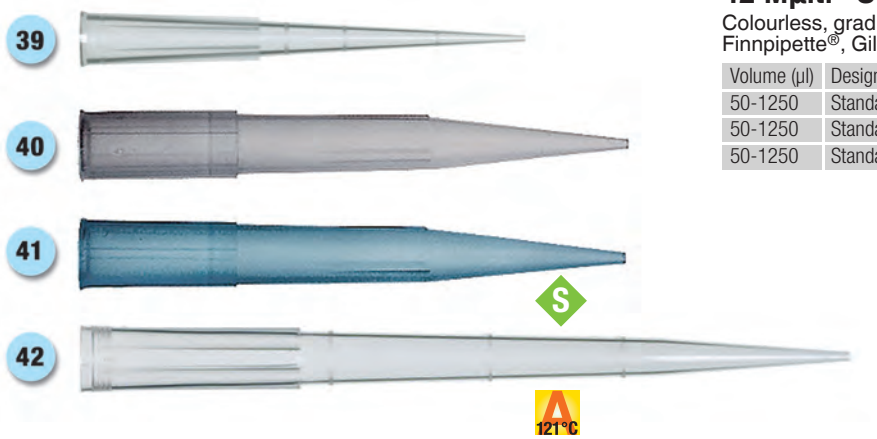
| 1-200 | Standard | bulk-packed (bag), unsterile | **8156.1** | 1000 | 15,30 |
| 1-200 | Standard | Racks, unsterile | **8157.1** | 10 x 96 | 45,10 |
| 1-200 | Standard | Racks, **sterile** | **8159.1** | 10 x 96 | 49,85 |

## 38 MµltiPette® UNIVERSAL 1-200 µl

Yellow, graduated. Suitable for Brand, Eppendorf, Gilson, Finnpipette®, Oxford, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1-200 | Standard | bulk-packed (bag), unsterile | **E707.1** | 1000 | 24,95 |
| 1-200 | Standard | Racks, unsterile | **NL55.1** | 10 x 96 | 44,55 |
| 1-200 | Standard | Racks, **sterile** | **NL56.1** | 10 x 96 | 50,40 |



## MµltiPette®-Racks

By Sorenson.
- With slip lid
- Stackable
- Empty
- Autoclavable

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T688.1** | 10 | 32,50 |

# Pipettor tips, Sorenson MµltiPrecision

- **Sterile** or unsterile
- Positioning rings in tip neck for better grip on the pipettor
- Very high transparency
- Tapered tip
- **Free of RNAse/DNAse** and **pyrogens**
- **Free of human DNA** and **PCR inhibitors**
- Colourless tips free of metals and cadmium
- Autoclavable

## 39 MµltiUNIVERSAL 1-300 µl

Transparent. Suitable for Brand, Eppendorf, Gilson, Finnpipette®, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1-300 | Standard | bulk-packed (bag), unsterile | **KC07.1** | 1000 | 21,70 |
| 1-300 | Standard | Racks, unsterile | **KC08.1** | 10 x 96 | 44,95 |
| 1-300 | Standard | Racks, **sterile** | **KC09.1** | 10 x 96 | 53,70 |

The pipette tip fitting tables for all microlitre pipettor models can be found on pages 432-446.

Fitting information is provided as general recommendations. It is recommended that a check be made by the user.
Pipette tip samples are available on request.

## 40 MµltiUNIVERSAL 100-1000 µl

Colourless. Suitable for Brand, Eppendorf, Gilson, Finnpipette®, Oxford, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 100-1000 | Standard | bulk-packed (bag), unsterile | **8163.1** | 1000 | 25,10 |
| 100-1000 | Standard | Racks, unsterile | **8164.1** | 10 x 100 | 53,25 |
| 100-1000 | Standard | Racks, **sterile** | **8165.1** | 10 x 100 | 64,00 |
| 100-1000 | LowBinding | bulk-packed (bag), unsterile | **NL54.1** | 1000 | 28,65 |
| 100-1000 | LowBinding | Racks, unsterile | **X594.1** | 10 x 100 | 57,45 |
| 100-1000 | LowBinding | Rack, **sterile** | **PC94.1** | 10 x 100 | 62,70 |

## 41 MµltiUNIVERSAL 100-1000 µl

Blue. Suitable for Brand, Eppendorf, Gilson, Finnpipette®, Oxford, Roth, Sartorius, Socorex. Autoclavable.

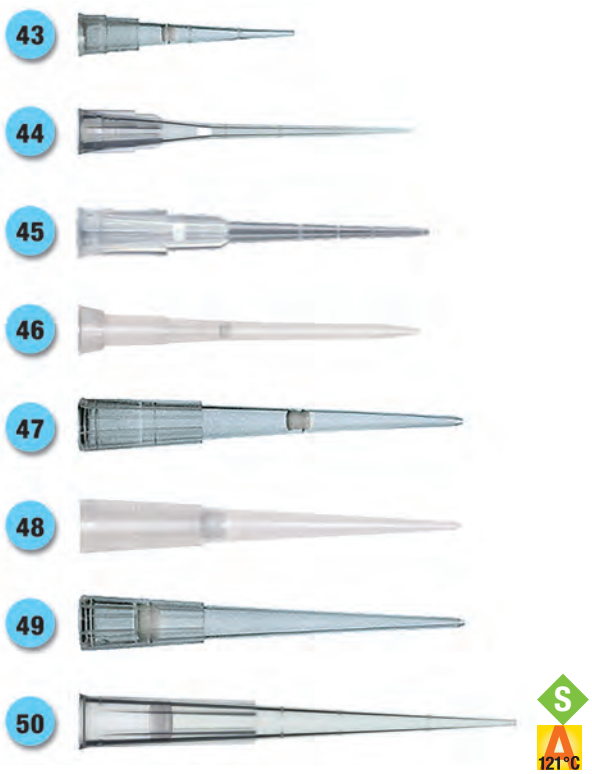
| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 100-1000 | Standard | bulk-packed (bag), unsterile | **8160.1** | 1000 | 26,55 |
| 100-1000 | Standard | Racks, unsterile | **8161.1** | 10 x 100 | 52,85 |
| 100-1000 | Standard | Racks, **sterile** | **8162.1** | 10 x 100 | 60,10 |

## 42 MµltiUNIVERSAL 50-1250 µl

Colourless, graduated. Length 103 mm. Suitable for Eppendorf, Finnpipette®, Gilson, Oxford, Sartorius. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 50-1250 | Standard | bulk-packed (bag), unsterile | **NL57.1** | 768 | 25,30 |
| 50-1250 | Standard | Hinged lid racks, unsterile | **EL23.1** | 8 x 96 | 61,40 |
| 50-1250 | Standard | Hinged lid racks, **sterile** | **EL24.1** | 8 x 96 | 78,95 |

## MµltiLowBinding® pipettor tips



- **Surface optimized** through **LowBinding polymer coating** for minimum sample adhesion
- Maximum accuracy on quantitive analysis **minimizes sample loss** and reduces absolute error
- Chemically resistant coating
- Loseless pipetting of DNA, peptides, proteins, highly viscous samples
- Without the use of disruptive silicones

**Conventional tip** **LowBinding tip**

# Filtertips, Sorenson MµltiGuard®-tips

- **Sterile**
- Specially developed **hydrophobic membranes for protection against contamination** from bio-hazardous, toxic or radioactive substances
- Made of completely inert material - to eliminate "incorrect signals" during PCR experiments
- **Free of RNAse/DNAse** and **pyrogens**
- **Free of human DNA** and **PCR inhibitors**
- Autoclavable

## 43 MµltiGuard® tips 0.1-10 µl

Colourless, with aerosol filter, graduated. Suitable for Brand, Eppendorf, Gilson, Finnpipette®, Oxford, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,1-10 | Standard | Racks, **sterile** | **T613.1** | 10 x 96 | 75,20 |
| 0,1-10 | LowBinding | Racks, **sterile** | **X595.1** | 10 x 96 | 94,75 |

## 44 MµltiGuard® tips 0.1-10 µl

Colourless, graduated. Extra long. With aerosol filter. Length 45 mm. Suitable for Eppendorf, Finnpipette®, Gilson, Oxford, Sartorius. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,1-10 | Standard | Hinged lid rack, **sterile** | **EL28.1** | 10 x 96 | 78,40 |

## 45 MµltiGuard® tips 0.1-10 µl

Colourless, with aerosol filter, graduated, long. Suitable for Brand, Eppendorf, Gilson, Finnpipette®, Oxford, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,1-10 | Standard | Racks, **sterile** | **Y816.1** | 10 x 96 | 90,30 |

## 46 MµltiGuard® tips 0.5-10 µl

Colourless, with aerosol filter. Suitable for Brand, Eppendorf, Gilson, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,5-10 | Standard | Racks, **sterile** | **A567.1** | 10 x 96 | 81,60 |
| 0,5-10 | LowBinding | Racks, **sterile** | **X596.1** | 10 x 96 | 94,75 |

## 47 MµltiGuard® tips 1-20 µl

Colourless, with aerosol filter. Suitable for Brand, Eppendorf, Gilson, Finnpipette®, Oxford, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1-20 | Standard | Racks, **sterile** | **9770.1** | 10 x 96 | 81,60 |
| 1-20 | LowBinding | Racks, **sterile** | **X597.1** | 10 x 96 | 94,75 |

## 48 MµltiGuard® tips 1-100 µl

Colourless, with aerosol filter. Suitable for Brand, Eppendorf, Gilson, Finnpipette®, Oxford, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1-100 | Standard | Racks, **sterile** | **XC78.1** | 10 x 96 | 85,15 |

## 49 MµltiGuard® tips 1-200 µl

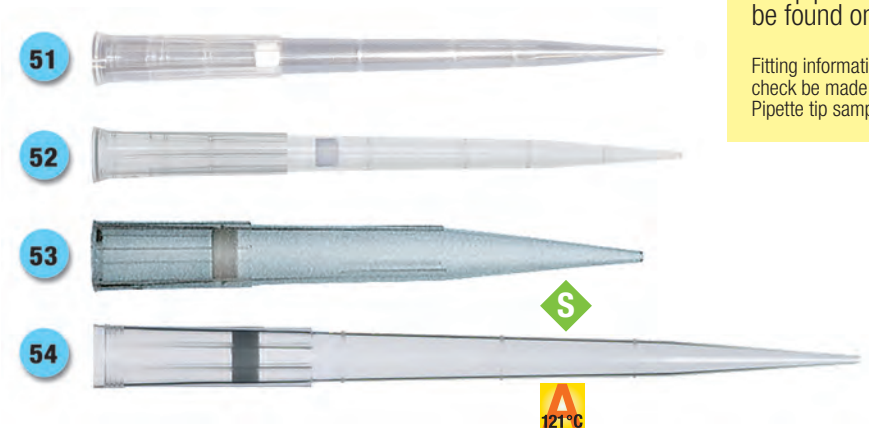
Colourless, with aerosol filter. Suitable for Finnpipette®, Oxford, Sartorius. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1-200 | Standard | Racks, **sterile** | **9771.1** | 10 x 96 | 81,60 |

## 50 MµltiGuard® NX 1-200 µl

Colourless, graduated. With aerosol filter. Length 59 mm.
Suitable for Eppendorf, Finnpipette®, Gilson, Oxford. Autoclavable.

| Volume (µl) | Design | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1-200 | LowBinding | Racks, **sterile** | **EL27.1** | 10 x 96 | 103,00 |



## Mµlti®-hinged lid racks

By Sorenson.
- With hinged lid
- Stackable
- Empty, for tips 10/200 µl
- Autoclavable

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T689.1** | 10 | 32,50 |

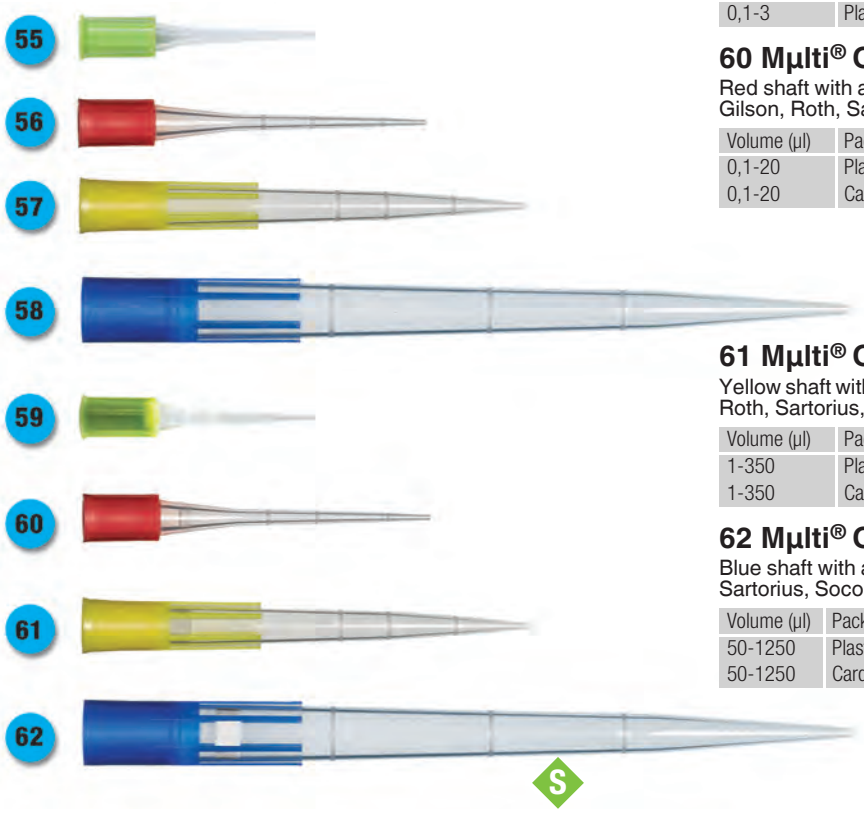
Fitting information is provided as general recommendations. It is recommended that a check be made by the user.
Pipette tip samples are available on request.

## MµltiLowBinding® pipettor tips

- **Surface optimized** through **LowBinding polymer coating** for minimum sample adhesion
- Maximum accuracy on quantitive analysis **minimizes sample loss** and reduces absolute error
- Chemically resistant coating
- Loseless pipetting of DNA, peptides, proteins, highly viscous samples
- Without the use of disruptive silicones



**Conventional tip** **LowBinding tip**

# Pipettor tips, Sorenson MµlTi® OneTouch

**Only one tip required for numerous pipettor models**

- **Sterile** or unsterile
- **Elastic shaft** made of TPE, rigid body made of PP
- Graduated
- Tips in plastic rack are autoclavable
- **RNase-/DNase-** and **pyrogen-free**
- **Free of human DNA** and **PCR inhibitors**
- With or without **aerosol filter**

## 55 MµlTi® OneTouch 0.1-3 µl

Green shaft. Compatible with numerous commonly available pipette models.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,1-3 | Plastic rack, non-sterile | **HAT9.1** | 10 x 96 | 54,50 |
| 0,1-3 | Plastic rack, **sterile** | **HAX0.1** | 10 x 96 | 57,00 |

## 56 MµlTi® OneTouch 0.1-20 µl

Red shaft. Suitable for Brand, Eppendorf, Finnpipette®, Gilson, Roth, Sartorius, Socorex.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,1-20 | Plastic rack, unsterile | **KT09.1** | 10 x 96 | 59,70 |

| 0,1-20 | Cardboard rack, **sterile** | **KT11.1** | 10 x 96 | 63,40 |

## 57 MµlTi® OneTouch 1-350 µl

Yellow shaft. Suitable for Brand, Eppendorf, Finnpipette®, Gilson, Roth, Sartorius, Socorex.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-350 | Plastic rack, unsterile | **KP90.1** | 10 x 96 | 59,70 |
| 1-350 | Plastic rack, **sterile** | **KP91.1** | 10 x 96 | 63,40 |
| 1-350 | Cardboard rack, **sterile** | **KP92.1** | 10 x 96 | 63,40 |

## 58 MµlTi® OneTouch 50-1250 µl

Blue shaft. Suitable for Eppendorf, Finnpipette®, Gilson, Sartorius, Socorex.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 50-1250 | Plastic rack with hinged lid, unsterile | **KT14.1** | 8 x 96 | 59,70 |
| 50-1250 | Plastic rack with hinged lid, **sterile** | **KT15.1** | 8 x 96 | 63,40 |
| 50-1250 | Cardboard rack, **sterile** | **KT16.1** | 12 x 64 | 70,80 |

## 59 MµlTi® OneTouch 0.1-3 µl

Green shaft with aerosol filter.
Compatible with numerous commonly available pipette models.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,1-3 | Plastic rack, **sterile** | **HAX1.1** | 10 x 96 | 91,30 |

## 60 MµlTi® OneTouch 0.1-20 µl

Red shaft with aerosol filter. Suitable for Brand, Eppendorf, Finnpipette®, Gilson, Roth, Sartorius, Socorex.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,1-20 | Plastic rack, **sterile** | **KT12.1** | 10 x 96 | 105,90 |
| 0,1-20 | Cardboard rack, **sterile** | **KT13.1** | 10 x 96 | 105,90 |

## 61 MµlTi® OneTouch 1-350 µl

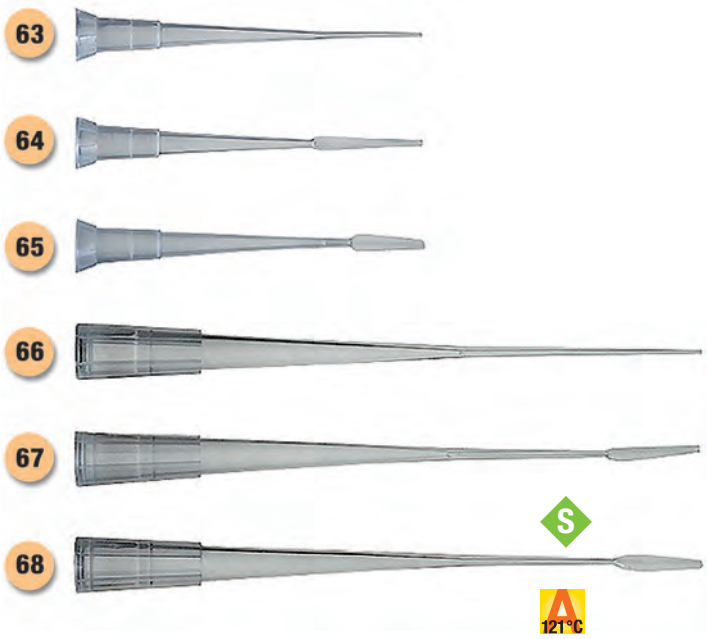
Yellow shaft with aerosol filter. Suitable for Brand, Eppendorf, Finnpipette®, Roth, Sartorius, Socorex.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-350 | Plastic rack, **sterile** | **KP93.1** | 10 x 96 | 105,90 |
| 1-350 | Cardboard rack, **sterile** | **KP94.1** | 10 x 96 | 105,90 |

## 62 MµlTi® OneTouch 50-1250 µl

Blue shaft with aerosol filter. Suitable for Eppendorf, Finnpipette®, Gilson, Sartorius, Socorex.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 50-1250 | Plastic rack with hinged lid, **sterile** | **KT17.1** | 8 x 96 | 105,90 |
| 50-1250 | Cardboard rack, **sterile** | **KT18.1** | 12 x 64 | 105,90 |



## Ecological cardboard box racks

- Cardboard raw material from sustainable forestry
- Ink print on a soja base
- Used racks can be folded, easy to recycle
- Reduce plastic waste

# Pipettor tips, Sorenson MµltiMiniFlex®-tips, MµltiFlex®-tips

- **Sterile** or unsterile
- Suitable for **loading SDS page protein gels, horizontal agarose** and **DNA sequencing gels**
- Precise pipetting of minute samples at the lower end of the micron range (restriction enzyme digestion, nick translation, enzyme assay, immune precipitation and DNA sequencing reaction)
- For checking the precision of pipettors: (63)-(65) graduation with 2 µl, (66)-(68) graduation of 5 µl
- **Free of RNAse/DNAse** and **pyrogens**
- **Free of human DNA** and **PCR inhibitors**
- Autoclavable

## 63 MµltiMiniFlex® tips 0,1-10 µl

Colourless, round. Suitable for Brand, Eppendorf, Finnpipette®, Gilson, Oxford, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,1-10 | Rack | **A569.1** | 200 | 32,40 |

Colourless, flat 0.2 mm. Suitable for Brand, Eppendorf, Finnpipette®, Gilson, Oxford, Roth, Sartorius, Socorex. Autoclavable.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5-200 | Racks, unsterile | **6124.1** | 200 | 85,90 |

The pipette tip fitting tables for all microlitre pipettor models can be found on pages 432-446.

Fitting information is provided as general recommendations. It is recommended that a check be made by the user.
Pipette tip samples are available on request.

## Cell-Saver Tips
## Pipettor tips with large opening

- Made of **PP**
- **Sterile** or unsterile
- With extra-large opening for the protection of cells
- Suitable for pipetting of suspensions or for viscous liquids
- With or without **aerosol filter**
- **RNase/DNase free**
- **Filter tips free of human DNA, pyrogen free**
- Autoclavable

### 69 Cell-Saver 1-200 µl

Colourless. Suitable for Roth, Brand, Eppendorf, Gilson.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1-200 | loose in bag, unsterile | **AEA9.1** | 1000 | 41,60 |

### 70 Cell-Saver 100-1000 µl

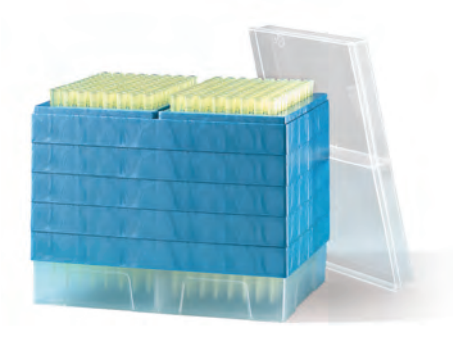
Colourless, **with aerosol filter**. Suitable for Eppendorf, Finnpipette®, Gilson, Rainin®, Sartorius.

| Volume (µl) | Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 100-1000 | Racks, **sterile** | **CHC6.1** | 6 x 96 | 87,65 |

## Gel Cutting Tips
## Pipette tips for cloning applications

- **Made of PP**
- For cutting DNA or protein bands out of agarose or SDS-PAGE gels
- Suitable for most commonly available 1000 µl pipettes
- Ideal for precision cutting of protein bands, which can be transferred to a reaction vial using a pipette plunger
- **RNase/DNase free**
- Autoclavable

### 71 Gel Cutting Tips 4 x 1 mm



Colourless.

| Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|
| loose in bag,unsterile | **CHA9.1** | 250 | 174,15 |
| in rack, unsterile | **CHC0.1** | 5 x 48 | 355,85 |

### 72 Gel Cutting Tips 6.5 x 1 mm

Colourless.

| Packaging | Art. No. | Pack Qty. | € |
|---|---|---|---|
| loose in bag, unsterile | **CHC1.1** | 250 | 174,15 |
| in rack, unsterile | **CHC2.1** | 5 x 48 | 355,85 |

## MµltiⓇ-Tip stations

By Sorenson. 5-tier pipettor tip station made of **PP**.
Ideal for loading multichannel pipettors.

- 960 pipettor tips in one MµltiⓇ-Tip station
- Each with 2 x 96 (=192) pipettor tips per tier
- Lid can be placed over half of tier (96 tips) to avoid any risk of contamination
- Made of 100 % recycling plastic
- Space-saving

**Models:**
- **Sterile** or unsterile
- MµltiⓇPrecisionⓇ quality
- MµltiLowBindingⓇ-pipettor tip quality
- Graduated
- Volume range: 0.1-10 µl and 1-200 µl

| Vol. (µl) | Type | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,1-10 | MµltiLowBindingⓇ, colourless, extra long | **sterile** | **EL29.1** | 5 x 960 | 212,85 |
| 0,1-10 | MµltiⓇPrecisionⓇ, colourless, extra long | unsterile | **EL30.1** | 5 x 960 | 191,35 |
| 1-200 | MµltiⓇPrecisionⓇ, yellow | **sterile** | **EL33.1** | 5 x 960 | 181,70 |
| 1-200 | MµltiⓇPrecisionⓇ, yellow | unsterile | **EL34.1** | 5 x 960 | 181,70 |

## Platinum Reload System
## Refill systems for pipettor tips

By Sorenson. Pipettor tips in pre-assembled inserts. Easy to use: transfer the inserts with tips into the empty rack, and the tips are ready for use. Top quality Mµlti-Precision. Reusable racks with hinged lid, stackable. Free of human DNA and PCR inhibitors, RNase/DNase free and pyrogen free. Autoclavable.

**Starter Kits Reload System**
**Delivery incl.** Reload System and 10 racks (8 racks for PK21.1).

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 0.1-10 µl (tip No. 33) | **PK18.1** | 10 x 96 | 58,50 |
| 1-200 µl (tip No. 38, yellow) | **PK19.1** | 10 x 96 | 55,85 |
| 1-200 µl (tip No. 36, colourless) | **NL65.1** | 10 x 96 | 53,25 |
| 1-300 µl (tip No. 39) | **PK20.1** | 10 x 96 | 74,10 |
| 50-1250 µl (tip No. 42) | **PK21.1** | 8 x 96 | 62,70 |

## MµltiⓇ-QuickRack Transfer System

By Sorenson. **Refill system for pipettor tips**

For filling empty racks with 96 pipettor tips. Simply place the transfer plate in the top layer of the tips, lift the tips and place them into the available rack - now they're ready. Tips are autoclavable and RNase/DNase-free.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| QuickRack 0.1-10 µl MIKRO colourless (Tip No. 32) | **NL61.1** | 10 x 96 | 35,70 |
| QuickRack 0.1-10 µl colourless (Tip No. 33) | **KP34.1** | 10 x 96 | 37,30 |

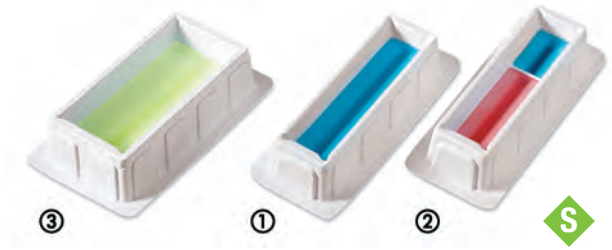
| **T689.1** | 10 | 32,50 |

# Reagent reservoirs

## Single-use reagent reservoir



- Made of **PS**, colour: white
- **Sterile** or unsterile
- With conical overflow channel on base for minimal reagent loss
- Graduated volume markings on the inner wall
- Reinforced side walls and wider base for better stability

**Volume: 25 ml**

| Image | Design | Dimensions L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① | non-sterile | 146 x 57 x 26 | **CYN5.1** | 100 (10 x 10) | 88,70 |

| ④ | with side 20 ml reservoir, **sterile** | 146 x 102 x 32 | **HT71.1** | 100 (10 x 10) | 123,65 |

## Single-use reagent reservoirs Bio-pure™

- Made of **biodegradable PET**, colour: white
- **Sterile**
- With conical overflow channel on base for minimal reagent loss
- Reinforced side walls and wider base for better stability
- Model ② is suitable for 4 and 8 channel pipettes through partitions

| Image | Vol. (ml) | Design | Dimensions L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| ① | 25 | 10 per pack | 146 x 57 x 26 | **AXC7.1** | 100 | 89,55 |
| ② | 25 | subdivided, 10 per pack | 146 x 57 x 26 | **AXC8.1** | 100 | 89,55 |
| ③ | 100 | 10 per pack | 146 x 83 x 32 | **AXC9.1** | 100 | 112,90 |

## Single-use reagent reservoir

Made of **PS**. **Sterile** or non-sterile.

- Compatible with 8 and 12-channel pipettes
- Robust design for safe handling
- V-shaped base for non-loss pipetting
- Graduations on the inside wall
- Spouts at the corners
- **RNase-/DNase free, pyrogen-free**

| Volume (ml) | Design | Dimensions L x W x H (mm) | Art. No. | Pack Qty. | € |

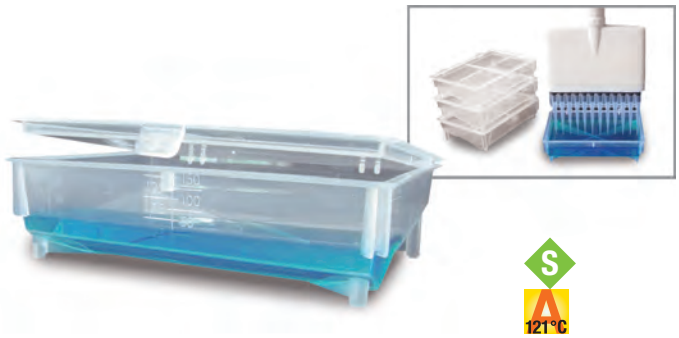
| 100 | non-sterile | 147 x 80 x 32 | **EKX2.1** | 100 | 41,20 |
| 100 | **sterile** | 147 x 80 x 32 | **EKX3.1** | 100 (20 x 5) | 51,80 |
| 100 | **sterile** | 147 x 80 x 32 | **EKX4.1** | 50 (50 x 1) | 36,90 |

## Rotilabo®-liquid reservoirs

**Sterile** (individually wrapped) or unsterile. With special design for 4, 8 and 12 channel pipettors. The bevelled sides and V-shaped base enable almost total withdrawal of liquid. Sterile vessels are individually wrapped.
**Sterile designs are DNAse/RNase-free and non-pyrogenic.**

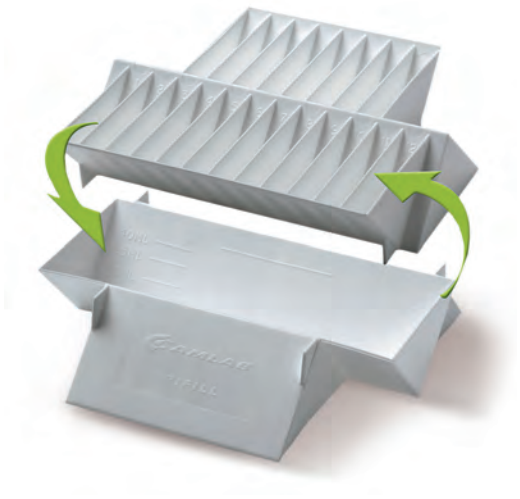


| Volume (ml) | Material | Design | Dimensions L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 55 | PVC | unsterile | 143 x 70 x 25 | **E830.2** | 100 | 92,45 |
| 55 | PS | **sterile** | 143 x 70 x 25 | **E831.2** | 80 | 165,55 |

## Accessories for Rotilabo®-liquid reservoirs

Lid made of PET. **Sterile** (individually wrapped).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **EL53.1** | 20 | 40,75 |



# Reagent reservoirs

## Reagent reservoirs

Made from transparent **PP**. **Sterile** or unsterile.
- Volume: 175 ml
- With graduations of 25, 50, 75, 100, 125 and 150 ml
- Good stability
- Reusable
- Compatible with 8 and 12 channel pipettes
- Removable lids, easy to open
- Autoclavable

| Type | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| with lid | **sterile** | **APX0.1** | 100 (20 x 5) | 195,65 |
| with lid | non-sterile | **APX1.1** | 100 (10 x 10) | 137,60 |
| without lid | **sterile** | **APX2.1** | 100 (20 x 5) | 170,95 |
| without lid | non-sterile | **APX3.1** | 100 (10 x 10) | 113,95 |

## Multi-channel pipettor Trifill reservoirs

Made of **PP**, white. Autoclavable. Trifill is a combination of three reservoir units. With V-shaped, graduated liquid container, volume max. 50 ml, and 8- and 12-space liquid reservoirs.

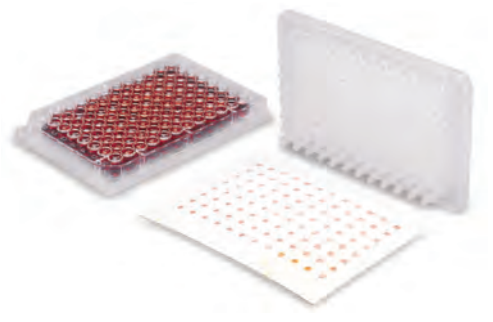
Max. filling capacity of 5 ml per numbered, V-shaped chamber.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AA87.1** | 10 | 37,20 |

▶ Multi-channel pipettors see page 433

## Reagent reservoir for 8-channel pipettors

Made of **PS**, colour: white. Single compartments with round base for minimal reagent loss. Capacity per well approx. 7 ml.



| Art. No. | Pack Qty. | € |
|---|---|---|
| **NA12.1** | 100 | 77,35 |

## Reagent reservoir for 8/12-channel pipettes

Made of **PP**. **Sterile** or non-sterile, individually packed.
With 12 numbered, V-shaped wells. Capacity per well approx. 5 ml.
Temperature stable from -80 to +121 °C. Autoclavable.
**Delivery incl.** lid.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| **sterile** | **EKT4.1** | 20 | 36,95 |
| non-sterile | **EKT5.1** | 50 | 49,90 |

## Bel-Blotter™ 96-well replication plate

Made of **PC**, with 96 pipette tips. **Simultaneous taking of approx. 10 µl samples per tip.** Place cover on plate with medium, fill tips using capillary effect: if necessary, drain by centrifuging. Samples can be transferred to microtest plates, PCR plates or filter membranes.
Suitable for creating DNA libraries, for hybridisations or phage typifications.
Suitable for all 96-well microtiter plates or PCR plates. Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YA93.1** | 1 | 26,15 |

# Microtiter plates and Accessories

## Microtitration plates BRAND*plates*®

By Brand. Manufactured according to ANSI/SBS standards 1 to 4 - 2004 to ensure compatibility when carrying out manual processes and, in particular, automatic processes.
- 96 well standard format
- Clearly distinguishable by embossed alphanumeric colour code: grey for standard plates, blue for immunology, orange for the cell culture
- **Free of endotoxins, DNase, DNA, RNase, non-cytotoxic**

### Microtiter plates pureGrade™ S

Made of transparent **PS**. Untreated surface.
- **Sterile** (individually packed, with cover) or non-sterile
- Chimney shaped 96 well cavities, with alphanumeric labelling
- F profile (flat bottom shape) for precision optical measurements
- Sterile type is ideal for bacteriological assays
- Non-sterile type designed, in particular, for homogeneous assays, screenings and storage

| Volume per well (µl) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 350 | F-profile, **sterile** | **XT64.1** | 50 | 122,55 |
| 350 | F-profile, non-sterile | **CNP7.1** | 100 | 94,50 |

### Microtitration plates immunoGrade™

Made of **PS**. For optimal binding of IgG.
- Non-sterile
- Highest binding capacity for molecules with hydrophilic and hydrophobic regions
- Ideal surface for most standard ELISA assays
- Suitable for solid phase immunoassays
- Equivalent to high-binding products from other manufacturers

| Volume per well (µl) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 350 | transparent, F-bottom | **XT66.1** | 100 | 155,90 |
| 330 | white, U-bottom | **XT67.1** | 100 | 307,45 |
| 330 | black, U-bottom | **XT69.1** | 100 | 307,45 |
| 330 | black, transparent F-bottom | **XT71.1** | 100 | 749,30 |

### Microtitration plates pureGrade™ UV

Made of **UV polymer**, slightly hydrophilised. **PS** frame.
- Non-sterile
- Bottom: UV-transparent film, wall thickness 25 µm
- Transmission at 240 nm is 80 %
- Suitable for the determination of nucleic acid and protein concentrations (at 260 and 280 nm respectively)

| Volume per well (µl) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 350 | F-bottom | **XT65.1** | 50 | 637,50 |

### Microtitration plates cellGrade™

Made of **PS**.
- **Sterile** (individually packed, with cover)
- Standard plate for cultivating adherent cell cultures
- PS surface with various freely accessible chemical groups, e.g. carboxyl and hydroxyl groups
- Surface is hydrophilic (untreated PS is non-hydrophilic)
- Serum constituents are bound to the free chemical groups which allow indirect adhesion of cells

| Volume per well (µl) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 350 | transparent, F-bottom | **CNP6.1** | 50 | 131,15 |
| 350 | white, F-bottom | **XT72.1** | 50 | 246,20 |
| 350 | black, F-bottom | **XT73.1** | 50 | 246,20 |
| 330 | white, with transparent F-bottom | **XT74.1** | 50 | 600,95 |
| 330 | black, with transparent F-bottom | **XT75.1** | 50 | 600,95 |

### Microtitration plates, inertGrade™

Made of **PS**.
- **Sterile** (individually packed, with cover)
- Suitable for cultivating suspension cell cultures
- Ideal for cell cultures if cell adhesion is to be avoided
- Optimised surface properties minimise cell binding, protein absorption, enzyme activation and cellular activation
- This allows, for example, premature differentiation of stem cells to be inhibited

| Volume per well (µl) | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 330 | 96 well, transparent, U-bottom | **XT76.1** | 40 | 450,45 |
| 350 | 96 well, transparent, F-bottom | **XT77.1** | 40 | 450,45 |

## Covers for microtitration plates BRAND*plates*®

By Brand. Made of transparent **PS**. Non-sterile. For protection against contamination and evaporation.
Type 1, for 96 well standard plates
Type 2, for microtitration plates with transparent bottom, pureGrade™.

| Type | Condensation rings | Height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 1 | Yes | 8 | **XT79.1** | 100 (20 x 5) | 66,45 |
| 1 | No | 8 | **XT80.1** | 100 (20 x 5) | 66,50 |
| 2 | No | 4,5 | **XT81.1** | 50 (5 x 10) | 64,40 |

## Overview of microtitration plates BRANDplates®

BRAND*plates*® Microtitration plates in 96 well standard format have a so-called chimney shape. The individual wells are separated from one another by a gap so as to avoid contamination. This, in combination with the condensation rings on the cover, significantly reduces evaporation.

**U-bottom**
Round bottomed wells. Since the wells do not have corners, this bottom shape is ideal for mixing and washing samples. Applications for this bottom shape include agglutination tests.
**F-bottom**
Flat bottom shape. F bottom is mainly used for precision optical measurements and is ideal for colorimetric determination, but also for microscopy. F bottom can, for example, also be used in cell culture.
**C-bottom**
Flat bottom shape with raised corners. C bottom combines the advantages of the U and F bottoms. Raised corners allow much better sample mixing in the wells. The flat bottom in the centre of the wells also allows precision optical measurements to be performed. C bottom is ideal for immunoassays in which optical measurement and thorough sample mixing are key factors influencing the precision of the test result.

**Transparent**
Transparent plates are ideal for precision optical measurements because of their excellent optical properties. This is why these plates are mainly used for colorimetric assays, but also in cell culture and storage.
**White**
White pigmented plates are optimised for luminescence measurements. Due to their white coloration, the plates provide maximum reflection of luminescence signals and minimise well-to-well crosstalk.
**Black**
Black pigmented plates are optimised for fluorescence measurements. Due to their black coloration, the plates minimise autofluorescence (even at low wavelengths) and well-to-well crosstalk.

**Microtitration plates with transparent bottom**
These plates are made of white or black PS and have a transparent bottom made of PS. Generally, these plates are suitable for applications requiring a transparent bottom, such as luminescence and fluorescence measurements. The transparent bottom provides a clear view of the well contents and enables transmitted light measurements to be performed. In addition, the plates can be examined directly under a microscope, which is particularly important for cell-bottomed applications. The white or black pigmented structure of the frame minimises well-to-well crosstalk.

## Cell culture plates

Made of **PS**. **Sterile** (Gamma sterilised), individually packed, with cover. Hydrophilic, negatively-charged surface through plasma treatment for uniform cell adhesion and cell growth.

- F profile (flat-shaped base)
- Optically clear for good cell visualisation
- Increased well edge reduces evaporation
- Condensation rings in the lid reduce cross-contamination
- Alphanumeric numbering
- Non-pyrogenic

| Wells | Volume per well (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 6 | 17 | **EKX5.1** | 100 | 149,00 |
| 12 | 6,8 | **EKX6.1** | 100 | 159,00 |

| 96 | 0,39 | **EKX8.1** | 100 | 159,00 |

## Cell culture Multiwell plates

By Greiner Bio-One. Made of **PS**. **Sterile** (individually packed, cover plate for adherent cell cultures). TC-surface treated. Non-pyrogenic.
**Free of detectable DNase, RNase and human DNA.**
**Free of detectable endotoxins, free of zytotoxic substances.**
Alphanumeric well coding. F-bottom. Max. centrifuging: 4800 x g.

| Wells | Growth surface per well ($cm^2$) | Working volume per well (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 6 | 9,6 | 2-5 | **CE54.1** | 100 | 184,90 |
| 12 | 3,9 | 2-4 | **CE55.1** | 100 | 234,35 |

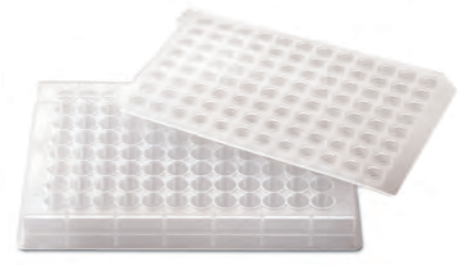
## Microtest plates, sterile

Made of **PS** and **PE**. **Sterile** (Gamma sterilized), individually packed, with cover.

- F profile (flat-shaped base)
- Optically clear for good visualization
- Increased rim edge reduced evaporation
- Condensation rings in the lid reduce cross-contamination
- Alphanumeric numbering
- Non-pyrogenic

| Wells | Volume per well (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 96 | 0,39 | **EKL9.1** | 100 | 210,00 |



## Rotilabo®-microtest plates, black

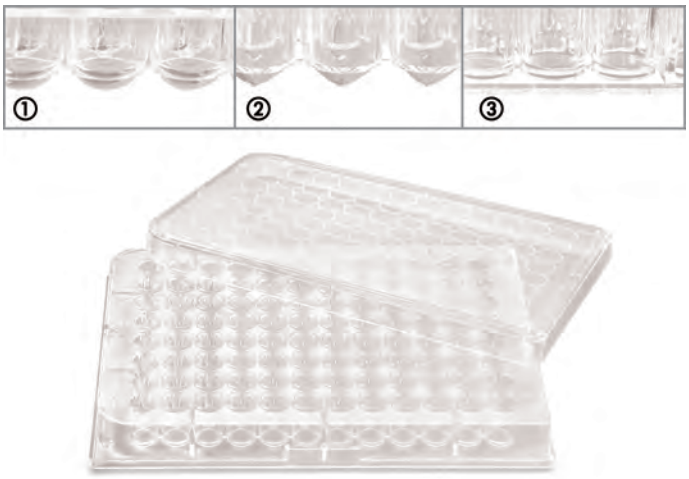
Made of **PS**. Black plates for low background and reduced light scatter during applications in fluorescence microscopy. With 96 alphanumerically coded cavities with flat bottom. "Chimney top" well design reduces the risk of contamination. SBS dimensions. **RNase, DNase and human DNA free.**

| Volume per well (µl) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 350 | **CEK8.1** | 100 | 328,95 |

**Accessories:**

| | | | |
|---|---|---|---|
| Cover plates | **CEK9.1** | 80 | 121,50 |

## Rotilabo®-polypropylene microtest plates



Made of **PP**. With 96 wells in a round U-profile for maximum sample recovery with reduced capillary effect. SBS dimensions, suitable for robot systems. Good chemical resistance, e.g. against DMSO, phenol and chloroform.
**RNase, DNase and human DNA free.** Autoclavable.

| Volume per well (µl) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 350 | **CEL3.1** | 100 | 163,40 |

**Accessories:**

| | | | |
|---|---|---|---|
| Silicone rubber sealing mats | **CEL4.1** | 50 | 219,30 |

# Microtiter plates and Accessories

## Rotilabo®-microtest plates

Made of transparent **PS**. With 96 alphanumerically coded cavities. Different base profiles available. Produced under sterile working conditions. Stackable.
Dimensions: L 128 x W 85 x H 15 mm.

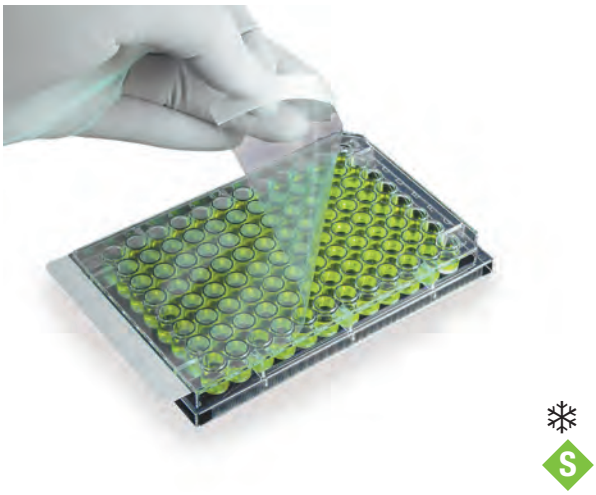
**Delivery without** cover plate, please order separately.

| Type | Volume per well (µl) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① U-profile (round) | 345 | **9291.1** | 100 | 46,25 |
| ② V-profile (conical) | 335 | **9292.1** | 100 | 52,70 |
| ③ F-profile (flat) | 405 | **9293.1** | 100 | 57,00 |

## Cover plates for Rotilabo®-microtest plates

Made of **PS**. Prevents contaminations and liquid loss.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **9297.1** | 100 | 42,20 |



## 6-well macroplates

Made of **PS**. For all bacteriological applications which require a subdivided culture dish. Simple and space-saving alternative to six conventional 35 mm petri dishes.
Dimensions: L 128 x W 85 x H 20 mm.

- Manufactured under aseptic conditions
- With 6 alphanumeric-labelled wells, well ∅ 35 mm
- Working volume 2-5 ml
- Maximum well volume: 15 ml
- Centrifugable to 4500 g
- Temperature stable from -20 to approx. +60 °C

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ATC0.1** | 100 | 82,80 |

▶ For multichannel pipettors, see page 433
▶ Labels for microtiter plates, see page 683

## Rotilabo®-sealing films for microtest plates

Self-adhesive. **Sterile** or unsterile. Minimizes cross-contamination of samples during handling and transport. With perforated ends for simple and speedy application.

**Types 1 and 2**
Made of **polyester**. Also suitable for ELISA-plates. Minimize evaporation. Type 1 can be pierced with a single-channel pipettor.

**Type 3**
Made of **aluminium-coated paper**. Good diffusion barrier. Produced under almost germ-free conditions.

**Technical specifications:**

| Cover plates | **CEL2.1** | 100 | 163,40 |

## Gas-permeable sealing film

**Self-adhesive film, made on a polyurethane base.**

- **Sterile** and non-cytotoxic
- For sealing microtitre plates
- Prevents contamination from cavity to cavity
- Ensures an even exchange of oxygen and carbon dioxide
- Excellent for aerobic cell cultures, biological and immunological cellular preparation and selection, screening, etc.
- Does not inhibit cellular growth or the separation of human fibroblasts
- FDA-tested

**Technical specifications:**

| | |
|---|---|
| Thickness | 25 µm |
| Dimensions (L x W) | 153 x 78 mm |
| Temperature-resistant | -80 to +100 °C |
| Pierceable | yes |

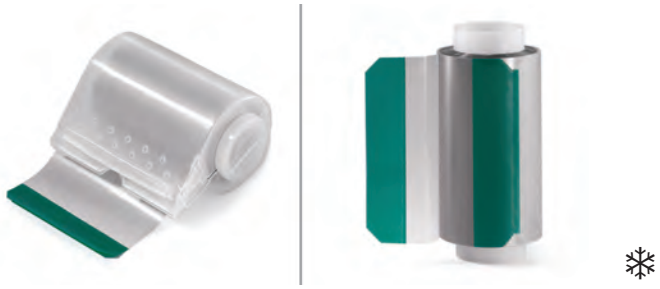
|---|---|---|
| **T093.1** | 100 | 134,40 |

## Rotilabo®-cling film for cell cultures



Made of **rayon. Sterile** or unsterile. Self-adhesive hydrophobic cling film for cell culture and deep well plates.

- Gas-permeable, for a steady exchange of air and carbon dioxide
- Minimises evaporation and cross-contamination
- With perforated ends for simple and speedy application
- Non-cytotoxic

**Technical specifications:**

| | |
|---|---|
| Thickness | 114 µm |
| Dimensions (L x W) | 142.9 x 82.6 mm |
| Temperature-resistant | -20 to +80 °C |
| Pierceable | yes |

| unsterile | **EN84.1** | 100 | 83,45 |
| **sterile** | **EN85.1** | 50 | 58,05 |

## Protective sheets on rolls

Made of polyester, self-adhesive. For sealing micro test plates. Minimises cross-contamination of samples during incubation, transportation and temporary storage. Also suitable for ELISA plates. Without intermediate paper backing, for fast handling. 100 individual sheets per roll.

**Technical specifications:**

| | |
|---|---|
| Thickness | 38 µm |
| Dimensions of individual sheet (L x W) | 122 x 79 mm |
| Heat resistant | -40 to +120 °C |
| Pierceable | no |

| Art. No. | Pack Qty. (roll) | € |
|---|---|---|
| **APT6.1** | 2 | 101,05 |

## Dispenser for protective sheets on rolls

Made of PP. Handy dispenser for fast dispensing and application of protective sheets on rolls. Dimensions: L 80 x W 105 mm.
**Delivery incl.** 2 rolls of protective sheets (APT6.1).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **APT7.1** | 1 | 109,65 |

## Rotilabo®-sealing roller

Frame made of **metal**, with **rubber** roller. For more effective sealing of microtest-, PCR- and Deep-Well-plates with sealing foil or sealing mats because the roller presses them on more evenly. Also usable for evenly smoothing out gel, transfer membrane and blotting-paper during blot-assembly. Roll width: 100 mm, ∅ roll: 30 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **HE23.1** | 1 | 37,85 |

## Labels for microtest plates

Made of chemically inert polyester. Tearproof. Sticks to all plastic types without drying out or falling off. Useable during steam sterilisation, in waterbaths, freezers (to max. -40 °C), etc. Almost all types of markers and pens may be used for labelling. Dimensions: 6 x 38 mm, therefore excellent for use on the sides of microtest plates or petri dishes. Per roll 1000 labels.

| Art. No. | Pack Qty. | € |

| **K435.1** | 1 | 40,85 |

# Microcentrifuge tubes syst. and sample storage

Programme extension!

## Riplate® deepwell plates

Made of **PP**. **Sterile** (individually packed) or non-sterile.
Suitable for all conventional automation systems,
1 and 2 ml plates suitable for multi-channel pipettes.
**Riplate® plus** with increased well. Reduction of cross-contamination, enhanced fusing or sealing with adhesive film.
**Riplate® medio** for sample storage, requires 50 % less storage space due to increased height.
**Black plates** for light-sensitive applications.

- Alphanumeric well identification
- Includes angled corner for proper orientation
- Stackable
- SBS dimensions
- Optimised base structure minimises specimen losses
- Temperature stable up to -85 °C
- Centrifugable to 3000 x g

**Applications:** High Throughput Screening (HTS), general analysis necessitating the use of a stock plate; serial dilution; reagent transfer; cell and tissue cultures; specimen storage.

**Technical specifications:**

| Type | Total vol./well (µl) | Working vol./well (µl) | Plate format | L x W x H (mm) | Design/ well base |

NEU NOUVEAU NEW

## Deepwell plates Riplate® magnetic

Made of **PP**. For cleaning, mixing, centrifuging samples. For storing and preparing substances. For cleaning proteins as well as for DNA extraction via automatic magnet separation. Corresponds to the SBS standard (Society for Biomolecular Screening).

- Resistant to common chemicals. solvents and alcohols
- High stability also when centrifuging
- Cylindrical wells for optimum sample mixing
- Slightly raised rim of the well prevents cross-contamination
- Alphanumeric marking for registering and identifying the samples
- Production under clean room conditions Class 8

**Applications:**
Developed especially for automatic magnetic separation machines: An automated magnetic separator is often used to purify proteins and to extract DNA. This technology that is based on magnetic particles enables fast and efficient preparation of samples with high throughput. In order to perform this separation process reproducibly in the long-term, precise plastic plates made of ultrapure polypropylene were developed, the Riplate® magnetic. Production under Class 8 clean room conditions ensures the sustainability of these products as well as reliable analysis results.

**Suitable for:**
KingFisher™ 96 Flex Magnetic Particle Processors.

| Type | Total vol./well (ml) | Working vol./well (µl) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Riplate® 96 SRW magnetic, 0.2 ml | 200 | 20-100 | **HLK2.1** | 600 (10 x 60) | 2147,85 |

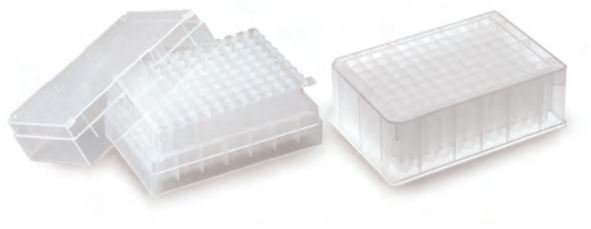
## Autotube racks

Made of **PP**, **sterile** or unsterile. Ideal for storing, transporting and freezing samples as well as for use in many biological tests, e.g. PCR, radio immunoassays (RIA), enzyme immunoassays (EIA) or cell growth studies. Racks can be removed from their base, e.g. for homogeneous heating of vials in a water bath.

- 1.2 ml vials, made of PP, arranged in microtitration plate format 8 x 12
- Suitable for working with multichannel pipettors
- With alphanumeric marking on outside of rack
- Label inside rack
- Temperature stable up to -90 °C
- Autoclavable

**Delivery without** cap strips. Please order separately.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Rack with 96 vials, unsterile | **EC05.1** | 10 | 64,30 |
| Rack with 96 vials, **sterile** | **EC06.1** | 10 | 68,70 |



## Refill vials and caps for Autotube racks

1.2 ml vials made of **PP**, cap strips made of. **Sterile** or non-sterile.
Only vials are autoclavable.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Vials, 1.2 ml, individual, loose, unsterile | **EC07.1** | 960 | 26,90 |
| Vials, 1.2 ml, 8 vial strips, individual, loose, unsterile | **YC41.1** | 120 | 23,65 |
| Cap strips, 8 cap strips, individual, loose, unsterile | **EC08.1** | 120 | 21,40 |
| Cap strips, 8 cap strips, loose, **sterile** | **EC09.1** | 120 | 22,60 |

## Micro Racks

Made of **PP**, with lid. Racks with 96 micro tubes, filled or unfilled.
Tubes are optionally available with a number code on the base or uncoded.
Pressure tested for leak tightness.

**Reusable micro racks**

- SBS standard micro test plate format (8 x 12)
- For use with micro tubes
- Angled corner on rack for clear positioning of refill unit
- Sides can be labelled, e.g. with a barcode
- Suitable for use in combination with automatic dispensing systems and robots
- Racks are stackable and suitable for stacker systems
- Temperature-resistant up to -80 °C. Autoclavable

| Volume (ml) | Type | L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,65 | filled, coded | 127,76 x 85,48 x 20,4 | **XK05.1** | 50 | 441,85 |

| 1,2 | 8.3 x 44,1 | 8 vial strip | **XK13.1** | 5 x 120 | 183,85 |

## Sealing accessories for micro tubes

Made of **TPE**. For sealing 0.65 and 1.2 ml micro tubes.
Can be punctured with syringe needles for sampling and filling.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 8 tube cap strip | **XK18.1** | 1000 | 161,25 |
| 8 x 12 sealing mats | **XK19.1** | 100 | 221,45 |

# PCR-trays and containers

## Rotilabo®-sealing films for PCR-plates

Made of **PP** or **aluminium**. Self-adhesive. **Sterile** or unsterile.
For sealing PCR-plates.
- Suitable for use in thermocyclers
- Perforated ends for simple and speedy application
- **Nucleic acid-free**
- **RNase-/DNase-free**

**Technical specifications:**

| **Type** | **1** | **2** |
|---|---|---|
| Material | aluminium | PP |
| Thickness (µm) | 38 | 50 |
| Dimensions L x W (mm) | 142.9 x 82.6 | 135.1 x 79.4 |
| Temperature stability (°C) | -80 to +120 | -40 to +125 |
| Piercable | yes | no |

| Type | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1 (Alu) | unsterile | **EN80.1** | 100 | 90,85 |
| 1 (Alu) | **sterile** | **EN81.1** | 50 (2 x 25) | 75,25 |
| 2 (PP) | unsterile | **EN82.1** | 100 | 73,35 |
| 2 (PP) | **sterile** | **EN83.1** | 100 | 94,40 |

## Sealing films for RT PCR

Made from optically clear polyester; with strong, non-absorbent and non-fluorescent adhesive.
Suitable for ELISA, real-time qPCR applications and protein crystallisation.
Plastic backing film, easily removable.
Length between perforations: 121.9 mm.
**RNase-, DNase- and Nucleic acid-free**.

**Technical specifications:**

| | |
|---|---|
| Material | Polyester |
| Thickness | 50 µm |
| Dimensions (L x W) | 142.9 x 79.4 mm |
| Heat resistant | -40 to +120 °C |

| Art. No. | Pack Qty. | € |
|---|---|---|
| **APT8.1** | 100 | 120,40 |

## Sealing films with special adhesive

Made from optically clear polyolefin; with inert, encapsulated silicone adhesive. The initially non-tacky adhesive is activated by applying pressure to the PCR plate, thus providing a perfectly tight seal, while the area directly above the wells is unchanged. The high optical clarity in these areas ensures reproducible results. Low autofluorescence, suitable for ELISA, quantitative DNA amplification, real-time qPCR applications and protein crystallisation. Length between perforations: 113 mm.
**DNase, RNase and DNA free.** Resistant to DMSO.

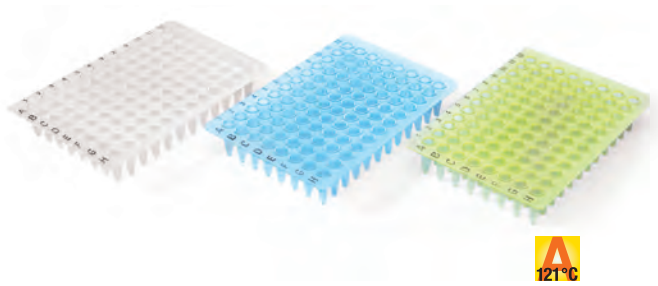
**Technical specifications:**

| | |
|---|---|
| Material | Polyolefin |
| Thickness | 50 µm |
| Dimensions (L x W) | 139.7 x 78.6 mm |
| Heat resistant | -70 to +100 °C |

| Art. No. | Pack Qty. | € |
|---|---|---|
| **APT9.1** | 100 | 181,70 |

## Rotilabo®-PCR trays

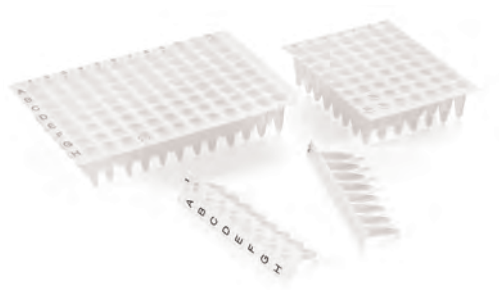
Made of **PP**. With black alphanumeric print for sample differentiation.
Thin-walled for optimal heat transfer between thermocycler and sample.
Cavities with raised edge to aid covering with PCR film.
Suitable for most standard thermocyclers.
**RNase, DNase and human DNA free**. Autoclavable.



| Design | Filling volume (µl) | Working volume (µl) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Standard, with half frame | 300 | 250 | **CEN0.1** | 50 | 140,85 |
| Low profile, with full frame | 200 | 150 | **CEN1.1** | 50 | 140,85 |

## 96-well PCR trays, with frame

By Brand.
- Made of thin PP
- Blue, alphanumeric coding
- Cut corner for easier orientation
- Even, fast and precise heat transfer
- Smooth, inert container inner
- Reduced formation of enzymes and nucleic acids
- Reliable sealing with associated sealing mats
- Frame suitable for labelling
- Suitable for real-time PCR
- **Free from DNase/RNase, DNA and endotoxins**
- Autoclavable at 121 °C (2 bar), according to DIN EN 285



| Design | Filling volume (µl) | Cut corner | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Standard | 200 | A12 | **EYT4.1** | 50 (10 x 5) | 159,10 |
| Low profile, higher frame | 150 | A1 | **EYT5.1** | 50 (10 x 5) | 159,10 |

## Rotilabo®-PCR trays

Made of **PP**, without frame. With black alphanumeric print for sample differentiation. Volume 0.3 ml (max. working volume 250 µl, max. filling volume 300 µl). Thin-walled for optimal heat transfer between thermocycler and sample. Cavities with raised edge to aid covering with PCR film. Suitable for most standard thermocyclers.
**RNase, DNase and human DNA free.** Autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| colourless | **CEL7.1** | 50 | 140,85 |
| blue | **CEL8.1** | 50 | 140,85 |
| yellow | **CEL9.1** | 50 | 140,85 |

## Rotilabo®-PCR trays, with partitioning

**Made of PP**, without frame. With perforation, separable into individual PCR strips or smaller trays. With black alphanumeric print for sample analysis. Volume 0.3 ml (max. working volume 250 µl, max. filling volume 300 µl). Thin-walled for optimal heat transfer between thermocycler and sample. Cavities with raised edge to aid covering with PCR film. Suitable for most standard thermocyclers.
**RNase, DNase and human DNA free.** Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CEN2.1** | 50 | 151,60 |

## 96-well PCR trays without frame

By Brand.
- Made of thin PP
- Blue, alphanumeric coding
- Cut corner for easier orientation
- Even, fast and precise heat transfer
- Smooth, inert container inner
- Reduced formation of enzymes and nucleic acids
- Reliable sealing with associated sealing mats
- Suitable for all current thermocyclers
- Suitable for real-time PCR
- **Free from DNase/RNase, DNA and endotoxins**
- Autoclavable at 121 °C (2 bar), according to DIN EN 285

| Design | Filling volume (µl) | Cut corner | Art. No. | Pack Qty. | € |

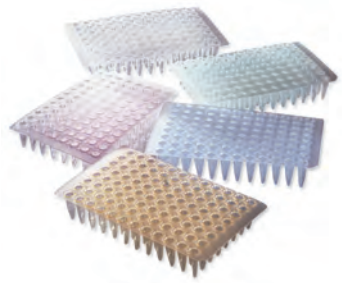
## PCR trays, 24-/48-/384-well

By Brand.
- Made from **PP**, extra-thin, even wall thickness, for optimal heat transfer and short cycle times
- Thin-walled PCR trays for constant, fast and precise heat transfer
- Tubes have smooth and inert inner surfaces to minimise binding of enzymes and nucleic acids
- Wells have raised rims for protection against cross-contamination and reliable sealing with suitable sealing mats
- Suitable for all standard quantitative real-time thermocyclers
- **DNase, DNA and RNase free**
- Autoclavable

### 24/48/96-well PCR trays

0.2 ml tubes.



| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 24-well, without rack | **XT94.1** | 40 (8 x 5) | 64,25 |
| 48-well, without rack | **XT95.1** | 20 (4 x 5) | 62,25 |

### 384-well PCR trays

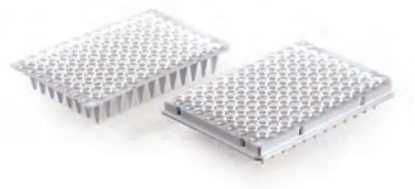
40 µl tubes, for specimen volumes ranging from 2 to 30 µl. The trays can be filled using conventional multichannel pipettes or robot systems.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 384-well, with complete rack | **XT98.1** | 50 (5 x 10) | 254,80 |

# PCR-trays and containers

## Mμlti®-Rigid Ultra Plates

By Sorenson. Made of **PP**. One-piece plates in microtitre plate format (8 x 12). Supplied with 96 extremely thin-walled micro-centrifuge tubes 0.2 ml. Thin walls guarantee steady heat transfer and shorter cycle duration during PCR-experiments. Can be easily closed with micromats, lid strips, or sealing foil. With alphanumeric coding for easy sample identification. Fit all standard thermocyclers. **DNase/RNase free**. Autoclavable.



| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| natural | **N421.1** | 25 | 106,45 |
| red | **N422.1** | 25 | 106,45 |
| blue | **N423.1** | 25 | 106,45 |
| green | **N424.1** | 25 | 106,45 |
| yellow | **N425.1** | 25 | 106,45 |

## Micromats

By Sorenson. Made of silicon rubber.
Autoclavable, for closing Mμlti®-Ultra Plates.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **K119.1** | 5 | 84,30 |

## PCR products for real time PCR

By Brand.
- Made of **PP**, white. For qPCR
- Significantly better results than clear 8-tube strips or trays in fluorescence measurements.
- Evenly dyed with titanium dioxide in combination with smooth surfaces for optimal reflection of fluorescence signals.

**PCR tube strips (8 tubes per strip)**

0.2 ml tubes. Separate clear caps, flat, easy to open and close (please order separately). Tubes have tab at one end. Capped strips with a small lip on the side of each cap for careful, contamination-free opening.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Tubes without capped strips | **XX01.1** | 125 | 95,85 |
| 8 cap strips, flat | **XT93.1** | 125 | 36,35 |

**96-well PCR trays**

0.2 ml tubes.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Without rack | **XX02.1** | 50 | 192,45 |
| With half rack | **XX03.1** | 50 | 192,45 |

## PCR-strips 12 tubes

Made of **PP**. Volume 0.2 ml. Autoclavable.

- PCR-micro-centrifuge strips with 12 micro-centrifuge tubes
- Thin-walled PCR-tubes guarantee optimal temperature exchange during heating and cooling PCR-cycles
- **Certified DNase-, RNase- and DNA-free**

**Delivery without** lid strips, please order separately.

| Colour | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| colourless | 0,2 | **EL74.1** | 125 | 123,65 |

## Accessories for PCR-strips 12 tubes

Lid strips made of **PP**. Curved lids. Suitable for PCR-centrifuge strips each with 12 centrifuge tubes. Autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| colourless | **EL79.1** | 125 | 50,45 |

## PCR-strips 8 tubes

Made of **PP**. Volume 0.2 ml. Autoclavable.

- PCR-micro-centrifuge strips with 8 micro-centrifuge tubes
- **Lids, which can be opened or closed individually**, are available in two designs: flat or curved
- Flat lid puncturable with cannula
- Extremely thin-walled PCR-tubes guarantee optimal temperature exchange when heating and cooling during PCR-cycles
- **DNase-, RNase- and DNA-free**

**Tubes with lids for individual attachment (flat)**

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| colourless | **CH87.1** | 125 | 102,15 |
| blue | **CH88.1** | 125 | 102,15 |

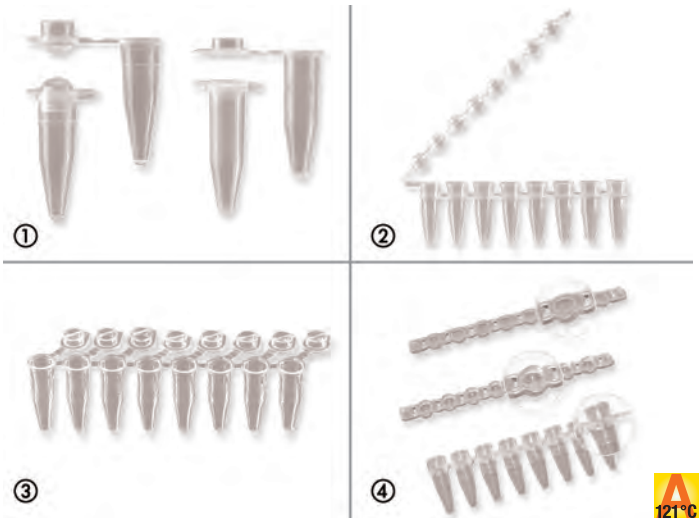
## Rotilabo®-8-strip PCR reaction vials

Made of **PP**. colourless, with numberings from 1 to 8 for sample differentiation (type ③ not numbered). Volume 0.2 ml (max. working volume 250 µl, max. filling volume 300 µl). Thin-walled for optimal heat transfer between thermocycler and sample. Suitable for most standard thermocyclers. **RNase, DNase and human DNA free**. Autoclavable. **Delivery incl.** cap strips (flat or convex) or attachable single caps.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① PCR strips with convex cap strips | **CEN3.1** | 125 | 95,70 |
| ② PCR strips with flat cap strips | **CEN4.1** | 125 | 95,70 |
| ③ PCR strips, attachable flat single caps | **CEN5.1** | 120 | 95,70 |



## PCR-strips 8 tubes with attached lid

Made of **PP**. Capacity 0.2 ml. Autoclavable.

- PCR-micro-centrifuge strips with 8 micro-centrifuge tubes
- **Attached lid strips** enable easy opening and closing
- Lids curved
- Thin-walled PCR-tubes guarantee optimal temperature exchange when heating and cooling during PCR-cycles
- **DNase-, RNase- and DNA-free**

| Colour | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|

| green | 0,2 | **CK84.1** | 125 | 96,65 |
| pink | 0,2 | **CK85.1** | 125 | 96,65 |
| yellow | 0,2 | **CK86.1** | 125 | 96,65 |

## PCR-reaction vials

By Brand.

- Made of **PP**. Colourless. Extra-thin, even wall thickness, for optimal heat transfer and short cycle times
- Made of high-grade pure plastics containing no additives
- Produced under clean room conditions according to ISO 14 644-1 Class 5, 7 and 8
- **DNase, DNA- and RNase free**
- Suitable for all standard thermocyclers
- Caps are easy to open and close
- Autoclavable at 121 °C (2 bar), according to DIN EN 285
- **Containers with flat lids, suitable for real-time PCR**

**① PCR-individual vials with attached cap**

Convex or flat cap, tight-fitting for minimal loss of fluid through evaporation.

**② PCR-vials, 8 tube strips with attached cap strip**

Convex cap.

**③ PCR-vials, 8 tube strips with attached single caps**

Flat single cap for optimal protection against contamination.

**④ PCR-vials, 8 tube strips with separate 8 cap strip**

Vials with retaining tab on one end.
Cap strip with convex or flat cap and small step on side of each cap for careful, contamination-free opening.

| Type | Design | Vol. (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|

# Microcentrifuge tubes

## MµlTi®-UltraStrips 8-tubes

By Sorenson. Made of thin-walled **PP**. **Sterile** (incl. lid strips) or unsterile. 8 micro-centrifuge tubes with 200 µl per strip. Fit all standard thermocyclers, e.g. Perkin Elmer, Biometra. The SafeSeal® design of the caps ensures tight closing. Due to the very smooth and transparent inner and outer surfaces, even the smallest volumes are clearly visible.
**RNase-/DNase-free, pyrogen-free.** Autoclavable.

| Colour | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| colourless | **sterile** | **E712.1** | 120 | 170,95 |
| colourless | unsterile | **E717.1** | 120 | 155,90 |

## Lid strips, curved

For closing MµlTi®-Ultra Plates and MµlTi®Ultra Strips 0.2 ml.

| Design | Art. No. | Pack Qty. | € |
|---|---|---|---|
| cannot be pierced, curved lid | **H997.1** | 120 | 76,35 |

## PCR reaction vials, strip of 8, low profile

By Brand. Made of PP. Volume 0.15 ml. PCR reaction vial strip with 8 interconnected vials. Flat single caps attached, highly transparent and so suitable for real time PCR.
**DNase, DNA- and RNase free**.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CNT0.1** | 120 | 140,85 |

## Rotilabo®-PCR reaction vials 0.2 ml

Made of **PP**. Colourless. Volume 0.2 ml (max. working volume 250 µl, max. filling volume 300 µl). Thin-walled for optimal heat transfer between thermocycler and sample. Suitable for all standard thermocyclers.
**RNase, DNase and human DNA free**. Autoclavable.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① PCR tubes with convex cap | **CEL5.1** | 1000 | 54,85 |
| ② PCR tubes with flat cap | **CEL6.1** | 1000 | 54,85 |

## MµlTi®-Ultra PCR tubes 0.2 ml

By Sorenson. Made of **PP**. With flat lid. Extremely thin walls enable heat to be transferred more quickly and more evenly.
Fits all standard thermocyclers.
**Pyrogen free, DNase- /RNase-free** and autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| natural | **H560.1** | 1000 | 108,60 |
| red | **H561.1** | 1000 | 108,60 |

| yellow | **H564.1** | 1000 | 108,60 |

## MµlTi®-Ultra PCR tubes 0.65 ml

By Sorenson. Made of clear **PP**. Very thin walls enable heat to be transferred more quickly and more evenly. Can be centrifuged up to 10 000 x g. Flat, roughened lid for labelling. The piercing area in the lid makes the transfer of hazardous materials with a syringe easier.
**DNase- and RNase-, endotoxin- and heavy metal-free.** Autoclavable.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **A774.1** | 1000 | 56,65 |

## Rotilabo®-microcentrifuge tubes

Made of **PP**. Capacity 1.5 ml. With dull finish labelling area. Graduated. Can be centrifuged up to 18 000 x g.
Temperature stable from -70 °C to 121 °C. Autoclavable.

| Colour | Art. No. | Pack Qty. | € |

| assorted colours (5 x 1000 pieces) | **5913.1** | 5000 | 81,50 |

# Microcentrifuge tubes

## Rotilabo® reaction vials

Made of **PP**. **Sterile** or non-sterile.
- With graduations
- Additional volume above the last graduation allows for liquid expansion
- Matt labelling space on the side and on the lid
- Ergonomic lid, easy and safety opening and closing
- One-handed operation with quick-release lock
- Puncturable lid
- **RNase/DNase-free, pyrogen-free, PCR inhibitor-free, metal-free**
- Centrifugability:
  Fixed angle rotor: 25 000 x g
  Tilting rotor: 70 000 x g

Temperature stable from -20 to +121 °C. Autoclavable.

| Volume (ml) | Colour | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,5 | colourless | non-sterile | **ENE7.1** | 1000 | 25,50 |
| 1,5 | colourless | **sterile** | **ENE8.1** | 1000 | 22,70 |
| 1,5 | colourless | non-sterile | **ENE9.1** | 1000 | 21,10 |
| 1,5 | black | non-sterile | **ENH0.1** | 1000 | 21,95 |
| 2,0 | colourless | **sterile** | **ENH1.1** | 1000 | 24,75 |
| 2,0 | colourless | non-sterile | **ENH2.1** | 1000 | 23,25 |

## Mircocentrifuge tubes 1.5 ml

By Brand. Made of **PP**. **Sterile** or unsterile. Volume 1.5 ml, graduated.

- Centrifugable up to 20 000 x g at 20 °C, max. 20 min
- With mat-finished labelling area on the side
- Lid membrane ∅ 8.5 mm, with a uniform thickness of approx. 0.3 mm, can be pierced by analyzer
- **BIO-CERT®-quality**, sterile and free from endotoxins, DNA, RNase and ATP, with batch certificate

Dimensions: outer ∅ 10.75 x H 40.8 mm. Autoclavable.

*Brown reaction vials are ideal for light-sensitive reactions.

| Colour | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| natural BIO-CERT® | **sterile** | **CH75.1** | 30 x 15 | 103,50 |
| natural | unsterile | **CH76.1** | 500 | 14,25 |
| natural | unsterile | **CNT2.1** | 3000 | 70,55 |
| yellow | unsterile | **CH77.1** | 500 | 16,00 |
| blue | unsterile | **CH78.1** | 500 | 16,00 |
| green | unsterile | **CH79.1** | 500 | 16,00 |
| orange | unsterile | **CH80.1** | 500 | 16,00 |
| brown (amber)* | unsterile | **CH81.1** | 500 | 16,00 |

## Rotilabo®-safety reaction tubes

Made of **PP**. Colourless, with graduations and labelling space.
Tight plug seat, e.g. for applications under thermal stress. Cap membrane is pierceable. Vessel base of 2.0 ml tubes is rounded on the inside to enhance pellet formation. Centrifugable to 18000 x g.
Heat resistant from -70 to 121 °C. Autoclavable.

| Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 0,5 | **XC62.1** | 1000 | 15,00 |
| 1,5 | **XC63.1** | 1000 | 18,25 |
| 2,0 | **NA16.1** | 1000 | 17,15 |

## Reaction vials with lid lock

By Brand. Made of PP. Additional lid lock for extra tightness, prevents unintentional opening of the lid. The wide lid rim allows easy handling using only one hand. With frosted labelling space and graduations for reading the approximate volume.

- Manufactured from high quality medical grade polypropylene
- Produced under cleanroom conditions to ISO 14 644-1 Class 8
- **Free of RNase, DNase, DNA and endotoxins**
- Centrifugable to 30 000 x g.
- Autoclavable at 121 °C and 2 bar (DIN EN 285)

| Volume (ml) | Outside ∅ (mm) | Height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 0,5 | 10 | 30 | **CNT3.1** | 500 | 25,25 |

| 2,0 | 12,8 | 40 | **CNT5.1** | 500 | 26,20 |

▶ Stands for centrifuge tubes see page 231

# Microcentrifuge tubes

## Rotilabo®-microcentrifuge tubes

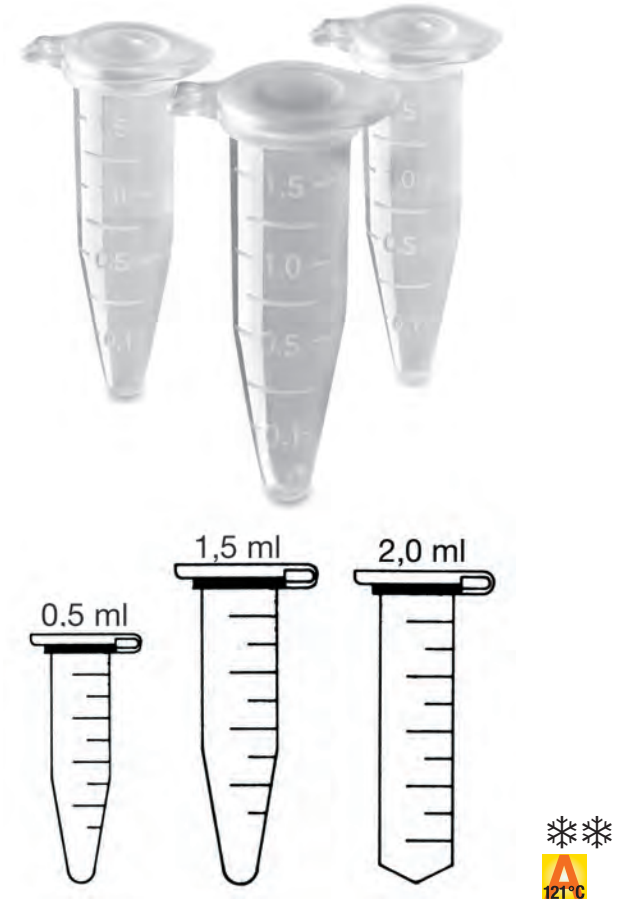
Made of **PP**. Colourless, temperature stable from -90 to +121 °C, autoclavable. Can be centrifuged up to 17 000 x g.

| Image | Volume | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① | 250 µl | not graduated | **EA82.1** | 1000 | 56,55 |
| ③ | 500 µl | graduated | **EA83.1** | 1000 | 46,15 |
| ④ | 1,5 ml | graduated | **EA84.1** | 1000 | 52,60 |
| ⑤ | 1,9 ml | graduated | **EA85.1** | 1000 | 67,75 |

## Rotilabo®-microcentrifuge tubes

Made of **LDPE**. Colourless, not graduated.
Temperature stable from -90 to +121 °C

| Image | Volume | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ② | 400 µl | **EA86.1** | 1000 | 55,90 |



## FlipTube®-microcentrifuge tubes

Made of highly transparent **PP**. Volume 1.5 ml, graduated. Autoclavable.
Special FlipTube® Closure: Tubes are usable single-handed.
Prevents contaminations and aerosols when opened.

- Can be centrifuged up to 20 000 x g
- Frosted labeling area on side and top
- Lid membrane ∅ 8 mm, pierceable

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| transparent | **LH82.1** | 500 | 22,50 |

## Mµlti®-safety microcentrifuge tubes

**SafeSeal® Tubes**

- By Sorenson
- Can be centrifuged up to 25 000 x g
- Highly transparent **PP**
- Graduated at 250 µl
- Etched labelling surface
- Tightly fitting cap
- Flat lid, suitable for labelling
- **LowBinding version:** Surface-optimized with a polymer coating, thereby minimal adhesion of sample
- Colour range: red, blue, green, yellow, lilac
- Temperature stable from -80 to 121 °C
- Autoclavable

- **RNase/DNase-free**
- **Human-DNA-free**
- **PCR-inhibitor-free**
- **Pyrogen-free**

# Microcentrifuge tubes

## Microcentrifuge tubes 1.5 ml, without lid

Made of **PP**. Colourless. Volume 1.5 ml. Autoclavable.

- Centrifugable up to 6000 x g at 20 °C, max. 20 min
- With dull finish labelling area on the side
- Outer-∅ x total height: 11 x 39.5 mm

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CK05.2** | 1000 | 22,50 |

## Microcentrifuge tubes 2 ml

By Brand. Made of **PP**. Volume 2 ml, graduated.

- Centrifugable up to 20 000 x g at 20 °C, max. 20 min
- With dull finish labelling area on the side
- The lid membrane, which is approx. 0.3 mm thick throughout, can be pierced by the analyzer
- **Free of RNase, DNase, DNA and endotoxins**
- Autoclavable

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| colourless | **CK06.1** | 500 | 29,85 |

## Rotilabo®-microcentrifuge tubes, black

Made of **PP**, black. 1.5 ml, graduated. Autoclavable. Temperature stable from -80 to +121 °C. Can be centrifuged up to 15 000 x g. Ideal for storing light-sensitive samples.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AA80.1** | 500 | 24,20 |

## 5 ml reaction vials

Made of **PP**. **Sterile** or non-sterile. Autoclavable.

- Easy to open lock for simple handling
- Labelling space on side of vessel and lid
- Centrifugable to 5000 g
- **RNase-/DNase free, pyrogen-free**
- Vial ∅ 15 mm (incl. edge 18 mm) x H 61 mm
- Temperature stable from -90 to +121 °C

| Colour | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| colourless | **sterile** | **EKY3.1** | 200 (10 x 20) | 44,20 |
| colourless | non-sterile | **EKY4.1** | 200 | 33,90 |
| blue | non-sterile | **EKY5.1** | 200 | 33,90 |
| green | non-sterile | **EKY6.1** | 200 | 33,90 |
| yellow | non-sterile | **EKY7.1** | 200 | 33,90 |
| pink | non-sterile | **EKY8.1** | 200 | 33,90 |
| black | non-sterile | **EKY9.1** | 200 | 33,90 |

## Mµlti®-safety microcentrifuge tubes 2 ml

By Sorenson. Made of **PP**. With special design for alleviating sample removal, particularly during DNA-/RNA-centrifugation.

- Flat lid with piercing zone for syringes
- Can be centrifuged up to 15 000 x g
- Temperature stable from -80 to +121 °C
- Flat lid and rough surface for easy marking of tubes
- **DNase-/RNase-free**
- Autoclavable

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E708.1** | 1000 | 52,35 |

# Microcentrifuge tubes

## Rotilabo®-microcentrifuge tubes 5 ml

Made of **PP**, graduated. Autoclavable.

- Leak-tight closure
- Labelling space on side of vessel and lid
- Centrifugable to 5000 g
- Temperature resistant in the range -80 to 121 °C
- Vessel-∅ 15 (incl. rim 18 mm) x H 60 mm

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| colourless | **PE68.1** | 250 | 47,30 |
| black | **PE69.1** | 250 | 47,30 |

## Mµlti®-lid locks

By Sorenson. For microcentrifuge tubes 1.5/1.7 ml. Tubes are closed securely in water baths, autoclaves, ice baths, liquid nitrogen.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **T600.1** | 100 | 22,50 |

## Rotilabo®-sealing clips

For microcentrifuge tubes. Safe closure of vessels during boiling or freezing. With grip end for easy loading and removal of tubes. Reusable. Assorted colours.

| For containers | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 0,5 ml | **N216.1** | 100 | 42,95 |
| 1,5 / 2 ml | **N217.1** | 100 | 42,95 |

## SnapTwist™-reaction vials

Made of **PP**. **RNase, DNase, DNA and pyrogen free.** Autoclavable.

- **Timesaving closure:** just press to safely seal vial, twist just a ¼ turn to open.
- With clear polished surface
- Leak-proof lip seal on closure
- Conical reaction vials are centrifugable up to 20 000 x g
- Temperature stable from -90 to +100 °C

**Vials with fitted screw cap, sterile**

| Volume (ml) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1,5 | Conical, with transparent lid | **ATC4.1** | 500 | 165,55 |

**Vials without cap, non sterile**

| Volume (ml) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1,5 | Free-standing | **YK13.1** | 1000 | 56,75 |
| 1,5 | Conical | **YK14.1** | 1000 | 56,75 |
| 1,8 | Free-standing | **YK15.1** | 1000 | 56,75 |
| 1,8 | Conical | **YK16.1** | 1000 | 56,75 |

## Lids for SnapTwist™-reaction vials

Made of **HDPE**. Lid inserts for identification are optional (CK72.1ff). Non-autoclavable.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| transparent | **YK17.1** | 1000 | 65,60 |
| blue | **YK18.1** | 1000 | 65,60 |
| green | **YK19.1** | 1000 | 65,60 |
| violet | **YK20.1** | 1000 | 65,60 |
| red | **YK21.1** | 1000 | 65,60 |
| yellow | **YK22.1** | 1000 | 65,60 |
| white | **YK23.1** | 1000 | 65,60 |

## Rotilabo®-microcentrifuge tube openers

Opens and closes 0.2- to 2.2-ml-tubes. The opener only touches the outer edge of the lid thereby reducing the risk of contamination. Assorted colours.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AA94.1** | 10 | 15,60 |

# Screw Cap tubes

## Screw cap tubes, brown

Made of **PP**. Autoclavable.

- Volume 0.5 / 1.5 / 2.0 ml
- Brown screw cap tubes for storage of light-sensitive samples
- Temperature stable from -196 to 121 °C
- Conical micro-centrifuge tubes can be centrifuged up to 20 000 x g
- **RNase-/DNase-/DNA- and pyrogen free**
- Screw-on lid made of PP with silicone sealing
- Only 1¼ turns needed for speedy opening and closing of lid
- Lid inserts are also available for easy identification (see CK72.1 ff.)

**Delivery without** lids, please order separately!

| Volume (ml) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,5 | self-standing | **CK47.1** | 1000 | 79,00 |
| 1,5 | self-standing | **CK48.1** | 1000 | 79,00 |
| 1,5 | conical | **CK49.1** | 1000 | 79,00 |
| 2,0 | self-standing | **CK50.1** | 1000 | 79,00 |
| 2,0 | conical | **CK51.1** | 1000 | 79,00 |

## Screw-on lids (PP) with silicone sealing

Suitable for screw cap tubes, brown.

| Colour | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| red | attached | **CK52.1** | 1000 | 112,90 |
| white | attached | **CK53.1** | 1000 | 112,90 |

| red | loose | **CK54.1** | 1000 | 106,45 |
| white | loose | **CK55.1** | 1000 | 106,45 |

## Lid inserts

Made of **PP**. For colour-coded, easy identification of reaction vials (Art. No. CK47.1 ff, CK57.1 ff).

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue | **CK72.1** | 500 | 13,55 |
| yellow | **CK73.1** | 500 | 13,55 |
| red | **CK74.1** | 500 | 13,55 |
| white | **CK75.1** | 500 | 13,55 |
| green | **CK76.1** | 500 | 13,55 |
| assorted colours | **CK77.1** | 500 | 13,55 |

## Rotilabo®-screw cap tubes with hang-on screw lid

Made of **PP**. With hang-on (PP) screw lid with silicone seal.
**Sterile** or unsterile. Autoclavable.

- Volume: 0.5 / 1.5 / 2.0 ml
- Clear, optionally available with subdivisions and labelling space
- Only 1¼ turns are needed for speedy opening and closing of the lid
- Temperature stable from -196 to +121 °C
- Outer-∅ x total height: 13 x 47 mm
- Conical micro-centrifuge tubes can be centrifuged up to 20 000 x g
- Lid inserts are also available for easy identification (see CK72.1 ff.)
- **RNase-/DNase-/DNA- and pyrogen free**

**Microcentrifuge tubes with hang-on screw lid (separately packed) - unsterile**

| Volume (ml) | Type | Graduations | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|

# Screw Cap tubes

## Reaction vials with screw cap

Made of **PP**. **Sterile** or non sterile. Ideal for storage in freezers, applications in a boiling water bath or for centrifuging. Tight sealing due to combination of lip seal and silicone ring in cap. Single-handed opening in suitable racks (e.g. AEN2.1ff) through longitudinal grooves on the upper edge and locking system on self-standing vials.

- With graduations and large labelling space
- Quick opening and closing with only 1 1/4 turns of cap
- Conical vials, centrifugable up to 20 000 x g
- Thick-walled for high stability
- Excellent visual clarity
- Outer ∅ x overall height: 13 x 47 mm
- **RNase/DNase/DNA and pyrogen free**
- Temperature stable from -196 to +121 °C
- Autoclavable

**Vials with screw cap, sterile**

| sorted (200 pc. in each colour: yellow, red, green, blue, white) | **AEX7.1** | 1000 | 97,00 |

## Reaction tubes with screw cap

Made of **PP**. **HDPE** screw cap with **TPS** ring seal. Autoclavable.

- **Sterile**
- Conical bottomed vessels are centrifugable up to 25 000 x g
- 1.5 and 2.0 ml reaction vials with labelling space
- Temperature resistant in the range -80 to +121 °C
- Screw cap ∅ 13 mm
- **RNase-/DNase free, pyrogen-free**
- CE-IVD compliant

| Vol. (ml) | Type | Graduations | Vessel ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 0,5 | Conical | none | 8 x 47 | **XC79.1** | 200 | 40,85 |
| 0,5 | Free-standing | none | 10,5 x 48 | **XC80.1** | 200 | 40,85 |
| 1,5 | Conical | up to 1.0 ml | 10,5 x 47 | **XC81.1** | 200 | 40,85 |
| 1,5 | Free-standing | up to 1.0 ml | 10,5 x 48 | **XC82.1** | 200 | 40,85 |
| 2,0 | Conical | up to 1.2 ml | 11,5 x 47 | **XC83.1** | 200 | 40,85 |
| 2,0 | Free-standing | up to 1.2 ml | 10,5 x 48 | **XC84.1** | 200 | 40,85 |

## Reaction vials with septum screw caps

Made of **PP**.

- With graduations and labelling space
- Conical tubes, centrifugable up to 20 000 x g
- Outer ∅ x height: 11 x 44 mm
- **RNase/DNase/DNA and pyrogen free**
- Temperature stable from -196 to +121 °C
- Autoclavable

**Reaction vials, graduated, without closure**

| Volume (ml) | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1,5 | Freestanding | **AEK4.1** | 1000 | 99,40 |
| 1,5 | Conical | **AEK5.1** | 1000 | 99,40 |
| 2,0 | Freestanding | **AEK6.1** | 1000 | 90,00 |

## Screw caps with septum

Made of **PP**. Tight sealing due to integrated PTFE/silicone septum.
Easy to pierce with pipette tips or cannulas. Suitable for vials AEK4.1ff.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AEK7.1** | 250 | 107,30 |

Programme extension!

S

A 121°C

## Cryogenic vials

Made of **PP**. **Sterile** (gamma-sterilised). ∅ 12.5 mm. Autoclavable. Suitable for the storage of cell cultures, sera, blood components, bacteriological cultures and other liquids at low temperatures in fridges or nitrogen tanks. Temperature stable up to -196 °C (suitable for storing samples in the liquid nitrogen gas phase).

- **RNase/DNase/DNA and pyrogen free**
- Vertical strip => easy-grip cap
- 1¼ turn closure => fast opening and closing
- **White labelling space** and coloured cap inserts => easy sample identification (please order cap inserts separately)
- Freestanding vessels with thread on base => **suitable for single-handed use** in racks with locking system
- Cap and vessel made from same material (PP) => **uniform expansion of contents**, no danger of explosion
- High transparency => **sample is easily visible**
- Round inside bottom => contents **can be completely drained**

**With internal thread and silicone seal**

Takes up little storage space. Vials with round bottom centrifugable up to 17 000 x g

| Volume (ml) | Type | Length (mm) | ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|

# Screw Cap tubes

## Cryo tubes Cryo.s™

By Greiner Bio-One. Made of transparent **PP**, USP class VI-certified. **Sterile**. Temperature stable from -196 to +121 °C

- For sample storage at -20 °C, -80 °C and in the gas phase above $LN_2$
- Suitable for shipping via air freight
- With white, scratch-resistant label field
- CE mark (CE/IVD)
  Free of detectable DNase, RNase and human DNA
  Free of detectable endotoxins, free of zytotoxic substances
- Free of heavy metals
- Colour of screw cap: natural

**Delivery incl**. 150 (volume 1-2 ml) and/or 100 (volume 5 ml) cap inserts for additional marking of the closures.

**Inner thread, with silicone seal**

## Laboratory markers

By Marienfeld. Permanent marker suitable for nearly all surfaces made of glass, plastic and paper. Suitable for indelible labelling of microscope slides, embedding cassettes and Petri dishes.

- Ultrafine tip
- High-contrast black ink
- Writes without pretreatment of surfaces
- Waterproof, resistant to most laboratory chemicals
- Odourless
- Non-toxic
- Non-dry, long-lasting

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CET9.1** | 12 | 36,35 |

## True North® cryo vials

Made of **PP**. **Sterile.** Lid and vessel with identical ∅ (13 mm), therefore also suitable for 10 x 10 cryo box format. Suitable for storage in deep freezers or liquid nitrogen (gas phase). Temperature stable from -196 to +121 °C. Autoclavable.

- Lid with external thread and silicon seal
- With labelling space and graduations
- **RNase/DNase-free, non-pyrogenic and non-cytotoxic**

| Volume (ml) | Type | Length (mm) | Art. No. | Pack Qty. | € |

| 2 | transparent | 49 | **XT57.1** | 500 (10 x 50) | 149,45 |

## Cryo-labels on sheets

Made with acrylate. Sticks to plastic, glass or metal without drying out or peeling off. Glass and metal surfaces must be completely free of grease. Can also be used in boiling water baths, in refrigerators, under cryo-conditions (liquid nitrogen). Temperature stable from **-196 to +100 °C**. Can be removed without leaving any traces. Sheets are printable with a laser printer.

**Sheet size (US-Letter) 21.6 x 27.9 cm.**

# Syringe filters

## Rotilabo®-syringe filters

With hydrophilic or hydrophobic membranes.

**Hydrophilic membrane: Polyethersulfone (PES)**
For removing finest particles from **aqueous** solutions.

**Hydrophilic membrane: Cellulose mixed ester (CME = Cellulose acetate and -nitrate)**
For clear filtration of **aqueous** solutions.

**Hydrophilic membrane: Polyvinylidene fluoride (PVDF)**
For clear filtration of **aqueous and slightly organic** solutions.

**Hydrophilic membrane: Nylon**
For clear filtration of **aqueous and organic** solutions.

**Hydrophobic membrane: Polytetrafluoroethylene (PTFE)**
For clear filtration of **organic** solutions and for air filtration.

**Technical specifications:**

| Nominal-∅ (mm) | 13 | 25 | 33 |
|---|---|---|---|
| Sample capacity (ml) | up to 10 | up to 100 | up to 100 |

## Rotilabo®-syringe filters

**Sterile** (individually packed), **∅ outer 33 mm**.
Luer-Lock inlet/Luer outlet.

**Polyethersulfone (PES):**
For ultra-quick filtration of tissue culture media, -additives and other aqueous solutions.

**Cellulose mixed ester (CME):**
For filtration of additives, tissue culture media, antibiotics.

**Polyvinylidene fluoride (PVDF):**
For filtration of protein solutions, tissue culture media, additives, antibiotics, alcoholic solutions.

# Syringe filters

## Rotilabo®-syringe filters

With pressure and chemical resistant casings made of PP or PC.
**Sterile** (individually packed) or non-sterile.

**Regenerated cellulose (RC)**
Hydrophilic membrane with low non-specific protein adsorption (<10 µg/cm²). For filtration of biological solutions as well as sample preparation and degassing of eluants for HPLC.
Good resistance to aqueous and organic solutions.

**Polytetrafluoroethylene (PTFE)**
Hydrophobic membrane for filtration of aggressive chemicals, acids and nonpolar solvents. Low resistance to gas flow allows applications in air and gas filtration (e.g. for ventilation tasks and sterile gas exchange).

**Polyvinyl difluoride (PVDF)**
Slightly hydrophobic membrane for clear and sterile filtration of organic and partially organic solutions. Protein adsorption 125 µg/cm².

**Polyamide (Nylon)**
For filtration of HPLC and GC solvents as well as for the clarification and sterile filtration of aqueous, alkaline and organic solutions.
Hydrophilic, resistant to many solvents. High mechanical stability.

**Polypropylene (PP)**
Low-hydrophobic all-round membrane for aqueous and organic media.

**Polyether sulfone (PES)**
Hydrophilic membrane with low protein binding (< 20 µg/cm²) and high flow rates. Suitable for aqueous and partially organic media, e.g. for biological sample preparation.

**Polyester (PET)**
Hydrophilic membrane for aqueous and organic solvents.
For HPLC sample preparation and for cell culture applications.

**Cellulose ester composite (CME)**
Hydrophilic membrane with high non-specific adsorption capacity for preparation of aqueous media samples and for separation of microbiological substances (bacteria, fungi, etc.).

**Cellulose acetate (CA)**
Hydrophilic membrane with very low protein adsorption (3.8 µg/cm²) for biological samples (e.g. enzyme solutions, biological macromolecules) as well as for clear and sterile filtration of aqueous solutions.

**Technical specifications:**

| **Membrane ∅ (mm)** | **15** | **25** | **30** |
|---|---|---|---|

# Syringe filters

121°C

## Rotilabo®-syringe filters Mini-Tip

**Unsterile, 15 mm, housing made of PP, ultrasonic welded, colourless.**
Ideally suited for HPLC-samples. The Mini-Tip opening is ideal for filtering in very small sample containers or vials.

**Regenerated cellulose (RC)**
Hydrophilic membrane with low non-specific protein adsorption (<10 µg/cm²). For filtration of biological solutions as well as sample preparation and degassing of eluants for HPLC.
Good resistance to aqueous and organic solutions.

**Polytetrafluoroethylene (PTFE)**
Hydrophobic membrane for filtration of aggressive chemicals, acids and nonpolar solvents. Low resistance to gas flow allows applications in air and gas filtration (e.g. for ventilation tasks and sterile gas exchange).

**Polyvinyl difluoride (PVDF)**
Slightly hydrophobic membrane for clear and sterile filtration of organic and partially organic solutions. Protein adsorption 125 µg/cm².

**Polyamide (Nylon)**
For filtration of HPLC and GC solvents as well as for the clarification and sterile filtration of aqueous, alkaline and organic solutions.
Hydrophilic, resistant to many solvents. High mechanical stability.

**Cellulose acetate (CA)**
Hydrophilic membrane with very low protein adsorption (3.8 µg/cm²) for biological samples (e.g. enzyme solutions, biological macromolecules) as well as for clear and sterile filtration of aqueous solutions.

**Technical specifications:**

## Cameo™ syringe filters

**Non-sterile**.

**Nylon**
Hydrophilic. Good chemical resistance, very low extractable substances content. For the filtration of organic solvents, for HPLC sample preparation and for sterile and clear filtration of biological media.
High protein binding (approx. 120 µg/cm²).

**Cellulose acetate (CA)**
Hydrophilic. Very low protein binding (approx. 3.8 µg/cm²). For sterile filtration of biological media (proteins, enzymes, buffer, cell culture etc.), as well as for particle extraction from aqueous and alcohol-based solutions.

**PTFE**
Hydrophobic. Excellent chemical resistance.
For filtration of aggressive substances, solvent, gases and aerosols.

**Technical specifications:**

## Millex®-filter units

By MERCK MILLIPORE.

**Hydrophilic PES membrane**
- For filtration of aqueous solutions

**Durapore® membrane (hydrophilic PVDF)**
- For clear filtration of aqueous and slightly organic solutions, membrane has very low protein binding ratios

**Hydrophilic nylon membrane**
- For clear filtration of aqueous and organic solutions

**Hydrophilic LCR (PTFE) membrane**
- Low protein binding for clear filtration of aqueous and organic solutions

**Hydrophobic Fluoropore (PTFE) membrane**
- For clear filtration of organic solvents

**Technical specifications:**

## Millex®-filter units 33 mm

By MERCK MILLIPORE.
**CE-certified, sterile** (individually packed).

**Mixed Cellulose Ester (MCE) membrane**
- Application: 0.2 µm filter units for the sterilisation of aqueous solutions, large pore sizes for prefiltration and clear filtration
- Colour code: blue
- Working capacity: max. 100 ml

**Durapore® membrane (hydrophilic PVDF)**
- Application: sterilisation of aqueous and protein solutions, syringe filter with lowest protein binding ratio
- Colour code: yellow
- Working capacity: max. 100 ml

**Millipore Express® membrane (PES)**
- Application: sterilisation of tissue culture media and additives, buffers, protein solutions, virus suspensions, DNA and other aqueous solutions
- Colour code: green
- Working capacity: max. 200 ml

# CHROMAFIL® syringe filters

By Macherey-Nagel.

- For clear or sterile filtration of liquids or gases, as well as for preparation of samples for use in HPLC, GC, ICP, AAS, TOC, DOC, IR, NMR, photometry, spectroscopy, etc.
- Compacted **PP** housing with very low extractable substances content and good chemical resistance.
- Autoclavable at 121 °C and 1.1 bar for 30 min.

### Technical specifications:

| **Membrane ∅ (mm)** | **3** | **15** | **25** |
|---|---|---|---|
| Outer ∅ (mm) | approx. 6 | approx. 25 | approx. 30 |
| Sample volume (ml) | ≤1 | 1-5 | 5-100 |
| Dead capacity (µl) | approx. 5 | approx. 35 | approx. 80 |
| Max. inlet pressure (bar) | CHROMAFIL®: 6; CHROMAFIL® Xtra: 12 | | |
| Max. operating temperature (°C) | 55 | | |
| Filtration area ($cm^2$) | approx. 0.07 | approx. 1.6 | approx. 4.9 |
| Connection | Luer lock inlet/Luer or Mini-Spike outlet (MS) | | |

## CHROMAFIL® CA and CA Xtra

By Macherey-Nagel. Hydrophilic cellulose acetate membrane for filtration of aqueous solutions. Ideal for use with biological macromolecules, water soluble oligomers and polymers.
Extremely low protein binding capacity (21 µg per 25-mm filter).

**CA,** unsterile

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| CA-20/25 | 0.20 | 25 | **XH38.1** | 100 | 122,00 |
| CA-20/25 | 0.20 | 25 | **XH38.2** | 400 | 488,00 |

## CHROMAFIL® PVDF and PVDF Xtra

By Macherey-Nagel. Hydrophilic PVDF membrane for polar and nonpolar solutions, water soluble oligomers, proteins and other polymers.
Protein binding capacity: 82 µg per 25-mm filter. Unsterile.

**PVDF**

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| PVDF-20/15 MS | 0.20 | 15 | **XH69.1** | 100 | 122,00 |
| PVDF-45/15 MS | 0.45 | 15 | **XH70.1** | 100 | 122,00 |

**PVDF Xtra**

Uncoloured, low bleed 100 % PP housing for method validation and certification. Imprint for quick and easy identification of membrane type, diameter and pore size.

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Xtra PVDF-20/25 | 0.20 | 25 | **XH71.1** | 100 | 122,00 |
| Xtra PVDF-45/25 | 0.45 | 25 | **XH72.1** | 100 | 122,00 |

## CHROMAFIL® PES Xtra

By Macherey-Nagel. Hydrophilic PES membrane for aqueous and slightly organic solutions. Very low adsorption of proteins, good resistance to acids and bases. Protein binding capacity: 29 µg per 25-mm filter.
Uncoloured, low bleed 100 % PP housing for method validation and certification. Imprint for quick and easy identification of membrane type, diameter and pore size. Unsterile.

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| PES-20/25 | 0.20 | 25 | **XH73.1** | 100 | 122,00 |
| PES-20/25 | 0.20 | 25 | **XH73.2** | 400 | 488,00 |
| PES-45/25 | 0.45 | 25 | **XH74.1** | 100 | 122,00 |
| PES-45/25 | 0.45 | 25 | **XH74.2** | 400 | 488,00 |
| PES-500/25 | 5.0 | 25 | **XH75.1** | 100 | 122,00 |
| PES-500/25 | 5.0 | 25 | **XH75.2** | 400 | 488,00 |

## CHROMAFIL® PET and PET Xtra

By Macherey-Nagel. Hydrophilic PET all-round membrane for polar and nonpolar solutions. Ideal for filtering eluents from water and organic solvents for HPLC and for the preparation of samples for TOC/DOC determination.
Non-cytotoxic, does not inhibit the growth of micro-organisms and higher eucaryotic cells. Unsterile.

**PET**

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| PET-20/15 MS | 0.20 | 15 | **P300.1** | 100 | 122,00 |

| PET-45/25 | 0.45 | 25 | **XH77.2** | 400 | 488,00 |

## CHROMAFIL® GF/PET

By Macherey-Nagel. Hydrophilic PET all-round membrane for polar and nonpolar solutions. Ideal for filtering eluents from water and organic solvents.
Recommended for solutions with a high suspended matter load or high viscosity solutions; the glass-fibre membrane removes coarse particulate matter and prevents clogging of the membrane. This improves filtration efficiency, increases filtrate yield and aids clarification of solutions with a high particulate matter load. Unsterile.

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| GF/PET-20/25 | 1.0/0.20 | 25 | **EE78.1** | 100 | 159,00 |
| GF/PET-45/25 | 1.0/0.45 | 25 | **EE79.1** | 100 | 159,00 |

## CHROMAFIL® Nylon PA and PA Xtra

By Macherey-Nagel. PA (Nylon) membrane for the filtration of medium polar organic-aqueous liquids. Unsterile.

**PA**

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| AO-20/3 | 0.20 | 3 | **XH53.1** | 100 | 148,00 |

| AO-45/25 | 0.45 | 25 | **XH58.2** | 400 | 488,00 |

**PA Xtra**

Uncoloured, low bleed 100 % PP housing for method validation and certification. Imprint for quick and easy identification of membrane type, diameter and pore size.

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| PA-20/25 | 0.20 | 25 | **XH59.1** | 100 | 122,00 |
| PA-20/25 | 0.20 | 25 | **XH59.2** | 400 | 488,00 |
| PA-45/25 | 0.45 | 25 | **XH60.1** | 100 | 122,00 |
| PA-45/25 | 0.45 | 25 | **XH60.2** | 400 | 488,00 |

## CHROMAFIL® PTFE and PTFE Xtra

By Macherey-Nagel. Hydrophobic PTFE membrane for nonpolar liquids and gases. Highly resistant to solvents, acids and bases. Unsterile.
**Note:** the membrane can be wetted with water by rinsing with alcohol and subsequently with water.

**PTFE**

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|

# Syringe filters

## SPARTAN®-syringe filters

By Whatman. Certified for HPLC.
**Hydrophilic.** Specially developed for purifying HPLC-samples.
Ideal for filtering aqueous and organic solutions.

**Technical specifications:**

| **Membrane-∅ (mm)** | **13** | **30** |
|---|---|---|
| Sample capacity (ml) | max. 5 | max. 100 |
| Dead capacity (µl) | 10 | 50 |
| Filter surface ($cm^2$) | 0.75 | 5.7 |
| Max. working pressure (bar) | 7.0 | |
| Max. working temperature ( °C) | 80 | |
| Connection | Luer-Lock inlet / Luer outlet | |

**Nominal-∅ 13 mm, ∅ outer 17 mm**

| Pore size (µm) | Membrane material | Colour code | Material housing | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| 0,2 | reg. Cellulose | dark brown | PP | **5989.2** | 100 | 204,00 |
| 0,45 | reg. Cellulose | light brown | PP | **5992.2** | 100 | 204,00 |

**Nominal-∅ 30 mm, ∅ outer 34 mm**

| Pore size (µm) | Membrane material | Colour code | Material housing | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|

| 5 | PTFE | grey | PP | **6000.2** | 100 | 320,00 |

## Millex®-PTFE-filter units IC

By MERCK MILLIPORE. **IC-certified.**
Specially designed for sample preparation in ion chromatography.

- Low extractable substances content
- Low-binding hydrophilic PTFE membrane
- For clear filtration of aqueous and slightly organic solutions

**Technical specifications:**

| **Membrane ∅ (mm)** | **13** | **25** |
|---|---|---|
| Type | **unsterile** | |
| Housing material | HDPE | |
| Sample volume (ml) | up to 10 | up to 100 |
| Dead volume (µl) | < 25 | < 100 |
| Max. inlet pressure (bar) | 7 | |
| Max. working temperature (°C) | 45 | |
| Inlet connection | Luer-Lock | |
| Outlet connection | Luer | |

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |

## PTFE-inline filter

For gas filtration, ventilation and venting as well as for filtration of large amounts of liquid.

**Technical specifications:**

| | |
|---|---|
| Housing material | PP, ultrasonically welded |
| Diaphragm | PTFE (hydrophobe) |
| Filtration area | 17.35 $cm^2$ |
| Inlet and outlet connection | staged hose connection (∅ 6-12 mm) |

**Non-sterile**

| Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0.2 | 47 | **HLL7.1** | 50 | 375,20 |
| 0.45 | 47 | **HLL8.1** | 50 | 375,20 |

**Sterile,** individually packed

| Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0.2 | 47 | **HLL9.1** | 50 | 418,20 |
| 0.45 | 47 | **HLN0.1** | 50 | 418,20 |

## Millex®-PTFE-filter units

By MERCK MILLIPORE. For sterile filtration of gases, sterile venting of containers and for sterilisation and clear filtration of organic solutions. Also suitable for preventing ingress of fluid contamination in following pumps an other instruments.

**Technical specifications:**

| | |
|---|---|
| Version | **unsterile** |
| Housing material | PP |
| Membrane | PTFE |
| Filtration surface | 19.6 $cm^2$ |
| Max. temperature | 121 °C |
| Max. pressure | 4 bar |
| Input and output connection | graded hose connection (Latex) (∅ 6-13 mm) with Luer-cone inside |

| Type | Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Millex®-FG | 0,22 | 50 | **CY06.1** | 10 | 129,00 |
| Millex®-FH | 0,45 | 50 | **CY07.1** | 10 | 129,00 |
| Millex®-FA | 1.0 | 50 | **CY08.1** | 10 | 129,00 |

## Millex®-fibre-glass filter units

By MERCK MILLIPORE. Ideal for prefiltrering difficult-to-filter solutions and liquids with high particle densities. Protects downstream membranes from rapid blocking. Retention range ca. 2,0 µm.

**Technical specifications:**

| **Membrane-∅** | **25 mm** | **50 mm** |
|---|---|---|
| Model | **unsterile** | |
| Filtration volume (ml) | 100 | 4000 |
| Housing material | PVC | |
| Membrane | Fibre-glass | |
| Filtration surface ($cm^2$) | 3.9 | 19.6 |
| Dead volume (µl) | <100 | <1000 |
| Max. working temperature (°C) | 45 | |
| Max. pressure (bar) | 5 | 4.1 |
| Input connection | female Luer-Lock inside | graded hose connection with Luer-cone inside |
| Output connection | male Luer-cone outside | graded hose connection (∅ 6-13 mm) with Luer-cone inside |

| Type | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Millex®-AP | 25 | **CY09.1** | 50 | 110,75 |
| Millex®-AP | 50 | **CY10.1** | 10 | 60,75 |

# Filter units

## Millex®-HPF filter units

By MERCK MILLIPORE.
**For clear filtration of solutions with a high particle load prior to instrument based assay.**

- With graduated glass fibre prefilter (10.0 to 0.7 µm)
- Two to four times the throughput of syringe filters without a prefilter
- Polyethylene housing with a low extractable substances content

**Hydrophilic nylon membrane**
- With glass fibre prefilter for clear filtration of aqueous and slightly organic solutions with a high particle load

**Durapore® membrane (hydrophilic PVDF)**
- Very low protein binding
- With glass fibre prefilter for clear filtration of protein solutions with a high particle load

**Hydrophilic PTFE membrane**
- Low protein binding
- With glass fibre prefilter for clear filtration of aqueous and organic solutions with a high particle load

**Technical specifications:**

| | |
|---|---|
| **Membrane ∅** | **25 mm** |
| Type | **unsterile** |
| Housing material | HDPE |
| Specimen volume | up to 100 ml |
| Dead volume | < 250 µl |
| Filtration surface area | 3.9 $cm^2$ |
| Max. inlet pressure | 7 bar |
| Max. working temperature | 45 °C |
| Inlet connection | Luer-Lock |
| Outlet connection | Luer |

| Type | Pore size (µm) | Membrane material | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Millex®-GN | 0.2 | Nylon | **XE30.1** | 50 | 186,00 |
| Millex®-HN | 0.45 | Nylon | **XE31.1** | 50 | 204,25 |
| Millex®-HV | 0.45 | PVDF | **XE32.1** | 50 | 204,25 |
| Millex®-LLG | 0.2 | PTFE | **XE33.1** | 50 | 190,30 |
| Millex®-LCR | 0.45 | PTFE | **XE34.1** | 50 | 188,15 |

## Millex®-PES-filter units

By MERCK MILLIPORE. Express® (PES) membranes, with low protein binding and high flow speed. For sterile filtration of cell culture media or other aqueous solutions. Filling cone optional, reduces the risk of contamination.

**Technical specifications:**

| | |
|---|---|
| Version | **sterile** |
| Housing material | MBS |
| Membrane | PES |
| Filtration surface | 19.6 $cm^2$ |
| Dead volume | < 1000 µl after emptying with air |
| Max. temperature | 45 °C |
| Max. pressure | 3.4 bar |
| Input and output connection | graded hose connection (∅ 6-13 mm) and Luer-cone inside |

| Type | Membrane ∅ (mm) | Filtration-volume (l) | Pore size (µm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| Millex®-GP | 50 | 4 | 0,22 | **CY11.1** | 10 | 133,30 |
| Millex®-GP with filling cone | 50 | 4 | 0,22 | **CY12.1** | 10 | 148,35 |

## Sterivex™-filter units

By MERCK MILLIPORE. For sterile filtration of aqueous liquids for volumes up to 1 or 2 l. Filter units can be operated with syringes or hose pumps. Filling cone optional, to reduce the risk of contamination.

**Technical specifications:**

| Model | **sterile (gamma sterilised)** |
|---|---|
| Housing material | Eastar® |
| Filtration surface | 10 $cm^2$ |
| Dead volume | < 200 µl after emptying with air |
| Max. temperature | 45 °C |
| Max. pressure | 3 bar |
| Input connection | female Luer-Lock |
| Output connection | with or without filling cone (male Luer-Lock) |

**Durapore® (PVDF) membrane** with extremely low protein binding, filtration volume 1 l.

| Type | Pore size (µm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Sterivex™-GV with filling cone | 0,22 | **CT79.1** | 10 | 141,90 |
| Sterivex™-GV without filling cone | 0,22 | **CT80.1** | 15 | 172,00 |
| Sterivex™-HV with filling cone | 0,45 | **CT81.1** | 10 | 141,90 |
| Sterivex™-HV without filling cone | 0,45 | **CT82.1** | 15 | 172,00 |

**Millipore Express® (PES) membrane** with low protein binding and high rate of flow, filtration volume 2 l.

| Type | Pore size (µm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Sterivex™-GP with filling cone | 0,22 | **CT83.1** | 10 | 132,25 |
| Sterivex™-GP without filling cone | 0,22 | **CT84.1** | 15 | 172,00 |

## Steripak™-filter units

By MERCK MILLIPORE. **For sterile filtration of volumes up to 20 l.** With Millipore Express® (PES) membranes with high rates of flow and low protein binding. **Sterile** and ready-to-use in operations with hose pumps or pressure chambers.

- The filling cone on the output side of unit makes the sterilisation process safer
- Manual air vent prevent air blocking of membrane
- For sterile filtration of tissue culture media, buffers and other aqueous solutions

**Technical specifications:**

| Version | **sterile** |
|---|---|
| Housing material | SAN |
| Membrane | PES (hydrophilic polyether sulfone) |
| ∅ | 76 mm |
| Dead volume | < 2700 µl after emptying with air |
| Max. temperature | 45 °C |
| Max. pressure | 5.2 bar (in direction of flow) |
| Input connection | graded hose connection (∅ 6-8 mm) |
| Output connection | graded hose connection and filling cone |

**Millipore Express® (PES) membrane**
With low protein formation and high flow speed, sterile.

| Filtrationvolume (l) | Pore size (µm) | Filtration surface ($cm^2$) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 10 | 0,22 | 100 | **CT85.1** | 3 | 167,70 |
| 20 | 0,22 | 200 | **CT86.1** | 3 | 207,50 |

# Centrifuge filter systems

## Ultrafree filtration systems for laboratory centrifuges

By MERCK MILLIPORE. **Sterile** or unsterile. Centrifuge filter systems for sample volumes of 0.5 or 2.0 ml. Use in fixed-angle rotors for 1.5 or 15 ml sample tubes. Filter unit and collector tube are made of PP.

- **Hydrophilic Durapore® PVDF membrane:** extremely low protein binding. Suitable for removal of particulate matter and precipitate from aqueous samples, and for protein and nucleic acid applications
- **Hydrophilic PTFE membrane:** for removal of precipitate from solvent-based samples

**Technical specifications:**

| Type | Ultrafree-MC | Ultrafree-CL |
|---|---|---|
| Volume of filter insert, max. (ml) | 0.5 | 2 |
| Volume of collection tube (ml) | 1.5 | 5 |
| Centrifugable to | 12000 x g | 5000 x g |
| Dead volume (µl) | 5 | 30 |
| Membrane surface area ($cm^2$) | 0.2 | 0.8 |
| Outer ∅ (mm) | 11 | 16.3 |
| Length (mm) | 45 | 77 |

**Procedure:**
- Open the attached lid of the filter unit
- Place the insert in the housing
- Close the filtration unit and place it in the centrifuge
- On completion of centrifuging, remove the filtration unit, open the lid and remove the insert
- The insert contains the residue and the sealable housing contains the filtrate

**Ultrafree-MC to 0.5 ml, PVDF membrane**

| Pore size (µm) | Design | Colour code | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|

## Steriflip®-vacuum filter units

By MERCK MILLIPORE. **Sterile filter units for volumes of up to 50 ml.**

- **Millipore Express® PES membrane** with high flow rate and low protein binding: for routine sterile filtration of tissue culture media, sera,
- buffers and other aqueous solutions
- **Durapore® PVDF membrane** with very low protein binding: For sterile and clear filtration of aqueous solutions
- **Hydrophilic Nylon mesh filter:** for removing coarse particulate matter

**Technical specifications:**

| Type | sterile |
|---|---|
| Housing material | MBS/PP (modified acrylic/PP) housing |
| Filtration area | 7 $cm^2$ |
| Filtration volume | max. 50 ml |
| Membrane surface area ($cm^2$) | 0.2 |
| Dead volume | 600 µl |
| Max. operating temperature | 45 °C |

**Procedure:**
- Connect the filter unit to the centrifuge tube containing the sample. Rotate the filter unit through 180° and apply vacuum.
- An alternative option: screw the funnel attachment onto the sterile filter unit, fill with sample and apply vacuum
- No need for filtrate transfer - Steriflip® filter unit filters directly into a sterile 50 ml centrifuge tube

**Delivery incl.** sterile filter units with connected 50 ml centrifuge tube and lid (each packed separately) and a single tube holder (blue).
The 50 ml centrifuge tube and funnel attachment are optional (please order separately).

| Membrane material | Pore size (µm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| PES | 0.22 | **X348.1** | 25 | 168,80 |
| PVDF | 0.22 | **XE99.1** | 25 | 190,30 |

Accessories:

| | | | |
|---|---|---|---|
| 50 ml centrifuge tube | **N462.1** | 500 | 131,15 |
| Funnel attachment, 50 ml, PP, unsterile | **XH05.1** | 25 | 109,65 |

## Steritop™-bottle top filters

By MERCK MILLIPORE.

- Casing made of polystyrene
- **Sterile**
- For sterile filtration of tissue culture media, serum, additives, buffers and other aqueous solutions
- Low protein binding
- High flow rates, short filtration times
- Can be used with screw thread bottles 45 mm suitable for vacuum or GL 45
- Filtration surface 40 $cm^2$

**MILLIPORE Express® PLUS (PES)-membrane**

| Pore size (µm) | Funnel capacity (ml) | Art. No. | Pack Qty. | € |

## Stericup®-vacuum filter systems

By MERCK MILLIPORE.

**Combination of bottle top filter and collecting bottle.**

- For routine sterile filtration of tissue culture media, serum, additives and other aqueous solutions
- Low protein binding
- High flow rates, short filtration times
- For volumes of 150 to 1000 ml
- The compact form makes it ideal for use under laminar flow conditions
- 0.1 µm pore size for mycoplasma-precipitation
- Bottles are stackable

**Technical specifications:**

| Membrane | Express® Plus Membrane (PES) | Durapore® (PVDF)-Membrane |
|---|---|---|
| Pore size (µm) | 0.1*/ 0.22 | 0.22 / 0.45 |

# Bottle-Top filter systems

## Filter units with cellulose nitrate membrane

By Nalgene®. Triton-free cellulose nitrate membrane **(CN)** with excellent active surface properties and high flow rates for aqueous solutions. For cold-sterilization, clear-filtration, pre-filtration and ultra-filtration of buffers, microbiological nutrient media and other aqueous solutions.

**Design:**
- Green colour coding
- Filter units made of PS
- Graduated filter tops and filter bottles
- With quick-connect tube adapter and cotton stopper
- Leakproof screw-cap
- Filtration units are non pyrogenic, non cytotoxic and **sterile**

*each box contains 12 glass fiber preliminary filters

## Filter units with SFCA-membrane

By Nalgene®. Membranes made from cellulose acetate that is free of active surface agents (SF**CA**) with extremely low protein binding and low viscosity. SFCA is ideal when working with tissue culture and when filtering protein-containing serum as there are no active surface agents in the membranes which could have a toxic effect on the cells.

**Design:**
- Yellow colour coding
- Filter units made of PS
- Graduated filter tops and filter bottles
- With quick-connect tube adapter and cotton stopper
- Leakproof screw-cap
- Filtration units are non pyrogenic, non cytotoxic and **sterile**

*each box contains 12 glass fiber preliminary filters

# Bottle-Top filter systems

## Filter units with PES-membrane

By Nalgene®. With hydrophilic Polyethersulfone membranes **(PES)** for biological sterile filtrations. Low protein binding properties, high chemical stability and high flow rates. No undesired substances are released in the media as the membranes contain no active surface agents or softeners.

**Design:**
- Blue colour coding
- Filter units made of PS
- Graduated filter tops and filter bottles
- With quick-connect tube adapter and cotton stopper
- Leakproof screw-cap
- Filtration units are non pyrogenic, non cytotoxic and **sterile**

*with Supor® PES-Membrane

## Filter units with nylon membrane

By Nalgene®. Suitable for sterile filtration of nutrient media or sensitive cell and tissue cultures. Alcohol-resistant **nylon** membranes with extremely low content (<0.5 weight percentage) of extractable substances and high flow rates at short filtration times. Hydrophilic and free from active surface agents.

**Design:**
- Red colour coding
- Filter units made of PS
- Graduated filter tops and filter bottles
- With quick-connect tube adapter and cotton stopper
- Leakproof screw-cap
- Filtration units are non pyrogenic, non cytotoxic and **sterile**

*each box contains 12 glass fiber preliminary filters

DURAN WHEATON KIMBLE

Material DURAN®

121°C

## Filters made of DURAN®

- Interchangeable filter plates available in 4 different porosities
- Easy and safe removal of filtered medium
- Filter plates can be cleaned on both sides
- Attention: insert disc between two Viton®-seals
- Optional: Slit sieve plates can be inserted into 250 ml filters to hold membrane and paper filters

**Delivery incl.** Filter attachment made of DURAN® with PP funnel and 2 Viton®-sealing gaskets.

Please order filter plates separately.

## 47 mm vacuum filtration unit

By Wheaton. Made of borosilicate glass according to ASTM E 438 1 Type I, Class A. For filtration of volumes up to approx. 1 litre, e.g. in microbiology or particle analysis. For filter diameters of 47 mm. Autoclavable.

**Delivery incl.** 300 ml funnel attachment, funnel bottom section with glass frit (porosity 40-60 µm) as filter support, aluminium bracket and silicon stopper. Please order flask separately.

## Vacuum filter system GV 050/0

By Whatman. Made of DURAN®. Non-corrosive, biologically inert and autoclavable to 121 °C and 1.1 bar overpressure (20 mins).
**For filter-∅ 47-50 mm** and prefilter ∅ 37 mm. Filtershaft-∅ ~14.75 mm.

**Applications:** in analytic biochemical and radiochemical operations or for particle control in micro-electronics.

**Delivery incl.** 250 ml vessel, fritted glass disc as filter support, glass support, spring clamp, a rubber lid and PTFE-ring.

| Art. No. | Pack Qty. | € |

# Filter units and filter holder

Programme extension!

DURAN WHEATON KIMBLE

121°C

## Vacuum filtration units

Made of borosilicate glass. For coarse and membrane filtration, residue analysis, particulate monitoring, microbiology as well as filtration of alkaline and aggressive media.
Suitable for use with filter papers, membrane filters or glass filters.
Temperature stable up to +180 °C. Autoclavable.

- Parts in contact with media are made of glass and PTFE, suitable for universal use, biologically inert and corrosion resistant
- Scaled reservoir for easier metering and evaluation
- Plates are optionally available in porosity grades of 1-4, which means they are also suitable for analytical filtration
- Fast and easy to clean

**Technical specifications:**

| Model | Filtration unit 1000 ml | Filtration unit 2000 ml |
|---|---|---|
| Funnel capacity (ml) | 250 | 500 |
| Bottle capacity (ml) | 1000 | 2000 |
| Filter size ∅ (mm) | 47 / 50 | |
| Connections | Olive, suitable for hoses of 5-8 mm inner ∅ | |

## Vacuum filter units - Series MV 050

By Whatman. Made of stainless steel, chemically resistant against a lot of aqueous and organic solutions.
For **membrane filter 47/50 mm** and pre-filter 40 mm.
The devices have a punched sieve to support filtering.
Alternative use of steel frits, please order separately. Autoclavable.

| Type | Funnel capacity (ml) | ∅ x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| **MV 050/0**, with spring clamp | 500 | 110 x 320 | **CC09.1** | 1 | 889,00 |
| **MV 050A/0**, with quick-close | 500 | 110 x 320 | **CC10.1** | 1 | 972,00 |

**Accessories:**

| | | | |
|---|---|---|---|
| Stainless steel frit with ring, pore size 80 µm | **CC12.1** | 1 | 85,50 |

## Suction dome

With tubing olive made of PP and stoppers made of natural rubber, with 9-mm-bore hole. Screw plug sizes GL 45. Autoclavable to 121 °C.
Vacuum-/compression-proof screw thread bottle please order separately.

| DURAN®-pressure plus-screw thread bottle, 250 ml | **CK34.1** | 1 | 8,75 |
| DURAN®-pressure plus-screw thread bottle, 500 ml | **CK35.1** | 1 | 11,70 |
| DURAN®-pressure plus-screw thread bottle, 1000 ml | **H995.1** | 1 | 13,90 |

## Multiple vacuum filter units AS-series

By Whatman. Stainless steel holder for 3 or 6 attachments, complete with 500 ml-stainless steel attachments. Each attachment can be operated with a separate stopcock. With quick-lock system. The devices are heat-stable up to 180 °C and autoclavable. Only suitable for vacuum, connection via tube olive for tubes with inner-∅ 8-10 mm.
For **filter 47/50 mm** and 40 mm prelimenary filter.
**Delivery incl.** punched sieve to support filtering.
**Applications:** microbiological quality control, residual analysis and series filtration.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|

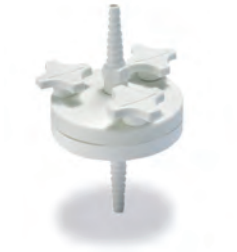
| Six-fold filter unit AS 610/3 | **CC33.1** * | 1 | 5806,00 |

* Longer delivery times possible. Please check with our Sales Department.

# Filter units and filter holder

## Filter holders for syringes



By Whatman. Made of **polysulfone** or **stainless steel**.
With silicone-O-ring. Suitable for repeated use with membrane-, paper-, or glass fiber round filters.
Maximal presure laod 7 bar.
Temperature stable: Polysulfone 180 °C; Stainless steel 200 °C.
Connections: Luer or tubing olive (outer-∅ 11 mm), unscrewble.
**Application:**
For clear and sterile filtration of biological media, reagents and buffer solutions as well as for aqueous solutions and gases.

**Polysulfone**

## In-Line filter holder

By MERCK MILLIPORE.
Made of reinforced **PP**, **Nylon** hand knobs. For 47 mm filter discs.
For pressure filtration of liquids or gases.
- Suitable for multiple use
- With stepped hose connectors

**Technical specifications:**

| | |
|---|---|
| Filter ∅ | 47 mm |
| Filtration area | 13.8 $cm^2$ |
| Max. inlet pressure | 5.5 bar |
| Max. working temperature | 70 °C |
| Dimensions: L x ∅ | 12 x 7.6 cm |
| Prefilter ∅ | 42 mm (thick depth prefilter) or 47 mm (membrane filter) |
| Inlet/outlet fittings | 1/4″ NPTF: connector for 6 mm to 9.5 mm tubing ID |

| Art. No. | Pack Qty. | € |

## Syringe filter adapters

Made of **PTFE**. No release of trace elements into the media to be filtered. Filter membrane can be replaced easily by simply unscrewing it. Luer-Lock connection on both sides. Pressure resistant to max 2 bar. Autoclavable. Anti-adhesive surface enables easy cleaning.
Please order filter membranes separately.

| Filter membrane ∅ (mm) | Filter surface ($cm^2$) | Outer ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 13 | 0,78 | 21 | **Y933.1** | 1 | 168,80 |
| 25 | 3,80 | 34 | **Y934.1** | 1 | 177,40 |

## Flow-through filters

Made of **PTFE**. Suitable for overpressure or vacuum up to about 5 bar. No release of trace elements into media to be filtered. Filter membrane can be replaced easily by unscrewing the sample funnel. Plastic tubing can be connected with olives. Matching adapter for 2 x tube sizes included. Autoclavable. Anti-adhesive surface allows easy cleaning.
**Delivery without** filter membranes, please order separately.

## Membrane filters

Hydrophilic. **Sterile** or unsterile.

**Nitrocellulose**
High flow rates. Biologically inert, non-cytotoxic. Maximum usage temperature 180 °C. Protein binding approx. 160 µg/$cm^2$. Autoclavable. Wide range of applications: gravimetric analysis, particle analysis, microbiological analysis, sterile filtration of aqueous solutions.

**Nylon**
Very low extractable substances content, wetting agent free. Good chemical resistance, polyester reinforcement for higher mechanical stability. Protein binding approx. 120 µg/$cm^2$. Maximum usage temperature 180 °C. Application: solvent filtration (HPLC), sample preparation (HPLC, GC), sterile filtration of aqueous and organic solutions.

**Track etched polycarbonate**
Exact pore size, very smooth surface. Very low extractable substances content. Low protein binding <5 µg/$cm^2$, incineration residue approx. 0.92 µg/$cm^2$. Maximum usage temperature 140 °C. Autoclavable. Application: particle analysis, microscopy, electron microscopy.

# Membrane filters

## Cellulose mixed ester membrane filters

By Whatman. Versatile hydrophilic membrane made of mixed ester of cellulose acetate and cellulose nitrate. **Applications:** e.g. sterile and clear filtration, particle separation and analysis, microbiological analysis, counting germs, yeasts, fungi and particles, foodstuffs biology, airborne pollutant measurements etc.
Max. usage temperature 130 °C. Autoclavable.

- High dirt absorbing capacity prevents rapid clogging of the membrane
- Uniform membrane structure ensures high flow rates
- Very smooth and even surface aids microscopic evaluation
- Biologically inert and free of surfactants

Gridded membranes **(line spacing 3.1 mm)** make it easier to count particles and microorganisms; the dyes used are non-toxic and free of antibacterial substances.

**Unsterile**

**Danger**

## Cellulose mixed ester (CME) membrane filters

By MERCK MILLIPORE. **Standard membrane filter hydrophilic for a broad range of applications**

- **Application:** Sewage filtration and sterile filtration of liquids, air and particle analysis, contamination analysis of fuel and hydraulic liquids to determine particle load, biological applications e.g. harvesting or washing cells, microdialysis
- Material: cellulose nitrate and cellulose acetate
- Protein binding: 150 µg/cm$^2$
- Membrane strength: 105-150 µm
- Colour: white
- **Surface: smooth or gridded**
- Autoclavable

| Pore size (µm) | Membrane ∅ (mm) | Surface | Art. No. | Pack Qty. | € |

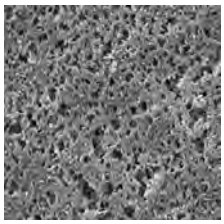
121 °C

## PES-membrane filters

By MERCK MILLIPORE.
**Surface-modified hydrophilic polyethersulfone**



- **Application:** ultrafast filtration of tissue culture media, buffers and other aqueous solutions
- High flow rates and high output
- Low protein binding
- Membrane strength: ≥ 150 µm and ≤ 200 µm
- Colour: white
- Surface: smooth
- Autoclavable

| Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,22 | 13 | **CX07.1** | 100 | 124,70 |
| 0,22 | 25 | **CX08.1** | 100 | 153,75 |

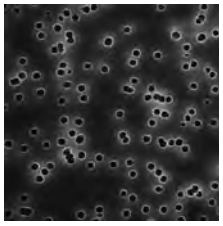
| 0,45 | 142 | **XA47.1** | 50 | 480,55 |

**Microdialysis by Membrane Filter (Drop Dialysis)**

Microvolumes of sample (5-100 µl) can also be dialysed by membrane filter discs made of cellulose mixed ester (pore size 0,025 µm, Art. No. CY35.1-CY37.1):
Fill a Petri dish with dialysis buffer. Place the membrane filter disc on the surface of the solution (shiny side up, avoid bubbles under the filter) by using a stainless steel forceps. Float the membrane for ca. 5 min until it is completely soaked. Pipette the sample on the center of the filter. Due to the open pore structure of the membrane filter and the high surface-to-volume ratio the dialysis is done within a short time (mostly < 30 min). To avoid evaporation of the sample seal the Petri dish tightly during the procedure. In this way the sample volume remains nearly constant.

# Membrane filters



## Nylon membrane filters

By MERCK MILLIPORE.
**Hydrophilic nylon membrane filter with high solvent compatibility.**

- **Applications:** sterile filtration, bioassays, filtration of solvents, clear filtration of aqueous solutions, particle separation and analysis
- Membrane thickness: 170 µm
- Colour: white
- Surface: smooth
- Wettability: hydrophilic
- Sterilisation: compatible with gamma or EO sterilisation
- Max. working temperature: 75 °C

| Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |

## Polycarbonate-membrane filters

By MERCK MILLIPORE. **Smooth surface facilitates suitable for microscopic analysis**

- **Application:** chemotaxis studies, analysing beverages, sterility tests, cell culture-/cell biology, bioassays, cytology, environmental/air analysis, epifluorescence (black membranes)
- Material Polycarbonate film, hydrophilic, non-hygroscopic
- Membrane strength: 9-10 µm
- Max. operating temperature: 140 °C, autoclavable
- Colour: white or black

## PVDF-membrane filters, hydrophilic

By MERCK MILLIPORE. **Surface-modified polyvinylidene fluoride with minimal protein bonding**

- **Applications:** sterile filtration of protein solutions, tissue culture media, additives, antibiotics and alcoholic solutions; removal of particles, biological assays (e.g. recipe-bonding studies, TCA-precipitation)
- Protein binding: 4 µg/cm²
- Membrane strength: approx. 125 µm
- Colour: white
- Surface: smooth
- Max. working temperature: 85 °C
- Autoclavable

## PTFE-membrane filters, hydrophilic

By MERCK MILLIPORE. **Hydrophilic PTFE enables filtration of aqueous solutions without previous wetting. Can be used with all standard HPLC-solvents**

- **Application:** clear filtration of acids, bases, cryogenic liquids and fuel, analysis of hydraulic liquids RNA-isolation
- Very low ionic extractables suitable for IC
- Membrane: hydrophilic
- Membrane strength: 150 µm
- Max. working temperature: 130 °C, autoclavable
- Colour: white

| Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|

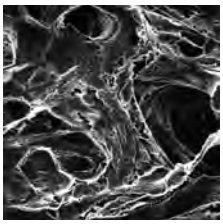
| 0,45 | 47 | **CX69.1** | 100 | 496,65 |



## PTFE-membrane filters with laminated support

By MERCK MILLIPORE. **Hydrophobic membrane filters made of PTFE (polytetrafluoroethylene) - bonded to a high-density polyethylene support**

- **Application:** clear filtration of acids, alkali, solvents and alcoholic solutions, gas-/air filtration, UV-spectroscopy
- If wetted beforehand with methanol or ethanol, aqueous solutions can also be filtered.
- Membrane strength: 150 µm
- Max. operating temperature: 130 °C, autoclavable
- Colour: white

| Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |

## PTFE-membrane filters without support structure

By MERCK MILLIPORE. **Hydrophobic PTFE-membrane filters**

- **Application:** Filtration under extreme chemical or thermal conditions, clear filtration of acids, lyes, cryogenic liquids and fuels, analysis of hydraulic liquids, RNA-isolation
- If wetted beforehand with methanol or ethanol, aqueous solutions can also be filtered.
- Membrane strength: 130-140 µm
- Max. operating temperature: 260 °C, autoclavable
- Colour: white

| Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 5,0 | 13 | **CX59.1** | 100 | 294,55 |

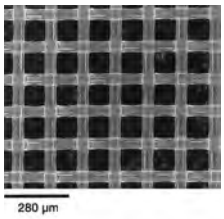
| 10,0 | 90 | **CX66.1** | 25 | 407,45 |

## Zitex®-PTFE filters



Deep-bed filter made of hydrophobic PTFE with high particle retention capacity and uniform pore size distribution.
Heat resistant up to approx. 200 °C.
For the filtration of solvents, aggressive liquids and gases, or for ventilation.
If wetted beforehand with methanol or ethanol, aqueous solutions can also be filtered. Stable anti-adhesive structure allows quantitative separation of filter cake without damaging the membrane. Autoclavable.

**Technical specifications:**

| **Type** | **G110:** ultra fine | **G108:** fine |
|---|---|---|
| Retention range (µm) | 1-3 | 3-5 |
| Thickness (µm) | 200-300 | 150-250 |
| Water flow rate (ml/min/cm$^2$) | 80-120 | 120-200 |
| Water breakthrough pressure (bar) | 0.36-0.42 | 0.23-0.30 |
| Ethanol bubble point (bar) | 0.07-0.10 | 0.06-0.08 |
| Average pore volume (%) | 40 | 45 |

| Type | Retention range (µm) | ∅ (mm) | Art. No. | Pack Qty. | € |

# Membrane filters

## Nylon mesh filters

By MERCK MILLIPORE.
**Hydrophilic nylon mesh filter with high solvent compatibility.**
- **Applications:** collection of algae and cells, particle analysis, separation of large particles, background filter for use in monitoring by automatic particle imaging systems, prefiltration of solvents, monitoring of contamination in paints and lacquers
- Colour: white
- Surface: smooth
- Wettability: hydrophilic
- Sterilisation: compatible with gamma or EO sterilisation
- Max. working temperature: 100 °C

## PP mesh filters

By MERCK MILLIPORE.
**Hydrophilic PP mesh filter made of 100 % pure polypropylene**
- **Application:** clear filtration, collection of cells and protein precipitates, separation of large particles, analysis of particulate impurities
- Colour: white
- Surface: smooth
- Wettability: hydrophilic
- Sterilisation: compatible with gamma or EO sterilisation
- Max. working temperature: 100 °C

| Pore size (µm) | Membrane ∅ (mm) | Art. No. | Pack Qty. | € |

## PP prefilters

By MERCK MILLIPORE.
**Hydrophobic PP prefilter made of 100 % pure polypropylene**
- **Application:** prefilter with high particle retention capacity, high dirt holding capacity and low pressure drop. Suitable for filtration of numerous organic solvents.
- Filter type: deep-bed filter
- Colour: white
- Surface: smooth
- Wettability: hydrophobic
- Sterilisation: compatible with gamma or EO sterilisation
- Max. working temperature: 90 °C

# Glass and quartz fibre filters

## Glass fibre filter paper - Round filters

By Whatman. Made of borosilicate glass fibre and inorganic bonding agents.

**Properties:**
- Chemically resistant to most organic and inorganic solvents, aggressive chemicals and concentrated bases (Not resistant to hydrofluoric acid)
- Constant weight, also in case of fluctuations in air humidity
- Mechanically stable (limited bending resistance)

Filter units and clamping fixtures must have flexible sealings.

**Type GF 6**
- Filtration speed low
- Retention rate: 99.97 %
- Retention range: <1 micron
- Surface weight: 80 g/m²

**Application:** environmental analysis, biology, physics, beverage industry.
**Use:** Gas/air monitoring, water and waste water investigations.

| ∅ (mm) | Type | Thickness (µm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 25 | GF 6 | 350 | **AY36.1** | 200 | 48,50 |
| 47 | GF 6 | 350 | **AY39.1** | 200 | 73,90 |
| 50 | GF 6 | 350 | **AY40.1** | 200 | 82,50 |
| 55 | GF 6 | 350 | **AY41.1** | 100 | 75,90 |
| 70 | GF 6 | 350 | **AY42.1** | 100 | 95,95 |
| 90 | GF 6 | 350 | **AY43.1** | 100 | 133,50 |
| 100 | GF 6 | 350 | **AY44.1** | 100 | 211,00 |
| 110 | GF 6 | 350 | **AY45.1** | 100 | 218,00 |
| 125 | GF 6 | 350 | **AY46.1** | 100 | 228,00 |
| 150 | GF 6 | 350 | **AY47.1** | 100 | 313,00 |
| 185 | GF 6 | 350 | **AY48.1** | 100 | 350,00 |
| 200 | GF 6 | 350 | **Y716.1** | 100 | 403,00 |
| 240 | GF 6 | 350 | **AY49.1** | 100 | 456,00 |

**Type GF 8**
- Filtration speed high
- Retention rate: 99 %
- Retention range: 3 µm
- Surface weight: 80 g/m²

**Application:** environmental analysis, industry
**Use:** Determining PCB, DDE, DDT, furane and dioxin levels in the air.

| ∅ (mm) | Type | Thickness (µm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 90 | GF 8 | 350 | **AY51.1** | 100 | 132,00 |

**Type GF 92**
- Filtration speed medium
- Surface weight: 70 g/m²
- Retention range: 2-3 µm

**Application:** environmental analysis, biology, beverage industry.
**Use:** Membrane pre-filter, soot extraction from gas analysers.

| ∅ (mm) | Type | Thickness (µm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 47 | GF 92 | 350 | **AY55.1** | 200 | 117,00 |

| 100 | GF 92 | 350 | **AY57.1** | 100 | 173,00 |
| 135 | GF 92 | 350 | **AY58.1** | 100 | 275,00 |
| 142 | GF 92 | 350 | **AY59.1** | 100 | 282,00 |

## Glass fibre round filters

By Macherey-Nagel. Made of borosilicate fiber glass. With organic binders or binder-free. Enable speedy filtering, yet with high retaining power. Very good resistance against most organic and anorganic solvents (not resistant against hydrofluoric acid). Temperature max. 200 °C.

**Technical specifications:**

| Filter type | Binder | Speed air (s) | Retaining range (µm) | Grammage (g/m²) |
|---|---|---|---|---|
| **MN 85/70** | organic | 15 | max 0.6 | 70 |
| **MN 85/70 BF** | without | 15 | max 0.6 | 70 |

**Type MN 85/70**

**Application:** Most commonly used fiber glass filter for standard applications with high mechanical stability.

| ∅ (mm) | Type | Thickness (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 25 | MN 85/70 | 0,35 | **EN17.1** | 100 | 12,10 |

# Filter papers for qualitative analysis

## Quartz fibre round filters MN QF-10

By Macherey-Nagel. Made of pure quartz fibres without bonding agents. High chemical resistance to organic and inorganic solvents, acids (except hydrofluoric acid) and alkalis. For filtration of aggressive media, in trace analytics, emission control, airborne dust analytics etc.
Extremely low content of metal trace elements.
Filter speed (in compliance with DIN 53137): <5 s.
Surface weight: 85 g/m², retention range: up to 0.3 µm.
Temperature stable up to 950 °C.

| ∅ (mm) | Thickness (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 45 | 0.46 | **EN12.1** | 100 | 170,00 |

# Filter papers for qualitative analysis

## Filter papers - round filters

By Macherey-Nagel. For **qualitative analysis**. Not chemically treated. Ash content 0.1 - 0.2 %. Filtration time complies with DIN 53137.

**Type MN 615, medium filtering**
Thin filter paper for standard use. Particulary for filtration of water, saline solutions, surface weight 70 g/m², thickness 0.16 mm. Filtration time 22 s. Retention range: 4-12 µm.

| ∅ (mm) | Type | Thickness (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 55 | MN 615 | 0,16 | **L870.1** | 100 | 4,95 |
| 70 | MN 615 | 0,16 | **L871.1** | 100 | 4,95 |

## Rotilabo®-filter papers

100 % cellulose quality filter papers. High absorbency.
Standard filter paper with a smooth surface for analysis. Colour white.
Larger sizes are ideal as surface protection paper or working surface.

**Type 600**
Weight 64 g/m², thickness 0.15 mm. Retention 10-20 µm.

# Filter papers for quantitative analysis

## Filter papers - round filters MN 640

By Macherey-Nagel. For **quantitative analysis.** Made of noble cellulose washed in acid and linters with α cellulose content of over 95 %. Ash content <0.01 %. Temperature stable up to +130 °C. gsm substance 85 g/m$^2$. Filtration time acc. to DIN 53137.

**Type MN 640 w**
**Quick filtering, filtration time 9 s. Equivalent black band.**
Soft filter, loosely structured. Ideal for coarses sediments such as ferric/aluminium hydroxide, bismuth/copper/ferric sulphide, nickel/diacetyldioxine, etc. Standard filter for Si-analysis. Retention range: >8 µm.

| ∅ (mm) | Type | Thickness (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 55 | MN 640 w | 0,2 | **EEX7.1** | 100 | 9,60 |
| 70 | MN 640 w | 0,2 | **A780.1** | 100 | 12,75 |

## Hard filter papers

Ash-free for **quantitative analysis**.
α cellulose content of over 95 %, ash content approx. 0.002 %.
Made of high-purity acid washed cotton linter pulp and cellulose mixed with a small quantity consolidating resin. Free of minerals and metal ions. High stability and resistance, very high wet strength. Precipitates can be removed easily with no fibres.
For analytical applications, routine quantitative and gravimetric methods. Highly recommended for vacuum and pressure filtration, determination of metal ions, and filtration of acidic and alkaline solutions.
Resistant to sulphuric and nitric acids (up to 40 % at 50 °C) and alkalis (up to 10 % at 20 °C).

**Technical specifications:**

| Type | Herzberg filtration rate (s) | Retention range (µm) | Weight (g/m$^2$) | Thickness (mm) |

| 240 | MN 615 ff ¼ | 0,16 | **HK84.1** | 100 | 97,00 |
| 270 | MN 615 ff ¼ | 0,16 | **HK85.1** | 100 | 112,00 |

# Special filter papers

## Nitrogen poor filter papers

By Macherey-Nagel. With low nitrogen content.
Ideal for nitrogen and protein analyses.
For analysis of the dry substance and for filtration of samples for all N-parameters. Approved by the EBC (European Brewery Convention) for malt analysis in breweries and malt houses.

**Technical specifications:**

| Type | Surface | Speed acc. to DIN 53137 (s) | Weight (g/m²) |
|---|---|---|---|
| **MN 614 ¼** | grained | 25 | 75 |
| **MN 620 ¼** | grained | 25 | 75 |

**Type MN 614 ¼, medium filtering**
**Bleached.** Suitable for filtration of essential oils, emulsions, essences, etc.

| ∅ (mm) | Type | Thickness (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 55 | MN 614 ¼ | 0,25 | **HK57.1** | 100 | 23,40 |
| 70 | MN 614 ¼ | 0,25 | **HK58.1** | 100 | 23,40 |

## Rotilabo®-blotting paper blocks

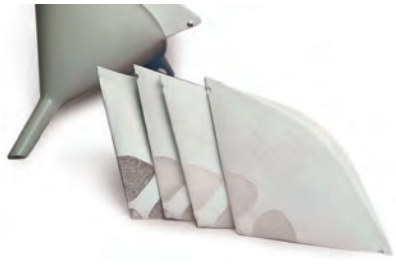
Highly absorptive paper for removing excess liquid from small samples or microscopic preparations.
Surface weight 73 g/m². Dimensions: L 100 x W 37 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **XP50.1** | 1 block à 50 sheets | 5,15 |

## Phase separating paper - round filters MN 616 WA

By Macherey-Nagel. Silicone-impregnated paper for **qualitative analysis**.
The hydrophobic surface separates water from non water-miscible liquids.
Suitable for filtration of portions. Surface weight: 85 g/m².
Temperature stable to +120 °C. Mostly solvent consistant.

| Membrane ∅ (mm) | Thickness (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 125 | 0,2 | **1284.1** | 100 | 22,60 |



## Rotilabo®-activated carbon filter papers

Filter papers for clear filtration and brightening of dark urine for polarimetric determination of sugar, clear filtration of dyed liquids as well as filtration of galvanic baths.

Proportion of activated carbon 35 %, ash content 0.06 %, no binding medium.

Filtering speed in accordance with DIN 53137: 65 s
Retention: 5 µm
Grammage: 160 g/m²
Thickness: 0.42 mm

| ∅ (mm) | Design | Art. No. | Pack Qty. | € |

| 210 | round | **HC21.1** | 100 | 63,70 |

## Disposable sieves

Made of water repellant card with a nylon screen fabric.
For liquids of different consistencies, e.g. paints and lacquers.
Height 12 cm, ∅ top approx. 16 cm.

| Mesh size (µm) | Mesh type | Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| 125 | super fine | blue | **TA93.1** | 125 | 30,00 |
| 150 | extra-fine | turquoise | **AXL8.1** | 125 | 30,65 |
| 190 | fine | yellow | **TA92.1** | 125 | 27,65 |
| 260 | medium | orange | **TA91.1** | 125 | 26,85 |
| 1000 | coarse | white | **AXL9.1** | 125 | 30,65 |

# Special filter papers

## Rotilabo®-germ testing paper

Folded, moisture-resistant germ testing paper for carrying out germ resistance tests, e.g. for root vegetable seeds.
Grammage: 160 g/m². Format: width 110 mm, fold depth 20 mm, double folds (50 units), length 2 m.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **AT14.1** | 1 | 4,10 |

## Cotton wool

Made of 100 % cotton, perforated. For filtering and cleaning.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| perforated | **0571.1** | 1,1 kg (14 x 80 g) | 24,65 |
| not perforated | **PE40.1** | 700 g (7 x 100 g) | 13,95 |

## Rotilabo®-test flakes

Untreated cellulose flakes for impregnating with active ingredient solution. Suitable for determining resistance to antiobiotics or chemotherapeutic media in bacteria culture and pathogenic organisms.
Made of 100 % cotton linter, good absorption, grammage: 290 g/m², thickness: 0.75 mm.

| ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 6 | **KA07.1** | 1000 | 17,35 |
| 9 | **KA08.1** | 1000 | 22,10 |

| 12,7 | **KA10.1** | 1000 | 28,90 |
| 25 | **KA11.1** | 1000 | 73,65 |

## Rotilabo®-absorbent papers

**Bench-Top Protection Paper**

Highly absorbent white paper, coated on one side with water-resistant PE. Suitable as a protective working surface for lab tops or for lining cupboards and drawers. Protects surfaces against chemicals, dirt and contamination. Also suitable for analytical and isotope laboratories.

**Weight:** 144 g/m², absorbency approx. 250-280 g/m²

| Cut | Size | Art. No. | Pack Qty. | € |

## Rotilabo®-activated carbon filters

For filtration of organic solutions and acids, ambient air and various gases.
Filter material: Activated carbon granulate. Housing made of **PC**.
Temperature stable up to max. 70 °C, pressure resistant up to max. 2 bar.
For tube connections with inner-∅ 6.3 mm. Dimensions: ∅ 26 x 82 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **HC24.1** | 10 | 94,75 |

# Extraction thimbles

## Extraction thimbles, cellulose

By Macherey-Nagel. For Soxhlet and other extractions. Also suitable for extracting solid or liquid particles from the air and from gases.
Extraction thimbles as per DIN 12449 are suitable for extractors according to DIN 12602 and 12604.

* (acc. to DIN 12449)

## Glass fibre extraction thimbles type MN 649 R

By Macherey-Nagel. Micro glass fibres consist of binder-free borosilicate glass, short term temperature stability up to 500 °C. The thimbles have high chemical resistance, a very high separation capacity and a very high particle retention capacity.
Suitable for emission measurement at high temperatures and for the separation of dust particles or aerosols from gases or air flows.
Extraction thimbles according to DIN 12449 are suitable for extractors with defined nominal volumes in accordance with DIN 12602 and 12604.

Extraction thimbles with sealing collar and two finger recesses on opposite sides of the collar, for dust analysis in industrial gases, exhaust gases and room air.

# Analytical sieve machines

## Analytical sieve machines, HAVER EML 200 Premium series

By Haver & Boecker. For sieve analysis in accordance with ISO 2591-1. Measurement range 20 µm-125 mm. Suitable for analytical sieves with ∅ 50 to 203 mm.

- Fast and easy to operate
- Amplitude is adjustable in 0.1 mm increments
- Intermittent operation or continuous operation
- Memory for storing various sieve modes (49 memory slots)
- Ethernet interface
- Optional TwinNut rapid clamping system allows easier and faster replacement of sieves without time-consuming screwing

**Additional features of EML 200 Premium Remote model:**
Unit with protection class IP 54 and separate control unit for wall mounting allows the additional option of wet sieving.

**Technical specifications:**

| Type | EML 200 Premium | EML 200 Premium Remote |
|---|---|---|
| Suitable for dry sieving | yes | yes |
| Suitable for wet sieving | no | yes |
| Type of motion | Three-dimensional | |
| Shaking amplitude (mm) | 0.1 to 3.0 | |
| Timer (min) | 1 to 99 or continuous operation | |
| Intermittent operation (s) | 1 to 99 | |
| Min. load capacity | 3 analytical sieves with usable height 50 mm and 1 sieve pan | |
| Max. load capacity | 9 analytical sieves with usable height 50 mm or 8.7 kg sieve stack weight | |
| Dimensions W x D x H (mm) | 295 x 385 x 880 | |
| Weight (kg) | 38 | |
| Power supply | 110-230 V, 50-60 Hz | |

① **Analytical sieve machines EML 200 Premium**
**Delivery incl.** clamping system (2 M20 guide bars, 660 mm long, 2 tensioning nuts) as well as machine cover with window.
**Delivery without** sieve pan (please order separately).

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| EML 200 Premium with Classic clamping system | **ECE6.1** | 1 | 2768,15 |
| EML 200 Premium with rapid TwinNut clamping system | **ECE7.1** | 1 | 2913,25 |

② **Analytical sieve machines EML 200 Premium Remote**
**Delivery incl.** separate control unit with wall mount and connecting cable, clamping system (2 M20 guide bars, 660 mm long, 2 tensioning nuts), machine cover with full-cone nozzle and window, water plug with socket and PVC water hose (3 m).
**Delivery without** sieve pan (please order separately).

## Analytical sieve machine HAVER EML 200 Pure

By Haver & Boecker. For sieve analysis in accordance with ISO 2591-1. Standard model for dry sieving and fast and easy operation. Measurement range 20 µm-125 mm. Suitable for analytical sieves with ∅ 50 to 203 mm.

- Two amplitudes can be selected for coarse or fine materials
- Preset interval (10 s)
- Digital timer
- Anodised aluminium housing

**Technical specifications:**

| | |
|---|---|
| Type of motion | Three-dimensional |
| Shaking amplitude | 2.2 mm (coarse) or 0.9 mm (fine) |
| Timer | 1 min or continuous operation |
| Min. load capacity | 3 analytical sieves with usable height 50 mm and 1 sieve pan |
| Max. load capacity | 9 analytical sieves with usable height 50 mm or 8.7 kg sieve stack weight |
| Dimensions (W x D x H) | 295 x 385 x 900 mm |
| Weight | 38 kg |
| Power supply | 110-230 V, 50-60 Hz |

**Delivery incl.** Classic "eco" clamping system (2 M16 guide bars, 660 mm long, 2 tensioning nuts) and machine cover with window.
**Delivery without** sieve pan (please order separately).

| Art. No. | Pack Qty. | € |
|---|---|---|
| **ECE2.1** | 1 | 2219,90 |

**Accessories:**

| | | | |
|---|---|---|---|
| Sieve pan for dry sieving, ∅ 200 x H 50 mm, stainless steel | **ECC7.1** | 1 | 49,20 |
| Replacement machine cover with window | **ECE3.1** | 1 | 175,25 |
| Replacement Classic "eco" guide bar, 660 mm, M16 | **ECE4.1** | 1 | 60,20 |
| Replacement tensioning nut for Classic "eco" system | **ECE5.1** | 1 | 48,40 |

# Analytical sieves

## Analytical sieves ∅ 200 mm

By Haver & Boecker. Sieve frame fabricated in stainless steel with stainless steel wire mesh base. Compliant with DIN ISO 3310, ASTM E11, ISO 565, BS 410, etc. Suitable for testing granulates, powders, plastics, silicon, dyes, metal filings etc.

- Strong sieve construction for long life
- Sieve mesh retains excellent tension, even during intensive use
- Smooth frame surface avoids cross contamination
- Usable height 50 mm

**Delivery incl.** PVC sealing ring and Certificate of Compliance 2.1 in accordance with DIN EN 10 204.

## Distilling unit Monodest

Tabletip unit. For producing distilled water from tap water. Ideal for schools, pharmacies or firms with relatively low water consumption.

**Technical specifications:**

| Type | Monodest |
|---|---|
| Power consumption | 2.500 W |
| Distillate amount | 3.5 l/h |
| Cooling water amount | 45 l/h |
| Conductivity distillate | 1.5 µS/cm |
| Distillate temperature | 80 °C |
| Heating element | Stainless steel |
| Glass parts | DURAN® |
| Connection | olive ∅ 12 mm |
| Weight | 3.5 kg |
| In acc. with DAB norm | no |
| Voltage | 230 V |
| Dimensions (W x D x H) | 160 x 220 x 700 mm |

**Delivery incl.** hose set.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **Y367.1** * | 1 | 1284,65 |

* Longer delivery times possible. Please check with our Sales Department.

## Compact ion exchanger Destillo 2

For wall attachment. Ideal for deionizing water (high purity water quality 0.1-20 µS) in small quantities.

- Very effective, handy and dependable
- Capacity approx. 50 l water per h
- Capacity of cartridge is dependent on water grade: at 10° d app. 320 l, at 20° d approx. 160 l water. Conductivity range up to 100 µS/cm
- Current 220 V/50Hz
- Dimensions: W 115 x H 520 x D 115 mm
- Extension cord 150 cm, tap water supply with ¾″ - screw thread 150 cm, plastic outlet hose 100 cm

**Delivery incl.** cartridge, hoses, wall attachment and instruction manual.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **0092.1** | 1 | 317,15 |

## Disposable cartridge D 2

Pretreated against algae growth. Length 380 mm, ∅ 90 mm. Weight app. 1400 g.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **0093.1** | 1 | 73,00 |

## Flow meters with propeller

With 2 hose connectors, length 25 mm, ∅ 6-11 mm.
Minimum flow 150 ml/min. Pressure load max. 2 bar.
Dimensions: W 90 x H 40 x D 15 mm. Weight 12 g.

**Made of styrene-acrylonitrile (SAN)**
For water and similar liquids. Temperature stable up to +30 °C.

| Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|
| blue | **1736.1** | 1 | 11,65 |
| red | **E486.1** | 1 | 11,40 |
| black | **E487.1** | 1 | 11,40 |

# Water recycling

## Ion exchange cartridges plastic design

By Thermo. **Pressureless.**

Provide completely demineralized water using a mixed-bed resin ion exchanger. Can be attached directly to a tap water supply. Ideal for treating small amounts of water and for supplying autoclaves, sterilizers etc. with deionized water.

- 100 % utilization of capacity
- Constantly good water quality

**Technical specifications:**

| Model | DI 425 | DI 750 |
|---|---|---|
| Cartridge | disposable | regenerative |
| Rate of flow (l/h) | 50 | 100 |
| Capacity at 10° total salt content (l) | 425 | 750 |
| High-purity water quality (µS/cm) | 0.1 - 20 | |
| Max. water temp. (°C) | 30 | |
| Current | 230 V, 50/60 Hz | |
| Material | polyethylene | |
| Dimensions ∅ x H (mm) | 100 x 600 | 175 x 480 |
| Weight approx. (kg) | 3 | 7 |
| Connection | R $^{3}/_{4}$″ | |

**Delivery incl.** cartridge, tubing set and analogue conductivity meter.
Measuring range 0.1-50 µS/cm.
Model DI 425 additional incl. wall attachment.

| Model | Art. No. | Pack Qty. | € |
|---|---|---|---|
| DI 425 | **Y360.1** | 1 | 291,35 |
| DI 750 | **Y362.1** | 1 | 395,60 |

## Spare cartridges for ion exchange cartridges DI 425 and DI 750

| For model | Art. No. | Pack Qty. | € |
|---|---|---|---|
| DI 425 | **Y361.1** | 1 | 76,90 |
| DI 750 | **Y363.1** | 1 | 227,90 |

## Ion exchanger cartridges made of stainless steel

By Thermo. **Pressure-stable** (max. 10 bar) ion exchanger cartridges made of stainless steel. For simple and economical production of deionized water. Ideal for supplying high-purity water systems, dishwasher, autoclaves, sterilizers, air conditioners, steam boilers and for general laboratory applications.

**Technical specifications:**

| Model | DI 1500 | DI 2000 | DI 2800 | DI 4000 |
|---|---|---|---|---|
| Capacity at 10° total salt content (l) | 1500 | 2000 | 2800 | 4000 |
| Cartridge filling | Mixed bed resin, **regenerative** | | | |
| Max. pressure (bar) | 10 | | | |
| Pure water quality (µS/cm) | 0.1-20 | | | |
| Max. water temperature (°C) | 30 | | | |
| Material | Stainless steel V4A | | | |
| Connection | R ¾″ | | | |
| Weight (kg) | 14 | 18 | 24 | 27 |
| Dimensions ∅ x H (mm) | 240 x 410 | 240 x 490 | 240 x 600 | 240 x 700 |

**Delivery without** conductivity meter CA30.1 (please order separately).

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| DI 1500 | **HH27.1** * | 1 | 681,55 |
| DI 2000 | **CA31.1** * | 1 | 771,85 |
| DI 2800 | **CA32.1** * | 1 | 898,70 |
| DI 4000 | **CA33.1** * | 1 | 1186,80 |

* Longer delivery times possible. Please check with our Sales Department.

## Digital conductivity meter

By Thermo. Ranges: 0.055-199.9 µS/cm, from 10 µS/cm automatic switch-over to 10.00-199.9 µS/cm. With automatic temperature-compensation. Limit value alarm can be adjusted to up to 30 µS/cm, visual and audible alarm when limit value has been exceeded.
**Delivery incl.** PVC-tube, outside-∅ 16.5 mm, inside-∅ 10.2 mm, length 1.5 m.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| for models DI 1500 to DI 4000 | **CA30.1** * | 1 | 569,75 |

* Longer delivery times possible. Please check with our Sales Department.

## Smart2Pure ultrapure water system

By Thermo.
Compact systems for the production of contamination-free water from tap water. The unit is **connected directly to the mains water supply**. Simultaneous provision of ultrapure and pure water in the following grades:

- **ASTM type I** (resistance of 18.2 MΩ x cm)
- **ASTM type II** (resistance of 10 -15 MΩ x cm)

Easy to use, space-saving design and low follow-up costs.
The pre-treatment cartridge is separate from the ultrapure water cartridge. Only the used cartridge need be replaced, when necessary.

**Uses:**
**Analytical chemistry:** HPLC, GC, GC-MS, ICP-MS, AA, TOC measurements, IC
**Molecular biology and microbiology:** cell culture/ tissue culture, PCR, DNA sequencing, electrophoresis
**Routine laboratory tasks:** making up and diluting buffers and reagents, rinsing of laboratory glassware, supply of autoclaves, analysers and other laboratory equipment

**Features of Smart2Pure basic model:**
- Combined cartridge (reverse osmosis membrane/activated charcoal) for pre-treatment of feed water
- Direct tapping of type I ultrapure water through a sterile end filter (0.2 µm)
- Integrated 6-litre tank for storing type II pure water
- Guaranteed pure water quality: the recirculation pump and sterile air filter protect from microbial contamination
- Additional pressure outlet on ultrapure water tank for supplying downstream devices
- Simple and economical change of expendables as treatment cartridges can be replaced separately
- Space-saving mounting on laboratory bench or on the wall

**Optional Smart2Pure UV system:**
UV lamp with two wavelengths of 254 and 185 nm kills bacteria, oxidises organic compounds and produces germ-free ultrapure water with a TOC content of < 5 ppb.

**Optional Smart2Pure UF system:**
UF ultra-filtration module for near-total elimination of macro-molecular contamination such as microorganisms, pyrogens (bacterial endotoxins), nucleases and particles.

**Optional Smart2Pure UV/UF system:**
The combination of UV oxidation and ultra-filtration produces analytically pure water with a specific resistance of up to 18.2 MΩ cm, TOC values of < 5 ppb, pyrogen levels of < 0.001 EU/ml and RNase, DNase and DNA concentrations below the detection limit.

**Technical specifications:**

| **Drinking water requirements:** | |
|---|---|
| Drinking water to DIN 2000 | Manganese and iron content: < 0.05 mg/l |
| | Chlorine concentration: < 0.1 mg/l |
| | Colloid index : < 3 |
| | Drinking water temperature: 2-35 °C |
| | Drinking water pressure: 1-6 bar |

| **Pure water specifications:** | **ASTM Type I** | **ASTM Type II** |
|---|---|---|
| Conductivity (µS/cm) | 0.055 | 0.067-0.1 |
| Resistance (MΩ x cm) | 18.2 | 10-15 |
| Permeate output for pure water at 15 °C (l/h) | - | 3 or 6 |
| Output for ultrapure water (l/min) | 1.0 | - |
| Output (models with UF filter) (l/min) | 0.6 | - |
| TOC value (ppb) | < 10 | - |
| TOC value (models with UV lamp) (ppb) | 1-5 | - |
| Endotoxins (models with UF filter) (EU/ml) | 0.001 | - |
| Bacteria content (KbE/ml) | < 1 | - |
| Particle content < 0.2 µm pro ml | < 1 | - |
| **Technical specifications:** | | |
| Dimensions W x D x H (mm) | 305 x 400 x 545 | |
| Weight (kg) | approx. 22 | |
| Power supply | 100-240 V / 50/60 Hz, 1.8 m mains plug | |
| Drinking water connection | 1.5 m tubing with 8 mm outer ∅ and ¾″ | |
| Wastewater connection | ¼″ or 8 mm outer ∅, 2 m tubing, pressure-less outlet | |

**Delivery incl.** Smart2Pure unit with integral 6-litre tank, sterile tank ventilation filter, combined cartridge (reverse osmosis membrane/activated charcoal), ultrapure water cartridge, 0.2 µm end filter, pressure retaining valve, UV lamp and/or ultra-filter (depending on model).

# Chromatography accessories

## BRITA® benchtop water filters

For optimal drinking water quality. Reduces limescale, lead, copper and chlorine content using a combination of ion exchange and activated charcoal.

- Electronic cartridge exchange indicator
- With MAXTRA Flow Control for steady flow and optimal filtration capacity
- ① MARELLA: easy to fill flip top lid
- ② OPTIMAX: with tap easy and convenient use

**Delivery incl.** 1 MAXTRA water filter cartridge.

| Type | Filling volume (l) | L x W x H (mm) | Art. No. | Pack Qty. | € |

## TLC sprayer

Versatile sprayer with gas cartridge for spraying reagents and other liquids.
Spray pressure: constant 4,4 bar. Eco-friendly propellant mixture of dimethyl ether, propane and isobutane.
Sufficient for approx. 500 ml of liquid.
Easy to clean: unscrew cartridge, immerse uptake into vessel containing cleaning fluid and spray until the spray is free of residues.
Propellants: dimethyl ether, isobutane, propane.
**Delivery incl.** propellant cartridge (94 g), 170 ml glass reservoir bottle, suction tube and screw cap.
**Danger** H222-H229

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YC44.1** | 1 | 14,55 |

**Accessories:**

| | | | |
|---|---|---|---|
| Replacement cartridges with spray nozzle and suction tube | **YC45.1** | 5 | 45,50 |
| Replacement 170 ml glass bottle | **YC46.1** | 1 | 7,35 |

Material
DURAN®
A 121 °C

## TLC atomizers

Made of DURAN®. NS 19/26, volume 100 ml. Overall height 160 mm. Autoclavable without rubber tube.
**Delivery incl.** Erlenmeyer flasks, wire joint clamps, rubber ball incl. rubber tube 25 cm.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| TLC atomizers complete | **0707.1** | 1 | 63,35 |

**Accessories:**

| | | | |
|---|---|---|---|

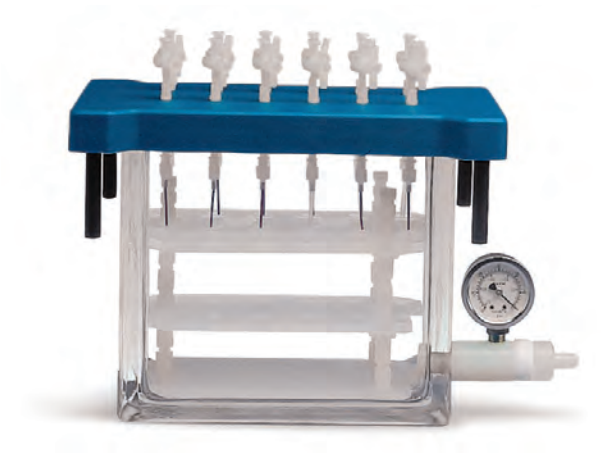
| Spare rubber bulb, incl. tube, length 20 cm | **5914.1** | 1 | 13,55 |



## Spray diffusers

By Rixius. Made of brown glass. Volume approx. 20 ml, ∅ 29 mm, overall height with spray nozzle 98 mm. With GL 18 thread. Spray nozzle complete with cap and tube made of PE. Approx. 0.05 ml spray volume per pump action.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **N145.1** | 3 | 8,40 |

# Chromatography accessories

## Vacuum-blocks

For **filtration** and solid **extraction**. Ideal for rapid **sample preparation**. Each tube position is equipped with a valve and can therefore be evacuated either individually or with the others. Each individual valve contains a Luer fitting, enabling filtration with a syringe filter or mounting of a disposable syringe. Inner body makes exact positioning of test tubes under each available opening.

**Delivery incl.**vlid, glass chamber with connector (for tubes with inner ∅ 9-10 mm) and manometer, plastic rack (with support posts and 3 interchangeable plates for tube-∅ 17, 12 or 10 mm), nylon-stopcocks, plastic valves and needles (PP, length 25 mm).

| Type | Inner dimensions: L x W x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 12-place | 177 x 82,5 x 171,5 | **H676.1** | 1 | 843,90 |

**For 24 places** (T678.1)

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Glass chamber | **T679.1** | 1 | 235,45 |
| Spare parts set incl. 1 lid, 1 seal, 12 cocks | **T680.1** | 1 | 536,45 |
| Lid seals | **T681.1** | 2 | 30,00 |
| Spare parts set incl. 1 vac. manom., 1 valve, 1 glass chamber | **T682.1** | 1 | 708,45 |
| Needles (polypropylene) | **T683.1** | 24 | 77,40 |
| Needles (stainless steel) | **T684.1** | 24 | 235,45 |
| Cocks (nylon) | **T685.1** | 24 | 170,95 |

## General spare parts for vacuum-blocks

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Top lid port, female Luer connector | **PL33.1** | 2 | 13,95 |
| Bottom lid port, male Luer connector | **PL34.1** | 2 | 13,95 |

## SPE-columns

Made of **PP**. Can be used with vacuum block (H676.1ff) and other vacuum systems. Excellent chemical resistance. Column outlet: Luer (male).
**Delivery without** PE frits (please order separately).

| Volume (ml) | Outside ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 1 | 8 | **PX07.1** | 100 | 44,10 |
| 3 | 11 | **PX08.1** | 100 | 44,10 |

## Frits for SPE-columns

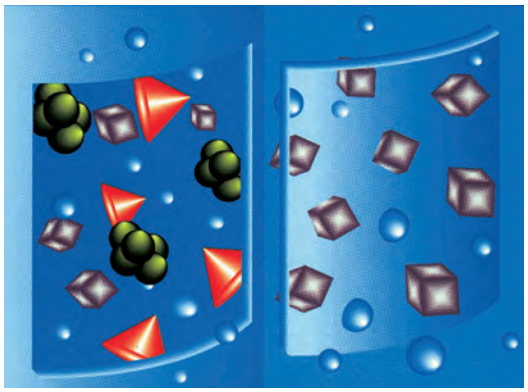
Made of **PE**. Pore size 20 µm.

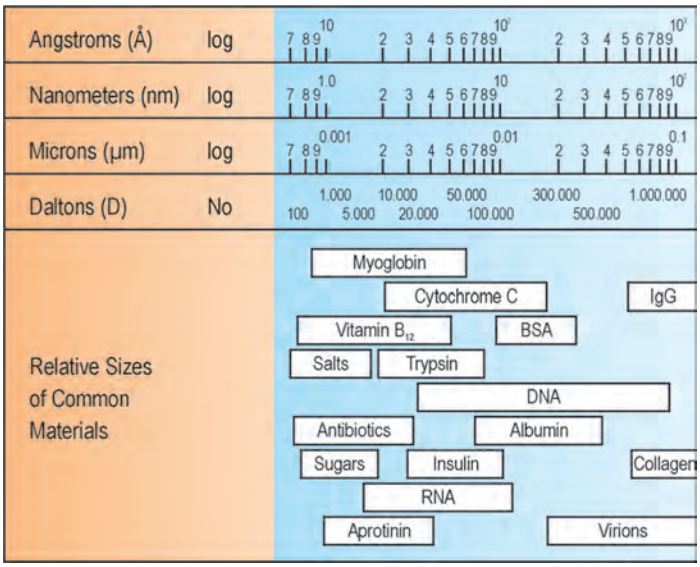
| Type | ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| For 1 ml PP column | 6 | **PX10.1** | 100 | 17,10 |
| For 3 ml PP column | 9 | **PX11.1** | 100 | 17,10 |

## Accessories: Luer caps

Made of **PP**. To fit standard Luer (male) outlets, and for all column and cartridge sizes.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **PX15.1** | 100 | 17,10 |





## SPE empty cartridges

Made of **PP**. Fitted with 2 PE frits (pore size 20 µm).
Usable with vacuum block (H676.1ff) and other vacuum systems.
The Luer lock caps can be removed are refitted. Luer lock caps can be used to fit further cartridges, a column or a reservoir with Luer outlet (male).
Column outlet: Luer (male). Load capacity is dependent on the particle size of the sorbent.

| Volume (ml) | Outside ∅ (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 0,7 | 12 | **PX13.1** | 100 | 148,35 |
| 2 | 12 | **PX14.1** | 100 | 169,85 |

# Dialysis Tubular Membranes

## Dialysis – Principle

Dialysis is a method used for **purifying biomolecules** according to the principle of osmosis: From a high concentration solution small solutes diffuse across a semi permeable membrane to a low concentration solution until equilibrium is reached. The pore size of the membrane allows only small solutes to pass, larger species are retained. Thus the molecules are separated. The pore size is indicated as **M**olecular **W**eight **C**ut **O**ff **(MWCO)**.

## Dialysis- Examples for Applications

- Desalting
- Concentration of plasma or serum
- Buffer or pH change of samples
- Preparation of proteins for electrophoresis
- Concentration of antibodies
- Removal of contamination
- Purifying cell culture extracts
- Removal of oligosaccharides from protein solutions

## Course of Dialysis

1. Fill beaker with dialysis buffer:
   In most cases the dialysis buffer equals the sample buffer, except for the molecules hold back by the membrane. The volume of the solution should be at least 100 times the sample volume.
2. Place magnetic follower into the buffer.
3. Cut dialysis tube.
   The length required depends on the following criteria:
   - Tube length for dialysis (mm) = [Vol (in µl) x 3.2] / [flat width$^2$ (in mm$^2$)]
   - Add 10 % of tube length
   - Add 40 mm for closures
4. Close one end of the preincubated tube with a closure so that at least 1 cm tubing overlaps.
5. Turn tube, open other end and fill sample. Carefully press the tubing to remove remaining air. Also close this end with a closure (1 cm overlap).
6. Place the dialysis tube into the prepared beaker, close lid and switch on stirrer.
7. The dialysis solution should be changed at least 3 times during the total dialysis process. Recommend changing after 2- 4 h, 6- 8 h and 10-14 h.
   Dialysis should be continued for at least 2 h after final change.
8. Following dialysis dry tube with a clean kim wipe, remove one clip, open the tube and remove sample with a pipette.

**Filling volume for 15 cm tube length**

| | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Broadth (mm) | 8 | 10 | 12 | 18 | 25 | 32 | 40 | 45 | 50 | 76 | 100 | 120 |
| Tube ∅ (mm) | 5 | 6 | 8 | 11 | 16 | 20 | 25 | 29 | 32 | 48 | 64 | 76 |
| Filling volume (ml) | 3.1 | 4.8 | 7 | 15 | 30 | 49 | 76 | 97 | 119 | 276 | 478 | 688 |

## Choosing the Dialysis Membrane

**Chemical resistance (residence time 17-20 h):**

*Regenerated cellulose:* 2<pH<12, applicable when using diluted acid, base, or solvents (see table below).
*Cellulose ester:* 5<pH<9, use only under neutral conditions.

**MWCO:**

Those molecules about to be separated must have a **size ratio of approx. 25:1**.
Rule of thumb: Ideal MWCO = approx. half of molecular weight of the macromolecule left in the membrane.

**Flat width:**

Rule of thumb: √ [Vol (in µl) / 20] = average flat width required (mm).
The overall length of dialysis tube should not exceed 10 to 15 cm.

## Choosing the Clips

The clips should be approx. 4 to 10 mm wider than the flat width of the tube.
Notice: Membranes made of cellulose ester should only be closed using Art. No 0685.1 to 0688.1.

## Pretreatment of the Membranes

**Wet packaged membranes (Spectra/Por® cellulose ester, Spectra/Por® 7, ZelluTrans/Roth V series)**

Place tube for approx. 30 min in distilled water to remove the sodium azide and ethanol, respectively. Then rinse with distilled water.

**Dry packaged membranes (Membra-Cel™, Nadir®, ZelluTrans/Roth, Spectra/Por®1-4 and Spectra/Por® 6)**

For the most applications it is sufficient to soak the membrane for approx. 30 min in distilled water to remove glycerol and then to rinse it with distilled water.To remove heavy metals and sulphides place the tube in a solution of 2 % sodium bicarbonate and 1 mM EDTA and treat it as follows:

- Soak the tube at + 60 °C for 3 to 4 h. Then rinse with distilled water.
  Be careful also to rinse the inside of the tube.
- *Alternatively* incubate the tube 2 times for 10 min at approx. 95 °C. Rinse with distilled water in between incubation steps and afterwards. Be careful also to rinse the inside of the tube.

**Note:**
**Wetted membranes may not dry out!**

# Dialysis Tubular Membranes

121 °C

## ZelluTrans/Roth dialysis membranes

Made of **regenerated cellulose**.

- High-quality membranes, **dry packaged** on rolls
- Treated with glycerol to protect against brittleness
- Very low adsorption capacity (e.g. 1 µg/cm² Bovin Serum Albumin)
- Temperature stable up to +90 °C
- Good chemical resistance
- Contain low amounts of impurities, sulphides and heavy metals
- Wall thickness: 20-50 µm
- Autoclavable up to 121 ° C
  (immersed in dist. water for max. 10 min. at 1 bar)

**Metal traces:**

| | | | |
|---|---|---|---|
| cadmium | < 0.10 ppm | nickel | < 0.10 ppm |
| chromium | < 0.10 ppm | zinc | 6.24-12.9 ppm |
| copper | < 0.10 ppm | lead | 0.75-0.80 ppm |
| iron | < 13.6 ppm | | |

**Delivery incl.** detailed instructions, disposable scissors and 2 clips.

## ZelluTrans/Roth V-series

Made of **regenerated cellulose**.

- **Highly pure tubing membrane in pieces (length 50 cm)**
- Free of any trace elements, glycerol, heavy metals, sulphides
- Can be used without any time-consuming cleaning procedure
- **Packaged wet** in 20 % ethanol
- Excellent for DNA/RNA applications
- Good chemical resistance
- Wall thickness: 20-30 µm
- Store at +4 to +8 °C
- Autoclavable up to 121 ° C
  (immersed in dist. water for max. 10 min. at 1 bar)

# Dialysis Tubular Membranes

## Dialysis membrane Spectra/Por® 1 to 4

Made of **regenerated cellulose**.

- High-quality membrane on rolls
- Temperature stable up to +60 °C
- High chemical resistance
- **Dry packaged**
- Treated with glycerol to protect against brittleness
- Contains low amounts of impurities such as sulphides and heavy metals

**Metal traces:**

| | | | |
|---|---|---|---|
| cadmium | < 0.02 ppm | lead | 2-6 ppm |
| chromium | 0.1-0.2 ppm | magnesium | 0.1-0.3 ppm |
| copper | 0.8-1.2 ppm | nickel | 1.3-1.7 ppm |
| iron | 20-60 ppm | zinc | 1.5-5 ppm |

### Spectra/Por® 1 - MWCO 6000 to 8000

Width 10-50 mm: Wall thickness 30-50 µm
Width 100-120 mm: Wall thickness 70 µm

## Trial Kits Spectra/Por® 1-3

Made of **regenerated cellulose**.
**Tubular membrane pieces on rolls, length 5 m, packaged dry**. Ideal for small-scale dialyses and for testing membranes for special applications.

**Trial Kit delivery incl.**
- tubular membrane Spectra/Por® 1, 2 or 3
- 1 pair of Spectra/Por® sealing clips made of PP (1 x with weight, 1 x without)

### Spectra/Por® 1 - MWCO 6000-8000

## Dialysis tubes Membra-Cel™

By Viskase. Made of **regenerated cellulose**.
Colourless, transparent to slightly opaque, semi-permeable and seamless.
Application area: dialysis and ultrafiltration in the laboratory.

- **Exclusion limit (MWCO) 14 000**
- Dry packed, treated with glycerine
- Solid in pH range from 5 to 9
- No unspecific protein binding, protein adsorption < 1 ng/g
- Autoclavable up to +120 °C (max. 15 min, immersed in dist. water)

| Flat width (mm) | ∅ (mm) | Length (m) | Wall thickness (mm) | Art. No. | Pack Qty. (roll) | € |

## Dialysis membranes Spectra/Por® 7

Made of **regenerated cellulose.**

- **Packaged wet** in 0.05 % sodium azide solution, on rolls
- **Highly pure membrane** without any trace elements such as heavy metals, sulphides, glycerol
- Can be directly used without any cleaning procedures
- Wall thickness: 60-65 µm
- Store at +4 °C
- Temperature stable up to +60 °C

**Spectra/Por® 7 MWCO 1000**

# Dialysis Tubular Membranes

## Dialysis membrane Spectra/Por® Biotech CE

Made of **cellulose ester (CE)**

- **High purity** as no trace elements, heavy metals, sulphides or glycerol
- Low membrane reactivity, therefore negligible protein and liposome adsorption
- No time-consuming cleaning process required
- Temperature stable up to +37 °C
- **Packaged wet** in 0.05 % sodium-azide solution
- Store at +4 °C
- Wall thickness:
  MWCO 100-50 000: 75-85 µm
  MWCO 100 000: ≥ 100-125 µm

## Trial Kits Spectra/Por® Biotech CE

Made of **cellulose ester (CE)**.

**Tubing membrane pieces on rolls, length 1 m, packaged moist** in 0.05 % natrium azide solution. Ideal for dialysis where only a small amount of tubing is required (test runs, small-scale applications, etc.).

**Sample kit delivery incl.**

- Spectra/Por® Biotech CE tubular membrane
- 1 pair of Spectra/Por® universal sealing clips (red, sealing length 50 mm)

▶ For Spectra/Por® universal closures, see page 538

**Appearance of dialysis membranes**

Dry dialysis membranes have different appearances, dependent on pore size and wall thickness: Clear, opaque or even completely white.

Reason:
Larger MWCO membranes are made slightly thicker to maintain membrane strength when the pores are larger.
The thicker the membrane and larger the pores, the more opaque.
So the different membranes look as follows:

**Dry membranes with MWCO**
**100-1000: clear**
**3 500-5 000: mostly clear**
**8 000-10 000: slightly opaque**
**20 000-50 000: opaque**
**≥100 000: white.**

When the membrane is wetted with water the effect dissapears and the membrane becomes more clear.

# Premade Dialysis Units

**Microdialysis by Membrane Filter (Drop Dialysis)**

Microvolumes of sample (5-100 µl) can also be dialysed by membrane filter discs made of cellulose mixed ester (pore size 0,025 µm, Art. No. CY35.1-CY37.1):
Fill a Petri dish with dialysis buffer. Place the membrane filter disc on the surface of the solution (shiny side up, avoid bubbles under the filter) by using a stainless steel forceps. Float the membrane for ca. 5 min until it is completely soaked. Pipette the sample on the center of the filter. Due to the open pore structure of the membrane filter and the high surface-to-volume ratio the dialysis is done within a short time (mostly < 30 min). To avoid evaporation of the sample seal the Petri dish tightly during the procedure. In this way the sample volume remains nearly constant.

## Spectra/Por® Float-A-Lyzer® G2

Ready-to-use Dialysis device combining efficiency, convenience and sample protection **with a sample recovery rate of 95-98 %.** The cylindrical dialysis tubing from cellulose ester is fixed to polycarbonate pieces. **Packaged dry** with glycerol to protect against brittleness. Before use the glycerol is to be removed by rinsing with distilled water for 15-30 min.

- Sample volume 1-10 ml
- The leak-proof screw-on cap allows easy for handling and in-process testing during dialysis is possible
- The tubing is made of cellulose ester with no heavy metal and sulfide contaminants, therefore, no special purification is necessary
- Low-protein and liposome binding membrane, can be used directly with biological samples
- Flotation ring improves sample buoyancy and vertical orientation during dialysis
- Available in precise MWCOs with colour-coded caps
- Several Float-A-Lyzer can be used in one vessel

## Spectra/Por®-dialysis cylinder

Made of PS. For use with magnetic stirrers.
The tube is centred and dialysis speeded up by the stirring movement.
- MINI - for dialysis tubes and systems up to a length of 10 cm
- MAXI - for dialysis tubes and systems up to a length of 25 cm

**Delivery incl.** magnetic bar and cover.

| Model | Volume (ml) | Height (cm) | ∅ (cm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|
| MINI | 600 | 12,5 | 11,5 | **CL82.1** | 1 | 74,20 |
| MAXI | 1800 | 30 | 11,5 | **CL83.1** | 1 | 89,25 |

## ZelluTrans/Roth Mini Dialyzer MD 100

Made of **regenerated cellulose**.

**Ready-to-use dialysis unit for samples of between 10 and 100 µl.**
The Mini Dialyzer consists of a U-shaped polypropylene capillary with 25 µl graduations and membranes on both sides. The filled sample forms a very thin layer over a large surface area, ensuring short dialysis times.

- Available as an **individual dialyzer** packed in a 2 ml reaction vial or as a **dialyzer strip** with 8 interconnected individual dialyzers (can be separated)
- Membranes are made of high-quality regenerated cellulose with different pore sizes (MWCO), **dry packed**
- Easy to use: can be filled with sample and emptied using any standard pipette (2-200 µl)
- Flexible: uses ranging from low-volume dialysis (in reaction vial or micro-titration plate) to high-volume dialysis (using a suitable flotation aid, as described below)
- Compatible with **96 deepwell plates (2.5 ml)**, 8-channel multichannel pipettes and standard automation systems allow simultaneous processing of up to 96 samples.

The Mini Dialyzers can are ready for use straight away - no pretreatment required. For sensitive applications, soak in water or buffer for 15 min to remove any traces of glycerine.

## ZelluTrans/Roth Mini Dialyzer MD 300

Made of **regenerated cellulose.**
**Ready-to-use dialysis system for samples from 50 to 300 µl.**
The Mini Dialyzer consists of a U-shaped polypropylene capillary with 75 µl graduations and membranes on both sides. The filled sample forms a thin layer over a large surface area, ensuring very short dialysis times.

- Available as an **individual dialyzer** packed in a 5 ml test tube or as a **dialyzer strip** with 8 interconnected individual dialyzers (can be separated)
- Membranes are made of high-quality regenerated cellulose with different pore sizes (MWCO), **dry packed**
- Easy to use: can be filled with sample and emptied using any standard pipette (100-1000 µl)
- Short dialysis times (30-480 min)
- Flexible: uses ranging from low-volume dialysis (in test tube, 96-deepwell plates, 2.5 ml) to high-volume dialysis (using a suitable flotation aid, 4768.1)

The Mini Dialyzers are ready for use straight away - no pretreatment required.
For sensitive applications, soak in water or buffer for 15 min to remove any traces of glycerine.

## Accessories for Mini Dialyzer MD 100 and MD 300

① **Flotation aids**, made of PE-foam, for use of the Mini Dialyzer in large dialysis vessels. Reusable.

② **PP cover film** for protection against contamination and evaporation or for storage. Self-adhesive.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| ① Flotation aid | **4768.1** | 1 | 6,40 |
| ② PP cover film (for 12 dialyzer strips) | **4781.1** | 1 | 5,35 |

# Premade Dialysis Units

## Micro dialysis capsule QuixSep®

Reusable dialysis system made of **HDPE** for fast and efficient cleaning of very small sample volumes (**50 µl to 5 ml**). Minimised sample loss, easy handling, usable with any type of membrane.

**Usage:**
The bottom part of the capsule (white) is filled with sample and the desired membrane is fixed in place by pressing on the capsule closure (red). The fitted capsule is placed into a buffer solution and set in rotation by a magnetic stirrer. This significantly accelerates the dialysis process; concentrations are equalised on average after 30 to 60 min per 0.1 ml of sample volume. On completion of dialysis, the dialysis membrane is pierced with a pipette tip or a syringe and the residual volume is drawn off. The micro dialysis capsule can then be cleaned and reused. During the dialysis process, the cover protects the membrane against damage, allowing multiple QuixSep® capsules to be used simultaneously in a vessel.

**Note:**
ready-fit dialysis membranes - see ZelluTrans/Roth membrane pieces for QuixSep®, Art. No. 2820.1 - 2822.1. Regenerated cellulose, available in three standard MWCO's.
If using other tube membranes, they must be trimmed to **20 x 20 mm** (for QuixSep® 0.1 to 1.0 µl) or **55 x 55 mm** (for QuixSep® with 5.0 ml volume); i.e. tubes with a flat width of at least 10 or 28 mm are required.

| Max. volume (ml) | Max. width of bottom part (mm) | Max. width of cover (mm) | Capsule height (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|---|

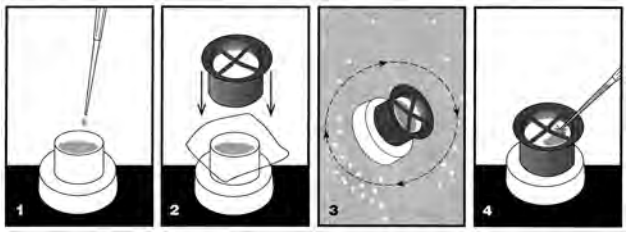
| Range, each 1x 0.1 / 0.5 / 1.0 ml | | | | **H450.1** | 1 | 166,65 |

## Replacement lids for Micro Dialysis Capsules QuixSep®



| Capsule size (max. vol.) | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 0,1 ml / 0,5 ml / 1,0 ml | **3929.1** | 10 | 122,55 |
| 5,0 ml | **3931.1** | 10 | 122,55 |

## ZelluTrans/Roth dialysis membrane pieces for QuixSep®

Single-layer membrane pieces (flat sheets) made of **regenerated cellulose**, packed dry. Properties - see ZelluTrans/Roth T series of dialysis membranes ( Art. No. E656.1 ff). Dimensions: 55 x 55 mm, **suitable for QuixSep® 5.0 ml micro dialysis capsules**. When using the small capsules (0.1 to 1.0 ml), the pieces can be cut into four equal parts (approx. 20 x 20 mm).
Easy preparation: soak in distilled water for approx. 20 minutes and rinse with distilled water. Use straight away since moist membranes must not be allowed to dry.

| Designation | MWCO | Dimensions | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| Membrane pieces F1 | 3500 | 55 x 55 mm | **2820.1** | 10 | 61,15 |
| Membrane pieces F2 | 6000-8000 | 55 x 55 mm | **2821.1** | 10 | 61,15 |
| Membrane pieces F3 | 12 000-14 000 | 55 x 55 mm | **2822.1** | 10 | 61,15 |

## Procedure with micro dialysis capsule QuixSep®

① Fill bottom part with sample.
② Fit the desired dialysis membrane (20 x 20 mm for H447.1, H448.1 and H449.1; 55 x 55 mm for 0671.1) and press on the cover.
③ Move QuixSep® continuously in a buffer solution using the magnetic stirrer.
④ On completion of dialysis, the dialysis membrane can be pierced with a pipette tip or a syringe and the residual volume drawn off.

## Chemical Compatibility of Dialysis Membranes

The list below is no guarantee of chemical compatibility. In fact, it should be used as a guide. Many other factors like temperature, concentration of solvent, duration of exposure etc. may modify the effect to the membrane.

**Membranes made of cellulose ester and regenerated cellulose are to be used only with diluted solvents, maximum about 25 %.**
Higher concentrations may alter the membrane.

We recommend to test the membrane compatibility under your own conditions first.

# Dialysis accessories

## ZelluTrans/Roth locking clips

Made of **PA**. For liquid-tight sealing of tube membranes.
Usage temperature -30 to +80 °C. Autoclavable.
Suitable for diaphragms made of regenerated cellulose, for diaphragms made of cellulose ester, please use universal sealing clips
(Art No. 0685.1 ff)

| Sealing length (mm) | Total length (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 45 | 65 | **H277.1** | 10 | 7,45 |
| 65 | 90 | **H278.1** | 10 | 9,65 |
| 110 | 130 | **P901.1** | 10 | 15,00 |
| 150 | 170 | **P902.1** | 10 | 23,60 |

**Please note:**
The closure clips should be 4-10 mm longer than the width of the tubular membrane.

## Spectra/Por®-universal locking clips

Made of **PA**. For liquid-tight sealing of tube membranes. Non floating.
**Suitable for all membrane types, especially recommended for membranes made of cellulose ester.**
Autoclavable, usage temperature 0 to 90 °C.

| Sealing length (mm) | Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 50 | yellow | **0685.1** | 10 | 93,55 |
| 70 | yellow | **0686.1** | 10 | 106,45 |
| 110 | yellow | **0687.1** | 10 | 118,25 |
| 150 | yellow | **0688.1** | 10 | 118,25 |

▶ Spectra/Gel™-Absorbant for concentration of dialysed biomolecules see the Biochemistry/ Protein Isolation chapter!

## Spectra/Por®-clips

Made of **PP**. Temperature stable from 0 to +121 °C. Autoclavable.
Suitable for diaphragms made of regenerated cellulose, for diaphragms made of cellulose ester, please use universal sealing clips
(Art No. 0685.1 ff)

**Standard clips**

| Sealing length (mm) | Colour | Art. No. | Pack Qty. | € |

| 75 | white/orange | **2783.1** | 20 | 220,40 |

## Spectra/Por®-magnetic weight locking clips

Made of **PP**. With embedded magnetic weight for use with magnetic stirrers.
- The dialysis bag is completely immersed in the buffer
- Continuous, rotary action for optimal material exchange
- No additional magnetic stirrer bar is required

Suitable for diaphragms made of regenerated cellulose, for diaphragms made of cellulose ester, please use universal sealing clips
(Art No. 0685.1 ff).

| Sealing length (mm) | Colour | Art. No. | Pack Qty. | € |
|---|---|---|---|---|

# Sekuroka®-Body showers

In compliance with DIN EN 15154-1:2006,
DIN 12899-3:2009 and ANSI Z 358.1-2009.

- Stable construction due to robust brass body
- Chemically resistant powder coating
- Large, maintenance-free ball stop-cock for high flow volume (at 1.5 bar 60 l/min)
- Large, easy to operate release rod
- Operative range from 1 to 10 bar water pressure
- Automatic-emptying, high-power shower head (prevents formation of bacteria and scaling)
- Maintenance-free
- Self-adhesive information label for body showers, 150 x 150 mm

## Body shower model 3

DVGW certified. For above the door mounting, surface inlet pipe, can be mounted on the right or left of the door, wall flange mounting. Is triggered by a pull-rod valve, which does not close automatically. Water-connection ¾″ inner thread, overhang 565 mm, distance of pull-rod valve to shower arm 500 mm, length of pull rod 700 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **EP72.1** * | 1 | 396,70 |

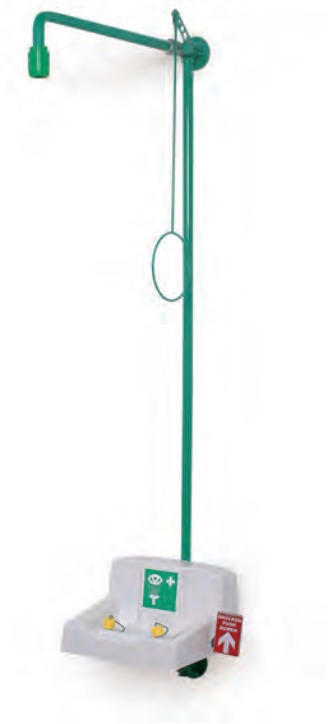
* Longer delivery times possible. Please check with our Sales Department.

## Body shower model 1

DVGW certified. For wall assembly, surface inlet pipe.
Wall flange mounting. Is triggered off by pull-rod valve, which does not close automatically. Water connection ¾″ inner thread, overhang 625 mm, pull-rod length 700 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **EP70.1** * | 1 | 279,50 |

* Longer delivery times possible. Please check with our Sales Department.



## Combined emergency showers

**Acc. to DIN EN 15154-1:2006, DIN EN 15154-2:2006, DIN 12899-3:2009 and ANSI Z 358.1-2009. DIN-DVGW tested and approved.**

- **Emergency body shower with eye wash**
- Made of brass with chemical resistant powder coating, colour green
- Water connection: ¾″ internal thread
- Wall mounting, surface-type
- Projection: 625 mm

| Image | Type | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① | Emergency body shower with hand-eye wash, vertical shower head | **YP32.1** | 1 | 729,95 |
| ② | Emergency body shower with eye wash, two 45° shower heads | **YP33.1** | 1 | 740,70 |

All laboratories must have a **body shower** with a drinking water supply beside the exit which contains sufficient water (at least 30 l/min) to wet all body parts immediately. The showers must meet the requirements of DIN EN 15154-1. (Laboratory guidelines "Working Safely in Laboratories – Basic Principles and Guidelines" , DGUV Information 213-850, previously BGI/GUV-I 850-0).

## Body-/Eye shower model 2

**Combined shower for wall mounting**
- Height 205 mm, width 355 mm, depth 305 mm
- Wall-mounted shower arm ¾″ made of brass, spout projection 625 mm
- Volume flow rate 60 l/min at 1-1.5 bar flow pressure

**Body shower:**
- Wall flange ¾″ made of brass, water supply ¾″ inner thread
- Brass ball valve ¾″ with pull rod operation
- Pull rod with triangular handle made of steel, 700 mm long
- High-performance shower head made of chemically resistant plastic with upgraded stream, corrosion-resistant

**Eye shower with basin:**
- Eye and face shower with 2 shower heads and basin
- Media-bearing parts made of stainless steel 1.4301 (AISI304)
- Enclosure and basin made of unbreakable and UV-resistant ABS plastic
- Activated by pressing large stainless steel panel
- Broad-stream shower heads ensure extensive water distribution
- With integrated volume regulating valve ⅜″ outer thread
- Water supply ⅜″ outer thread, water drainage 1 ¼″ outer thread

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KH53.1** * | 1 | 891,20 |

* Longer delivery times possible. Please check with our Sales Department.

**Emergency shower inspection**

Emergency showers (body showers and eyewashes) must be inspected on a monthly basis as stipulated by laboratory guidelines "Working Safely in Laboratories – Basic Principles and Guidelines" , (DGUV Information 213-850, previously BGI/GUV-I 850-0) section 7.2. Besides the flow rate, this inspection involves a visual assessment of the water distribution through the shower head and the quality of the water.

The purpose of the regular inspections is also to ensure that the actuating valve continues to operate smoothly and water flow through the shower head is maintained. In addition, the function tests safeguard against microbial contamination. It is recommended that emergency eyewashes be operated even more frequently.

## Emergency shower test trolley

Mobile catch tank on 4 castors with two recessed handles. Can be dismantled into three pieces for easy storage. Drain screw for floor drainage. Retention capacity: 30 litres. Total/ catch height 2.1 m, W 440 x D 440 mm. Aluminium tube ∅ 47 mm, connectable, non extendable. Funnel ∅ 440 mm, height 160 mm. Overall weight 7 kg.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **YP27.1** | 1 | 201,05 |

## Sekuroka®-shower tester

For easy checking of body showers. Consists of: synthetic hose with stitched-in opening ring, upper ∅ 28 cm, lower ∅ 12 cm, length 180 cm. 20-litre plastic bucket. Metal clamp rod, 80 cm long.

| Art. No. | Pack Qty. (set) | € |
|---|---|---|
| **T348.1** | 1 | 198,90 |

# Sekuroka®-eye showers

In compliance with DIN EN 15154-2:2006 and ANSI Z358.1-2009. DVGW-certified.

- Rubber sleeves to protect against injury
- Dust caps open automatically when actuated
- Integral flow control ensures a steady jet of water even if water pressure varies
- With extremely wide-stream shower head for a large surface water distribution
- Large holes in the shower heads protect against scaling
- Shower heads can be removed easily for maintenance
- Self-adhesive information label for eye shower, 150 x 150 mm

## Eye showers model 2

Identical to model 1 except that the **shower head is inclined at 45°**, allowing the eye bath to be used without removing it from the wall or desktop holder.

**With 1 shower head**

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KT01.1** | 1 | 225,75 |

**With 2 shower heads**

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KT02.1** | 1 | 265,55 |

## Eye shower model 1

**With a vertical shower head.**

With non-automatic closing valve **for wall and vertical desk top mounting**. The release lever locks automatically, and the water can easily be shut off by releasing the lever. Made of plastic (media-conveying parts are made of brass). Silicone hose stainless steel clad, 1.5 m long. Flow rate 7 l/min per shower head at a minimum operating pressure of 1 bar. ½″ water connection, internal thread, union nut.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KT00.1** | 1 | 181,70 |

## Premium eye showers

**Tested and approved acc. to DIN EN 15154-2:2006 and ANSI Z358.1- 2009, DIN-DVGW.**

- Made of stainless steel
- For bench or wall mounting
- Integrated backflow preventer
- Stainless steel sheathed drinking water tube, length 1.5 m
- Water connection ½″ internal thread

**With vertical shower head**

- High-performance shower head with integrated flow rate regulator: 7 l/min
- Attachment height: 77 cm (±20 cm)
- Height of shower: 21 cm

| Image | Type of assembly | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① | Benchtop | **YP23.1** | 1 | 255,85 |
| ② | Wall, 20° angle wall bracket | **YP24.1** | 1 | 255,85 |

**With two vertical shower heads**

- High-performance shower head with integrated flow rate regulator:14 l/min
- Attachment height: 68 cm (±20 cm)
- Height of shower: 26 cm

| Image | Type of assembly | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ③ | Benchtop | **YP25.1** | 1 | 338,65 |
| ④ | Wall, 20° angle wall bracket | **YP26.1** | 1 | 338,65 |

All laboratories must install an **eye shower**, which meets the requirements of DIN EN 15154-2 (Laboratory guidelines "Working Safely in Laboratories – Basic Principles and Guidelines", DGUV Information 213-850, previously BGI/GUV-I 850-0). In the event of contamination or cauterization, both eyes can, therefore, be rinsed immediately and for as long as necessary with a constant supply of drinking water.

**Eye wash flasks**, which do meet the requirements of DIN EN 15154-4, can still be used to supplement the emergency eye showers, especially those with special rinsing solution.

# Eye showers

## Eye shower model 3

For table assembly. Two 45° offset shower heads and distributor fork made of brass, with chemically resistant green powder coating.
With large release lever, 130 mm long and big "PUSH" sign, luminescent according to DIN 67510. Maintenance-free ball valve, 90° operation, made of stainless steel, does not close automatically, DIN-DVGW certified and approved.
Flow rate 14-16 l/min at a minimum operating pressure of 1 bar.
Water connection ½″ outer thread incl. attachment kit.
Dimensions: W (incl. lever) 240 x H 180 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **LP23.1** | 1 | 194,60 |

## Eye shower model 5

For wall mounting. With stainless steel basin, diameter 275 mm, drainage connection 1 ¼″ inner thread. Two shower heads, distributor fork and wall flange (water connection ¾″ inside thread) made of brass, with chemically resistant green powder coating. With large release lever, length 240 mm and big "PUSH" sign, luminescent according to DIN 67510. Maintenance-free ball valve, 90° operation, made of stainless steel, does not close automatically, DIN-DVGW certified and approved.
Flow rate 14-16 l/min at a minimum operating pressure of 1 bar.
Dimensions: W (incl. lever) 425 x D 385 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **LP26.1** | 1 | 364,45 |

## Eye shower model 4

For wall mounting.Two 45° offset shower heads, distributor fork and wall flange (Water connection ¾″ inner thread) made of brass, with chemically resistant green powder coating. With large release lever, 130 mm long and big "PUSH" sign, luminescent according to DIN 67510. Maintenance-free ball valve, 90° operation, made of stainless steel, does not close automatically, DIN-DVGW certified and approved.
Flow rate 14-16 l/min at a minimum operating pressure of 1 bar.
Dimensions: W (incl. lever) 330 x D 330 mm.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **LP25.1** | 1 | 246,20 |

## Sekuroka®-eye shower Kleen Eyes® II

For connection to water spigots with outer thread M 22 x 1. Is activated by simple push of a button. Ensures continuous fresh water supply. Both hands stay free US-patent.

**Sekuroka®-eye showers Kleen Eyes® II is not inconformity with DIN 15154-2, Part 2**. The eye shower may only be used as a supplement to emergency eye showers in conformance with DIN 15154-2.

**Automatic switch-back** to normal use of tap water when turned off.
Spray heads can be adjusted to desired angle.
The eye-shower unit can be rotated when attached to water tap.
This enables the unit to be fitted to awkwardly situated water taps and to be adjusted to the required position.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E348.1** | 1 | 102,15 |

**Adapter for Kleen Eyes®**
M 22 x 1 outer, ½″ inner. For connecting Kleen Eyes® units to water taps with ½″ outer thread.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **E711.1** | 1 | 5,50 |

## Eye shower model 6

For in-wall mounting or for replacing the cold water tap. Made of brass, with chemically stable powder coating. Spray disc made of plastic. Two wide streamm 45° offset shower heads. Release lever with 90° operation. Valve does not close automatically. Waterconnection ½″ outer thread.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KX21.1** | 1 | 212,85 |

# Eye wash bottles

## Disposable eye wash bottles

By Plum. Compliant with DIN EN 15154-4. Sterile. Supplied with dust cap. This easy-to-use product is designed to allow speedy rinsing of eyes in an emergency. Patented eye supports keep the eyelids open during rinsing. Duo design enables both eyes to be rinsed simultaneously.

- Sterile saline (0.9 %)
- Quick and easy use
- Directions for use on the bottle
- No contamination
- No cleaning or maintenance needed
- Shelf life 3 years (if unopened)

**Note**: disposable eye wash bottles to DIN EN 15154-4 may only be used in addition to existing eye wash units to DIN EN 15154-2 if no running potable water or water of comparable quality is available!

**① Eye wash bottles for one eye**

| Volume (ml) | Total rinsing time | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 200 | approx. 2 min | **Y829.1** | 1 | 11,80 |
| 500 | approx. 5 min | **Y828.1** | 1 | 18,25 |
| 1000 | approx. 10 min | **LH95.1** | 1 | 21,00 |

**② Duo eye wash bottle for both eyes**

| Volume (ml) | Total rinsing time | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| 500 | approx. 2 min | **ALA8.1** | 1 | 16,10 |
| 1000 | approx. 5 min | **LY44.1** | 1 | 27,75 |

## Phosphate buffer disposable eye wash bottles

By Plum. Compliant with DIN EN 15154-4. **Sterile.** Supplied with dust cap. This easy-to-use product is designed to allow speedy rinsing of eyes in an emergency. Patented eye support keeps the eyelids open during rinsing. For speedy and effective neutralisation of acids and a wide range of alkaline substances. Duo design enables both eyes to be rinsed simultaneously.

- Neutralising phosphate buffer solution (4.9 %)
- pH-neutral (pH-value 7.4)
- No contamination
- Quick and easy use
- Directions for use on the bottle
- No cleaning or maintenance needed
- Shelf life 3 years (if unopened)
- Rinsing time approx. 2 minutes

**Note:** disposable eye wash bottles to DIN EN 15154-4 may only be used in addition to existing eye wash units to DIN EN 15154-2 if no running potable water or water of comparable quality is available!

| Type | Design | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① | For one eye | 200 | **AA81.1** | 1 | 13,95 |
| ② | Duo, for both eyes | 500 | **LY45.1** | 1 | 25,30 |

## Wall-mounted eye wash stations

By Plum. Wall mounting with pictogram, including one eye wash bottle.
① 1 x 500 ml sterile NaCL eye wash solution (Y828.1)
② 1 x 1000 ml sterile NaCL eye wash solution in duo bottle (LY44.1)

For eye wash use at any time in the workplace.
The duo bottle allows both eyes to be rinsed simultaneously.
Pictogram dimensions: H 300 x W 90 x D 3 mm.
**Delivery incl.** mounting materials.

**Note:** Disposable eye wash bottles to DIN EN 15154-4 may only be used in addition to existing eye wash units to DIN EN 15154-2 if no running potable water or water of equivalent quality is available!

| Type | Design | Volume (ml) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| ① | For one eye | 500 | **Y830.1** | 1 | 34,95 |
| ② | Duo, for both eyes | 1000 | **LY50.1** | 1 | 40,65 |

## Duo wall-mounted eye emergency station

By Plum. Wall mount with pictogram and mirror, including duo eye wash bottles:

- 1 x 1000 ml sterile NaCL eye wash solution (LY44.1)
- 1 x 500 ml sterile pH neutral phosphate buffer eye wash solution (LY45.1)

Ideal for use in workplaces where acids, bases and foreign bodies can get into the eyes.
Duo bottles come eye device for rinsing both eyes at the same time.
After rinsing with the phosphate buffer solution, it is recommended that rinsing with the sodium chloride solution be continued until medical treatment is provided.

Pictogram dimensions: H 300 x W 90 x D 3 mm.

**Delivery incl.** mounting materials and mirror.

**Note:** Disposable eye wash bottles to DIN EN 15154-4 may only be used in addition to existing eye wash units to DIN EN 15154-2 if no running potable water or water of equivalent quality is available!

All laboratories must install an **eye shower**, which meets the requirements of DIN EN15154-2 (Laboratory guidelines "Working Safely in Laboratories – Basic Principles and Guidelines", DGUV Information 213-850, previously BGI/GUV-I 850-0). In the event of contamination or cauterization, both eyes can, therefore, be rinsed immediately and for as long as necessary with a constant supply of drinking water.

**Eye wash flasks**, which do meet the requirements of DIN EN15154-4, can still be used to supplement the emergency eye showers, especially those with special rinsing solution.

## Eye first-aid stations

By Plum. First-aid stations each containing:

- 1 x 500 ml sterile NaCL eye wash solution (Y828.1)
- 1 x 200 ml sterile pH neutral eye wash solution (AA81.1)
- Mirror
- Integrated pictogram and/or marking of eye wash direction

Two models available:
① Wall station with wall attachments:
Dimensions: H 290 x W 230 x D 80 mm.
② Dust-proof wall box: Dimensions: H 270 x W 227 x D 110 mm.

**Delivery incl.** wall attachment material.

| Image | Design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① | Wall station with wall attachment, open | **CK43.1** | 1 | 53,70 |
| ② | Dust-proof wall box | **CK44.1** | 1 | 64,40 |

# Eye wash bottles

## Wall-mounted eye wash box

By Plum. Wall box with two eye wash bottles filled with 500 ml sterile NaCl eye wash solution (Y828.1).
With marking of eye wash direction and mirror.

- Ideal for use in workplaces where dust and dirt accumulate (e.g. workshops)
- Easy to open for quick access in an emergency

Dimensions: H 270 x W 227 x D 110 mm.

**Delivery incl.** mounting materials.

|---|---|---|
| **Y831.1** | 1 | 60,75 |

## Sekuroka®-eye wash flask

Acc. to DIN EN 15154-4, filled with 620 ml eye wash solution (water), 2 year shelf life.

- **Refillable:** the eye wash bottle can be filled with drinking water any number of times after the first complete rinse to allow continuous rinsing until medical care is provided
- **Patented tilt valve:** allows the eye wash bottle to be drained both upwards and downwards, e.g. in a bent-forward posture or in a reclining body position

| Art. No. | Pack Qty. | € |
|---|---|---|
| **1543.1** | 1 | 26,70 |

## Wall attachment for Sekuroka®-eye wash flask

| Art. No. | Pack Qty. | € |
|---|---|---|
| **5546.1** | 1 | 6,40 |

## Eye wash bottle station

Made of shock-proof plastic. For dust and splash-free storage of all standard eye wash bottles. Protective lid locks in place when open. Also contains mirror which enables immediate and on-the-spot application and control. Dimensions: H 236 x W 225 x D 125 mm.

Suitable for storing maximum:

- 6 Sekuroka®-mini eye wash bottles (K128.1) or
- 3 disposable eye wash bottles 500 ml (Y828.1/NH43.1) or
- 6 disposable eye wash bottles 200 ml (Y829.1)

**Delivery incl.** screws and dowels for wall attachment.
With labels on clasp for individual marking. Contents not included.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **Y832.1** | 1 | 42,80 |

## Sekuroka®-eye wash boxes

Made of plastic, with mirror.
For wall attachment, empty, for eye wash flask 1543.1.

| Type | W x D x H (mm) | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| For 1 eye wash flask | 320 x 180 x 78 | **8120.1** | 1 | 49,40 |
| For 2 eye wash flasks | 320 x 280 x 78 | **2005.1** | 1 | 66,55 |

All laboratories must have an **eye shower** with a drinking water supply, which meets the requirements of DIN EN 15154-2 (Laboratory guidelines "Working Safely in Laboratories – Basic Principles and Guidelines" , DGUV Information 213-850, previously BGI/GUV-I 850-0).
**Eye wash flasks**, which do meet the requirements of DIN EN 15154-4, can still be used to supplement the emergency eye showers. Should eye wash flasks be used, then preferably those with special rinsing solution.

# Eye wash bottles

## Sekuroka®-eye wash solution

Acc. to EN 15154-4. Eye wash bottle, with 500 ml 0.9 % sodium chloride solution, **sterile**, for washing foreign particles, e.g. wood and metal splinters, dust, dirt.

- Ready to use
- Eye wash bottle with ergonomically designed spray head and dust cap
- For mobile use and for refilling eye wash stations and first-aid cases

## UV-safety glasses LED Light Vision

By 3M. Acc. to **EN 166, EN 170**.
- Safety spectacles with height-adjustable and extremely bright LEDs
- Built-in batteries (2 x round cell batteries CR 2032), long battery life (over 50 hours)
- Illuminates dark areas and at the same time protects the eyes. Hands are free to work, e.g. for electric work, car repairs, installation work, do-it-yourself jobs, mechanical work in the dark, reading...
- With rubber padding on ear and nose-piece for extra comfort
- Non-fogging lens made of polycarbonate, also suitable for working with UV-light

Weight 61.4 g.

**Delivery incl.** microfiber pouch for storing and cleaning.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **KA25.1** | 1 | 22,80 |

## Safety glasses 5X9

By Univet. Acc. to **EN 166, EN 170**. The two-lens structure enables a wide selection of lens materials and filters and can thus be used in many applications. The integrated flip-up system and the lens form a unique modular system for maximum flexibility.
- Integrated side protection with ventilation system
- Arms can be adjusted in length and angle, with SoftPad™-ear pieces
- Version with elastic head band is equipped with a tight-fitting additional frame
- Version with glass lenses offers good protection against chemicals and scratches
- Weight: 52 g (glass), 35 g (polycarbonate)
- Can be combined with flip-ups with protective filters for specific requirements

**Application:** In chemistry labs and in environments with grinding dust.

| Frame colour | Lens design | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① gun metal/orange | PC, clear, anti-scratch coating | **HAA0.1** | 1 | 17,15 |
| ② gun metal/green | Glass, clear | **HAA1.1** | 1 | 32,15 |
| ③ with head band/black | PC, clear, anti-scratch and anti-fog coating | **HAA2.1** | 1 | 20,35 |

## Accessories for safety glasses 5X9

**Flip-up with protective filter for use with safety glasses 5X9.**
Can be easily fitted onto the glasses frame, removed again and replaced with another filter, can be flipped up.

**Green PC lenses:**
**IR 3:** Protection against UV and IR radiation and glare, which can occur during welding processes.
**Application:** Soldering, gas welding.
**IR 5:** Optimum protection against IR radiation, high VLT for good visibility in dark environments, good colour identification (TSR), sun protection.
**Application:** Glass work, quality control, foundries, artificial optical radiation (AOR).

**Blue glass lens:**
Protection against IR radiation. Absorbs yellow-orange radiation. Reduces distracting reflections caused by molten glass or metal.
**Application:** Glass work, metallurgy, foundries.

## Surgical masks with SUAVEL®-Antifluid visor

By Meditrade®. Acc. to EN 14683 Model II R, 93/42EEC Class 1.
- Filtration capacity: > 99 % BFE (bacteria filtration efficiency)
- Face mask for highly contagious situations
- Splash and fluid protection for mouth, nose and eyes
- 4-layer skin friendly material with antifluid layer
- With reinforced, long nose piece
- For tying
- Latex free, lint-free, non-sterile
- Colour: blue

| Art. No. | Pack Qty. | € |
|---|---|---|
| **CAL8.1** | 50 | 44,10 |

## Disposable protection masks Visma®

By B. Braun.
- OP facemasks to EN 14683 type II
- Acc. to MDD 93/42/EEC class 1
- Filtration capacity ≥98 % BFE (Bacterial filtration efficiency)
- Protection for patient and wearer
- Soft textile non-woven fabric
- Glass fibre free and latex free
- 3-ply, skin friendly
- Excellent fit
- Absorbent material prevents spectacles from fogging

**Visma® ear-loop:** with rubber straps for secure fitting behind the ears
**Visma® tie-on:** with straps for tying

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Visma® ear-loop | **X458.1** | 50 | 17,45 |
| Visma® tie-on | **HY39.1** | 50 | 16,10 |

## Suavel® Protec surgical masks

By Meditrade. In accordance with EN 14683 Type II.
- Three-layer disposable facemasks
- With elasticated ear loops
- Premium-quality materials ensure the masks are well tolerated by the skin
- Ultrasonic sealing: No uncomfortable seams or threads coming loose
- Reinforced nose bridge enables optimum adaptation to facial contours
- Latex- and glass fibre-free
- Colour: Green

① **Suavel® Protec**
Basic model that is extremely comfortable to wear.
Bacteria filtration efficiency (BFE) >98%.

② **Suavel® Protec Plus**
Highly effective and extremely comfortable. Extra-soft padded ear loops make the mask comfortable to wear for extended periods.
Bacteria filtration efficiency (BFE) >99%

| Image | Type | Art. No. | Pack Qty. | € |

| ① | Suavel® Protec | **EHT9.1** | 50 | 4,85 |
| ② | Suavel® Protec Plus | **EHX0.1** | 50 | 7,00 |

## Medical masks

By Moldex. **All-in-one fine dust mask and medical mask**
2-way protective special masks for medical applications, emergency services, pharmaceuticals industry and foodstuffs industry.

Acc. to EN 149:2001+A1:2009 Occupational Safety Standard (EC Directive 89/686/EEC) and
EN 14683:2005 Medical Products Standard (Medical Products Directive 93/42/EEC).

**Protection for the wearer**
- Protects against airborne hazardous substances (FFP2 NR and FFP3 NR to Occupational Safety Standard EN 149:2001)
- Protects against chemical splashes (splash resistant type IIR to Medical Products Standard EN 14683:2005)

**Environment protection**
- 98 % antibacterial filtration (type II to Medical Products Standard EN 14683:2005)

**All the advantages at a glance:**
- Fluted filter technology: very low respiratory resistance, high absorption capacity, long life
- DuraMesh®: stable mask mesh
- ActivForm®: no nosepiece required
- Soft sealing lip and all-round strap with clip
- Packed individually
- Natural latex and PVC free
- Available in two sizes

| Protection level | Size | Moldex No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|---|
| FFP2 NR D | S | 3150 | **XA28.1** | 10 | 25,60 |
| FFP2 NR D | M/L | 3100 | **XA29.1** | 10 | 25,60 |
| FFP3 NR D | S | 3250 | **XA30.1** | 10 | 57,00 |
| FFP3 NR D | M/L | 3200 | **XA31.1** | 10 | 57,00 |

**Particle filtering half masks**
In accordance with European standards EN 149:2001 + A1:2009, particle filtering half masks protect the wearer **against solid and non-volatile liquid particles** and, depending on their filtration capacity, are subdivided into three classes based on OEL (Occupational Exposure Limit.

**FFP1**: up to 4 times OEL

**FFP2**: up to 10 times OEL

**FFP3**: up to 30 times OEL

**R:** Reusable
**NR:** Non reusable (for one work shift only)
**D:** Meets Dolomite Dust Test requirements.
The Dolomite Dust Test is mandatory for reusable (R) masks.

# Respiratory protection

## smart FFP preformed masks

By Moldex. Acc. to EN 149:2001 + A1:2009

**Protection against dust, aerosols and fumes**

- Anatomically preformed masks - adaptable to fit different face sizes
- DuraMesh®: sturdy mask mesh keeps the mask in shape
- ActivForm®: no nosepiece required
- Klimaventil® minimises heat and moisture build-up under the mask

- With soft sealing lip
- All-round strap with clip for easy application, removal and adjustment
- Colour-coded straps: FFP1 blue, FFP2 white, FFP3 yellow

**Without Klimaventil®**

| Protection level | Moldex No. | Art. No. | Pack Qty. | € |

## Particle masks Aura™ 9300+ series

By 3M. Acc. to EN 149:2001 + A1:2009.

- Soft fleece, low weight and flat design guarantee comfortable wear; Speaking is no problem
- Integral nose piece with sweat-absorbing padding
- Can be folded flat for easy transport; individually wrapped
- Compatible with spectacles and eye protection
- Cool-Flow exhalation valves reduce breathing resistance and prevent heat accumulation under the mask
- Without natural rubber components
- **Colour-coded bands:** FFP1 yellow, FFP2 blue, FFP3 red

①-③ **Without exhalation valve**

| Protection level | 3M No. | Art. No. | Pack Qty. | € |

## silv-Air preformed respiratory protection masks

By UVEX. Acc. to EN 149:2001 + A1:2009.

- Optimized shape
- 4-point adjustable band for comfortable, safe fitting
- Flexible, adaptable nosepiece
- 2 extra filters with inhalation valve for lower respiratory resistance
- Larger filter surface means longer period of use
- Dolomite dust check (D)
- Soft, sealing lip all round
- Temperature control via two suction valves and one exhalation valve

| Protection level | Uvex No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| FFP2 R D | 7232 | **XC92.1** | 3 | 27,45 |
| FFP3 R D | 7330 | **KX42.1** | 3 | 33,35 |

## Particle masks Aura™ 9400+

By 3M. Acc. to EN 149: 2001+A1:2009.
Specially designed to meet the requirements for **foodstuff production and processing**. Comfort features of the Aura™ 9300+ series plus:

**No small parts which can become detached**

- Clip-free: minimises the risk of contamination
- Inlying, adjustable nose piece: securely integrated into the mask

**High recognisability**

- Metal detector: integrated metallic nose piece
- Visual monitoring: blue contrast colour stands out clearly from foodstuff colours

| Protection level | 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| FFP2 NR D | 9422+ | **YP12.1** | 10 | 40,25 |

# Respiratory protection

## Two-way respiratory protection masks Aura™ 1800+ series

By 3M. Acc. to EN 149:2001 + A1:2009.
Type IIR acc. to EN 14683:2005 (Surgical Masks), acc. to 93/42/EEC, class 1.

- **Protects the user and the environment**
- Protection against particulates and aerosols
- Protection against ingress of chemical splashes, e.g. body fluid
- Suitable for lab technicians (e.g. **handling of cytostatic agents**), the pharmaceuticals industry (production of medicines), doctors, operating room nurses, emergency room staff

- Three-piece design, mask adapts to many different face shapes and sizes
- Compatible with safety spectacles
- Folded flat and individually, hygienically packed for easy portability
- Integrated nose piece with perspiration absorbent padding

**Without exhalation valve**

| Protection level | 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| FFP2 NR D | 1862+ | **CNE4.1** | 20 | 85,95 |
| FFP3 NR D | 1863+ | **CNE5.1** | 20 | 192,45 |

**With special Cool-Flow exhalation valve**
Specially developed, covered Cool-Flow exhalation valve reduces heat build-up in the mask and breathing resistance while protecting the environment against exhaled aerosols.

| Protection level | 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| FFP3 NR D | 1883+ | **HT23.1** | 8 | 61,20 |

## Particle masks classical, series 8000

By 3M. Acc. to EN 149:2001 + A1:2009.
- For protection against fine dust and liquid particulates
- Dimensionally stable mask frame with flexible nose piece
- **Cool-Flow exhalation valve** reduces breathing resistance and prevents build-up of heat under the mask

**Without exhalation valve**

| Protection level | 3M No. | Art. No. | Pack Qty. | € |

## Premium particle masks

By 3M. In accordance with EN 149:2001 + A1:2009; for filtering out fine dust and liquid particles.
- **Masks have passed the Dolomite clogging test (D)** and have an all-round sealing lip, meaning they can be worn for more than one shift
- 3M™ Advanced Electret Media (AEM) is a high-performance filter material to facilitate breathing
- Consistently high filtering power
- **Cool-Flow exhalation valve** prevents heat from building up in the mask and makes breathing easier
- Reduces fogging of eye protection
- 3D preformed seal around the face makes the masks exceptionally comfortable to wear and extremely safe
- Flexible material with built-in nose profile allows the mask to adapt to any face shape
- Masks do not contain components made of latex, PVC or metal
- Held securely in place by a four-part fabric strap, which is adjustable and extra-wide
- Colour-coded according to protection factor (FFP = blue, FFP3 = red)

**FFP2 R D** for filtering out solid and liquid particles of noxious substances; for atmospheres with a hazardous concentration of up to 10 times the exposure limit for that hazard.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 8825+ | **0266.1** | 5 | 39,25 |

**FFP3 R D** for filtering out solid and liquid particles of toxic and highly toxic substances; for atmospheres with a hazardous concentration of up to 30 times the exposure limit for that hazard.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 8835+ | **8123.1** | 5 | 49,25 |

## Special masks

By 3M. By 3M. Acc. to EN 149:2001 + A1:2009.

① **Odour binding masks FFP1 NR D**

Protect against fine dust up to 4-times the limit value and below the limit value **against unpleasant organic odours**.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 9913 | **0936.1** | 20 | 95,15 |

② **Odour binding masks FFP1 NR D with Cool-Flow exhalation valve**

Protect against fine dust up to 4-times the limit value and below the limit value **against organic odours.**

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 9914 | **EH58.1** | 10 | 52,70 |

③ **Smog masks FFP1 NR D**

Protect against fine dust up to 4-times the limit value and below the limit value **against HF-gas and sulphur dioxide.**

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 9915 | **P841.1** | 20 | 92,45 |

④ **Special masks FFP2 NR D with Cool-Flow exhalation valve**

Protect against fine dust up to 10-times the limit value and below the limit value **against organic odours, HF-gas and sulphur dioxide.**

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 9926 | **EH59.1** | 10 | 72,00 |

⑤ **Ozone masks FFP2 R D with Cool-Flow exhalation valve**

Protect **against harmful fine dusts, metal fumes and ozone** up to 10-times the limit value. Ideal for welding.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 9928 | **P842.1** | 10 | 101,05 |

⑥ **Special masks FFP3 R D with Cool-Flow exhalation valve**

Protect against fine dust up to 30-times the limit value and below the limit value **against sour gases, HF-gas and sulphur dioxide.**

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 9936 | **EH60.1** | 10 | 94,55 |

**Particle filtering semi-masks** are classified according to the filter peformance into 3 groups. These depend on the limit value of the harmful substance (up to 4 x, 10 x or 30 x value).

In accordance with norm EN 149: 2001, particle filtering semi-masks protect against solid and liquid particles. These are classified into three groups, FFP1, FFP2 and FFP3 depending on the level of the limit value.

## 4000 Plus-series respiratory masks

By 3M. Acc. to EN 405: 2001 + A1:2009. Ready-to-use half masks, maintenance free, comfortable and high quality. Integrated filters allow long service life. With exhalation valve, large field of vision and special head band for optimal weight distribution. Combinable with safety goggles and ear protection. Delivered in an airtight, resealable bag.

① **FFA1P2 RD**

Protects against organic gases and vapours (boiling point >65 °C) up to 1000 ppm and against solid and liquid particles up to 10x occupational exposure limit.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 4251 | **9750.1** | 1 | 25,30 |

① **FFABE1P3 RD**

Protects against organic and inorganic gases and vapours, as well as $SO_2$/HCl up to 1000 ppm and against solid and liquid particles of harmful substances up to 30x occupational exposure limit.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 4277 | **C272.1** | 1 | 33,35 |

① **FFA2P3 RD**

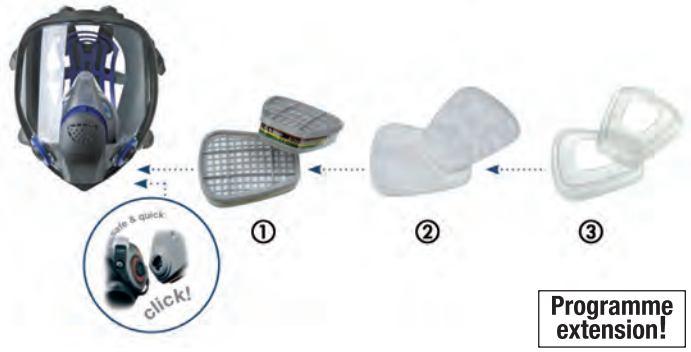
Protects against organic gases and vapours (boiling point >65 °C) up to 5000 ppm and against solid and liquid particles of harmful substances up to 30x occupational exposure limit.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 4255 | **E347.1** | 1 | 31,10 |

① **FFABEK1P3 RD**

Protects against organic and inorganic gases and vapours, as well as $SO_2$/HCl and ammonia up to 1000 ppm and against solid and liquid particles of harmful substances up to 30x occupational exposure limit.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 4279 | **L162.1** | 1 | 37,10 |



② **Particle prefilter for 4000 series masks**

Protects against coarse particles and extends the useful life of the mask.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 400 | **AKX1.1** | 10 | 17,15 |

# Respiratory protection

**Programme extension!**

## ① Gas filters

By 3M. Acc. to EN 141 (gas filters). The filters are fitted directly to facepiece via bayonet catch. The unique design ensures optimal weight distribution and excellent vision. Fit for respiratory masks by 3M: L167.1ff/N168.1ff/ PT45.1 f/N182.1/ HLL0.1ff.

| Filter | For protection against... |
|---|---|
| **A1** | organic vapours with max. concentration of 1000 ppm. |
| **A1+formaldehyde** | organic vapours with max. concentration of 1000 ppm and formaldehydes. |
| **A2** | organic vapours with max. concentration of 5000 ppm. |
| **ABE1** | organic vapours, inorganic and acid gases with max. concentration of 1000 ppm. |
| **ABEK1** | organic vapours, inorganic, acid gases and ammonia derivates to max. concentration of 1000 ppm. |
| **K1** | Ammonia and derivatives with max. concentration of 1000 ppm. |

| Filter type | 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| A1 | 6051 | **L170.1** | 8 | 44,75 |
| A2 | 6055 | **L172.1** | 8 | 52,90 |
| ABE1 | 6057 | **L173.1** | 8 | 49,70 |
| A1 + formaldehyde | 6075 | **L174.1** | 8 | 50,65 |
| ABEK1 | 6059 | **N171.1** | 8 | 54,85 |
| K1 | 6054 | **L171.1** | 8 | 52,70 |

## ② Non-woven filter insert for protection against ingress of particles

By 3M. Acc. to EN 143 (particulate filters). Used together in combination with gas filters L170.1ff and HLK8.1f and filter holder L181.1.

| Filter | For protection against... |
|---|---|
| **P1R** | Particles of inert substances up to 4 times the limit value. |
| **P2R** | Particles of inert substances up to 10 times (for semi-masks) / 15 times (for full masks) the limit value. |
| **P3R** | Particles of inert substances up to 30 times (for semi-masks) / 200 times (for full masks) the limit value. |

| Filter type | 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| P1R | 5911 | **L175.1** | 30 | 40,35 |
| P2R | 5925 | **L176.1** | 20 | 66,15 |
| P3R | 5935 | **N174.1** | 20 | 82,70 |

## ③ Filter holders

By 3M. For combination of gas and particulate insertion filters.

| 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|
| 501 | **L181.1** | 2 | 4,85 |

## Round particulate filters

By 3M. Acc. to EN 143 (particulate filters). The rounded shape enables easier assembly, as the filters can be attached in any position with the bayonet fastening. Breathing resistance was reduced by 30 %, thus enabling longer, fatigue-proof working. Fit for respiratory masks by 3M: L167.1ff/N168.1ff/PT45.1 f/N182.1/ HLL0.1ff.

| Filter | For protection against... |
|---|---|
| **P2R** | Solid and liquid particles of harmful substances up to 10 times (for semi-masks) / 15 times (for full masks) the limit value. |
| **P2R with active charcoal** | Particles of harmful substances up to 10 times (for semi-masks) / 15 times (for full masks) the limit value, with additional protection against organic and acid gases and vapours as well as ozone below the limit value. |
| **P3R** | Solid and liquid particles of harmful substances up to 30 times (for semi-masks) / 200 times (for full masks) the limit value. |
| **P3R with active charcoal** | Particles of toxic and highly toxic substances up to 30 times (for semi-masks) / 200 times (for full masks) the limit value, with additional protection against organic and acid gases and vapours below the limit value as well as ozone up to 10 times the limit value. |

| Filter type | 3M No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| P2R | 2125 | **L177.1** | 20 | 76,35 |
| P2R with active charcoal | 2128 | **L178.1** | 20 | 88,15 |
| P3R | 2135 | **L179.1** | 20 | 90,30 |

## Gas filter with indicator

By 3M. The new 3M™ 6051i and 6055i filters for protection of organic gases and vapours ensure that the filter saturation can be readily seen and read: Thanks to the innovative 3M™ technology, the filters are equipped with a consumption display.
If used properly in the corresponding environments, it displays an indicator line when the filter should be replaced.

**Important warnings and instructions for use:**
Whether the new **3M™ filter consumption display** is suitable as single basis for the decision for filter change management in the individual working environment, must be considered by the user prior to use!
There is a corresponding information brochure in the packaging.
To determine whether you should rely entirely on the consumption display, please also use the 3M™-ESLI software under 3M.eu/SLS.
Matches respiratory masks from 3M:
L167.1ff/N168.1ff/PT45.1f/N182.1 and HLL0.1ff.

## Half masks series 6500 and 6500QL

By 3M. Acc. to EN 140. Light, robust and comfortable.
Strong, stable mask body with a robust but soft face seal.

- Face seal made of elastic silicone offers an optimum and comfortable fit
- Robust and adjustable headband ensures an optimum fit and high wearing comfort
- 3M™ Cool Flow™ exhalation valve reduces the breathing resistance and makes it easy to breathe
- The flat and compact design allows a wide field of vision and makes for easy cleaning of the smooth surface
- The design of the respiratory valve passes heat and moisture downwards and reduces fogging of the goggles
- Bayonet click system, compatible with 3M respiratory protection filter for numerous applications
- The 6500QL versions with "quick release" mechanism allow fast and simple removal of the mask during work breaks
- The straps and exhalation valve are available as spare parts

**Delivery without** filter, matching filter: L170.1ff, L177.1, HLK8.1, HHY2.1f and TE83.1f please order separately.

| P3 R with activated charcoal | 6038 | **TE84.1** | 8 | 59,35 |

## Half masks 6000 series

By 3M. Acc. to EN 140-1998.

- Made of elastomer material
- Easy to handle and rugged
- Extremely light (82 g) for fatigue-free working
- Low maintenance (exhalation/inhalation valves are non-interchangeable)
- Reduced breathing resistance through double filter system
- Good weight distribution
- Easy filter assembly using bayonet connection

Matching respiratory protection filter: L170.1 ff/L177.1 ff/HHY2.1 ff/ HLK8.1 ff/TE83.1 ff.

It is the manager's responsibility to ensure that respiratory protection equipment is maintained and checked in accordance with the instruction manual from the manufacturer. Should such recommendations not be available, the following table should be used as a guide DGUV regulations 112-190 (Maintenance and checking of respiratory protection (full masks, semi masks, quarter masks and mouth pieces)

| Work to be carried out (Comments) | Deadlines | | | | | |
|---|---|---|---|---|---|---|
| | prior to releasing for use | prior to use | after use*) | half-yearly | every 2 years | every 6 years |
| Cleaning and disinfecting | | | x | x[2] | | |
| Function and impermeability test | x | | | x[2] | x | |
| Valve disk change | | | | | x | x[1] |
| Communication membrane change | | | | | | x |
| Gasket ring change | | | | | x | x[1] |
| Screw thread check (with Lehrdorn) if applicable | | | | | | x** |
| Control by user | | x | | | | |

After parts which may influence impermeability have been changed, a full check-over is essential.

1 for reserve equipment;
2 only random checks for equipment in airproof packaging.
*) Respiratory masks which are used regularly, should be cleaned and disinfected as often as required. They should be cleaned as soon as possible after each application,, as perspiration or saliva, which dry on the valves, can interfere with their flawlessness.The equipment must be disinfected before it is handed over to another user.
**) After the first 6-year deadline, the equipment should be checked yearly for possible wear and tear.

## Dräger PARAT® rescue hoods

By Dräger. Acc. to EN 403:2004 (fire rescue hoods).
Protects eyes and respiratory passages.

- High-performance respiratory filter
- Easy to put on and safe to wear, allows a quick escape
- Wide field of vision for better orientation when escaping from a fire
- Also suitable for spectacle wearers and people with beards.
- Replacing the filter extends the shelf life by a further 8 years

## Alphabetical listing of harmful substances and recommended respiratory protection filters

**When selecting protective breathing equipment, observe the DGUV regulations 112-190 - Use of respiratory protective devices (formerly BGR 190) !**

| Harmful Substance | Filter type |
|---|---|
| Acetaldehyde | AX |
| Acetone | AX |
| Acetonitril | A |
| Acrylaldehyde | AX |
| Acrylamide | A(-P3) |
| Acrylnitrile | A |
| Acrylic acid | A |
| Potassium hydroxide (caustic potash solution) | P2 |
| Aluminium | P2 |
| Alumimiumchloride | P2(-E) |
| Alumimium oxide | P2 |
| Formic acid | E; B |
| Amine (C7-C9 aliph.) | A; B |
| Ammonia | K |
| Ammonium chloride | P2 |
| Iso-Amyl alcohol | A |
| Aniline | A(-P3) |
| Antimony | P2 |
| Stibine | B |
| Arsenous acid and its salt | P3 |
| Arsenic trioxide (Arsenic) | P3 |
| Arseniuretted hydrogen | B(-P3) |
| Asbestos | P2; P3 |
| Ash | P2 |
| Atrazine | P2 |
| Bacteria | P2 |
| Barium compounds soluble | P2 |
| Cotton dust | P2 |
| Petrol | A |
| Benzene | A |
| Benzyl chloride | B(-P2); A(-P2) |
| Beryllium | P3 |
| Concrete (-injection guns) | P2 |
| Biphenyl | A(-P2) |
| Hydrocyanic acid | B |
| Lead and compounds | P2 |
| Lead chromate | P3 |
| Lead vapour | P2; P3 |
| Boroxide | P2 |
| Boric acid | (E-)P2 |
| Bromine | B |
| Hydrogen bromide | E-P2 |
| Butane | AX |
| Butanol | A |
| Butanone | A |
| Butyl acetate | A |
| n-Butyl acrylate | A |
| Butyl amin | AX |
| Cadmium and compounds | P3 |
| Calcium hydroxide, -sulphate, -oxide | P2 |
| Carbonyl chloride | B |
| Chlorine | B(-P3) |
| Chlorbenzene | A |
| 2-Chloro- 1,3-Butadiene | AX |
| Chlorinated biphenyl | (A)P2 |
| Chloroform | AX |
| 3-Chlorpropene | AX |
| Chrome(VI)-compounds | P3 |
| Cobalt-metal, -oxide, -sulphide | P3 |

| Harmful Substance | Filter type |
|---|---|
| Cyanamide | B-P2 |
| Cyanide (e.g. potassium cyanide, etc.) | B-P3 |
| Hydrocyanic acid | B |
| Cyclohexane | A |
| Cyclohexylamine | A |
| Cyclopentadiene | AX |
| Diazinone | A(P2) |
| Dibenozodioxine, -furane | (A-)P3 |
| Dichlorbenzene | A |
| 1,1-Dichlorethene, 1,2 -~ | AX |
| Dichlormethane | AX |
| Dichromate Na-, K- | P3 |
| Diesel fuel | A(-P3) |
| Diethylamine | AX |
| Diethyl ether | AX |
| Di-isopropylether | A |
| Dimethoxymethane | AX |
| Dimethylamine | K |
| 3,3-Dimethylbenzidine | (A-)P3 |
| Dimethylformamiden (DMF) | A |
| Dimethylnitrosamine | A(-P3) |
| Dimethylsulfate | A(-P3) |
| 1,4-Dioxane | A |
| Pyrosulphuric dichloride | B(-P2) |
| Stainless steel, vapours, fine dust | P3 |
| Iron oxide | P2 |
| Enzymes | P3 |
| Ethanol | A |
| Ethyl acetate | A |
| Ethyl acrylate | A |
| Ethyl amine | K |
| Ethyl benzene | A |
| Ethylene glycol | A(-P29 |
| Ethylene oxide | AX |
| Ethyl formiate | AX |
| Fluorine | B |
| Fluoride | P2 |
| Hydrogen fluoride (hydrofluoric acid) | E; B |
| Formaldehyde | B(-P3) |
| Formamide | A |
| Gypsum | P2 |
| Glass fibers | P2 |
| Glycidole | A |
| Graphite | P1 |
| Halogens | B |
| Halothane | AX |
| n-Heptane | A |
| Hexachlorcyclohexane | A(-P2) |
| n-Hexane | A |
| Hexane-Isomers | A |
| Wood dust | P2 |
| Hydrazine | K |
| Insekticide | A(-P3) |
| Jodine | B(-P2) |
| Isocyanate | B(-P3) |
| Isopropanol | A |
| Caustic potash | P2 |
| Lime | P2 |
| Silica glass, silica vapours | P2 |

| Harmful Substance | Filter type |
|---|---|
| Silica acid, Kieselguhr | P2 |
| Carbon monoxide | CO |
| Cresol | A |
| Cooling lubricants | P2 |
| Artificial mineral fibres | P2 |
| Copper, -vapours | P2 |
| Lindane | A-P3 |
| Magnesium oxide | P2 |
| Magnesium vapours | P2 |
| Maleic anhydride | A-P2 |
| Manganese compounds | P2 |
| Marble | P1 |
| Mill dust | P3 |
| Mercaptane | B |
| Methanol | AX |
| Methoxy ethanol | A |
| Methyl acrylate | A |
| Methyl amine | K |
| Methyl cyclohexanol | A |
| Methyl ethyl ketone (MEK) | A |
| Methyl isobutyl ketone | A |
| Molybdenum compounds | P2 |
| Naphthaline | A(-P2) |
| Sodium azide | P3 |
| Sodium hydroxide (caustic soda) | P2 |
| Nickel-metal, -oxide, -sulphide | P3 |
| Nitrous fumes (NO, $NO_2$) | NO-P3 |
| Nitrous compounds (org.) | A |
| N-Nitrosamine | A-P3 |
| Octane | A |
| Ozone | NO |
| Parathion (E605) | A-P3 |
| Perchlorethylene | A |
| Phenol | A(-P2) |
| Phenylhydrazine | A(-P2) |
| Phosgene (Carbonylchloride) | B |
| Phosphorpentoxide | P2 |
| Phosphortrichloride | B-(p2); E |
| Hydrogen phosphide (Phosphine) | B |
| Fungal spores | P2 |
| Polychlorinated biphenyle (PCB) | (A-)P3 |
| Polyvinyl chloride (PVC) | P2 |
| Pyridine | A |
| Quartz | P2 |
| Quartzing fine dust | P2 |
| Mercury | Hg(P3) |
| Rust | P1 |
| Soot | P2 |
| Nitric acid | E; B; NO |
| Hydrochloric acid (hydrogen chloride) | E(-P2); B(-P2) |
| Sulphur dioxide | E |
| Carbon bisulphide (carbon disulphide) | B; A |
| Hydrogen sulphide | B |
| Silver and compounds (soluble) | P3 |
| Silicious carbide | P2 |
| Stone dust (quartzing) | P2 |
| Styrene | A |
| Talc | P3 |

| Harmful Substance | Filter type |
|---|---|
| Telluric, -compounds | P2 |
| Turpentine oil | A |
| Tetrachlormethane | A |
| Tetrahydrofurane (THF) | A |
| Titanium dioxide | P2 |
| o-Toluidine | A |
| Toluene | A |
| Trichloreethylene (Tri) | A |
| 1,2,4 Trimethylbenzene | A |
| Triethylamine | A; K |
| Uranium compounds | P3 |
| Vanadium pentoxide | P3 |
| Vinyl acetate | A |
| Viruses | P3 |

| Cytostatics | P2 |

# Ear protection

**Work Safety Act for the prevention of noise and vibration** (March 2007) instruct the employer to provide the employee with suitable ear protection when exposure to noise exceeds **80 dB(A)**.
**Individual ear protection** must be used when exposure to noise has reached or exceeds **85 dB(A)**.

**Attenuation values of ear protection products:**

| Art. No. | H-value | M-value | L-value | SNR-value | Page |
|---|---|---|---|---|---|
| **Ear plugs:** | | | | | |
| **0245.1** | 30 | 24 | 22 | 28 | 586 |

| 40 | Quiet radio music | |
| 30 | Ticking of alarm clock, whispering | |
| 20 | Breathing, fine rain | |
| 10 | Rustling leaft | |

**Ear muffs or ear plugs?**

It is not possible to say that the one is better than the other, but it is rather a question of what is more suitable under individual working conditions.
Ear plugs are usually used for protection against long-term noise (weight!), ear muffs for short-term noise and both of them together for protection against extreme short-term noise.
Past experience has shown, however, that comfort (i.e. handling) and hygiene have always played a major role when selecting the correct protection.
In order to encourage the wearing of ear protection, we recommend giving the employees the possibility to choose.

The ear protection is insulated to max. 20-40 dB(A), depending on frequency, material and anatomy. To achieve a higher level of insulation, the ear protection plugs and capsules can be combined. Ear protection plugs can be used for noise levels of up to 115 dB(A) (refer to manufacturer's information). Combinations of plugs and capsules are suitable for higher noise levels.

## Ear plugs E.A.R.® Classic II

By 3M. Acc. to EN 352-2. Comfortable fit, high noise attenuation, washable. SNR-value: 28 dB.

| Art. No. | Pack Qty. (pair) | € |
|---|---|---|
| **0245.1** | 5 | 3,80 |

## Max®-disposable ear plugs

Acc to EN 352-2. Made of polyurethane.
- Bell-shaped for very comfortable fit and high protection
- Optimised shape for simple insertion and to prevent slipping out
- Soft, soil-resisting outer shell prevents dirt deposits and guarantees improved hygiene
- Packed in pairs
- High insulating values, SNR value: 37 dB

| Type | Art. No. | Pack Qty. (pair) | € |
|---|---|---|---|
| without security tear band | **KN21.1** | 200 | 43,55 |
| with security tear band | **KN22.1** | 100 | 51,55 |

## No-Touch disposable ear plugs

By 3M. Acc. to EN 352-2:2002. Made of slowly expanding foam. Pre-formed, soft plugs can be used immediately.
- No rolling up into a ball necessary! With band, practical and hygienic
- Can be combined with other personal protective equipment
- Come packed in pairs
- SNR-value: 35 dB

| Art. No. | Pack Qty. (pair) | € |
|---|---|---|
| **KA60.1** | 100 | 88,15 |

## Disposable ear plugs

By 3M. Acc. to EN 352-2. Made of PU-foam, antiallergic, toxicologically tested and medically harmless for use in industry. Very soft and flexible for an extremely comfortable fit.The special shape enables plugs to adapt optimally to the auditory canal. The low pressure on the ears makes them particularly suitable for people with narrow auditory canals. SNR: 34 dB.

| Type | 3M No. | Art. No. | Pack Qty. (pair) | € |
|---|---|---|---|---|
| without safety band | 1120 | **EH62.1** | 200 | 35,40 |
| with safety band | 1130 | **EH63.1** | 100 | 73,65 |

① ② ③

## Disposable ear plugs

Acc. to EN 352-2. Made of insulating, dermatologically tested PU foam rubber (does not contain PVC). Conic shape for optimal fit in the ear canal. Nominal size 5-12 mm. Weight approx. 0.5 g. SNR-value 33 dB.

① **Disposable ear plugs 303L in hand dispenser**

| Art. No. | Pack Qty. (pair) | € |
|---|---|---|
| **X556.1** | 100 | 24,30 |

② **Disposable ear plugs 304L with safety strap**

| Art. No. | Pack Qty. (pair) | € |
|---|---|---|
| **C493.1** | 20 | 12,10 |

## ③ Ear-plug dispenser for wall attachment

Made of plastic. With turning mechanism for simple removal of plugs. Ensures that ear-plugs are always available at workplace. Transparent cover enables user to see if plugs need refilled.
**Delivery incl.** dispenser with 400 pairs of ear-plugs (X556.1); 200 pairs in refill pack, please order separately.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Dispenser | **Y867.1** | 1 | 107,30 |
| Refill pack for dispenser Y867.1 | **Y868.1** | 1 | 39,60 |

## Ear plugs xact-fit

By UVEX. Acc. to EN 352-2. These innovative plugs adapt perfectly to the ears. The design for the left and right ear is modelled on the anatomy of the ear canal. This noticeably reduces the pressure in the ear canal, even after long wearing.
- Convenient and easy to use
- Oval shape ensures optimal wearing comfort
- Foam plugs are interchangeable for maximum economy and hygiene
- Free of PVC, SNR: 26 dB

| Type | Art. No. | Pack Qty. (pair) | € |
|---|---|---|---|
| Ear plugs, with cord | **XC88.1** | 50 | 109,65 |
| Spare plugs | **XC89.1** | 250 | 77,75 |

# Ear protection

## Disposable ear plugs

By Moldex. Acc. to EN 352-2. Comfortable soft PU-foam plugs.
Ideal for work which requires constant ear protection.
Soft, easy to insert. Plugs, wall attachment and packaging are completely PVC-free.
Bright colours increase wearing acceptance.
2 models available:

① **Spark plugs:**
- Anatomically pre-formed
- SNR-value: 35 dB(A)

② **MelLows:**
- For better perception of surroundings and better communication
- Especially suitable for lower noise exposure
- SNR-value: 22 dB(A)

**Delivery incl.** 250 pairs in disposable dispenser station for hanging in wall attachment (please order separately), makes ear protection quickly and hygienically available at work site.

| Type | Moldex No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| ① Spark plugs | 7825 | **KP16.1** | 500 | 53,35 |
| ② MelLows | 7625 | **KP17.1** | 500 | 51,40 |
| Wall holder incl. fixing hardware | 7060 | **KP18.1** | 1 | 7,50 |

**Programme extension!**

## X-fit and Com4-fit ear plugs

By UVEX. Acc. to EN 352-2. Ergonomically designed **disposable ear plugs** for mobile long-term protection.
Made of allergy-free PU-foam with a synthetic elastomer.
- Pleasantly soft
- "X"-embossing for comfortable fit and reduction of pressure in the auditory canal
- Closed surface prevents impurities from entering

① **X-fit:**
- For larger auditory canals
- For high and continuous noise exposure
- Very high insulating value, SNR-value 37 dB

② **Com4-fit:**
- For smaller auditory canals
- For lower noise exposure
- SNR-value 33 dB

| Type | Art. No. | Pack Qty. (pair) | € |
|---|---|---|---|
| X-fit, 6 pairs in the mini-box | **HE97.2** | 84 | 15,70 |
| X-fit, loose on refill box for dispenser HH01.1 | **HE98.2** | 300 | 42,90 |
| Com4-fit, 6 pairs in the mini-box | **HE99.2** | 84 | 15,70 |
| Com4-fit, loose on refill box for dispenser HH01.1 | **HH00.2** | 300 | 42,90 |

## Ear protection dispenser

By UVEX. Robust, easy-to-use dispensers
- Automatic dispensing guarantees economical removal, plugs fall out individually when turned
- Simple and hygienic refilling
- Max. filling amount 600 pairs
- Can be filled with X-fit, Com4-fit and all standard ear plugs
- Suitable for wall assembly

**Delivery incl.** mounting material for wall assembly, without ear plugs.

| Art. No. | Pack Qty. | € |
|---|---|---|
| **HH01.1** | 1 | 57,65 |

## Disposable ear plugs LASER LITE®

Acc. to EN 352-2. Two-tone plug made of PU. Extremely soft foam.
Plugs adapt automatically to the auditory canal.
Cause no irritation or allergies. SNR-value: 35 dB.
**Packed in pairs in a practical box**
(not suitable for ear plug dispenser Y862.1)

| Art. No. | Pack Qty. (pair) | € |
|---|---|---|
| **Y861.1** | 200 | 42,80 |

## Ear plug dispenser

Made of hard, anodized aluminium. Very robust, suitable for continuous stress. Easy removal of plug by turning the crank.
Can be filled with ear plugs Y861.2 (500 pairs).
**Delivery incl.** fittings, without content.
500 pairs in the refill pack, please order separately.

| Type | Art. No. | Pack Qty. | € |
|---|---|---|---|
| Dispenser | **Y862.1** | 1 | 187,05 |
| Refill pack for dispenser Y862.1 | **Y861.2** | 1 | 84,95 |

## Disposable ear plugs

By 3M. Made of polyurethane, acc. to EN 352-2.
Cone shaped, soft and kind to the skin. Optimal fit in the ear canal.
Two pairs of plugs with **aluminium storage box.** SNR-value: 37 dB.

| Art. No. | Pack Qty. (set) | € |
|---|---|---|
| **T210.1** | 1 | 7,85 |

## ULTRAFIT ear plugs

By 3M. Acc. to EN 352-2. Pre-moulded ear plugs made of thermoplastic elastomer. Thanks to their flat design, they are a perfect fit for any ear canal. To wash the ear plugs use warm soapy water. **Reusable.** Suitable for sensitive working areas in the foodstuffs and chemicals industries. SNR value: 32 dB.

| Type | 3M No. | Art. No. | Pack Qty. (pair) | € |
|---|---|---|---|---|
| ① with safety cord | UF01000 | **TE80.1** | 50 | 115,05 |
| ② with storage box | UF01020 | **TE81.1** | 50 | 117,20 |

## Reusable ear plugs

By 3M. Acc. to EN 352-2. Lamellar design for improved fit in the auditory canal and increased comfort. The soft material (monoprene) also adds to the comfort. With special recessed grips for better handling. Storage box with a belt clip for clean and safe storage during rest periods and after work. SNR-value: 25 dB.

| Type | 3M No. | Art. No. | Pack Qty. (pair) | € |
|---|---|---|---|---|
| without safety band | 1261 | **EH64.1** | 50 | 66,05 |
| with safety band | 1271 | **EH65.1** | 50 | 88,80 |

## ClearE.A.R. 20 ear plugs

By 3M. Acc. to EN 352-2. Pre-moulded ear plugs. Made of soft polymer, transparent. Almost invisible when worn. Ideal fit thanks to flat shape. Short stem for easy insertion and removal. Washable and **reusable**. SNR value: 20 dB.

**Delivery incl.** storage box.

| 3M No. | Art. No. | Pack Qty. (pair) | € |
|---|---|---|---|
| UF01021 | **TE82.1** | 12 | 51,85 |

## Spark Plugs® Detect ear plugs

By Moldex. In acc. with EN 352-2. **Detectable** disposable ear protection plugs made of soft PU foam. The plug and cord both contain metal and therefore are fully detectable. Suitable for use in foodstuffs production. Available in hygienic dispenser station or with cord. SNR value: 32 dB.

| Type | Moldex No. | Art. No. | Pack Qty. | € |
|---|---|---|---|---|
| Spark Plugs® Detect dispenser station | 7859 | **XA38.2** | 1000 | 127,95 |
| Wall holder incl. fixing hardware | 7060 | **KP18.1** | 1 | 7,50 |

## E.A.R. Express™-ear plugs

By 3M. Acc. to EN 352-2. Extremly comfortable fit. The foam rubber material expands slowly and insulates completely without any excessive pressure. With patented grip for easy and hygienic insertion and removal of plugs as there is no contact between fingers and plug surface. **Plugs are reusable** and easy to clean. Bright colours encourage wear. Come in handy wrapping which can be resealed daily. SNR-value: 28 dB.

| Art. No. | Pack Qty. (pair) | € |
|---|---|---|
| **K130.1** | 20 | 18,25 |

# Ear protection

## Ear protection plugs whisper+detec

By UVEX. Acc. to EN 352-2. Soft, able to detect **reusable ear plugs** with excellent fit inside ear channel. Especially ideal in a dirty working environment. Smooth surface prevents particles, which could cause injuries, from collecting.

- For medium noise range
- Plugs are blue for better visibility on the product line
- Detectable
- Hygienic box for clean storage
- Are always within reach
- Fast and easy to use
- Washable
- Easy to communicate
- Suitable for the food sector
- SNR-value: 27 dB

| Art. No. | Pack Qty. (pair) | € |
|---|---|---|
| **HE94.1** | 50 | 80,65 |

## LASER-TRAK ear plugs

Sound absorbing, **able to detect**. Acc. to EN 352-2.
Adapts to auditory canal and cause no irritation or allergies.
Also suitable in the food industry. SNR-value: 35 dB.

# Ear protection

## Ear muffs 3M™ Peltor™ X-series

By 3M. Acc. to EN 352-1.
- Modern and attractive slim design
- Double bracket design for better balance and greater comfort
- Low weight
- Soft, wide sealing rings reduce the pressure on the ears and enhance wearing comfort
- Innovative new attenuating cushions and intermediate rings ensure improved attenuation
- Innovative, patented foam in the sealing rings for effective protection
- The cups offer abundant space inside to minimize heat and moisture
- The sealing rings and inserts are easy to replace, for easy cleaning of the cups
- The headband of the ear muffs are dielectric (electrically insulated). The metal parts of the headband are coated with a conductive material, which means that the hearing protection van also be used with a low electrical voltage (less than 440 V AC)

① **Ear muffs 3M Peltor X1**
For protection against light industry noise, lawn mowing, power drilling, etc.
SNR 27 dB, weight 184 g.

② **Ear muffs 3M Peltor X2**
For protection against moderate to high industrial noise levels including roadworks, construction etc.
SNR 31 dB, weight 220 g.

③ **Ear muffs 3M Peltor X3**
For protection against noise in the forestry industry, heavy engineering, at airports, etc.
SNR 33 dB, weight 245 g.

④ **Ear muffs 3M Peltor X4**
With slim cups For use against high noise levels in a wide range of industries.
SNR 33 dB, weight 234 g.
